CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Meeting, Board of Appeals, December 26, 1923.

Minutes of Board of Standards and Appeals, December 26, 1923.

Minutes of Special Meeting, Board of Standards and Appeals, December 21, 1923.

Reserve Calendar.

Notices of Public Hearings.

Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the Chairman or the Engineers, pertaining to the work of either Board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Wednesday, January 2, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday January 8, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative: Fire Chief Kenlon 1

Absent 0

THE RESOLUTION:

(1199-23-A)

WHEREAS, Croker Nat'l Fire Prev. Eng. Co., for Bell Novelty Co., lessee, filed, October 19, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 703 East 6th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 28, 1923, No. 20168-LC, reads:

"Sec. 232-2, Chapter 10, Code of Ordinances, prohibits the storage of nitro-cellulose products in any building which is not equipped with an approved two-source system of automatic sprinklers and in any building inside the fire limits that is not of fireproof construction of more than three stories in height.

"You are, therefore, ordered to:

"1—Forthwith remove all nitro-cellulose products."; and

WHEREAS, the building is non-fireproof, four stories and cellar in height, 22 ft. 5½ in. by 86 ft. in area. OCCUPIED: 1st floor, bottle dealer, 3 persons; 2nd floor, celluloid novelties, 2 persons; 3rd floor, celluloid novelties, 4 persons; 4th floor, picture frames, 1 person; and

WHEREAS, appellant asks permission to store 40 pounds of celluloid on the premises.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the quantity of celluloid maintained on premises shall not exceed 40 lbs.; that all celluloid work and any manufacturing of same shall be confined to 3rd story; that not more than one person shall occupy the 4th story; that all celluloid material maintained on premises shall be stored in a metal cabinet; and a metal cabinet to be provided for all trade clippings and waste; that the celluloid occupancy shall be vacated by May 1, 1924.

1228-23-A.

APPELLANT—Ransom S. Hooker, for Mildred P. Hooker, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—175 East 71st street, Manhattan.

APPEARANCES—

For Appellant: Mildred P. Hooker.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7

Negative 0

Absent 0

THE RESOLUTION:

(1228-23-A)

WHEREAS, Ransom S. Hooker, M. D., for Mrs. Ransom S. Hooker, owner, filed, Oct. 26, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 175 East 71st street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 4, 1923, reads:

"Order No. 19612-LC:

"More than two stories immediately above the garage are used for dwelling purposes. Section 154, chapter 10, code of ordinances.

"You are therefore, hereby, ordered to:

"1. Discontinue the maintenance of a garage on these premises."; and

WHEREAS, the building is non-fireproof, five stories and basement in height, 30 ft. by 87 ft. in area. OCCUPIED: 1st story, garage for one pleasure car (property of owner of premises and doctor's office; dwellings above; 12 persons in building; and

MINUTES

WHEREAS, appellant contends that the garage has been in use since 1912, under a permit from the fire department; that it is separated from the rest of the dwelling by unpierced fireproof partitions and that the floor and ceiling of garage is of fireproof construction; and

WHEREAS, in view of the issuance of permits on these premises since 1912, the board deemed that the appeal should be granted.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the use of the gasoline tank on premises shall be discontinued and tank filled with sand or removed from premises; that any opening between the garage area and the dwelling section of the building shall be provided with a self-closing, fireproof door, or sealed up; that the garage occupancy shall be limited to one automobile of the pleasure car type, the property of the owner residing on the premises; and *granted* only so long as building remains in single occupancy.

1296-23-A.

APPELLANT—Robert H. Fowler, lessee.

SUBJECT—Appeal from decision of the superintendent of buildings.

PREMISES AFFECTED—151 East 62nd street, Manhattan.

APPEARANCES—

For Appellant: R. C. Otheman.

ACTION OF BOARD—Laid over to January 8, 1924, at 10 a. m., on request of appellant's representative.

1306-23-A.

APPELLANT—Gold Beekman Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—61 Beekman street, Manhattan.

APPEARANCES—

For Appellant: James J. Sullivan.

ACTION OF BOARD—Laid over to January 15, 1924, at 10 a. m., on request of appellant's representative.

1063-23-A.

APPELLANT—Belt Line Railway Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—787-807 10th avenue, Manhattan.

APPEARANCES—

For Appellant: Edward A. Maher, A. J. Johnson and Mr. McWorter.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1063-23-A)

WHEREAS, Belt Line Railway Corp., owner, filed, September 7, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 787-807 Tenth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 20, 1923, No. 49652-F, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs.

per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.

"Such standpipe shall be kept constantly filled with water by means of an approved tank or pump supply and be ready for use at all times.

"Standpipe to be connected with one-two 3 inch siamese connections with double clapper valves and caps and signs, placed on street front of building at least 18 inches and not more than two feet above sidewalk in a horizontal position, accessible to the Fire Department.

"All connections to be of regulation Fire Department pattern and sizes.";

and

WHEREAS, the building is non-fireproof, four stories in height, 200 ft. by 450 ft. (90,000 sq. ft.) in area; equipped with dry pipe sprinkler, supplied by four gravity tanks (45,000 gallons total capacity) and a manual fire alarm signal system connected with fire headquarters. OCCUPIED as follows: 1st story, storage street railway cars, 25 persons; 2nd and 3rd stories, dead storage of automobiles, 2 persons; 4th story (vacant), proposed dead storage of automobiles, 2 persons; and

WHEREAS, appellant contends that the building is adequately protected, no manufacturing is done on the premises, and great practical difficulties and hardship would ensue if required to install a standpipe system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the existing sprinkler risers be cross-connected from north to south riser with four-inch pipe at 1st story level; that all corroded sprinkler heads shall be removed, cleaned and tested, all defective heads to be replaced by new heads; that the present dry valve, controlling the flow of water from street main, shall be removed and a modern Type "A" valve installed in accordance with the rules of the board of standards and appeals; that the existing runways shall be securely sealed over at floor levels, with the exception of one from 3rd to 4th story, which shall be enclosed in partitions of fire retarding material, in accordance with the rules of the board of standards and appeals; that the opening on 3rd story to runway shall be protected with automatic rolling iron shutter; that the present stairs at the southeast corner of building shall be continued to 4th story, enclosed in fire retarding partitions and any openings therein equipped with self-closing, fireproof doors; that three (3) additional stairways be installed from the 1st story to the 4th story, enclosed in fire-retarding partitions, all openings therein to be protected with fireproof, self-closing doors; one stairway to be located at northeasterly corner front of building and the other two interior stairs to be located not less than one hundred feet from the rear (westerly) wall on both street fronts; OR in lieu of the two interior stairways at rear of building, install two exterior standard fire escapes with counterbalanced stairs from lowest balconies, with fire windows and doors along course thereof, on the street fronts of 53rd and 54th streets; and *granted* only so long as the occupancy of the structure is maintained as car barns on the 1st floor and dead storage of automobiles on three upper floors; and further that no gasoline storage system be maintained on premises;

Resolved, further, that all necessary permits shall be obtained and the work done with all possible dispatch at the earliest reasonable time and completed within nine months from the date of this action.

531-23-A.

APPELLANT—Ballard Oil Co., for Vanderbilt Hotel Co., lessee.

SUBJECT—Appeal from decision of fire commissioner.

MINUTES

PREMISES—Southwest corner of Park avenue and East 34th street, Manhattan.

APPEARANCES—

For Appellant: James Kearney.

ACTION OF BOARD—Laid over to January 15, 1924, at 10 a. m., pending adoption of fuel oil rules.

532-23-A.

APPELLANT—Ballard Oil Co., for Palace Theatre Realty Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—1564 Broadway, Manhattan.

APPEARANCES—

For Appellant: James Kearney.

ACTION OF BOARD—Laid over to January 15, 1924, at 10 a. m., pending adoption of fuel oil rules.

533-23-A.

APPELLANT—Ballard Oil Co., for New York Linen Supply and Laundry Co., lessee.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—Southwest corner 1st avenue and East 62nd street, Manhattan.

APPEARANCES—

For Appellant: James Kearney.

ACTION OF BOARD—Laid over to January 15, 1924, at 10 a. m., pending adoption of fuel oil rules.

840-23-A.

APPELLANT—Success Theatre Corp., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—3587-3589 Broadway, Manhattan.

APPEARANCES—

For Appellant: Harry Goodman.

ACTION OF BOARD—Laid over to January 8, 1924, at 10 a. m., on request of appellant's representative.

1274-23-A.

APPELLANT—Frederick A. Wallis, for City of New York, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—Welfare Island, East road, opposite 72nd street, Manhattan.

APPEARANCES—

For Appellant: John J. Lewis.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire

Chief Kenlon 7

Negative 0

Absent 0

THE RESOLUTION:

(1274-23-A)

WHEREAS, Frederick A. Wallis, for City of New York, owner, filed, November 8, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises Welfare Island, East road, opposite 72nd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 30, 1923, reads:

"1. Provide an approved buried storage system of sufficient capacity for the proper storage of gasoline. Sec. 114-5, Ch. 10, Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, one story in height, 75 ft. by 30 ft. in area; OCCUPIED for the storage of oil and gasoline, divided into two sections, one sec-

tion containing two 550 gallon tanks, embedded in 12 in. concrete with 1 in. vent pipe, extending 10 ft. above the roof; and

WHEREAS, appellant contends that it is impossible to bury the tank below grade owing to tide water level and that the floor of the shed is 3 ft. below the curb level.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the gasoline storage shall be limited to two tanks of 550 gallons capacity each, installed in a one-story brick structure, 30 ft. by 75 ft., subdivided by brick wall; that the tanks shall be set at least 3 ft. below grade level and encased in 12 in. of stone concrete, restricted to the use of the owner of premises; and that the installation of the tanks shall comply in all other respects with the municipal requirements in force.

614-23-A.

APPELLANT—Mrs. Mary Marshalsea.

SUBJECT—Application for reopening (appeal from decision of superintendent of buildings).

PREMISES AFFECTED—1131 Hollywood avenue, Far Rockaway, Borough of Queens.

APPEARANCES—None.

ACTION OF BOARD—Request to reopen appeal laid over to Jan. 2, 1924.

APPLICANT—Morris Bernard Adler, for Harry Seeman and Max Enzer, owners.

SUBJECT—Application (re: decision of the superintendent of buildings) to permit in a business district the alteration of an existing stable and change of occupancy from stable to a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—427 East 5th street, Manhattan.

APPEARANCES—

For Applicant: Morris Bernard Adler and Harry Seeman.

For Opposition: Morris Fink and Cornelius Huth.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1251-23-BZ)

WHEREAS, Morris Bernard Adler, for Harry Seeman and Max Enzer, owners, filed, November 2, 1923, an application, under the building zone resolution, to permit in a business district the alteration of an existing stable and the change of occupancy from a stable to a garage for the storage of more than five motor vehicles; premises 427 East 5th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 26, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 5th street, East 6th street and Avenue A are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered July 2, 1923, in acting on Alt. App. No. 1539-23, reads:

"2. Inasmuch as the building is located within a business district the proposed change of occupancy with structural alterations is prohibited by the Building Zone Resolution, Art. 2, sect. 6.";

and

WHEREAS, the existing building is of non-fireproof construction, four stories in height, with a frontage of 12½ ft. and a depth of 97 ft., a width across rear of 57 ft., occupied as a stable; it is proposed to reconstruct building fireproof and occupy same as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building be limited in height to 3 stories above curb level with a pent house dormer; that the building shall be of fireproof construction; that the front of the building be finished with face brick and architectural terra cotta or stone trimmings; that any gasoline storage system installed shall be maintained at the street front of this building; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1266-23-BZ.

APPLICANT—Louis A. Sheinart, for Margaret T. Warner, owner.

SUBJECT—Application (re: decision of the superintendent of buildings) to permit partly in an unrestricted district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2216-2220 Albermarle road, Brooklyn.

APPEARANCES—

For Applicant: Louis A. Sheinart.

For Opposition: Peter Samicola, Sam Rothman, Max Finkler, Thomas McAvoy, James J. Cotter and Ella Hamer.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1266-23-BZ)

WHEREAS, Louis A. Sheinart, for Margaret T. Warner, owner, filed, Nov. 7, 1923, an application, under the building zone resolution, to permit the extension from an unrestricted district into a business district of a proposed garage for the storage of more than five motor vehicles; premises 2216-2220 Albermarle road, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 26, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Albermarle road and Bedford avenue are business districts and Tilden avenue is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 31, 1923, in acting on App. No. 19902-23, reads:

"1. Garage for more than five motor vehicles in a business district contrary to Art. II, Sec. 4 of the Building Zone Resolution.";

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 55 ft. and a depth of 277 ft. 3½ in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, under the provisions of section 7, subdivision C, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building be restricted in height to a one-story structure, with roof of flat design and construction; that the gable and rear walls shall be unpierced throughout their entire height and length; that any skylights installed in the roof shall be glazed with plain glass, protected above and below with wire guards; that the front elevation shall be finished in face brick, with architectural terra cotta or stone trimmings; that any gasoline storage system installed on these premises shall be located at the extreme westerly end at the front of the building;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

THE RESOLUTION:

(812-23-BZ)

WHEREAS, John J. Dunnigan, for James Butler, owner, filed, June 28, 1923, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of an extension to an existing garage for the storage of more than five motor vehicles; premises 1965-69 Crotona avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 26, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Crotona avenue and East 178th street are residence districts and Tremont avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 22, 1923, in acting on Alt. App. No. 156-23, reads:

"Proposed extension of garage for more than five motor vehicles in residence district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 60 ft. and a depth of 85 ft.; occupied as a garage for more than five motor vehicles; it is proposed to build an extension 70 ft. by 85 ft. and occupy entire structure as a garage for more than five motor vehicles; and

WHEREAS, under the provisions of section 7, subdivision A, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be restricted to one story in height, with roof of flat design and construction; that any skylights installed in the roof shall be glazed with plain glass, protected above and below with wire guards; that there shall be no vehicular entrance from the rear of the building; that the rear and northerly gable walls shall be unpierced throughout their entire height and length, except for one emergency exit in the rear wall, not exceeding 3 ft. 8 in. in width, egressing to property in the same ownership;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

939-23-BZ.

APPLICANT—Philip J. Sinnott, for George F. Lamb, owner.

SUBJECT—Application (re: decision of the superintendent of buildings) to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—1943-1961 Pacific street, Brooklyn.

APPEARANCES—

For Applicant: Philip J. Sinnott.

For Opposition: Louis P. Goldberg, Albert Samuel, William Gross, C. Lincchi, Mrs. Jennie Lincchi, Samuel Halpern, Jacob Diprina, Mrs. Jennie Diprina, Morris Felsher, Minnie Goldstein, Loretto Rizzo.

ACTION OF BOARD—Laid over to January 2, 1924, at 10 a. m., to check consents.

972-23-BZ.

APPLICANT—Edward P. Doyle, for Martin Gleason, owner.

SUBJECT—Application (re: order of the fire commissioner) to permit in a residence district the change of occupancy in part from a residence to a business use.

PREMISES AFFECTED—63 Jamaica avenue, Queens.

APPEARANCES—

For Applicant: Edward P. Doyle and Martin Gleason.

For Opposition: Gordon Gordon, John Adikes, Claude W. Carlstrom and E. E. Wigg.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

THE RESOLUTION:

(972-23-BZ)

WHEREAS, Edward P. Doyle, for Martin Gleason, owner, filed, August 1, 1923, an application, under the building zone resolution, to permit in a residence district the change of occupancy of part of a building from a residential to a business use; premises 62 Jamaica avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 26, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jamaica avenue, Sanford avenue and Maple avenue are residence districts; and

WHEREAS, the order of the fire commissioner, dated May 22, 1923, in acting on Order No. 46272-F, reads:

"You are hereby notified that the use of the above premises for business purposes is a violation of the Building Zone Resolution and unless within twenty days such use shall cease, legal steps will be taken by this department for the recovery of the penalties prescribed by law, and to prevent a continuance of such use.";

and

WHEREAS, the existing building is of frame construction, two stories and attic in height, with a frontage of 44 ft. 11 in. and a depth of 45 ft. 6 in.; occupied as a dwelling; it is proposed to occupy a portion of the building as an undertaking establishment; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

CASES DISMISSED.

Appeals from Administrative Orders.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

- (671-23-A)
Filed May 31, 1923—Premises 13111 Hillside avenue, Richmond Hill, Queens. Order of the fire commissioner. Appellant, Albert H. Pfeifer. Dismissed for lack of prosecution.
- (681-23-A)
Filed June 1, 1923—Premises 1013-1017 Myrtle avenue, Brooklyn. Order of the fire commissioner. Appellant, Expert Novelty Company. Dismissed for lack of prosecution.
- (683-23-A)
Filed June 1, 1923—Premises 3213 Broadway, 603 West 125th street, Manhattan. Order of the fire commissioner. Appellant, Harley-Davidson Sales Co., Inc. Dismissed for lack of prosecution.
- (691-23-A)
Filed June 2, 1923—Premises 30 West 32nd street, Manhattan. Order of the fire commissioner. Appellant, Mabel C. Fowler. Dismissed for lack of prosecution.
- (714-23-A)
Filed June 7, 1923—Premises 203 West 62nd street, Manhattan. Order of the fire commissioner. Appellant, Stephen Ligotz. Dismissed for lack of prosecution.
- (731-23-A)
Filed June 11, 1923—Premises 677 Van Sinderen avenue, Brooklyn. Order of the fire commissioner. Appellant, Novelty Die & Tool Works. Dismissed for lack of prosecution.
- (745-23-A)
Filed June 14, 1923—Premises 129 East 45th street, Manhattan. Order of the fire commissioner. Appellant, Max Fleischer. Dismissed for lack of prosecution.
- (765-23-A)
Filed June 16, 1923—Premises 157 Meserole street, Brooklyn. Order of the fire commissioner. Appellant, Charles R. Hoecker. Dismissed for lack of prosecution.
- (771-23-A)
Filed June 19, 1923—Premises 1224 Hoe avenue, The Bronx. Decision of the superintendent of buildings. Appellant, John J. Dunnigan. Dismissed for lack of prosecution.
- (789-23-A)
Filed June 21, 1923—Premises 127-129 Prince street, Manhattan. Order of the fire commissioner. Appellant, Standard Color & Chemical Works. Dismissed for lack of prosecution.
- (792-23-A)
Filed June 21, 1923—Premises 304 Clermont avenue, Brooklyn. Order of the fire commissioner. Appellant, George S. Husch. Dismissed for lack of prosecution.
- (810-23-A)
Filed June 25, 1923—Premises northwest corner Paynter and Boulevard, L. I. City, Queens. Order of the fire commissioner. Appellant, Hill Button Works, Inc. Dismissed for lack of prosecution.

- (824-23-A)
Filed June 28, 1923—Premises 497-503 Wales avenue, The Bronx. Order of the fire commissioner. Appellant, The Warren Refining Chemical Co. Dismissed for lack of prosecution.
- (914-23-A)
Filed July 18, 1923—Premises 1739 Van Buren street, The Bronx. Order of the fire commissioner. Appellant, Joseph Gamache. Dismissed for lack of prosecution.
- (935-23-A)
Filed July 21, 1923—Premises 43 Nostrand avenue, Brooklyn. Order of the fire commissioner. Appellant, Louis Spevack. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

WHEREAS, the foregoing appellants have filed, with the board of appeals, appeals from orders affecting the premises in question; and

WHEREAS, the appellants have failed to complete their papers, though duly notified to do so.

Resolved, that the foregoing appeals be and they hereby are *dismissed* for lack of prosecution.

CASES DISMISSED.

Under the Building Zone Resolution.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

- (686-23-BZ)
Filed June 2, 1923—Premises northwest corner Hull avenue and East 209th street, The Bronx. Decision of the superintendent of buildings. Applicant, Philip A. Johann. Dismissed for lack of prosecution.
- (692-23-BZ)
Filed June 4, 1923—Premises 2539 Bainbridge avenue, The Bronx. Order of the fire commissioner. Applicant, Emil H. Zimmermann. Dismissed for lack of prosecution.
- (737-23-BZ)
Filed June 13, 1923—Premises 1969-1979 Cropsey avenue, Brooklyn. Decision of the superintendent of buildings. Applicants, Magnuson and Kleinert. Dismissed for lack of prosecution.
- (753-23-BZ)
Filed June 15, 1923—Premises 224 West 137th street, Manhattan. Order of the fire commissioner. Applicant, John H. Pierce. Dismissed for lack of prosecution.
- (758-23-BZ)
Filed June 15, 1923—Premises 1,000 ft. from Burgher avenue and Boulevard, Dongan Hills, S. I., Richmond. Order of the fire commissioner. Applicant, New Jersey Merchandise Co. Dismissed for lack of prosecution.
- (763-23-BZ)
Filed June 16, 1923—Premises 19 Ivy street, Elmhurst, Queens. Order of the fire commissioner. Applicant, James F. Barnola. Dismissed for lack of prosecution.

MINUTES

(786-23-BZ)
Filed June 21, 1923—Premises north side Baldwin street, 525 ft. west of Lancaster avenue, Queens. Decision of superintendent of buildings. Applicant, Auburndale Coal and Ice Co. Dismissed for lack of prosecution.

(791-23-BZ)
Filed June 21, 1923—Premises west side New Utrecht road, 40 ft. south of 44th street, Brooklyn. Decision of superintendent of buildings. Applicant, Gerald A. Griffiths. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

WHEREAS, the foregoing applicants have filed with the board of appeals applications under the building zone resolution, affecting the premises in question; and

WHEREAS, applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the applications be and they hereby are dismissed for lack of prosecution.

AREAS FIXED.

(1426-23-BZ)

The chairman presented and read a communication from Wm. Boylchart, requesting the board to fix an area of

notification affected by installation and maintenance of a gasoline and oil selling station; premises 2001-2013 Neck road, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Ocean avenue from Avenue W to a point 100 ft. north of Avenue V; also both sides of Gravesend avenue from East 19th street to a point 100 ft. east of Ocean avenue.

(1420-23-BZ)

The chairman presented and read a communication from Olaf B. Almgren, requesting the board to fix the area deemed affected and within which to obtain consents for erection and maintenance of garage; premises 240 Clarkson street, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Clarkson street from Nostrand avenue to a point 100 ft. west of Rogers avenue; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned 2:30 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING.

WEDNESDAY AFTERNOON, DECEMBER 26, 1923.

Present: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott.

The minutes of the regular meeting of the board of standards and appeals, held on Tuesday afternoon, December 18, 1923, and the minutes of the special meeting of the board of standards and appeals, held on Friday afternoon, December 14, 1923, were approved as printed in Bulletin No. 52, Vol. VIII.

PETITIONS FOR VARIATIONS.

1076-23-S.

PETITIONER—Henry J. Nurick, for Banner Silk Knitting Mills, lessee.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—573-595 Grandview avenue, Queens.

APPEARANCES—

For Petitioner: Henry J. Nurick.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1076-23-S)

WHEREAS, Henry J. Nurick, for Banner Silk Knitting Mills, lessee, filed, September 10, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 573-595 Grandview avenue, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated July 11, 1923, reads:

"Order No. 48730-LD:

"1. Extend the interior stairway in building No. 2 from the 3rd story to the 1st story, said stairway and the landings, platforms and passageways connecting therewith to be enclosed on all sides with partitions of fire resisting material extending continuously from the 1st story to 3 ft. above the roof * * *.

"2. Extend the interior stairway in building No. 1 from 1st story to cellar, said stairway and landings, platform and passageways connected therewith to be enclosed on all sides with partitions of fire resisting material extending continuously from the cellar to 3 ft. above the roof, and provide a fire resisting passageway leading from the termination of the stairway to the street * * *."

and

WHEREAS, the premises consist of two non-fireproof buildings, three and four stories in height, separated by a brick wall with one opening on each story, protected by fireproof sliding doors; the northerly section, Building No. 2, is 102 ft. by 52 ft. 6 in. in area, and the southerly section, Building No. 1, is 90 ft. by 104 ft. 3 in. in area. EXITS in Building No. 1, one interior stairway extending from the 1st to the 3rd story, enclosed in non-fireproof

MINUTES

material; Building No. 2, one interior stairway leading from the 3rd story to the 4th story. Building No. 2 has two outside stairways; one enclosed and one open, extending from the top story to the street; Building No. 2 has two outside stairways; one enclosed and one open, extending from the top story to the street; Building No. 1 has two outside stairways, one enclosed stairway extending from the top story to the street and one open stairway extending from the roof to the street; fireproof windows along course of the outside stairways; adjoining roofs 10 ft. lower.

and

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a stairway be installed in accordance with the labor law at the south end of the 4th story of building No. 2 with entrance to hall of said stairway from both buildings, all openings therein to be equipped with self-closing, fireproof doors, a horizontal exit in the party wall to be maintained on each story; and *on further condition* that the existing exits and use shall remain substantially unchanged.

1291-23-S.

PETITIONER—Samuel Roth, for Wachtell & Auslander, lessees.

SUBJECT—Variation of the labor law as cited in decision of the superintendent of buildings.

PREMISES AFFECTED—143-145 West 22nd street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Roth, Samuel Lax.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11
Negative 0
Not Voting: Deputy Fire Commissioner Hannon 1
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1291-23-S)

WHEREAS, Samuel Roth, for Wachtell & Auslander, lessees, filed, November 12, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 143-45 West 22nd street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered October 23, 1923, reads:

"7. Exit from fire escape must be by means of an open area leading directly to street or through a fireproof passageway—Sec. 273.";

and

WHEREAS, the building is non-fireproof, four stories in height, 41 ft. 8 in. by 60 ft. in area at the 1st story and 41 ft. 8 in. by 46 ft. in area above. OCCUPIED: 1st story, stores, 30 persons; upper stories, mfg., 45 persons per story. EXITS: One interior iron stairway extending from 1st story to roof, enclosed in wood stud, wire lath and plaster partitions with fire doors at openings; a standard 45 degree fire escape on rear of building extending from roof to yard with egress through door in fence to adjoining premises; windows along course of fire escape are fireproof, self-closing. ROOFS: To east, same height; to west, eight stories higher; and

WHEREAS, petitioner asks acceptance of this means of egress from termination of fire escape.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the la-

bor law and that the petition be and it hereby is *granted on condition* that a balcony fire escape shall be provided on the rear of building from the roof of main building to the roof of the extension at the 3rd story level, with balcony running therefrom to fire escape at rear extended to the yard, egress from which shall be maintained through yard of adjoining premises to the east, and *granted* so long as conditions as to use and occupancy remain unchanged.

1200-23-S.

PETITIONER—F. P. Keniston, for Charles Goldweig, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—408-410 Berry street, Brooklyn.

APPEARANCES—

For Petitioner: F. P. Keniston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 12
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1200-23-S)

WHEREAS, F. P. Keniston, for Charles Goldweig, owner, filed, Oct. 20, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 408-10 Berry street, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated Sept. 28, 1923, read:

"Order No. 50300-LD:

"Provide safe and unobstructed egress from the lower termination of the fire escape at the rear of 3 story portion of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street * * *."

"Order No. 50302-LD:

"2. Provide approved automatic fireproof windows for all openings upon the course of the fire escape at the rear of the 3-story portion of building.";

and

WHEREAS, the building is non-fireproof, two and three stories in height; the two-story section being irregular, 72 ft. by 45 ft. in area; the three-story section, affected by orders included in this petition, is 21 ft. by 44 ft. 8 in. in area. EXITS: One interior wooden enclosed stairway, at the northeast front, extending from the 1st story to the 3rd story, with wood doors at the openings, and an open stairway at the southeast front of building, extending from the 1st to the 2nd sotry, with a 60 degree fire escape on the rear southwest wall of the three-story portion, extending from the roof to open court, with EGRESS to street through a driveway; windows along course of fire escape glazed with plain glass; ROOF to north 8 ft. higher. OCCUPIED: 1st story, manufacturer hair tonic, 7 persons; 2nd and 3rd stories, mfr. of shoes, 28 persons; and

WHEREAS, pctitioner contends that the driveway is separated from the rest of the building by unpierced brick walls; the ceiling is covered with fire resisting material and asks that this egress from fire escape be accepted in re to automatic fireproof windows on openings on course

MINUTES

of fire escape; petitioner asks acceptance of existing windows in view of the limited height and occupancy of the premises.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to order No. 50300 *on condition* that a passage through runway shall be maintained unobstructed to the street and that the ceiling of this runway shall be fire retarded in accordance with the rules of the board of standards and appeals, egress through doors on the runway at street front to be maintained, easily operated from the inside at all times, and *granted* as to item No. 2 so far as it affects the top story windows only, *on condition* that two windows on the 2nd story and three windows on the 1st story shall be made fireproof.

1238-23-S.

PETITIONER—Rudolph C. P. Boehler, for Enjay Holding Corp., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—31 West 54th street, Manhattan.

For Petitioner: Rudolph C. P. Boehler.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 12
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1238-23-S)

WHEREAS, Rudolf C. P. Boehler, for Enjay Holding Corp., owner, filed, Oct. 30, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 31 West 54th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered Sept. 10, 1923, reads:

"Referring to your application for a certificate of occupancy to supersede the existing certificate permitting the use of the first floor as a factory, before such certificate can be issued it will be necessary to provide:

"1: a stairway from the top balcony of the rear fire escape to the roof; 2: make the windows on the course of the rear fire escape fireproof and self-closing; 3: provide a fireproof passageway from the termination of the rear fire escape to the street; 4: extend the interior stairs to the roof.";

and

WHEREAS, the building is non-fireproof, five stories in height, 20 ft. by 72 ft. in area in the 1st story and 20 ft. by 59 ft. in area above. OCCUPIED: Cellar, boiler room and storage, no persons; 1st story, office and factory, 20 persons; 2nd story, show room, 8 persons; 3rd, 4th and 5th stories, non-housekeeping apartments; the means of egress consisting of an interior stairway from the 1st story to the 5th story, enclosed in wood, stud lath and plaster partitions above the 2nd story and 2 in. fireproof partition below; a fire escape on the rear of building; additional means of exit is provided from the 1st story by means of a stairway leading to the yard at the rear; and

WHEREAS, petitioner contends that the ceiling underneath the 1st story is covered with fire retarding material and that there is no hazardous material maintained.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to item No. 1 *on condition* that a gooseneck ladder shall be provided from the top story balcony to roof; *granted* as to item No. 2 *on condition* that the windows in the portion of the building occupied as factory along the course of fire escape in the 1st and 2nd story shall be made fireproof and self-closing, and *granted* as to item No. 3 *on condition* that the fire escape in the rear is carried to the yard level with egress therefrom to adjoining property on both sides through opening in fence to be maintained free and unobstructed, and *granted* as to item No. 4 *on condition* that a fixed double rung iron ladder shall be maintained in the open hall to scuttle in roof; and *granted* so long as conditions as to occupancy and use shall remain otherwise unchanged.

1304-23-S.

PETITIONER—George and Edward Blum, for Hyman W. Ginsberg, Seel Singer, Louis Wintner and Sam W. Moskowitz, owners.

SUBJECT—Variation of the labor law as cited in decision of the superintendent of buildings.

PREMISES AFFECTED—225-231 West 35th street, Manhattan.

APPEARANCES—

For Petitioner: Edward Blum.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 12
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1304-23-S)

WHEREAS, George and Edward Blum, for Hyman W. Ginsberg, et al., owners, filed, November 14, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 225-231 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered November 2, 1923, reads:

"Specify window panes of not over 720 square inches and not over 49 inches in any dimension for all windows including the street windows at 1st floor.
* * *";

and

WHEREAS, the building is fireproof, 16 stories in height, 84 ft. 4 in. by 98 ft. 9 in. in area. OCCUPIED: Cellar, storage, 15 persons; 1st story, stores, 70 persons; mezzanine, offices; 2nd to 16th stories, tenant factory, 110 persons per story. EXITS: Two interior fireproof stairways, extending from 1st story to roof; and

WHEREAS, all windows from the 4th story up comply with the labor law; the windows on the 2nd and 3rd stories are proposed to be 3 ft. by 3 ft. 3 in. and 4 ft. 2 in. by 6 ft. 6 in.; on the 1st story the sizes proposed are 8 ft. by 11 ft. and 12 ft. by 11 ft.; and

WHEREAS, petitioner contends that the windows on the 1st, 2nd and 3rd stories are intended for display purposes and to subdivide them will destroy their purpose and the architectural effect of the building.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted*

MINUTES

on condition that the frames and sash of the windows shall be of metal, and that the windows, so far as the 1st, 2nd and 3rd stories are affected, shall be glazed with polished plate glass not less than $\frac{1}{4}$ inch in thickness.

1314-23-S.

PETITIONER—F. P. Keniston, for Lois Realty Corporation, owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—119-125 West 25th street, Manhattan.

APPEARANCES—

For Petitioner: F. P. Keniston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE—

Affirmative: Mr. Kerby 1

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1314-23-S)

WHEREAS, F. P. Keniston, for Lois Realty Corporation, owner, filed, Nov. 15, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 119-125 West 25th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 9, 1923, reads:

"Order No. 47711-LD:

"1. Arrange the doors leading to stairway at east and west sides on all stories, so as to open outwardly without obstructing the stairway, as per section 271 of the Labor Law."

and

WHEREAS, the building is fireproof, eleven stories in height, 110 ft. by 100 ft. in area; equipped with a stand-pipe and sprinkler system. EXITS: Two interior fireproof stairways extending from the 1st story to the roof, with fire doors at the openings; a fire escape on the rear of the building extending from the roof to the yard, with EGRESS through fireproof passageway to street; fireproof windows along the course of the fire escape; ROOFS to east 120 ft. lower, to west same level| OCCUPIED AS FOLLOWS: Tenant factory, manufacturing clothing, with a total of 471 persons in the entire building; and

WHEREAS, petitioner contends that the fire department dismissed a similar order in 1916, and that vestibule would necessitate rearrangement of the floors, with the consequent inconvenience to the occupants.

Resolved, that the order of the fire commissioner be and it hereby is affirmed and the petition be and it hereby is denied.

1020-23-S.

PETITIONER—Thos. F. Montague, for 151-155 West 25th St. Corp., owner.

SUBJECT—Application for reopening—variation of the labor law as cited in an order of the fire commissioner.

PREMISES—151-155 West 25th street, Manhattan.

APPEARANCES—

For Petitioner: Thos. F. Montague.

ACTION OF BOARD—Reopened and petition granted.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Holland, Kerby, Connell, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 13

Negative 0

Absent 0

THE VOTE TO GRANT—

Affirmative: Messrs. Kerby, Connell, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 9

Negative: Chairman Walsh, Messrs. Boulton and Holland 3

Absent: Mr. Beatty 1

THE RESOLUTION:

(1020-23-S)

WHEREAS, Thos. F. Montague, for 151-155 West 25th Street Corp., owner, filed, August 20, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 151-155 West 25th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 1, 1923, reads:

"2. Remove the candy and cigarettes stand from the stairway enclosure on East side of building, 1st story, as per Rule 3 of Industrial Code."

and

WHEREAS, the building is fireproof, twelve stories in height, 56 ft. by 59 ft. (irregular) in area. OCCUPIED: Showrooms and light manufacturing, with a total of 210 persons; the building is equipped with a sprinkler system and a fire alarm signal system; there is a cigar stand in the 1st story hall adjoining the elevator shaft; and

WHEREAS, petitioner contends that there is a passageway in front of the cigar stand as wide as the hall passageway and that the hall passageway in front of the elevator is only 4 ft. 9 in. and requests that the conditions be accepted; and

WHEREAS, this petition was denied by the board at its meeting, October 9, 1923, and petitioner requested a reopening of his case on the ground that he had not been given an opportunity to be heard, that the stand was only for the sale of tobacco and candy and that no cigar lighter was maintained, and the request to reopen was granted by vote of the board.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted.

CASE DISMISSED.

Petition for Variation.

The chairman called attention to the following case, where notice of intention to petition was offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(764-23-S)

Filed June 16, 1923—Premises 32 West 58th street, Manhattan. Order of the fire commissioner. Appellant, Mitchell Kemmerley. Dismissed for lack of prosecution.

THE RESOLUTION:

WHEREAS, the above petitioner filed with the board of standards and appeals a petition from an order of the fire commissioner, affecting premises stated; and

WHEREAS, the petitioner has failed to complete the papers, although duly notified to do so.

Resolved, that the petition be and it hereby is dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Boulton,

ACTION OF BOARD—Laid over to January 11, 1924, at
2 p. m., for consideration.

1517-23-SR.

TITLE—Recommendation to board of aldermen for amend-
ment to chapter 5, code of ordinances (building
code) to prohibit use of wood shingles.

APPEARANCES—None.

ACTION OF BOARD—Resolution was adopted by the
board of standards and appeals, requesting the
board of aldermen to consider an amendment to
the building code, prohibiting the use and installa-
tion of wood shingles for roofing.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell, Holland, Kerby, Fire
Chief Kenlon, Fire Commissioner Drennan,
and Superintendents Brady, Reville, Moore,
Kleinert and McDermott 13

Negative 0

Absent 0

The resolution was as follows:

Resolved, that the board of standards and appeals does
hereby adopt the following matter, as its recommendation
for amendment to chapter 5 of the code of ordinances, to
be forwarded to the board of aldermen for said board's
consideration and action:

Section 474. Roofing.

1. [Within the fire limits.] Any roofing hereafter placed
on any [frame] building [within the fire limits] shall be
of approved incombustible materials, provided that any ex-
isting shingle roof may be repaired at any time to an ex-
tent of not more than 25 per cent. of its surface.

[2. Outside the fire limits. Nothing in this chapter shall
prevent the use of wood shingles outside the fire limits on
any building which, under the provisions of this chapter, is
permissible of frame construction.]

(Matter in brackets to be omitted.)

NOTICE

Copies of the revised Plumbing Rules or Fuel Oil Rules* may be obtained, without charge, on application at the office of the Board of Standards and Appeals, or will be mailed, to those desiring same, if the request for the Plumbing Rules or Fuel Oil Rules is accompanied by a nine and one-half inch envelope, stamped and addressed. Four cents postage required for each.

*Inasmuch as proposed amendments to the Fuel Oil Rules are now pending, before the Board of Standards and Appeals, the publication of said rules, in pamphlet form, will be deferred until the proposed amendments have been acted upon. In the meantime, applications for these rules may be sent in and, upon publication, the pamphlet will be mailed to those who have applied for same.

PUBLIC HEARING

PROPOSED AMENDMENTS TO EXIT RULES—REVOLVING DOORS.

(41-19-S)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, January 8, 1924, at 2 p. m., Room 919, Municipal Building, on proposed amendments to Exit Rules—Revolving Doors.

Adopted by the Board of Standards and Appeals September 6, 1917; Amended February 11, 1919.

(Matter in brackets is old matter to be omitted.)

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A.** "Automatic Collapsible" in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B.** "Rigid Brace" in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors.—Prohibition. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with

either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors [,] or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door

PUBLIC HEARING

APPROVED AMENDMENTS TO PLUMBING RULES

(693-20-S)

NOTICE IS HEREBY GIVEN that the public hearings on the Plumbing Rules were closed as of this date, December 18, 1923.

The following amendments were approved and will be submitted for adoption at the regular meeting to be held on January 8, 1924, at 2 p. m.

(New matter is in *italics*; old matter, to be omitted, is in brackets.)

Rule No. 137.

Where "Flushometers" are used, they must be supplied from tank pressure, unless otherwise permitted by the Superintendent of Buildings; the rising lines shall be at least one and one-half inches in diameter, and the main branches shall be at least one and one-quarter inches in diameter, *with individual branches not less than one inch in diameter for water-closets and [three-quarters] not less than one-half inch in diameter for urinals. Individual branches shall not exceed twelve inches in length.*

PUBLIC HEARING

PROPOSED AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF FUEL OILS.

(217-21-S)

NOTICE IS HEREBY GIVEN that the public hearings on the Fuel Oil Rules were closed as of this date, December 14, 1923.

The proposed amendments with revisions, which are printed below, will be considered for approval by the Board of Standards and Appeals at the regular meeting to be held on Tuesday, January 8, 1924, at 2 p. m.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit, in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil to be used for commercial heating and power purposes shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness or twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth ($1\frac{1}{4}$) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter ($1\frac{1}{4}$) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter ($1\frac{1}{4}$) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

PUBLIC HEARING

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in

excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to substitute riveting in part or for the entire tank, the tank shall be fabricated.

(b) All welded seams of plates shall be lapped not less than two (2) inches, welded both inside and outside. Plates shall be pulled up tight metal to metal before welding. Outside and inside welds shall be of a uniform cross section with minimum thickness of weld not less than thickness of plate being welded.

(c) Braces shall be butt welded with area of welded surface at least equal to the cross-section area of the brace. No weld in bracing member itself, nor bracing member to body of tank, shall be so welded as to put the welds in tension.

(d) Heads shall be flanged not less than two (2) inches and set into shell and welded inside and out. All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

PUBLIC HEARING

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire weight of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanketing gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure shall be determined as follows: The height from the lowest point in the tank to the highest reservoir from which the tank may be filled, times a factor of two and one-half (2.5) based on the weight of water. In no case shall a hydrostatic test be less than twenty-five (25) pounds per square inch for riveted tanks and not less than thirty (30) pounds per square inch for welded tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conduct-

ing the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-c, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than three hundred (300) pounds per square inch. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The

PUBLIC HEARING

automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40x40 non-corrodible wire mesh, and shall be of sufficient area to permit proper inflow of liquid during the filling operation and two (2) inches in diameter on all tanks above 550 gallons capacity, and in no case to be less than 1½ inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with a return bend protected by a non-corrodible 40x40 wire mesh screen. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided on both sides of each strainer in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner. An outside readily accessible valve shall be provided in all supply lines entering buildings from tanks.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than 18 degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Fire Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

PUBLIC HEARING

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

RULES FOR THE STORAGE AND USE OF GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed top and side in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. If soil conditions warrant, tanks shall be completely enclosed with reinforced concrete, with at least a 6-inch space on sides between tank and concrete filled with sand or well tamped earth, and with 12 inches of sand on top of tank.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, galvanized steel or wrought iron of not less than No. 14 U. S. Gauge, tanks of a capacity of over 60 gallons and not more than 550 gallons shall be constructed of galvanized steel not less than 3/16 inches in thickness.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

(d) Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

See Rule 10 for Gauging device.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes. Vent pipes shall be not less than 1 1/2 inches in diameter.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners.

Overflow pipes shall be not less than one size larger than supply pipe to burner.

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the suction line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board

PUBLIC HEARING

or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and

such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade A or Grade B fuel oil within the meaning of these rules unless such type of device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

PUBLIC HEARING

TENTATIVE DRAFT OF RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES IN ACCORDANCE WITH THE PROVISIONS OF AN ORDINANCE ADOPTED BY THE BOARD OF ALDERMEN.

(473-21-S)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday, January 11, 1924, at 2 p. m., Room 919, Municipal Building, for consideration of approval of the rules governing the construction and installation of gas shut-off valves, as printed as follows:

Rules for Emergency Gas Shut-off Valves:

1. Rules for emergency gas shut-off valves to comply with ordinance amending Article 2 of Chapter 12 of the Code of Ordinances, relating to control of gas in certain buildings in case of fire.

2. Gas shut-off valves shall be installed only by corporations, firms, or individuals, who shall furnish evidence satisfactory to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdiction, of their qualifications, including evidence as to responsibility, organization for work of installation, facilities and equipment.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of emergency gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

5. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories

of Boston, and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

Protection of Valves:

6. The gas shut-off control shall be protected by a suitable and approved metal box placed on the exterior of the building, which shall be connected through a rigid metal conduit by a cable with the valve body placed on the gas intake immediately as the gas pipe enters the building and as near as practicable to the inside face of the wall before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

7. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link it shall be of the best quality phosphor bronze.

8. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection made gas tight where it passes through the valve body by a stuffing box filled with soft, well-lubricated packing in accordance with recognized standard practice.

Installation:

9. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

10. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead not to be used between flanges.

11. The gas main at both ends of the valve must be rigid and secure and resist the pull from the control handle, addi-

PUBLIC HEARING

tional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

12. The valve shall be enclosed in a substantial metal perforated case, conspicuously exposed, painted red, secured by standard lock acceptable to the Fire Prevention Bureau. Marked with name of installer, giving telephone number and address to insure quick service to property owner in emergency.

13. Casing of the valve on gas intake shall be kept locked to protect same from interference and be accessible only to authorized persons. Perforations, to allow circulation of air around fusible link to be provided and so arranged as to prevent tampering when casing is locked.

Control Box:

14. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously numbered with raised letter, painted red.

15. The outside of the cover or the inside of the control box to have concise operating directions in raised or stamped letters or on a securely fastened metal plate, together with the name, initials or registered trademark of the manufacturer.

16. The control box must be placed as nearly vertically above the points where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

17. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes, lag bolts should be used. When the walls are of masonry or concrete through bolts, expansion bolts or toggle bolts should be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

18. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall, but shall not be recessed deeper than the face of wall. Control boxes may be mounted directly on the surface of the wall.

19. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recesses marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

20. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty and cable connections shall be securely made in an approved manner according to the design of the handle.

Cable:

21. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

22. It is essential that cable connections to valve and han-

dle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

23. The control cable for the shut-off valve to be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

24. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

25. Pipe or conduit must be rigidly and permanently secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

26. Bends of small radius or through much of an arc introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, it shall be required that approved roller fittings be employed wherever the pipe or conduit is bent to a radius of less than 4 inches or wherever the bend is through an arc exceeding 15 degrees except as outlined for offsets.

27. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

28. For turns in the conduit greater than those mentioned above approved roller fittings to be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

29. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

30. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which it is designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

PUBLIC HEARING

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side, to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so de-

signed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

31. a. After emergency shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when pulling the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas is turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department in their respective jurisdictions or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioners or the Tenement House Commission in their respective jurisdictions.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Meeting, Board of Appeals, January 2, 1924.
- Minutes of Meeting, Board of Standards and Appeals, January 2, 1924.
- Reserve Calendar.
- Notices of Public Hearings.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the Chairman or the Engineers, pertaining to the work of either Board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, January 8, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, January 15, 1924, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman

CALL OF CLERK'S CALENDAR.

Tuesday, January 8, 1924, at 2 p. m.

Building Zone Cases.

1128-23-BZ.	APPLICANT—William F. Doyle, for Pearl Campbell and Maria Cassino, owners.
	PREMISES—363-371 Prospect place, Brooklyn.
	TO PERMIT in an unrestricted district extending into a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.
1210-23-BZ.	APPLICANT—Henry C. Brucker, for George Hummel, owner.
	PREMISES—2365 Myrtle avenue, Queens.
	TO PERMIT in a residence district the erection and maintenance of an extension to an existing building used for business purposes.
1212-23-BZ.	APPLICANT—William F. Doyle, for Mary Katz, owner.
	PREMISES—1115-1119 Intervale avenue, The Bronx.
	TO PERMIT in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.
1298-23-BZ.	APPLICANT—Nathan Langer, for Vincenzo Gargiulo, owner.
	PREMISES—3200 Villa avenue, The Bronx.
	TO PERMIT partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.
1398-23-BZ.	APPLICANT—Robert Teichman, for Schinasi Commercial Corp., owner.
	PREMISES—311 West 120th street, Manhattan.
	TO PERMIT in a business district the alteration and conversion of an existing factory building to a garage for the storage of more than five (5) motor vehicles.

CALENDAR

1400-23-BZ.

APPLICANT—William F. Doyle, for Turin Garage and Supply Co., Inc., owner.

PREMISES—55 West 93rd street, Manhattan.

TO PERMIT in a residence district the alteration and extension of an existing garage for the storage of more than five (5) motor vehicles.

1447-23-BZ.

APPLICANT—William F. Doyle, for Cedar Land Realty Co., owner.

PREMISES—Southeast corner of Jerome avenue and East Tremont avenue, The Bronx.

TO PERMIT in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

1005-23-BZ.

APPLICANT—John J. Dunnigan, for John E. Warner, owner.

PREMISES—505-507 Evergreen avenue, Brooklyn.

TO PERMIT in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

BOARD OF APPEALS.

Tuesday, January 8, 1924, at 10 a. m.

Appeals from Administrative Orders.

- 646-23-A—232-258 Taaffe place, Brooklyn.
- 1303-23-A—220 25th street, Brooklyn.
- 1321-23-A—229 Bowery, Manhattan.
- 926-23-A—1495 St. Nicholas avenue, Manhattan.
- 1026-23-A—46-50 Wooster street, Manhattan.
- 1064-23-A—Southeast corner of East 138th street and Brown place, The Bronx.
- 1296-23-A—151 East 62nd street, Manhattan.
- 840-23-A—3587-3589 Broadway, Manhattan.
- 1322-23-A—26 East 55th street, Manhattan.
- 1295-23-A—359-363 9th avenue, Manhattan.
- 600-23-A—Pier No. 8, North River, foot of Rector street, Manhattan.
- 792-22-A—6118 Rockaway Beach blvd., Arverne, Queens.
- 715-23-A—51-53 Maiden Lane, Manhattan.
- 1008-23-A—1363-1377 Sedgwick avenue, The Bronx.
- 709-23-A—43 West 16th street, Manhattan.
- 1048-23-A—69-73 Roebling street, Brooklyn.
- 1137-23-A—1295-1307 Broadway, Brooklyn.
- 1469-23-A—880-884 65th street, Brooklyn.
- 1457-23-A—121 West 33rd street, Manhattan.

Under Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, January 8, 1924, at 10 o'clock, in Room 919, Municipal Building, on the following matters:*

CAL. NO. 1086-23-BZ—Application, September 14, 1923, under the building zone resolution, of Antonio Russo and James Russo, applicants and owners, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 2772-2774 West 15th street, Brooklyn.

CAL. NO. 1156-23-BZ—Application, October 8, 1923, under the building zone resolution, of Joseph L. Burke Corporation, applicant, on behalf of Falkenau & Hamerschlag, Inc., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 2334-2342 Jerome avenue, The Bronx.

CAL. NO. 1125-23-BZ—Application, September 28, 1923, under the building zone resolution of Edward P. Doyle, applicant, on behalf of Harry H. Cohen, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises northeast corner of Jerome avenue and 205th street, The Bronx.

CAL. NO. 1294-23-BZ—Application, November 12, 1923, under the building zone resolution, of H. L. Brandt, applicant, Minnie Stone Martin, Helen Stone Tuzo and Elsie Stone Oscanyan, owners, Anna T. Reynolds, lessee, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises west side of Riverside drive, 359 ft. 9 in. south of West 158th street, Manhattan.

CAL. NO. 1437-23-BZ—Application, December 6, 1923, under the building zone resolution, of Frank Case Hayden, applicant, on behalf of Edward Waldron and Fannie Hass, owners, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 235-249 West 154th street, Manhattan.

CAL. NO. 1022-23-BZ—Application, August 20, 1923, under the building zone resolution, of Marie A. Eder, applicant and owner, to permit in a residence district the maintenance of a garage for the storage of four (4) motor vehicles, four spaces rented to persons not residing on the premises; premises 1984 Anthony avenue, The Bronx.

CAL. FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

MINUTES

BOARD OF APPEALS

REGULAR MEETING.

WEDNESDAY, JANUARY 2, 1924.

Present: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon.

The minutes of the regular meeting of the board of appeals, held on Wednesday morning, December 26, 1923, were approved as printed in the Bulletin, No. 1, Vol. IX.

APPEALS FROM ADMINISTRATIVE ORDERS.

378-23-A.

APPELLANT—Samuel Rosenblum, for Apex Leasing Co., Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—47-65 West 42nd street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh; Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6

Absent: Mr. Kerby 1

THE RESOLUTION:

(378-23-A)

WHEREAS, Samuel Rosenblum, for Apex Leasing Co., Inc., lessee, filed, March 31, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 47-65 West 42nd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 13, 1923, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, * * *";

and

WHEREAS, the building is non-fireproof, seven stories (93 ft. 7 in.) in height, 100 ft. 5 in. by 208 ft. in area, equipped with two stairways and an exterior iron stairway. OCCUPIED: 1st story, stores, 150 persons; 2nd, 3rd, 4th and 5th stories, offices (25 factory workers), 400 persons; 6th story, Turkish baths and dormitory, 350 persons; and

WHEREAS, appellant contends that if a standpipe were installed, it would be necessarily placed in the stairway, which would mean that there would still be a run of 200 ft. down the corridors, and proposes to install a portable fire extinguisher at each end of the corridor on each story.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

613-23-A.

APPELLANT—Petroleum Heat & Power Co., for National Printing & Engraving Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—Washington avenue, between 6th and 7th avenues, Queens.

APPEARANCES—

For Appellant: T. P. Knight.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6

Absent: Mr. Kerby 1

THE RESOLUTION:

(613-23-A)

WHEREAS, Petroleum Heat & Power Co., for National Printing & Engraving Co., owner, filed, May 18, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises Washington avenue, between 6th and 7th avenues, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, dated March 19, 1923, reads:

"1. Connection leading to outside tank shall be laid below the frost line."; and

WHEREAS, the building is fireproof, two stories in height, 200 ft. 2½ in. by 92 ft. 7¼ in. in area; OCCUPIED as a printing and engraving establishment, to be equipped with a fuel oil burning installation; and

WHEREAS, appellant contends that the oil pipes in question are buried one foot below the sidewalk, covered with a felt covering and then with a mixture of ashes and cement, that alongside of the oil suction line there is a hot water line so that the pipes will not be affected by frost.

Resolved, that the decision of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

933-23-A.

APPELLANT—Harrison G. Wiseman, for Arcola Realty Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—54 Main street, Flushing, Queens.

APPEARANCES—

For Appellant: George F. Walker.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., on request of appellant's representative.

1253-23-A.

APPELLANT—Abraham Koppel, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—170-180 Belmont avenue and 221-229 Powell street, Brooklyn.

APPEARANCES—

For Appellant: Abraham Koppel.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6

Absent: Mr. Kerby 1

THE RESOLUTION:

(1253-23-A)

WHEREAS, Abraham Koppel, owner, filed November 3, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 170-80 Belmont avenue and 221-229 Powell street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated September 1, 1923, No. 49163-F, reads:

"1. Replace the missing shutters with proper iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at south and east sides of building * * *";

WHEREAS, the building is non-fireproof, five stories and basement in height, 96 ft. by 94 ft. in area, equipped with

MINUTES

a sprinkler system supplied from a 10,000 gallon gravity tank and a 7,500 gallon pressure tank; also an interior fire alarm system. OCCUPIED as follows: Tenant factory, 197 persons; and

WHEREAS, there are windows on each story within 50 ft. of the roof of an adjoining garage to the east; and

WHEREAS, appellant contends that sprinkler heads are located at and within 3 ft. of each window.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1259-23-A.

APPELLANT—Oriental Varnish Works, Inc., for A. Wulfin, owner.

THE RESOLUTION:

(1259-23-A)

WHEREAS, Oriental Varnish Works, Inc., for A. Wulfin, owner, filed, Nov. 5, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 979-981 Franklin avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated Oct. 17, 1923, reads:

"Order No. 83063-LC:

"With reference to your application for a permit to store nitro-cellulose products at the above location, I regret to inform you that I am without power to grant such a permit for the following reasons:

"Sub. Div. 2-F, of section 232, chapter 10, code of ordinances as amended and effective May 1st provides that no permit for the storage of nitro-cellulose products shall be issued in any building which is not equipped with an approved two source system of automatic sprinklers.

"Sub. Div. 2-G of section 232, chapter 10, code of ordinances as amended and effective May 1st, 1923, provides that no permit for the storage of nitro-cellulose products shall be issued in any building where paints, varnishes and lacquers are manufactured, stored or kept for sale.

"Sub. Div. 2-B, of section 232, chapter 10, code of ordinances as amended and effective May 1st, 1923, provides that no permit for the storage of nitro-cellulose products shall be issued in any building where oils, rosin, turpentine, etc., are stored or kept for sale.

"You are therefore ordered to forthwith remove all nitro-cellulose products.";

and

WHEREAS, the building is non-fireproof, one story in height, 40 ft. by 45 ft. in area, used for the manufacture of varnishes; and

WHEREAS, appellant contends that it is proposed to store the 3,000 lbs. of celluloid scrap in an isolated (9 ft. by 11 ft. vault) at the rear of the lot, and further proposes to reduce the stock to 1,500 lbs.

Resolved, that the order of the fire commissioner, as called for in Subdivision 2-F, be and it hereby is reversed,

and the appeal be and it hereby is granted so far as it affects one-story building, approximately 40 ft. by 45 ft. in area, as per plans on file in this case; that the order, as called for in Subdivision 2-G, be and it hereby is modified, and the appeal be and it hereby is granted on condition that the quantity of celluloid stored on these premises be limited to 1,500 lbs., and that it shall be stored and maintained in a brick structure, located in the rear of yard of these premises, with fireproof roof, vented to the outer air, any opening therein to be protected with self-closing steel doors; that the order, as called for in Subdivision 2-B, be and it hereby is modified, and the appeal be and it hereby is granted as to use and occupancy so long as conditions otherwise remain substantially unchanged.

1271-23-A.

APPELLANT—A. E. Nast, for U. S. Trust Co. of New York, owner.

SUBJECT—Appeal from decision of fire commissioner. PREMISES AFFECTED—126 East 32nd street, Manhattan.

APPEARANCES—

For Appellant: J. Eckman.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., on request of appellant's representative.

1342-23-A.

1

THE RESOLUTION:

(1342-23-A)

WHEREAS, William F. Doyle, for Royal Baking Powder Co., Inc., filed, November 20, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 37-71 Ninth street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated October 30, 1923, No. 51041-F, reads:

"1. Install a standpipe system with risers 4 inches in diameter."

Order No. 51042 reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at West side of building.";

and

WHEREAS, the building is non-fireproof, five stories in height, 115 ft. by 97 ft. 6 in. (10,800 sq. ft.) in area; equipped with sprinkler system supplied by two 10,000 gal. gravity tanks, one 20,000 gravity tank and a 5,000 gal. gravity tank and a pressure tank; OCCUPIED for the manufacture of baking powder, 43 persons; and

WHEREAS, applicant contends that tartaric acid is made by the "wet" process and in every part of this process the materials are non-inflammable and non-combustible;

MINUTES

that the building is only slightly over the 10,000 sq. ft. limit; it is not heated and is in operation 24 hours per day. The building, which is the exposure calling for the shutter order; is a one-story building, sprinklered and used only for the storage of non-inflammable and non-combustible materials.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* so long as present occupancy, use and operation remain unchanged.

1331-23-A.

APPELLANT—Jenks and Rogers, for Harry Fein, owner
SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—2-10 172nd street, Jamaica, Queens.

APPEARANCES—

For Appellant: John H. McCoey, Jr., and Harry Fein.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(1331-23-A)

WHEREAS, Jenks and Rogers, for Harry Fein, owner, filed, November 17, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 2-10 172nd street, Queens; and

WHEREAS, the decision of the fire commissioner, dated October 22, 1923, N. B. 1449-22, reads:

"In reply to your request in letter of October 16th, 1923, I have to advise you that owing to the area of the building, a street connection in lieu of a gravity tank is not permissible * * *";

and

WHEREAS, the building is non-fireproof, one story in height, 144 ft. 7½ in. by 174 ft. ½ in. (25,000 sq. ft.) in area; OCCUPIED as a public garage; and

WHEREAS, appellant proposes in lieu of complying with the order to provide either a 4 in. standpipe line across the ceiling of the garage with outlets at each column as shown on the plan, each outlet to be provided with 100 ft. of hose with a 4 in. direct connection to street main or provide a 2½ in. line around the walls of the building in accordance with Cal. No. 179-20-S, as adopted by the board of standards and appeals; and

WHEREAS, appellant contends there is a direct alleyway to Jamaica avenue which will give additional access to building in case of fire.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* only so long as it affects the installation of tank on condition that standpipe equipment installation complies with regulations in all other respects.

BUILDING ZONE CASES.

994-23-BZ.

APPLICANT—William F. Doyle, for James S. Huntington, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a business district the maintenance of a motor vehicle repair shop.

PREMISES AFFECTED—1672 Coney Island avenue, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(994-23-BZ)

WHEREAS, William F. Doyle, for James S. Huntington, owner, filed, Aug. 8, 1923, an application, under the building zone resolution, to permit in a business district the maintenance of a motor vehicle repair shop; premises 1672 Coney Island avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 2, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Coney Island avenue and Avenue M are business districts and Avenue N is a residence district; and

WHEREAS, the decision of the fire commissioner, dated July 21, 1923, in acting on Order No. 81453-LC, reads:

"Maintenance of your repair shop is a violation of Section 4, of Art. 2, of the Bldg. Zone Resolution * * *.

"You are therefore ordered to remove all motor vehicles from the above premises and discontinue the use of premises as a motor vehicle repair shop.";

and

WHEREAS, the existing building is of fireproof construction, one story in height, with a frontage of 67 ft. and a depth of 40 ft., irregular, occupied as a garage, there being an extension on the rear occupied as a repair shop; and

WHEREAS, applicant contends that there would be hardship in preventing him from making such repairs as are incidental to the conduct of his business.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations

MINUTES

of the building zone resolution, and that the application be and it hereby is *granted on condition* that there shall be no power driven machinery operated on the premises; that any repair work shall be restricted to manual operation incidental to the business now conducted on the premises and the occupancy restricted to that allowed under the permit now in force.

1309-23-BZ.

APPLICANT—William F. Doyle, for Herman Kronenberg, owner.

SUBJECT—Application (re: decision of the superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

FOR APPLICANT—William F. Doyle.

For Opposition: Edward Larkin.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., pending inspection by committee of the board.

1319-23-BZ.

APPLICANT—Louis A. Sheinart, for E. G., Hothan, owner.

SUBJECT—Application (re: decision of the superintendent of buildings) to permit extension from unrestricted district into business district of proposed garage for storage of more than five motor vehicles.

PREMISES AFFECTED—23-45 Caton place, Brooklyn

APPEARANCES—

For Applicant: Louis A. Sheinart.

For Opposition: Leo H. Rick, Mary Seelan, Jos. Vicaro, Jos. Chirchirillo, Helen Anastcho, Mary Cuccaro, John Bamberger and Wm. F. Weissbein.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., pending inspection by committee of the board.

939-23-BZ.

APPLICANT—Philip J. Sinnott, for George F. Lamb

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—1943-1961 Pacific street, Brooklyn.

APPEARANCES—

For Applicant: Philip J. Sinnott.

For Opposition: Rosalie F. Janoer.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., on request of attorney for objectors.

1241-22-BZ.

APPLICANT—William F. Doyle, for J. Dinowitz, owner.

SUBJECT—Request for modification of resolution (re: decision of superintendent of buildings) to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—1479 St. Marks avenue, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Request to modify resolution granted.

THE VOTE TO GRANT MODIFICATION—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Fire Chief Kenlon 5

Negative: Mr. Beatty 1

Absent: Mr. Kerby 1

THE RESOLUTION:

(1241-22-BZ)

WHEREAS, William F. Doyle, for J. Dinowitz, owner, filed, October 20, 1922, an application, under the building zone resolution, to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1479 St. Marks avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, January 26, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that St. Marks avenue is a residence district and Howard avenue and Bergen street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 16, 1922, reads:

"Proposition contrary to Art. II, Sec. 3 of the Zone Resolution, garage in residential section.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, approximately 55 ft. by 200 ft. in area, irregular, to be occupied as a garage for more than five motor vehicles, the building to be an extension of an existing building on the rear, now occupied as a garage; and

WHEREAS, there existed on the premises on July 25, 1916, a garage for more than five motor vehicles, and under the provisions of Section 7, Subdiv. a and c, the board is empowered to act; and

WHEREAS, this application was granted by the board at its meeting Jan. 26, 1923, and applicant requested a modification of the resolution to permit the division of the garage into two sections.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be restricted to the figured dimensions stipulated on plans filed with this appeal; that the structure be built fireproof; that the area of the proposed garage be divided approximately into two equal floor areas by fireproof walls with not more than two openings in the division wall, such openings to be protected by automatic, self-closing fireproof doors; that a permanent fixed iron stairs be erected from the yard level in the entrance runway to the roof of this garage; that there shall be no openings in the rear or side walls other than an emergency exit 3 ft. 8 in. in width in the easterly gable wall and that there be no less than two skylights to each section, said skylights to be protected above and below with wire guards; and *on further condition* that this structure be equipped with a 2½ inch standpipe, with hose outlets and hose attached thereto, at one opening in each subdivision wall and at main entrance;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building finished within eighteen months.

438-22-BZ.

APPLICANT—Louis Sheinart, for Annie Wenig, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a business district the conversion of an existing building to a public garage.

PREMISES AFFECTED—6402-6 Fourth avenue, Brooklyn.

MINUTES

APPEARANCES—

For Applicant: Louis Sheinart.

For Opposition: None.

ACTION OF BOARD—Request for modification of resolution granted.

THE VOTE TO MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Holland 5

Negative 0

Absent: Mr. Kerby and Fire Chief Kenlon .. 2

THE RESOLUTION:

(438-22-BZ)

WHEREAS, Burke & Olsen, for Annie Wenig, owner, filed, March 24, 1922, an application, under the building zone resolution, to permit in a business district the conversion of an existing building to a public garage, premises 6402-6 Fourth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting July 5, 1922, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Fourth avenue, 64th and 65th streets are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered March 9, 1922, in acting on App. No. 3605, reads:

"Denied—Proposition contrary to Zone Law, Art. II, Sec. 4.";

and

WHEREAS, the existing building is of non-fireproof construction, 2 stories in height, with a frontage of 50 ft. and a depth of 100 ft. at 1st story and 30 ft. at 2nd story; occupied, store and dwelling; it is proposed to change the occupancy to garage for more than 5 motor vehicles and caretaker's apartment; and

WHEREAS, there existed on this street between the intersecting streets, on July 25, 1916, a stable for more than 5 horses; and

WHEREAS, this application was granted by the board at its meeting July 5, 1922, on certain conditions, and applicant requested a modification of these conditions.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the garage use be limited to fifteen (15) automobiles, and that the separation of the garage portion from the business portion of the building shall be by fireproof wall, any openings therein to be protected with self-closing, fireproof doors.

Resolved, further, that permission is granted to make repairs by manual operation incidental to the conduct of the business on condition that no motor driven machinery other than a one-half horse power electric driven lathe.

CASE DISMISSED.

Appeal from Administrative Order.

The chairman called attention to the following case, where notice of intention to appeal was offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(761-23-A)

Filed June 16, 1923—Premises 220-224 West 42nd street, Manhattan. Order of the fire commissioner. Appellant, Samuel Efrus. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Holland 5

Negative 0

Absent: Mr. Kerby and Fire Chief Kenlon .. 2

THE RESOLUTION:

WHEREAS, the foregoing appellant has filed, with the board of appeals, appeal from order affecting the premises in question; and

WHEREAS, the appellant has failed to complete his papers, though duly notified to do so.

Resolved, that the foregoing appeal be and it hereby is dismissed for lack of prosecution.

CASES DISMISSED.

Under the Building Zone Resolution.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(744-23-BZ)

Filed June 14, 1923—Premises 2839--2847 West 37th street, Brooklyn. Decision of the superintendent of buildings. Applicant, Michael Stein. Dismissed for lack of prosecution.

(754-23-BZ)

Filed June 15, 1923—Premises W. S. Nelson avenue, 50 ft. north of 167th street, The Bronx. Applicant, Paul Occhipinti. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Holland 5

Negative 0

Absent: Mr. Kerby and Fire Chief Kenlon .. 2

THE RESOLUTION:

WHEREAS, the foregoing applicants have filed with the board of appeals applications under the building zone resolution, affecting the premises in question; and

WHEREAS, the applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the applications be and they hereby are dismissed for lack of prosecution.

AREAS FIXED.

(1453-23-BZ)

The chairman presented and read a communication from Joseph Schmidt, requesting the board to fix the area of notification deemed affected by erection and maintenance of building to be used for business purposes; premises 852-58 Cypress avenue, Ridgewood, Borough of Queens.

The following area was approved by the board:

Both sides of Cornelia street, also Jefferson avenue, from a point 100 ft. south of Cypress avenue to a point 400 ft. south of the premises in question.

(1470-23-BZ)

The chairman presented and read a communication from Clinton & Maxwell, requesting the board to fix the area deemed affected and in which to obtain consents for erection and maintenance of garage; premises 150 East 149th street, The Bronx.

The following area was approved by the board:

Both sides of Walton avenue, also Mott avenue, from East 146th street to a point 400 ft. north of proposed garage. Both sides of East 149th street from Gerard avenue to a point 100 ft. east of Mott avenue.

(1299-23-BZ)

The chairman presented and read a communication from Bernard D. Barnett, requesting the board to fix the area deemed affected and in which to obtain consents for maintenance of garage; premises 963 Putnam avenue, Brooklyn.

MINUTES

The following area was approved by the board:

Both sides of Putnam avenue from a point 100 ft. east of Ralph avenue to a point 100 ft. west of Howard avenue.

(1300-23-BZ)

The chairman presented and read a communication from Bernard D. Barrett, requesting the board to fix the area deemed affected and in which to obtain consents for maintenance of garage; premises 965 Putnam avenue, Brooklyn.

The following area was approved by the board:

Both sides of Putnam avenue from a point 100 ft. east of Ralph avenue to a point 100 ft. west of Howard avenue.

(1408-23-BZ)

The chairman presented and read a communication from Merton L. Cushman, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 316-20 West 118th street, Manhattan.

The following area was approved by the board:

Both sides of 118th street from 8th avenue to a point 400 ft. west of proposed garage; the east side

of Manhattan avenue from 117th street to 118th street. Also the north side of 117th street from Manhattan avenue to a point 180 ft. east of Manhattan avenue

(1403-23-BZ)

The chairman presented and read a communication from A. P. Scrice, Jr., requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises north-east corner of Metropolitan and Continental avenues, Forest Hills, Borough of Queens.

The following area was approved by the board:

Both sides of Metropolitan avenue from a point 200 ft. west of Continental avenue to a point 400 ft. east of proposed garage. Both sides of Continental avenue from Metropolitan avenue to a point 400 ft. north of proposed garage; also the south side of Mansen avenue from Continental avenue to a point 50 ft. east of the easterly lot line of the premises in question.

Adjourned 1:15 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING.

WEDNESDAY AFTERNOON, JANUARY 2, 1924.

Present: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Superintendents Brady, Kleinert, Moore and McDermott.

The minutes of the special meeting of the board of standards and appeals, held on Friday afternoon, December 21, 1923, and the minutes of the regular meeting of the board of standards and appeals, held on Wednesday afternoon, December 26, 1923, were approved as printed in the Bulletin, No. 1, Vol. IX.

PETITIONS FOR VARIATIONS.

571-23-S.

PETITIONER—Robert T. Lyons, for 132 West 36th Street Corporation, owner.

SUBJECT—Request for modification of resolution—re: petition for variation of the labor law, as cited in decision of superintendent of buildings.

PREMISES AFFECTED—132-4-6-8 West 36th street and 139-41-43-45 West 35th street, Manhattan.

APPEARANCES—

For Petitioner: N. Taylor Phillips and Robert T. Lyons.

ACTION OF BOARD—Resolution modified.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Superintendents Brady, Moore and McDermott 8

Negative 0

Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Reville and Kleinert 5

THE RESOLUTION:

(571-23-S)

WHEREAS, Robert T. Lyons, for 132 West 36th Street Corporation, owner, filed, May 10, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 132-

4-6-8 West 36th street and 139-41-43-45 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings reads:

"Your request for a certificate of occupancy for this building providing for its use in part as a factory building will be denied for the following reasons:

"1. Not more than 25 per cent of the floor area may be used for factory occupancy.

"3. All windows must be of an approved type of fire windows (Section 264 Labor Law).

"4. Elevator shafts and stairways must be enclosed with fire partitions to conform with the requirements of section 263 of the Labor Law.

"5. Structural steel must be protected with a two-inch thickness of fireproofing material."

and

WHEREAS, the building is fireproof, 12 stories in height, 75 ft. by 197 ft. 6 in. in area, irregular; with interior fire alarm signal and sprinkler system; the building is located in a business district under the building zone resolution. EXITS: Two interior wrought iron stairways extending from 1st story to roof, enclosed in fireproof partitions, with kalameined doors at openings. ROOFS: To east and west, 6 stories lower. OCCUPIED AS FOLLOWS: 1st story, furniture, 18 persons; 2nd story, dresses, 21 persons; 3rd story, coats, 23 persons; 4th story, coats and suits, 5 persons; 5th story, woolens, 5 persons; 6th story, dresses, 23 persons; 7th story, feathers, 62 persons; 8th story, coats and suits, 21 persons; 9th story, show rooms, 5 persons; 10th story, millinery, 67 persons; 11th story, coats and suits, 30 persons; 12th story, coats and suits, 35 persons; and

WHEREAS, petitioner contends that only 12 per cent of the floor area is occupied for factory purposes, that fire windows will be installed on 5th, 7th, 10th, 11th and 12th stories, those used for factory, and further contends that stairways and elevator shafts are properly enclosed and structural steel is properly covered; and

MINUTES

WHEREAS, this petition was granted by the board at its meeting July 17, 1923, and petitioner requested a modification of the resolution.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to Item No. 1 *on condition* that not more than 25 per cent of the floor area be occupied for factory purposes, and *granted* as to Item No. 3 *on condition* that the factory occupancy shall be restricted to the 5th, 7th, 10th, 11th and 12th stories and that all windows on the front of the building on these stories shall be equipped with frames and sash in accordance with the requirements of the labor law, except as to the glazing, which may be polished plate glass not less than 1/4 inch in thickness and that all other openings on these floors shall comply with the requirements of the labor law; *granted* as to Item Nos. 4 and 5 *on condition* that the requirements of the New York Building Code affecting elevator and stairway enclosures and the covering of structural steel shall be complied with, and *granted* so long as conditions otherwise remain substantially unchanged.

1135-23-S.

PETITIONER—Samuel Rosenblum, for Fostott, Inc., owner.

SUBJECT—Variation of the labor law as cited in decision of the superintendent of buildings.

PREMISES AFFECTED—6 East 48th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Superintendents Brady, Kleinert, Moore and McDermott 9

Negative 0

Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendent Reville 4

THE RESOLUTION:

(1135-23-S)

WHEREAS, Samuel Rosenblum, for Fostott, Inc., owner, filed, September 29, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 6 East 48th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered September 18, 1923, reads:

"3. Fire escape should comply with Section 273, Labor Law.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 100 ft. 5 in. in area at 1st and 2nd stories and 25 ft. by 67 ft. in area above. OCCUPIED: 1st story, stores; 2nd to 5th stories, salesrooms and light manufacturing, 20 persons on each story. EXITS: One interior wooden stairway, extending from 1st to top story, with iron ladder to scuttle in roof, enclosed in fireproof partitions with fire doors at openings; ROOFS of adjoining buildings are on same level; and

WHEREAS, petitioner proposes to provide a fire escape on the rear of the building with gooseneck ladder to main roof and 45 degree connecting stairs landing on the roof of 2nd story extension, from which roof there is to be another 45 degree stairs connecting with the platform of the fire escape of the building in the rear (No. 5 E. 47th street); this platform in the rear is a party wall balcony connecting No. 5 E. 47th street with No. 7 E. 47th street; the openings on the course of the proposed fire escape are

to be made fireproof, self-closing; petition states that the owner of premises at the rear has consented to permit this connection to his balcony fire escape.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to egress from termination of rear fire escape *on condition* that a standard fire escape shall be erected on the rear of the building with balcony connection at the 2nd story level to balcony of party wall fire escape on No. 5 E. 47th street; that the ceiling of the 2nd story extension shall be fire retarded in accordance with the rules of the board of standards and appeals and that the skylight in the roof of this extension shall be glazed with wire glass, and *granted* so long as the conditions as to use and occupancy remain unchanged.

676-23-S.

PETITIONER—Mrs. Ira G. Hill, for Union Table Co., lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—140-144 Metropolitan avenue, Brooklyn.

APPEARANCES—

For Petitioner: Mrs. Ira G. Hill.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Laid over to January 8, 1924, at 2 p. m., for full vote of board.

THE VOTE—

Affirmative: Messrs. Beatty, Boulton, Holland, Superintendents Kleinert and McDermott .. 5

Negative: Chairman Walsh, Mr. Connell, Superintendents Brady and Moore 4

Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendent Reville 4

1216-23-S.

PETITIONER—Lehman-Stern Co., lessor.

SUBJECT—Variation of labor law as cited in order of superintendent of buildings.

PREMISES AFFECTED—43-45 East 30th street, Manhattan.

APPEARANCES—

For Petitioner: J. T. Rieger, S. L. Walker.

ACTION OF BOARD—Laid over to January 8, 1924, at 2 p. m., for full vote of board.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Superintendents Brady, Kleinert and McDermott 6

Negative: Messrs. Holland, Connell and Superintendent Moore 3

Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendent Reville 4

1345-23-S.

PETITIONER—Rieger & Waller, for Magoba Const. Co., owner.

SUBJECT—Variation of the labor law as cited in order of the superintendent of buildings.

PREMISES AFFECTED—43-45 East 30th street, Manhattan.

For Petitioner: J. F. Rieger, S. L. Walker.

ACTION OF BOARD—Petition denied.

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Superintendents Brady, Kleinert, Moore and McDermott .. 9

MINUTES

Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendent Reville 4

THE RESOLUTION:

(1345-23-S)

WHEREAS, Rieger & Waller, for Magoba Const. Co., owner, filed, Nov. 21, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the superintendent of buildings, affecting premises 43-45 East 30th street, Manhattan; and

WHEREAS, the order of the superintendent of buildings, dated September 11, 1923, reads:

"In that wood partitions have been constructed on the 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th and 14th stories in violation of section 264 of the Labor Law.

"You are hereby directed to remove all wood partitions.";

and

WHEREAS, the building is fireproof, 14 stories in height, 39 ft. 2 in. by 98 ft. 9 in. in area; equipped with a sprinkler system; OCCUPIED as a tenant factory, with a maximum occupancy of 36 persons per story; the floors being subdivided by wooden partitions, some of which extend to the ceiling. EXITS: Two interior fireproof stairways extending from 1st story to roof; ROOFS of adjacent buildings 10 ft. lower; and

WHEREAS, the petitioner, who represents the tenants of the 3rd, 4th, 5th, 6th, 7th, 8th, 10th, 12th and 13th stories, contends that provision has been made so that the partitions do no interfere with the sprinkler system.

Resolved, that the order of the superintendent of buildings be and it hereby is affirmed, and the petition be and it hereby is denied.

1320-23-S.

PETITIONER—George Provot, for New York Galleries, Inc., lessee.

SUBJECT—Petition for variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—417-419-421 Madison avenue, Manhattan.

APPEARANCES—

For Petitioner: George Provot.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Superintendents Brady, Kleinert, Moore and McDermott 9

Negative 0

Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendent Reville 4

THE RESOLUTION:

(1320-23-S)

WHEREAS, George Provot, for N. Y. Galleries, Inc., lessee, filed, November 16, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 417-419-421 Madison avenue, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered November 14, 1923, reads:

"2. Safe egress should be provided from bottom of fire escape to street by means of fireproof passageway through building.";

and

WHEREAS, the building is non-fireproof, five stories in height, 58 ft. 6 in. by 96 ft. in area at the 1st and 2nd stories and 58 ft. 6 in. by 85 ft. in area above. OCCUPIED: 1st to 4th stories, furniture show rooms, 40 per-

sons; 5th story, furniture show rooms and cabinet making, polishing, varnishing, etc., 5 persons. PROPOSED EXITS: One interior fireproof stairway extending from 1st story to roof, with fire doors at openings; a stand ard fire escape, excepting for egress from termination, on the rear of the building, extending from roof to yard, with fireproof windows along course; EGRESS from termination of fire escape is proposed through 3 ft. 8 in. opening in fence to yard of premises to rear with egress from this yard through cellar of No. 31 E. 48th street and through fire escape on premises No. 42 E. 49th street; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner requests that the egress from termination of fire escape be accepted.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the skylight at the rear of the 1st story shall be glazed with wire glass, and that the fire escape shall comply with the labor law in all respects, except as to egress from the termination, which shall be provided by maintaining a clear and unobstructed opening in the fence to the premises at rear 31 East 48th street, with egress therefrom and 44 East 49th street.

1326-23-S.

PETITIONER—John M. Lewis, for Thomas Garner Co, Inc., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—22 Spruce street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Laid over to January 15, 1924, at 2 p. m., at request of petitioner.

1325-23-S.

PETITIONER—John M. Lewis, for Thomas Garner Co., Inc., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—181 William street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Laid over to January 15, 1924, at 2 p. m., at request of petitioner.

1341-23-S.

PETITIONER—William F. Doyle, for Royal Baking Powder Co., Inc., owner.

SUBJECT—Variation of the labor law as cited in the orders of the fire commissioner.

PREMISES AFFECTED—37-71 9th street, Brooklyn.

APPEARANCES—

For Petitioner: William F. Doyle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Connell, Superintendents Brady, Kleinert, Moore and McDermott 8

Negative: Mr. Beatty 1

Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendent Reville 4

THE RESOLUTION:

(1341-23-S)

WHEREAS, Wm. F. Doyle, for Royal Baking Powder Co., Inc., owner, filed, Nov. 20, 1923, a petition, with the board of standards and appeals, for variation from orders of the fire commissioner, affecting premises 37-71 Ninth street (building E), Brooklyn; and

MINUTES

WHEREAS, the orders of the fire commissioner, dated Oct. 30, 1923, read:

"No. 51037-LD—1. Provide an interior stairway at the north-east end of building to serve as a required means of exit, extending from 1st story to the roof, with a safe passageway to the street, * * *";

"No. 51039-LD—1. Provide and maintain a continuous safe and unobstructed passageway of at least the same width as the stairway, leading directly to the street from the termination of the interior stairway at the South-West side of building, * * *.

"2. Provide passageways having an unobstructed width of at least three feet throughout their length leading directly to every means of egress, including outside fire escapes and passenger elevators on all stories, * * *";

and

WHEREAS, the building is non-fireproof, five stories in height, 115 ft. by 97 ft. 6 in. in area; equipped with a sprinkler system, supplied by two 10,000 gallon, one 20,000 and one 5,000 gallon gravity tank; OCCUPIED for the manufacture of baking powder, 43 persons. EXITS: One

interior wooden stairway extending from 1st to top story, with ladder to scuttle in roof, a fireproof bridge on each story, connecting with adjoining building, one fire escape on westerly side of building, extending from roof to a bridge on 1st story connecting with adjoining building; and

WHEREAS, petitioner contends that the tartaric acid is manufactured by the "wet" process and in every part of this process the materials are non-inflammable and non-combustible, and in view of the existing fire protection asks acceptance of the present means of exit.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a two-source sprinkler system shall be maintained, and *granted* so long as the existing exit conditions remain unchanged and the occupancy and use and operation remain unchanged.

Adjourned 4:15 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

PUBLIC HEARING

PROPOSED AMENDMENTS TO EXIT RULES—REVOLVING DOORS.

(41-19-S)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, January 8, 1924, at 2 p. m., Room 919, Municipal Building, on proposed amendments to Exit Rules—Revolving Doors.

Adopted by the Board of Standards and Appeals September 6, 1917; Amended February 11, 1919.

(Matter in brackets is old matter to be omitted.)

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors.—Prohibition. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with

either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors [,] or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

PUBLIC HEARING

APPROVED AMENDMENTS TO PLUMBING RULES

(693-20-S)

NOTICE IS HEREBY GIVEN that the public hearings on the Plumbing Rules were closed as of this date, December 18, 1923.

The following amendments were approved and will be submitted for adoption at the regular meeting to be held on January 8, 1924, at 2 p. m.

(New matter is in *italics*; old matter, to be omitted, is in brackets.)

Rule No. 137.

Where "Flushometers" are used, they must be supplied from tank pressure, unless otherwise permitted by the Superintendent of Buildings; the rising lines shall be at least one and one-half inches in diameter, and the *main* branches shall be at least one and one-quarter inches in diameter, *with individual branches not less than one inch in diameter for water-closets and [three-quarters] not less than one-half inch in diameter for urinals. Individual branches shall not exceed twelve inches in length.*

NOTICE

BUILDING CODE ON SALE.

Copies of the Building Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, \$1; by mail, \$1.08.

ELECTRICAL CODE ON SALE.

Copies of the Electrical Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, 25c; by mail, 27c.

PUBLIC HEARING

PROPOSED AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF FUEL OILS.

(217-21-S)

NOTICE IS HEREBY GIVEN that the public hearings on the Fuel Oil Rules were closed as of this date, December 14, 1923.

The proposed amendments with revisions, which are printed below, will be considered for approval by the Board of Standards and Appeals at the regular meeting to be held on Tuesday, January 8, 1924, at 2 p. m.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit, in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil to be used for commercial heating and power purposes shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness or twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth (1¼) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter (1¼) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter (1¼) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

PUBLIC HEARING

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in

excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to substitute riveting in part or for the entire tank, the tank shall be fabricated.

(b) All welded seams of plates shall be lapped not less than two (2) inches, welded both inside and outside. Plates shall be pulled up tight metal to metal before welding. Outside and inside welds shall be of a uniform cross section with minimum thickness of weld not less than thickness of plate being welded.

(c) Braces shall be butt welded with area of welded surface at least equal to the cross-section area of the brace. No weld in bracing member itself, nor bracing member to body of tank, shall be so welded as to put the welds in tension.

(d) Heads shall be flanged not less than two (2) inches and set into shell and welded inside and out. All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

PUBLIC HEARING

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire weight of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanketing gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure shall be determined as follows: The height from the lowest point in the tank to the highest reservoir from which the tank may be filled, times a factor of two and one-half (2.5) based on the weight of water. In no case shall a hydrostatic test be less than twenty-five (25) pounds per square inch for riveted tanks and not less than thirty (30) pounds per square inch for welded tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conduct-

ing the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than three hundred (300) pounds per square inch. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The

PUBLIC HEARING

automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40x40 non-corrodible wire mesh, and shall be of sufficient area to permit proper inflow of liquid during the filling operation and two (2) inches in diameter on all tanks above 550 gallons capacity, and in no case to be less than 1½ inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with a return bend protected by a non-corrodible 40x40 wire mesh screen. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided on both sides of each strainer in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner. An outside readily accessible valve shall be provided in all supply lines entering buildings from tanks.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than 18 degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Fire Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

PUBLIC HEARING

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

RULES FOR THE STORAGE AND USE OF GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed top and side in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. If soil conditions warrant, tanks shall be completely enclosed with reinforced concrete, with at least a 6-inch space on sides between tank and concrete filled with sand or well tamped earth, and with 12 inches of sand on top of tank.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, galvanized steel or wrought iron of not less than No. 14 U. S. Gauge, tanks of a capacity of over 60 gallons and not more than 550 gallons shall be constructed of galvanized steel not less than 3/16 inches in thickness.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

(d) Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

See Rule 10 for Gauging device.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes. Vent pipes shall be not less than 1 1/2 inches in diameter.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners.

Overflow pipes shall be not less than one size larger than supply pipe to burner.

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the suction line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board

PUBLIC HEARING

or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and

such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade A or Grade B fuel oil within the meaning of these rules unless such type of device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

PUBLIC HEARING

TENTATIVE DRAFT OF RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES IN ACCORDANCE WITH THE PROVISIONS OF AN ORDINANCE ADOPTED BY THE BOARD OF ALDERMEN.

(473-21-S)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday, January 11, 1924, at 2 p. m., Room 919, Municipal Building, for consideration of approval of the rules governing the construction and installation of gas shut-off valves, as printed as follows:

Rules for Emergency Gas Shut-off Valves:

1. Rules for emergency gas shut-off valves to comply with ordinance amending Article 2 of Chapter 12 of the Code of Ordinances, relating to control of gas in certain buildings in case of fire.

2. Gas shut-off valves shall be installed only by corporations, firms, or individuals, who shall furnish evidence satisfactory to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdiction, of their qualifications, including evidence as to responsibility, organization for work of installation, facilities and equipment.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of emergency gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

5. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories

of Boston, and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

Protection of Valves:

6. The gas shut-off control shall be protected by a suitable and approved metal box placed on the exterior of the building, which shall be connected through a rigid metal conduit by a cable with the valve body placed on the gas intake immediately as the gas pipe enters the building and as near as practicable to the inside face of the wall before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

7. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link it shall be of the best quality phosphor bronze.

8. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection made gas tight where it passes through the valve body by a stuffing box filled with soft, well-lubricated packing in accordance with recognized standard practice.

Installation:

9. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

10. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead not to be used between flanges.

11. The gas main at both ends of the valve must be rigid and secure and resist the pull from the control handle, addi-

PUBLIC HEARING

tional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

12. The valve shall be enclosed in a substantial metal perforated case, conspicuously exposed, painted red, secured by standard lock acceptable to the Fire Prevention Bureau. Marked with name of installer, giving telephone number and address to insure quick service to property owner in emergency.

13. Casing of the valve on gas intake shall be kept locked to protect same from interference and be accessible only to authorized persons. Perforations, to allow circulation of air around fusible link to be provided and so arranged as to prevent tampering when casing is locked.

Control Box:

14. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously numbered with raised letter, painted red.

15. The outside of the cover or the inside of the control box to have concise operating directions in raised or stamped letters or on a securely fastened metal plate, together with the name, initials or registered trademark of the manufacturer.

16. The control box must be placed as nearly vertically above the points where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

17. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes, lag bolts should be used. When the walls are of masonry or concrete through bolts, expansion bolts or toggle bolts should be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

18. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall, but shall not be recessed deeper than the face of wall. Control boxes may be mounted directly on the surface of the wall.

19. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recesses marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

20. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty and cable connections shall be securely made in an approved manner according to the design of the handle.

Cable:

21. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

22. It is essential that cable connections to valve and han-

dle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

23. The control cable for the shut-off valve to be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

24. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

25. Pipe or conduit must be rigidly and permanently secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

26. Bends of small radius or through much of an arc introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, it shall be required that approved roller fittings be employed wherever the pipe or conduit is bent to a radius of less than 4 inches or wherever the bend is through an arc exceeding 15 degrees except as outlined for offsets.

27. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

28. For turns in the conduit greater than those mentioned above approved roller fittings to be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

29. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

30. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which it is designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

PUBLIC HEARING

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side, to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so de-

signed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.
Installation and Inspection Tests:

31. a. After emergency shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when pulling the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas is turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department in their respective jurisdictions or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioners or the Tenement House Commission in their respective jurisdictions.

OFFICE—Municipal Building, Room 914.

TELEPHONE—Worth 0184.

OFFICE HOURS—9 a. m. to 5 p. m., Saturdays, 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Meeting, Board of Appeals, January 8, 1924.
- Minutes of Meeting, Board of Standards and Appeals, January 8, 1924.
- Corrections.
- Reserve Calendar.
- Rules Adopted.
- Notices of Public Hearings.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the Chairman or the Engineers, pertaining to the work of either Board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, January 15, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, January 22, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman

CALL OF CLERK'S CALENDAR.

Tuesday, January 15, 1924, at 2 p. m.

Building Zone Cases.

420-23-BZ.

APPLICANT—Henry H. Ehrlich, owner.

PREMISES—740 Sylvester avenue (formerly Mandsley street), Jamaica, Queens.

TO PERMIT in a residence district the maintenance of a garage for the storage of two (2) motor vehicles; two spaces rented to persons not residing on the premises.

1054-23-BZ.

APPLICANT—F. W. Rinn, for Frank R. Hewitt, owner.

PREMISES—2250 Aqueduct avenue, The Bronx.

TO PERMIT in a residence district the maintenance of a garage for the storage of two (2) pleasure motor vehicles, two spaces rented to persons not residing on the premises.

1055-23-BZ.

APPLICANT—F. W. Rinn, or Michael Lyndsey, owner.

PREMISES—2218 Aqueduct avenue, The Bronx.

TO PERMIT in a residence district the maintenance of a garage for the storage of three (3) pleasure motor vehicles, two spaces rented to persons not residing on the premises.

1168-23-BZ.

APPLICANT—William F. Doyle, for Jennie Reizenstein, owner.

PREMISES—284 Woodbine street, Brooklyn.

TO PERMIT in a residence district the erection and maintenance of a building to be used for business purposes.

1349-23-BZ.

APPLICANT—William F. Doyle, for Greater New York Garage Co., Inc., owner.

PREMISES—4342 Broadway and 643-647 West 185th street, Manhattan.

TO PERMIT in a business district extending into a residence district the connection and maintenance of two existing garages for the storage of more than five (5) motor vehicles, the temporary permit for each garage expiring Dec. 9, 1923.

1404-23-BZ.

APPLICANT—Charles D. Strang and Tina Strang, owners.

PREMISES—178-180 South Portland avenue, Brooklyn.

TO PERMIT in a business district the change of occupancy from manufacturing and dead storage to the use of fur dressing.

CALENDAR

1297-23-BZ.

APPLICANT—John J. Dunnigan, for Joseph Lagana, owner.

PREMISES—44 Convent avenue, Manhattan.

TO PERMIT in an unrestricted district extending into a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

BOARD OF APPEALS.

Tuesday, January 15, 1924, at 10 a. m.

Appeals from Administrative Orders.

1000-23-A—2nd to 3rd avenue, from 8th street to 9th street, College Point, L. I., Queens.

900-23-A—339-341 Lafayette street, Manhattan.

233-23-A—1835 Carter avenue, The Bronx.

1322-23-A.

APPELLANT—William F. Doyle, for Douglas Elliman & Co., owners.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—26 East 55th street, Manhattan.

APPEARANCES—

For Appellant: William F. Doyle.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., on request of appellant.

1295-23-A.

APPELLANT—John H. Knubel, for Mary C. De Terrouenne, owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—359-363 9th avenue, Manhattan.

APPEARANCES—

For Appellant: Joseph Maas.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., on request of appellant's representative (for final disposition).

715-23-A.

APPELLANT—Charles B. Meyers, for Molan Realty Corp., owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—51-53 Maiden lane, Manhattan.

APPEARANCES—

For Appellant: Charles B. Meyers.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Laid over to January 15, 1924, at 10 a. m., on request of appellant.

1008-23-A.

APPELLANT—Vitreous Enameling & Stamping Co., Ltd., owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—1381 Sedgwick avenue, The Bronx.

APPEARANCES—

For Appellant: C. C. Miller.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., on request of appellant's representative.

709-23-A.

APPELLANT—Hess & Wiener, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—43 West 16th street, Manhattan.

APPEARANCES—

For Appellant: Arthur Frank.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., on request of appellant's representative.

646-23-A.

APPELLANT—Sidney P. Snyder, for Julius Kayser & Co., owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—232-258 Taaffe place, Brooklyn.

APPEARANCES—

For Appellant: Sidney P. Snyder.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs Boulton, Connell, Holland and Fire Chief Kenlon	5
Negative	0
Absent: Messrs. Beatty and Kerby	2

THE RESOLUTION:

(646-23-A)

WHEREAS, Sidney P. Snyder, for Julius Kayser, owner, filed, May 2, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 232-258 Taaffe place, Brooklyn; and

WHEREAS, orders of the fire commissioner, dated May 9, 1923, read:

"No. 45210-F:

"1. Install a standpipe system with risers 4 inches in diameter placed within main stairway enclosure. * * *";

"No. 45208-F:

"1. Provide automatic self-closing attachments to doors of elevator shafts on all stories. * * *.

"2. Disconnect the present standpipe line from the sprinkler system. * * *";

and

WHEREAS, the building is non-fireproof, equipped with sprinkler system, five stories and basement in height, 235 ft. by 60 ft. (14,100 sq. ft.) in area; OCCUPIED for the manufacture and storage of gloves; and

WHEREAS, appellant contends the elevator doors are operated from the inside, by the elevator operation; that in regard to Order No. 45208, Item No. 2, that there are two (2) 40,000 gallon tanks, two fire pumps pumping from a 232,000 gallon reservoir and from an 83,000 gallon reservoir; and as to Order No. 45210, Item No. 1, they are making no alterations or additions to the building, and that under Rule 44, the standpipe system should be considered adequate; and

WHEREAS, the appellant has filed an application with the bureau of fire prevention for approval of the standpipe system, Alt. Apl. No. 1674-23, and under date of Dec. 7, 1923, received the following objections:

"9. No more than 100 ft. of hose is allowed at any outlet. Three risers will be required to properly protect the floor area.

"10. A 4 in. branch with outlet will be required in the old one-story building (No. 8) to properly protect the floor area.

MINUTES

"13. Siamese connections (new) must be 3x3x4 in., etc."

Resolved, that the order of the fire commissioner, No. 45210-F, be and it hereby is *modified*, and the appeal, as to this order, be and it hereby is *granted on condition* that not less than two standpipes be maintained with not more than 125 feet of hose to each hose outlet; and that Objection No. 13 of the decision of the fire commissioner, rendered Dec. 7, 1923, in acting on Alt. 1674-23 be complied with (Objections No. 9 and No. 10 being waived by the modification herewith granted of Order No. 45210-F), and *granted* only so long as conditions as to operation, conduct and use of building remain substantially unchanged; that the order, No. 45208-F, Items 1 and 2, be and it hereby is *affirmed*, and the appeal as to this order be and it hereby is *denied*.

1303-23-A.

APPELLANT—H. G. Vogel Co., for Jos. H. Meyer Bros., owners.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—220 25th street, Brooklyn.

APPEARANCES—

For Appellant: Albert E. Lord, W. P. Thomas.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Fire Chief Kenlon .. 5

Negative 0

Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(1303-23-A)

WHEREAS, H. G. Vogel Co., for Jos. H. Meyer Bros., owner, filed, Nov. 14, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 220 25th street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered Oct. 25, 1923, in acting on N. B. Application No. 562-23, reads:

"1. A separate and distinct system of automatic sprinklers consisting of an approved pressure and approved gravity tank must be provided for the four story building, and the one story and basement building.

"2. Separate sprinkler application for the four story building must be filed, same must be filed under a separate number."

and

WHEREAS, the premises consist of a plot of ground, upon which are erected two buildings, one is non-fireproof, four stories and basement in height, 66 ft. 10 in. by 104 ft. (7,500 sq. ft.), irregular in area, and the other is fireproof, one story and basement in height, 53 ft. by 150 ft., irregular in area; OCCUPIED for the manufacture of artificial pearls, 345 persons in the four-story building and 14 persons in the one-story building; celluloid being used on premises; and

WHEREAS, appellant contends that originally a sprinkler system was proposed to be installed in the one-story building; it was not accepted by the fire department as having proper sources of supply; it was then decided to equip both buildings with sprinkler system having a single source of supply, consisting of a 9,000 gallon pressure tank and a 12,000 gallon gravity tank, both on roof of four-story building; the supply in the one-story building is supplemented by a direct 6 in. connection to the city main and appellant further contends that the systems in each building may be shut off without impairment of service in the other, inasmuch as the one-story building is directly connected with the street main.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a sprinkler system be installed in both the four-story and one-story building, supplied from two standard sources of supply located in the four-story structure and in addition thereto a direct 6 in. street connection to city main for the one-story building; and *granted* only so long as the combined structures remain in the one operation.

1321-23-A.

APPELLANT—Benjamin Harris Co., Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—229 Bowery, Manhattan.

APPEARANCES—

For Appellant: David B. Harris.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Beatty 1

THE RESOLUTION:

(1321-23-A)

WHEREAS, Benjamin Harris Co., Inc., for David B. Harris, owner, filed, November 15, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 229 Bowery, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 25, 1923, reads:

"Section 232-2, Chapter 10, Code of Ordinances, prohibits the storage of nitro-cellulose products in any building situated within 50 ft. of the nearest wall of any building occupied as a place of public assembly and amusement.

"You are, therefore, ordered to:

"1. Remove all nitro-cellulose products from premises."

and

WHEREAS, the building is non-fireproof, three stories in height, 25 ft. by 115 ft. in area at 1st story and 25 ft. by 95 ft. in area above. OCCUPIED: 1st story, store, store fixtures, 3 persons; 2nd story, metal novelties, 8 persons; 3rd story, metal and celluloid novelties, 6 persons; and

WHEREAS, appellant contends that there is no open flame on the premises, that the celluloid is stored in a cabinet vented to the outer air, that the celluloid department is separated from the rest of the premises by partitions of 1/2 in. plaster boards on 3/4 in. wall boards, openings protected with fireproof doors; roof covered with 20 gauge metal surrounding a skylight; that the adjoining building occupied as a place of public assembly is the Bowery Mission, opened in 1911, and petitioner claims to have been established since 1904 and asks permission to store 35 pounds of celluloid on premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the quantity of celluloid maintained on the premises shall not exceed 35 pounds, all use and work in connection with same to be confined to room enclosed in fire-retarded material, ventilated to outer air; and that there shall be at least two exits from the celluloid working room; and *granted* so long as conditions as to conduct and use remain substantially unchanged.

1026-23-A.

APPELLANT—Reliable Cane Mfg. Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—46-50 Wooster street, Manhattan.

MINUTES

APPEARANCES—

For Appellant: Thomas B. Leahy.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,

Connell, Holland, Kerby and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Beatty 1

THE RESOLUTION:

(1026-23-A)

WHEREAS, Reliable Cane Mfg. Co., lessee, filed, August 21, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 46-50 Wooster street, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated July 12, 1923, No. 19191-LC, reads:

"With reference to your application for a permit to store nitro-cellulose products at the above location, I regret to inform you that I am without power to grant such a permit for the following reason:

"Section 232-2, Chapter 10, Code of Ordinances, prohibits the storage of nitro-cellulose products in any building, inside the fire limits that is not of fireproof construction of more than three stories in height.

"You are, therefore, ordered to:

"(1) Forthwith remove all nitro-cellulose products.";

and

WHEREAS, the building is non-fireproof, equipped with 100 per cent sprinkler system, six stories and basement in height, 75 ft. by 100 ft. in area; OCCUPIED for the manufacture of cane and umbrella handles, some of nitro-cellulose, 150 persons in building; and

WHEREAS, appellant proposes to remove the existing metal cabinet, for the storage of 150 pounds of celluloid, from the fourth floor of the premises and place it in a metal shelf attached to the outside wall of the building and to cut the existing window opening at shelf down to the floor and protect same with a fireproof door.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the quantity of celluloid stored on the premises affected by this order shall not exceed 150 pounds, stored and maintained in a metal cabinet, fastened to an iron balcony located on rear of building, said cabinet to be ventilated by metal duct carried above the roof of building.

1064-23-A.

APPELLANT—Eugene De Rosa, for Forum Construction Co., owner.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—Southeast corner of East 138th street and Brown place, The Bronx.

APPEARANCES—

For Appellant: Warren Leslie.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,

Connell, Holland, Kerby and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Beatty 1

THE RESOLUTION:

(1064-23-A)

WHEREAS, Eugene De Rosa, for Forum Construction Co., owner, filed, Sept. 7, 1923, an appeal, with the board of appeals, from a decision of the superintendent of build-

ings, affecting premises southeast corner of 138th street and Brown place, The Bronx; and

WHEREAS, the decision of the superintendent of buildings, rendered Aug. 31, 1923, in acting on N. B. App. No. 527-21, reads:

"2—Proposed exterior stairway is unlawful.";

and

WHEREAS, the building is non-fireproof, divided by an unpierced wall into a theatre and business section; the theatre section is one story in height, 159 ft. by 89 ft. in area; and the business section (Brook avenue portion) is three stories in height, 31 ft. 8 in. by 89 ft. (2,800 sq. ft.) in area; the business portion is occupied: 1st story, stores; 2nd and 3rd stories, public billiard rooms; there is a 3 ft. 8 in. wide stairway running from the 1st to the 3rd story of business portion of building; and

WHEREAS, appellant contends that upon completion of building, a certificate of occupancy was refused on the grounds that as the 2nd and 3rd stories of the business portion of the building were occupied as billiard rooms, an additional exit should be provided; an amendment to the plans were made, calling for an additional flight of outside stairs connecting with the existing outside stairway in the court of the premises; this proposed stair was not accepted, not being a direct means of exit; and

WHEREAS, applicant asks the acceptance of this means of exit.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that line of travel along the balcony fire escape be indicated by fixed metal signs, not less than 8 in. in length, on the wall.

1296-23-A.

APPELLANT—Robert H. Fowler, lessee.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—151 East 62nd street, Manhattan.

APPEARANCES—

For Appellant: Roswell C. Otheman, Dr. Robert H. Fowler.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Boulton,

Connell, Holland, Kerby and Fire Chief

Kenlon 6

Absent: Mr. Beatty 1

THE RESOLUTION:

(1296-23-A)

WHEREAS, Robert H. Fowler, lessee, filed, Nov. 13, 1923, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 151 East 62nd street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered Oct. 24, 1923, in acting on Alt. Application No. 1937, reads:

"The three rooms on the 3rd floor used as nurses' quarters are now changed to single private wards.";

and

WHEREAS, the building is non-fireproof, three stories and basement in height, 15 ft. by 70 ft. 6 in. irregular in area; proposed OCCUPANCY, basement, 1st and 2nd stories, hospital; 4th story, dwelling; and

WHEREAS, appellant contends that the building under this appeal is to be used as an annex, connected by openings protected with kalameined doors, to an adjoining building, No. 153; which building under similar appeal granted in Cal. No. 461-20-A, is now used as a hospital on the basement, 1st and 2nd stories.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

Kenlon 6

Absent: Mr. Beatty 1

THE RESOLUTION:

(840-23-A)

WHEREAS, Success Theatre Corp., lessee, filed, July 2, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 3587-89 Broadway, Manhattan; and

WHEREAS, the order of the fire commissioner, dated Feb. 28, 1923, reads:

"Install standpipe fire line, in compliance with Chapter 5, Article 25, Code of Ordinances.";

and

WHEREAS, the building is fireproof, one story in height, OCCUPIED as theatre and roof garden, 600 seats in the orchestra; and

WHEREAS, appellant contends that the plans and equipment of the theatre were approved by the fire department in 1913, and there have been no alterations.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

600-23-A.

APPELLANT—Lehigh Valley Railroad Company, lessee. SUBJECT—Application for reopening—appeal from order of fire commissioner.

PREMISES AFFECTED—Pier No. 8, North River, foot of Rector street, Manhattan.

APPEARANCES—

For Appellant: Herbert W. Smith.

For Administration: Inspector Lenihan of fire department.

THE RESOLUTION:

(600-23-A)

WHEREAS, Lehigh Valley Railroad Company, for City of New York, owner, filed, May 15, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises Pier 8, North River, foot of Rector street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Discontinue the storage of motor vehicles, the fuel storage tanks of which contain gasoline or other inflammable liquid used as fuel for generating motive power on this pier.";

and

WHEREAS, the premises consist of a pier, 71 ft. by 708 ft. on which is located a one-story pier shed of steel frame, corrugated iron siding and concrete floor, with approxi-

mately 180 sq. ft. of wood flooring; the shed is subdivided by cross partition fire walls; and

WHEREAS, this application was granted by the board on July 3, 1923, allowing appellant the use of one tow motor to be used in the conduct of business on Pier No. 8. Appellant asks owing to greatly increased business to be permitted the use of three tow motors.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that not more than three (3) gasoline tow motors shall be used on these premises, restricted to the freight service; that there shall be no gasoline storage maintained on premises and that each tow car shall be equipped with an approved fire extinguisher.

792-22-A.

THE RESOLUTION:

(1469-23-A)

WHEREAS, Combustion Engineering Corp., for Kings
County Lighting Co., owner, filed, Dec. 12, 1923, an ap-
peal, with the board of appeals, from a decision of the fire
commissioner, affecting premises 880-884 65th street, Brook-
lyn; and

WHEREAS, the decision of the fire commissioner, ren-
dered Nov. 3, 1923, in acting on Application No. 1032-23,
reads:

"3. Pumps must have approval of Board of Stand-
ards and Appeals.

"4. Burners must have approval of Board of
Standards and Appeals.";

and

WHEREAS, the premises consist of a plot of ground on
which is located the plant of the Kings County Lighting
Company; it is proposed to install in the boiler house,
which is a one-story building, 87 ft. 5½ in. by 56 ft. 5½
in. in area, two boilers and a fuel oil burning installation;
the installation to be made in accordance with the rules
of the board of standards and appeals, except that the
pumps, which are known as the "McGowan Pumps," and
the burners, which are known as the "Quinn Oil Burners,"
have not been approved by the board of standards and
appeals; and

WHEREAS, appellant requests a temporary permit for
the operation of the plant for a temporary period of ninety
(90) days, pending the approval of the pumps and burn-
ers by the board of standards and appeals.

Resolved, that the decision of the fire commissioner be
and it hereby is *modified*, and the appeal be and it here-
by is *granted* to permit the operation of the plant for
a temporary period of ninety (90) days, at the owner's
risk, subject to inspection of burner and pump.

at 10 a. m., on application of both sides.

1294-23-BZ.

APPLICANT—H. L. Brandt, for Anna T. Reynolds, les-
see.

SUBJECT—Application (re: decision of superintendent of
buildings) to permit partly in a business district
and partly in a residence district the erection and
maintenance of a garage for the storage of more
than five (5) motor vehicles.

MINUTES

PREMISES AFFECTED—West side Riverside drive, 359 ft. 9 in. south of West 158th street, Manhattan.

APPEARANCES—

For Applicant: N. Taylor Phillips, Vincent Leibell, H. L. Brandt.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5
Negative: Fire Chief Kenlon 1
Absent: Mr. Beatty 1

THE RESOLUTION:

(1294-23-BZ)

WHEREAS, H. L. Brandt, for M. S. Martin, H. S. Tuzo and E. S. Oscanyan, owners, filed, Nov. 12, 1923, an application, under the building zone resolution, to permit partly in a business district and partly in a residence district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises west side of Riverside drive, 359 ft. 9 in. south of West 158th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 8, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Riverside drive is a residence district and N. Y. C. & H. R. Railroad right-of-way is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered Sept. 27, 1923, in acting on N. B. App. No. 482-23, reads:

"1. Proposed garage is unlawful as it is located partly within a residence district; Secs. 2 and 4a-15, Building Code.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 129 ft. 11 in. and a depth of 104 ft. 6¼ in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the board, under Cal. No. 232-20-BZ and 755-20-BZ, granted a variation of the building zone resolution to permit individual garages for a total of 72 cars on this site; and

WHEREAS, this application is for modification of the garage layout granted under Cal. Nos. 232-20-BZ and 755-20-BZ, reducing the garage capacity, but housing the entire proposition under one roof.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building be restricted to a one-story structure, approximately 129 ft. 11 in. by 68 ft. and 104 ft. (irregular in area), with fire-retarded ceiling, roof of flat design and construction; that any skylights installed shall be glazed with plain glass, protected above and below with wire guards; that the vehicular exits be limited to two located at the front of the building, emergency exits to be provided on the rear, not exceeding 3 ft. 8 in. in width; that the facade of the building on the front and sides shall be finished in granite blocks, face rubble stone work or stucco, with architectural terra cotta or stone trimmings;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building erected within eighteen months from the date of this action.

1022-23-BZ.

APPLICANT—Marie A. Eder, owner.

SUBJECT—Application (re: order of fire commissioner)

to permit in a residence district the maintenance of a garage for the storage of four (4) pleasure motor vehicles, four spaces rented to persons not residing on the premises.

PREMISES AFFECTED—1984 Anthony avenue, The Bronx.

APPEARANCES—

For Applicant: William T. Matthies and Marie A. Eder.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1022-23-BZ)

WHEREAS, Marie A. Eder, owner, filed, Aug. 20, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of four pleasure motor vehicles, four spaces rented to persons not residing on the premises; premises 1984 Anthony avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 8, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Anthony avenue and East 178th street are residence districts and Burnside avenue is a business district; and

WHEREAS, the order of the fire commissioner, dated Aug. 2, 1923, in acting on Order No. 19326-C, reads:

"1. Discontinue the maintenance of a garage which is not maintained as an accessory use on these premises.";

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 36 ft. and a depth of 22 ft., occupied as a garage for four motor vehicles, space rented to persons not residing on premises; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 96 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the capacity of the garage be limited to four automobiles of the pleasure car type, space for three of which may be rented to persons not residing on the premises, and on the further condition that no gasoline storage shall be maintained on the premises other than in the tanks of the cars.

794-23-BZ.

APPLICANT—James Tisdale, for Tisdale Lumber Co., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in an unrestricted district extending into a residence district the maintenance of storage shed used for business purposes.

PREMISES AFFECTED—West side of 130th street, 313.42 ft. north of 89th avenue (Ridgewood avenue), Richmond Hill, Queens.

APPEARANCES—

For Applicant: Samuel Rosenblum and James Tisdale.

For Opposition: W. J. Smart, John Grenier, George Lawson and others.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

MINUTES

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon ... 2

THE RESOLUTION:

(794-23-BZ)

WHEREAS, Samuel Rosenblum, for Tisdale Lumber Company, owner, filed, Nov. 30, 1923, an application, under the building zone resolution, to permit the maintenance of sheds on a plot of ground partly in an unrestricted and partly in a residence district, to be used for business purposes; premises west side of 130th street, 313.42 ft. north of 89th avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 8, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 130th street is an unrestricted and residence district and 89th avenue is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered Oct. 1, 1923, in acting on Plan No. 865-23 N. B., reads:

"1. The erection of a storage shed within a residence district would be contrary to article 2, sec. 3 of the zoning resolution.";

and

WHEREAS, the proposed buildings are to be of frame construction, one story in height, with a frontage of 20 ft., 34 ft. and 20 ft., respectively, and a depth of 87 ft., 20 ft. and 20 ft., to be used for manufacture and storage of sash and trim; and

WHEREAS, under the provisions of section 7, subdivision c, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure be limited in height to a one-story shed, entirely open on the front; that there shall be no open flame maintained on the premises; and that the use of the property within the residence district be limited to the storage of window sash and frames.

1111-23-BZ.

APPLICANT—Eidlitz & Hulse, for the New York Telephone Company.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a two times district the erection of the street walls of a building without a setback to a height in excess of that set by the building zone resolution.

PREMISES AFFECTED—139-147 West street, 90-100 Barclay street, 208-222 Washington street and 86-108 Vesey street, Manhattan.

APPEARANCES—

For Applicant: Cornelius J. Sullivan.
For Opposition: None.

ACTION OF BOARD—Laid over to January 25, 1924, at 10 a. m., on request of applicant's representative.

673-23-BZ.

APPLICANT—John De Hart, for Heiman Sontag & Rosa Sontag, owners.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—666-676 Central avenue, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Chairman read application to withdraw. Application withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon ... 2

542-23-BZ.

APPLICANT—Short & Riggs, for Joseph A. Sullivan, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the alteration and extension of an existing garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—249-251 Adelphi street, Brooklyn.

APPEARANCES—

For Applicant: John T. Riggs.
For Opposition: None.

ACTION OF BOARD—Granted extension of time to obtain permit.

THE VOTE TO EXTEND TIME FOR OBTAINING PERMIT—

Affirmative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon ... 2

THE RESOLUTION:

(542-23-BZ)

WHEREAS, William F. Conran, for Joseph A. Sullivan, owner, filed, May 3, 1923, an application, under the building zone resolution, to permit in a residence district the alteration and extension of an existing garage for the storage of more than five (5) motor vehicles; premises 249-251 Adelphi street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, June 12, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Adelphi street and Clermont avenue are residence districts, and De Kalb avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered April 23, 1923, in acting on App. No. 7233-23, reads:

"Denied—Proposition contrary to the Zone Resolution. Art. 2, Sec. 3 and 6, Altering and enlarging a public garage in a residential district, Sec. 3.

"Previous change of use under Sec. 6 not noted in papers.";

and

WHEREAS, the existing building is of non-fireproof construction, two stories in height, with a frontage of 25 ft. and 50 ft. and a depth of 126 ft. 8 in.; it is proposed to extend the garage at the front to occupy the entire plot, the building as altered to be 50 ft. by 126 ft. 8 in. in area; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 89 per cent of the property frontage deemed by the board to be affected; and

WHEREAS, this application was granted by the board at its meeting, June 12, 1923, on certain conditions, and applicant requested a modification of the time limit in which to obtain permits.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that all permits necessary for the prosecution of the work be obtained within 60 days and the building completed within one year

MINUTES

from the date of this action; that the front of the building shall be finished in front brick with architectural terra cotta or stone trimmings; that the design of the front elevation shall be substantially in accordance with the drawings submitted in this appeal; that the rear and gable walls of second story shall be unpierced; that the skylights shall be glazed with plain glass equipped with wire guards above and below.

1437-23-BZ.

APPLICANT—Frank Case Hayden, for Edward Waldron and Fannie Hass, owners.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—235-249 West 154th street, Manhattan.

APPEARANCES—

For Applicant: Frank Case Hayden.

For Opposition: John F. Morney.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby	5
Negative	0
Absent: Mr. Beatty and Fire Chief Kenlon ...	2

THE RESOLUTION:

(1437-23-BZ)

WHEREAS, Frank Case Hayden, for Edward Waldron and Fannie Hass, owners, filed, Dec. 6, 1923, an application under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 235-249 West 154th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 8, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 154th street is a business district, West 155th street is an unrestricted district and Macombs place is a business and unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered Nov. 26, 1923, in acting on N. B. App. 577-23, reads:

"1. Proposed occupancy is contrary to the provisions of Section 4, Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of fireproof construction, one story and basement in height, with a frontage of 203 ft. 9 in. and a depth of 99 ft. 11 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, owing to the character and use of adjoining property, the board deemed that there would be hardship

in preventing applicant from erecting the proposed structure.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure shall be of fireproof construction limited to one story in height above grade, with roof of flat design and construction, with floor area subdivided in equal parts by a fireproof wall extending to the roof, with not more than 2 vehicular openings in this division wall, equipped with automatic fire doors; that the rear wall shall be unpierced throughout its entire height and length; that any skylights installed shall be glazed with plain glass, protected above and below with wire guards; that the front elevations on 154th street and Macombs place shall be finished with face brick and architectural terra cotta or stone trimmings; that there shall be no vehicular entrance on the Macombs place front of the building, nor within twenty-five feet of same on 154th street; that the sills of any windows on Macombs place shall be not less than six feet above sidewalk grade; and that there shall be no roof signs erected on these premises;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

34-20--BZ.

APPLICANT—Beckman, Menken & Griscom, for New Pine Street Real Estate Corporation, owner.

SUBJECT—Application for extension of time (re: decision of superintendent of buildings) to permit in a B area district the omission of a rear yard.

PREMISES AFFECTED—31-33 Pine street, Manhattan.

APPEARANCES—

For Applicant: Stanwood Menken.

For Opposition: None.

ACTION OF BOARD—Application to reopen laid over to Jan. 25, 1924, at 10 a. m.

AREA FIXED.

(776-23-BZ)

The chairman presented and read a communication from Robert Kaplan, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises north side of Eastern boulevard and Revere avenue, The Bronx.

The following area was approved by the board:

Both sides of Eastern boulevard, from Augusta place to a point 400 ft. east of the proposed garage; both sides of Harriet place from St. Raymond's Cemetery to Eastern boulevard; also both sides of Revere avenue from Eastern boulevard to a point 400 ft. south of proposed garage.

Adjourned 1:45 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

NOTICE

As this issue of the BULLETIN goes to press before the date of special meeting of the Board of Standards and Appeals scheduled for Friday, January 11, 1924, for the con-

sideration of the Gas Shut-Off rules, the action of the Board, with the rules as adopted, will be published in the BULLETIN of January 22, 1924.

MINUTES

PETITIONER—Alfred A. Berube Co., Inc., for Samuel Russin and Solomon Hanfling, owners.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES—134 W. 28th street, Manhattan.

APPEARANCES—

For Petitioner: Nathan Fendrick, Alfred A. Berube.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott... 11

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1198-23-S)

WHEREAS, Alfred A. Berube Co., Inc., for Samuel Russin and Solomon Hanfling, owners, filed, Oct. 19, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 134 West 28th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered Oct. 9, 1923, reads:

"On September 21, an objection was made that windows on second floor on course of fire escape were not fireproof as shown on plans and stated in application and on October 9th, objection read:

"Window referred to is directly on course of fire escape as the stairs connecting 2nd and 3rd floor balconies cross portion of window and entire window is only about 24 in. underneath 3rd floor balcony;"

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 80 ft. in area in the 1st story and 25 ft. by 60 ft. above. OCCUPIED: 1st story, store, 10 persons; 2nd to 5th stories, factory, 40 persons. EXITS: An interior stairway and a 60 degree fire escape at the front of the building; and

WHEREAS, petitioner contends that the large plate glass window on the 2nd story is not on the course of the fire escape.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to the window on the second story, on condition that a flame shield shall be provided on the underside of the third story balcony and the soffit of iron stairs between the 3rd and 2nd story balconies, and that the window in question be made stationary, glazed with plate glass not less than 1/4 in. in thickness.

1236-23-S.

PETITIONER—Moritz Neuman, lessee.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—304 Pearl street, Manhattan.

APPEARANCES—

For Petitioner: Mortimer Neuman, Moritz Neuman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott... 11

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1236-23-S)

WHEREAS, Moritz Neuman, lessee, filed, Oct. 30, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 304 Pearl street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 23, 1923, reads:

"Order No. 48124-LD:

"1. Arrange iron bars on windows so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for purposes of egress * * *";

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 22 ft. 6 in. by 97 ft. 9 in. in area; OCCUPIED for the storage of leather, 4 persons in the entire building. EXITS: An interior stairway and a fire escape on the front of the building; and

WHEREAS, there are three windows at the rear of the 2nd story and two windows at the rear of the 1st story obstructed by iron bars; and

WHEREAS, petitioner contends that if there were no bars on windows, no insurance company would insure against theft and that he has placed hinged doors in each of the barred windows and asks, in view of the small occupancy, the acceptance of same.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the la-

MINUTES

bor law and that the petition be and it hereby is *granted on condition* that the lower section of the barred windows shall be arranged with a movable section opening outward, of size sufficient for egress.

1276-23-S.

PETITIONER—Allied Drug & Chemical Corp., for N. Y. Building & Improvement Co., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES—2413 Third avenue, rear, The Bronx.

APPEARANCES—

For Petitioner: Ephram Freedman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Rville, Kleinert, Moore and McDermott... 11

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1276-23-S)

WHEREAS, Allied Drug & Chemical Corp., lessee, filed, Nov. 8, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 2413 Third avenue (rear), The Bronx; and

WHEREAS, the order of the fire commissioner, dated August 1, 1923, reads:

"1. Provide an outside iron balcony fire escape on the west side of building * * *";

and

WHEREAS, the building is non-fireproof, 32 ft. by 112 ft. in area, and consists of two sections separated by a brick partition wall; the westerly section being two stories and attic in height, the easterly section is two stories in height. OCCUPIED: 1st story, mfg. of drugs, 12 persons; 2nd story, mfg. of drugs, 6 persons; 3rd story, storage of drugs, 1 person. EXITS: One open wooden stairway, extending from 1st story to 3rd story, with EGRESS in 1st story through the loft to a doorway 60 ft. away leading to dock.. and

WHEREAS, petitioner contends that additional egress from 2nd story may be had through windows opening on roofs of one-story sheds.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a balcony fire escape embracing one window at the westerly end of the building, be erected at 2nd story, with a 60 degree fixed iron stairs therefrom to yard, and *granted on further condition* that no persons shall be employed above the 2nd story.

1315-23-S.

PETITIONER—F. P. Keniston, for Morris Magaril, owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—33 Moore street (rear), Brooklyn.

APPEARANCES—

For Petitioner: F. P. Keniston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Connell, Deputy Fire Com-

missioner Hannon, Superintendents Brady, Rville, Kleinert, Moore and McDermott... 11

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1315-23-S)

WHEREAS, F. P. Keniston, for Morris Magaril, owner, filed, Nov. 15, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 33 Moore street (rear), Brooklyn; and

WHEREAS, the order of the fire commissioner, dated July 10, 1923, reads:

"Order No. 48611-LD:

"2. Provide safe and unobstructed egress from the lower termination of the fire escape at south side of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet through-out, leading to the street * * *.

"3. Extend the interior stairway at the west side of building to the roof * * *";

and

WHEREAS, the building, situated on the rear of the lot, is frame, four stories in height, 25 ft. by 25 ft. in area. OCCUPIED: 1st story, vacant at present; 2nd story, vacant at present; 3rd story, mfg. of shoe uppers, 5 persons; 4th story, mfg. of shoe uppers, 6 persons. EXITS: One interior wooden stairway, enclosed in wooden partitions extending from the 1st story to the top story with iron ladder to scuttle in the roof; a fire escape on the front of the building, with a gooseneck ladder to roof and a drop ladder to yard; windows along course of fire escape are non-fireproof, with EGRESS through public hallway of tenement on front of lot to the street and also to yard at east by means of gate in fence; ROOF to west same height, to east 10 ft. lower; and

WHEREAS, petitioner contends there is a window on the 4th story opening to the roof of a building to the east and requests in view of the light occupancy (less than 10 persons per story) that the existing means of exit be accepted.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to Item No. 2 *on condition* that a standard fire escape, in accordance with the labor law, shall be provided on rear, with stationary stair from lowest balcony to yard, with egress from termination through opening in fence to adjoining premises to east and also through unobstructed passageway of the tenement house on the front of the lot; and *granted* as to Item No. 3 *on condition* that a fixed double rung iron ladder shall be provided in the top story hall to scuttle in roof; and *granted* only so long as conditions as to use and occupancy remain substantially unchanged.

1369-23-S.

PETITIONER—Joseph Mitchell, for Estate of James Slater, owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—102 West 29th street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Petition dismissed.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Rville, Kleinert, Moore and McDermott... 11

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

MINUTES

THE RESOLUTION:

(1369-23-S)

WHEREAS, Joseph Mitchell, for Charles G. Keller, lessee, filed, Nov. 24, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 102 West 29th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated Oct. 30, 1923, reads:

"Order No. 51008-LD:

"1. Arrange the fire escape at the rear of building * * *.

"NOTE: Among the defects noted on this fire escape are the following: Windows on course not fireproof, not self-closing. No 60 deg. stairways connecting balconies. No stairway from top balcony to roof. No stairway from lowest balcony to ground. No safe balcony at second story. No passageway from termination of fire escape to street.";

and

WHEREAS, the building is non-fireproof, five stories and basement in height, 21 ft. 4 in. by 81 ft. in area. OCCUPIED: 1st and 2nd stories, factory; 3rd, 4th and 5th stories, dwelling. EXITS: An interior wooden stairway, extending from the 1st story to the top story; windows along the course are not fireproof nor self-closing; ROOFS of adjoining buildings 10 and 20 ft. lower; and

WHEREAS, the records of the tenement house department disclose that this building is occupied as a tenement; and

WHEREAS, the board deemed that the matter should be referred to the tenement house commissioner for such action as he considers necessary.

Resolved, that the petition be and it hereby is *dismissed* as improperly before the board.

676-23-S.

PETITIONER—Mrs. Ira G. Hill, for Union Table Co. lessee.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—140-144 Metropolitan avenue, Brooklyn.

APPEARANCES—

For Petitioner: None.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Messrs. Boulton, Holland, Kerby, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert and McDermott 8

Negative: Chairman Walsh, Mr. Connell and Superintendent Moore 3

Absent: Mr. Beatty and Fire Chief Kenlon ... 2

THE RESOLUTION:

(676-23-S)

WHEREAS, Mrs. Ira G. Hill, for Union Table Co., lessee, filed, June 1, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 140-144 Metropolitan avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated April 19, 1923, reads:

"1. Enclose the interior stairway at west side of building serving as a required means of exit, and the

landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the cellar to 3 feet above the roof * * *.

"3. Arrange the fire escapes on the rear of buildings and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of sections 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals or carry out a proper alternative method of complying with the requirements of section 271 of the Labor Law.

"NOTE: Among the defects noted on this fire escape are the following: Windows on course not fireproof, not self-closing. No 60 degree connecting stairways. No stairway from lowest balcony to the ground, not screened to a height of 4 feet 6 inches. No hand rails. No passageway from termination of fire escape to street.";

and

WHEREAS, the building is non-fireproof, six stories in height, 46 ft. by 35 ft. in area. EXITS: One interior wooden stairway from 1st to top story, with ladder to scuttle in roof, enclosed in wood partitions; no doors at openings; a fire escape on the rear of the building, extending from roof to 1st story, with drop ladder to yard; windows along course covered with iron shutters, with egress through door in brick wall to adjoining premises. ROOFS to east and west 2 stories lower. OCCUPIED AS FOLLOWS: Cellar, storage; 1st story, storage; 2nd story, mfg. tables and office, 5 persons; 3rd story, mfg. tables, 4 persons; 4th story, mfg. tables, 2 persons; 5th story, mfg. tables, 2 persons; 6th story, storage; and

WHEREAS, petitioner contends that the building is small and not more than 15 persons are employed in the building at any time; and

WHEREAS, this petition was granted by the board at its meeting, July 17, 1923, on condition that the existing stair partition shall be fire retarded and fireproof, self-closing doors provided at openings leading to stairway, and on further condition that the elevator shaft shall be enclosed in accordance with the fire retarding rules of the board of standards and appeals, and granted as to Item No. 3 on condition that 60 degree connecting ladders shall be provided to the existing fire escape with drop ladder in guides to yard, and granted so long as egress from yard is maintained through opening to the west and the conditions as to occupancy and use remain substantially unchanged; and

WHEREAS, petitioner requests a modification of the conditions to be relieved of enclosing stairway and proposes to comply with the conditions as to fire escape, to provide an interior alarm system with central office connection and to use top story for storage only.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the present sheathed enclosed stairs shall be maintained and that any openings to the stairs shall be equipped with self-closing doors; that all windows on the course of the fire escape shall be made fireproof, and that the hoistway on each floor shall be equipped with automatic sheet iron trap doors and that the rear fire escape shall be equipped with 60 degree connecting stairs, with gooseneck ladder to roof and counterbalanced drop ladder in guides to yard, and that the windows on the course of the fire escape shall be fireproof, self-closing.

1216-23-S.

PETITIONER—Lehman-Stern Co., lessee.

SUBJECT—Variation of labor law as cited in order of superintendent of buildings.

PREMISES AFFECTED—43-45 East 30th street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert and McDermott 9
Negative: Mr. Connell and Superintendent Moore 2
Absent: Mr. Beatty and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1216-23-S)

WHEREAS, Lehmann-Stern Co., for 45 East 30th Street Corp., owner, filed, October 25, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the superintendent of buildings, affecting premises 43-45 East 30th street, Manhattan; and

WHEREAS, the order of the superintendent of buildings, dated September 11, 1923, reads:

"In that wood partitions have been constructed on the 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th and 14th stories in violation of section 264 of the Labor Law.;"

and

WHEREAS, the building is fireproof, 14 stories in height, 39 ft. 2 in. by 98 ft. 9 in. in area in the 1st story and 39 ft. 2 in. by 88 ft. 9 in. in area above; OCCUPIED as a tenant factory, with 15 persons on the 2nd story; the means of egress consisting of two interior fireproof enclosed stairways, extending from the 1st story to the roof, with fireproof passage from rear stairway to the street, the 2nd floor being subdivided by $\frac{7}{8}$ in. sheathing cabinet partitions 7 ft. high, separating stock-room, show-rooms and offices, which is the story occupied by the petitioner; and

WHEREAS, petitioner contends that these partitions are similar to those used throughout the city and that they form a part of the office equipment and do not interfere with access to the stairway.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects the 2nd story only, on condition that the existing temporary subdividing partitions shall not extend beyond the southerly partition of the stair hall at the front of building and shall not exceed a height of 7 ft. and that the space between the partitions and ceiling shall be maintained clear and unencumbered, and that the labor law shall be complied with in all other respects.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the regular meeting of the board of appeals, held Tuesday morning, December 18, 1923, as they appeared in Bulletin No. 52, Vol. VIII, are hereby corrected to read as follows:

THE RESOLUTION:

(333-23-A)

WHEREAS, Armon Realty Corp., owner, filed, March 16, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 220-2 Ely avenue, Long Island City, Queens; and

WHEREAS, the order of the fire commissioner reads:

"6. Provide an unpierced fireproof wall in the opening that leads from the factory to the enclosure where automobiles with gasoline in fuel tanks are stored on 1st story. Sec. 159, ch. 10, Code of Ord."; and

**Correction—Words "in operation at any time that automobiles are stored on the premises" added in line 24.*

WHEREAS, the building is non-fireproof, one story in height, 72 ft. by 106 ft. in area; OCCUPIED as offices, 6 persons; shop, 10 persons; and two-car garage; and

WHEREAS, this appeal was granted by the board at its meeting, May 15, 1923, on certain conditions in the preamble of the resolution, the appellant having referred to the installation of doors at loading platform; and

WHEREAS, appellant requests a modification of the resolution and proposes to omit the doors.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there be no open flame, furnace or Bunsen burner device maintained in operation at any time that automobiles are stored on the premises; that no gasoline be stored on the premises other than that in tanks of cars; that the garage capacity be limited to two (2) automobiles, the property of the owner, restricted in use to the conduct of his business; and that the building remains a one-story structure.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the regular meeting of the board of appeals, held on Wednesday morning, January 2, 1924, as they appeared in Bulletin No. 2, Vol. IX, are hereby corrected to read as follows:

THE RESOLUTION:

(438-22-BZ)

WHEREAS, Burke & Olsen, for Annie Wenig, owner, filed, March 24, 1922, an application, under the building zone resolution, to permit in a business district the conversion of an existing building to a public garage, premises 6402-6 Fourth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting July 5, 1922, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Fourth avenue, 64th and 65th streets are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered March 9, 1922, in acting on App. No. 3605, reads:

"Denied—Proposition contrary to Zone Law, Art. II, Sec. 4."; and

and

**Correction—The words "be used on the premises," inserted in last line.*

WHEREAS, the existing building is of non-fireproof construction, 2 stories in height, with a frontage of 50 ft. and a depth of 100 ft. at 1st story and 30 ft. at 2nd story; occupied, store and dwelling; it is proposed to change the occupancy to garage for more than 5 motor vehicles and caretaker's apartment; and

WHEREAS, there existed on this street between the intersecting streets, on July 25, 1916, a stable for more than 5 horses; and

WHEREAS, this application was granted by the board at its meeting July 5, 1922, on certain conditions, and applicant requested a modification of these conditions.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the garage use be limited to fifteen (15) automobiles, and that the separation of the garage portion from the business portion of the building shall be by fireproof wall, any openings therein to be protected with self-closing, fireproof doors.

Resolved, further, that permission is granted to make repairs by manual operation incidental to the conduct of the business *on condition* that no motor driven machinery be used on the premises, other than a one-half horse power electric driven lathe.

RULES ADOPTED

AMENDMENT TO THE PLUMBING RULES—ADOPTED JANUARY 8, 1924.

Rule No. 137.

Where "Flushometers" are used, they must be supplied from tank pressure, unless otherwise permitted by the Superintendent of Buildings; the rising lines shall be at least one and one-half inches in diameter, and the main

branches shall be at least one and one-quarter inches in diameter, with individual branches not less than one inch in diameter for water-closets and not less than one-half inch in diameter for urinals. Individual branches shall not exceed twelve inches in length.

RULES ADOPTED

*AMENDMENT TO THE EXIT RULES—REVOLVING DOORS—ADOPTED JANUARY 8, 1924.

Rule 1. Classification of Revolving Doors For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

**Amendment consists of the removal of the comma after the word "revolving doors" in line 6 of rule 5.*

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

1545-21-A—Pier 2, between Main and Dock streets, Brooklyn.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or departmental actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

RULES

REPORTING STRUCTURAL ALTERATIONS, AD
Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

LABOR DEPARTMENT, UNDER CAL. 352-16-S. Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

NOTICE

Copies of the revised Plumbing Rules or Fuel Oil Rules* may be obtained, without charge, on application at the office of the Board of Standards and Appeals, or will be mailed, to those desiring same, if the request for the Plumbing Rules or Fuel Oil Rules is accompanied by a nine and one-half inch envelope, stamped and addressed. Four cents postage required for each.

*Inasmuch as proposed amendments to the Fuel Oil Rules are now pending, before the Board of Standards and Appeals, the publication of said rules, in pamphlet form, will be deferred until the proposed amendments have been acted upon. In the meantime, applications for these rules may be sent in and, upon publication, the pamphlet will be mailed to those who have applied for same.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES ADOPTED

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

PUBLIC HEARING

PROPOSED AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF FUEL OILS.

(217-21-S)

NOTICE IS HEREBY GIVEN that the public hearings on the Fuel Oil Rules were closed as of this date, December 14, 1923.

The proposed amendments with revisions, which are printed below, will be considered for approval by the Board of Standards and Appeals at the regular meeting to be held on Friday, January 18, 1924, at 2 p. m.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit, in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil to be used for commercial heating and power purposes shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness or twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth (1¼) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter (1¼) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter (1¼) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

PUBLIC HEARING

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below:

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in

excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to substitute riveting in part or for the entire tank, the tank shall be fabricated.

(b) All welded seams of plates shall be lapped not less than two (2) inches, welded both inside and outside. Plates shall be pulled up tight metal to metal before welding. Outside and inside welds shall be of a uniform cross section with minimum thickness of weld not less than thickness of plate being welded.

(c) Braces shall be butt welded with area of welded surface at least equal to the cross-section area of the brace. No weld in bracing member itself, nor bracing member to body of tank, shall be so welded as to put the welds in tension.

(d) Heads shall be flanged not less than two (2) inches and set into shell and welded inside and out. All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

PUBLIC HEARING

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire weight of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanketing gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure shall be determined as follows: The height from the lowest point in the tank to the highest reservoir from which the tank may be filled, times a factor of two and one-half (2.5) based on the weight of water. In no case shall a hydrostatic test be less than twenty-five (25) pounds per square inch for riveted tanks and not less than thirty (30) pounds per square inch for welded tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conduct-

ing the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than three hundred (300) pounds per square inch. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The

PUBLIC HEARING

automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40x40 non-corrodible wire mesh, and shall be of sufficient area to permit proper inflow of liquid during the filling operation and two (2) inches in diameter on all tanks above 550 gallons capacity, and in no case to be less than 1 1/4 inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with a return bend protected by a non-corrodible 40x40 wire mesh screen. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided on both sides of each strainer in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner. An outside readily accessible valve shall be provided in all supply lines entering buildings from tanks.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than 18 degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Fire Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

PUBLIC HEARING

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

RULES FOR THE STORAGE AND USE OF GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed top and side in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. If soil conditions warrant, tanks shall be completely enclosed with reinforced concrete, with at least a 6-inch space on sides between tank and concrete filled with sand or well tamped earth, and with 12 inches of sand on top of tank.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, galvanized steel or wrought iron of not less than No. 14 U. S. Gauge, tanks of a capacity of over 60 gallons and not more than 550 gallons shall be constructed of galvanized steel not less than 3/16 inches in thickness.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

(d) Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

See Rule 10 for Gauging device.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes. Vent pipes shall be not less than 1 1/2 inches in diameter.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners.

Overflow pipes shall be not less than one size larger than supply pipe to burner.

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the suction line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board

PUBLIC HEARING

or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and

such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade A or Grade B fuel oil within the meaning of these rules unless such type of device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS.

Amended Resolution Adopted by the Board of Appeals, March 16, 1920, Under Cal. No. 549-17-BZ.

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

RULES

SPRINKLER AND STANDPIPE EQUIPMENT IN ONE STORY GARAGE BUILDINGS.

Adopted by the Board of Standards and Appeals, April 19, 1920, Under Cal. No. 179-20-S.

Under the powers conferred upon it by Section 718a of the Charter, the Board of Standards and Appeals does hereby make rules and regulations for the carrying into effect of the provisions of Section 72, subdivision L, and Section 581 of Chapter 5 of the Code of Ordinances as follows:

Resolved, that the provisions of Section 72, subdivision L of Chapter 5, of the Code of Ordinances, shall not apply to buildings not exceeding one story in height, the purpose of which is occupancy as a garage, motor vehicle repair shop, or oil selling station, which buildings do not exceed an area of 15,000 sq. ft. when located on an interior lot or when facing on only one street or 24,000 sq. ft. when facing

on two streets or 30,000 sq. ft. when facing on three streets; provided that the building is equipped with an approved system of automatic sprinklers or with a line of $2\frac{1}{2}$ in. pipe carried around the interior walls of the building or attached to the columns which carry the roof girders and connected with the street main by 2 in. tap and sufficient length of hose, and from which line branches are taken for the house service.

Resolved, further, that under the provisions of Section 581, subdivision 4 of Chapter 5 of the Code of Ordinances, in similar structures, a line of $2\frac{1}{2}$ in. pipe connected with the street main by 2 in. tap and sufficient length of hose at intervals of 100 ft. or less shall be deemed a standpipe within the meaning of this section, but no siamese connection need be provided on condition that the pressure in the street main shall be not less than 45 lbs.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

OFFICE HOURS—9 a. m. to 5 p. m., Saturdays, 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Meeting, Board of Appeals, January 15, 1924.

Minutes of meeting, Board of Standards and Appeals, January 15, 1924.

Minutes of Special Meeting, Board of Standards and Appeals, January 11, 1924.

Correction.

Rules Adopted.

Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in the Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition, shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, January 22, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, January 29, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon .. 2

THE RESOLUTION:

(900-23-A)

WHEREAS, S. Casino, for Casino & Catalucci, lessees, filed, July 14, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 339-341 Lafayette street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 3, 1923, reads:

"Section 232-2, chapter 10, code of ordinances, prohibits the storage of nitro-cellulose products in any building artificially lighted by means other than electricity and in any building which is not equipped with an improved two-source system of automatic sprinklers.

"You are, therefore, ordered to:

"1. Forthwith remove all nitro-cellulose products.";

and

WHEREAS, the building is non-fireproof, three stories in height, 30 ft. by 100 ft. in area. OCCUPIED: 1st story, stores; 2nd story, mfg. and offices; 3rd story, manufacturing, 5 tenants, four of whom are setting stones in celluloid novelties, 25 persons; the means of egress consisting of two interior stairways enclosed in fire resisting material; the building being lighted by electricity; and

WHEREAS, appellant contends that he carries no stock, just receiving goods, setting stones and immediately sending goods out.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the sprinkler system as approved under resolution of Cal. 1282-23-A be installed in accordance therewith and the conditions of said appeal be complied with.

233-23-A.

APPELLANT—Samuel Rosenblum, for Dominant Realty Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1835 Carter avenue, The Bronx.

APPEARANCES—

For Appellant: Samuel Rosenblum.

ACTION OF BOARD—Laid over to February 5, 1924, at 2 p. m., on request of appellant.

1306-23-A.

APPELLANT—Gold Beekman Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—61 Beekman street, Manhattan.

APPEARANCES—

For Appellant: Harry R. Berlinicke.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1306-23-A)

WHEREAS, Gold Beekman Corp., owner, filed, November 14, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 61 Beekman street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 17, 1923, reads:

"Order No. 49639-F:

"1. File plans for sprinkler system. Said plans and sprinkler system must conform to the Rules of the Board of Standards and Appeals and be approved by this Department. Sec. 20, Ch. 12, code of ordinances."

The decision of the fire commissioner, rendered October 15, 1923, in acting on Alt. App. No. 1201-23, reads:

"1. Main drain riser must be 2 inches in diameter, floor drains to same must be 1¼ in.

"2. Are the heads controlled by the 2½ inch valve adjacent to Ann St. 1st floor exposed to cold weather?

"3. Pressure tank must have at least 5,000 gal. water capacity.";

and

WHEREAS, the building is fireproof, seven stories and basement in height, 22 ft. by 98 ft. in area, fronting on Beekman and Ann streets; OCCUPIED by manufacturing jewelers, 200 persons in the building; and

WHEREAS, the building is equipped with a sprinkler system supplied from two tanks, containing 6,666 gals. of water available for the sprinkler system, which requires only 4,300 gals., figuring 43 sprinkler heads to a fire area.

Resolved, that the order of the fire commissioner, as it relates to Item 3, be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that two pressure tanks, the minimum total capacity of which shall not be less than 6,000 gallons, be maintained, and *granted* so long as conditions as to occupancy and use remain substantially unchanged; and that the order, as to Items 1 and 2, be and it hereby is *affirmed*, and the appeal as to these items be and it hereby is *denied*.

715-23-A.

APPELLANT—Charles B. Meyers, for Molan Realty Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—51-53 Maiden lane, Manhattan.

APPEARANCES—

For Appellant: Charles B. Meyers.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon .. 2

THE RESOLUTION:

(715-23-A)

WHEREAS, Charles B. Meyers, for Molan Realty Corp., owner, filed, June 7, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 51-53 Maiden lane, Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 9, 1923, reads:

"9. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at east, west and north

MINUTES

sides of building, or other approved protection. Sec. 375, Art. 18, Ch. 5, code of ordinances.”;

and

WHEREAS, the building is fireproof, twelve stories in height, 39 ft. 2 in. by 139 ft. in area, equipped with a standpipe; OCCUPIED as offices, 35 persons per story; and

WHEREAS, there are four (4) windows in the 6th story and six (6) windows in the 9th story in the east wall at the front which are within 50 ft. of the adjoining roof; there is one (1) window in the 8th story and there are three (3) windows in the 9th story in the east wall at rear, which are within 50 ft. of an adjoining roof; there are approximately eight (8) windows on each story in the westerly wall at the rear which are within 30 ft. of openings in an adjoining building and there are approximately ten (10) windows in each story in the northerly wall above the 6th story which are within 50 ft. of an adjoining roof; and

WHEREAS, appellant contends that the building is used solely as an office building; no manufacturing is done; nothing hazardous or inflammable is stored within the building, and that the building adjoining to the west is fireproof and the other adjoining buildings are of such use that there is little likelihood of the spread of fire.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* so long as the existing protection and use of adjoining buildings remain unchanged.

861-23-A.

APPELLANT—Regum Amusement Company, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—60-62 West 116th street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Laid over to February 5, 1924, at 2 p. m.

1149-23-A.

APPELLANT—William F. Doyle, for Leader Theatre Corp., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1114-1120 Liberty avenue, Brooklyn.

APPEARANCES—

For Appellant: William F. Doyle.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1149-23-A)

WHEREAS, William F. Doyle, for Leader Theatre Corp., lessee, filed, Oct. 5, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 1114-20 Liberty avenue, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered October 2, 1923, in acting on N. B. Application No. 751-20, reads:

“1. Provide a 3500 gallon gravity tank on roof for standpipe fire line.

“2. Provide an electric pump with a capacity of 250 gallons per minute, supplied by 25 H. P. electric motor and a 5,000 gallon suction tank constructed of steel or reinforced concrete.”;

and

WHEREAS, the building is fireproof, one story in height, 66 ft. 6 in. by 98 ft. 8¾ in. (6,563 sq. ft.) in area; OCCUPIED as a motion picture theatre with 888 seats, and no stage or balcony; the means of egress consisting of regulation exits to Liberty avenue; two exits to Lincoln avenue and two exits to a 9 ft. court at the side; there are two small stores at the front, separated from the theatre portion by an unpierced brick wall and fireproof ceiling; and

WHEREAS, appellant contends, as to Item No. 1, that the building is only 6,500 sq. ft. in area, that there is no stage, scenery or dressing rooms and no occupancy above the auditorium, and proposes to install a 4 in. direct connected to city main standpipe system with risers and hose outlets so placed that not more than 100 ft. of 2½ in. hose shall be required to reach all parts of the auditorium; that the building complied with all other requirements of article 25, chapter 5, code of ordinances, as to construction and portable fire extinguishers, and as to Item No. 2, in view of the fact that the theatre has no balcony and no occupancy above auditorium; there is a fire hydrant 100 ft. from the entrance on Liberty avenue and 150 ft. from exit on Lincoln avenue.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a standpipe system be installed with a four-inch direct connection to street main, fed two ways; standpipe to be equipped with necessary outlets and hose, etc.

1188-23-A.

APPELLANT—Frank S. Schwaner, for the Studebaker Corp., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—611-621 West 131st street, Manhattan.

APPEARANCES—

For Appellant: Frank S. Schwaner.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,

Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1188-23-A)

WHEREAS, Frank S. Schwaner, for Studebaker Corp., owner, filed, October 18, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 611-21 West 131st street, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered August 31, 1923, reads:

“6. Capacity of the gravity tank in excess of 25,000 gals. will have to be determined by the Board of Standards and Appeals.”;

and

WHEREAS, the building is fireproof, six stories in height, 197 ft. 6 in. by 172 ft. 3 in. (34,000 sq. ft.) in area. OCCUPIED: 1st story, garage and office, 8 persons; 2nd story, repair shop and show room, 10 persons; 3rd, 4th, 5th and 6th stories, auto storage and repairs, 10 persons per story; and

WHEREAS, appellant proposes to install a 36,000 gallon tank to supply the sprinkler system.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the tank be equipped in all respects in accordance with the rules of the board of standards and appeals, and that the structural requirements of the building code shall be complied with.

MINUTES

1241-23-A.

APPELLANT—James P. Whiskeman, for Wilpin Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—52-54 William street, Manhattan.

For Appellant: James P. Whiskeman and Arthur C. Bang.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 6

Absent: Mr. Beatty 1

THE RESOLUTION:

(1241-23-A)

WHEREAS, James P. Whiskeman, for Kuhn, Loeb & Co., lessee, filed, October 31, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 52-54 William street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 9, 1923, reads:

"1. Repair and place in proper working order standpipe system and comply with the following:

"A—Provide a tank on roof of at least 3,500 gallons capacity for the standpipe system, said tank to be so elevated that the bottom will be not less than 20 feet above the roof level.";

and

WHEREAS, the building is fireproof, twenty-one (21) stories in height, 68 ft. 5½ in. by 91 ft. ¾ in. in area; OCCUPIED as an office building; and

WHEREAS, appellant contends that the 21st story is a pent house used only for storage purposes and that located therein is a 4,000 gallon tank used jointly for house and standpipe supply; that this arrangement was approved in 1902, the date of erection.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1260-23-A.

APPELLANT—Delaware Co. Farm Products Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—614 West 49th street, Manhattan.

APPEARANCES—

For Appellant: Eugene Silber.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Fire Chief Kenlon. 5

Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(1260-23-A)

WHEREAS, Delaware County Farm Products Co., lessee, filed, Nov. 5, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 614 West 49th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 19, 1923, reads:

"1. Install an approved oil separator, trap or other similar apparatus. * * *";

and

WHEREAS, the building is non-fireproof, three stories in height, 50 ft. by 123 ft. in area. OCCUPIED: 1st story, garage for storage of five motor trucks and cold storage

room; 2nd story, office, 4 persons; 3rd story, dwelling, 4 persons; and

WHEREAS, appellant contends that a permit was issued by the fire department for the storage of four motor trucks without an oil separator installation; that there are only five trucks stored and in view of the proximity (250 ft.) of river asks to be relieved of installing an oil separator system.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1263-23-A.

APPELLANT—Baclend Motor Service Corp., for J. J. Meenan, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—430 West 55th street, Manhattan.

APPEARANCES—

For Appellant: Joseph Ross.

For Administration: Inspector Lenihan of fire department.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Fire Chief Kenlon.. 5

Negative 0

Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(1263-23-A)

WHEREAS, Baclend Motor Service Corp., lessee, filed, Nov. 5, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 430 West 55th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 11, 1923, reads:

"Order No. 20392-LC:

"Section 232-2, chapter 10, code of ordinances, prohibits the storage of nitro-cellulose products in any building occupied as a church or other place of public assembly.

"You are, therefore, ordered to:

"1. Forthwith remove all nitro-cellulose products.";

and

WHEREAS, the building is fireproof, six stories in height, 87 ft. 9 in. by 100 ft. in area; OCCUPIED as garage and auto painting and repair shop; and

WHEREAS, appellant contends that only a small amount of celluloid for automobile side curtains is used, and this is purchased as needed.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that not more than five (5) pounds of sheet celluloid be stored on premises, same to be maintained in a metal box.

1275-23-A.

APPELLANT—Allied Drug & Chemical Corp., for N. Y. Building & Improvement Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—2413 3rd avenue (rear), The Bronx.

APPEARANCES—

For Appellant: Ephram Freedman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Fire Chief Kenlon ... 5

Absent: Messrs. Beatty and Kerby 2

MINUTES

THE RESOLUTION:

(1275-23-A)

WHEREAS, Allied Drug & Chemical Corp., lessee, filed, November 8, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 2413 Third avenue (rear), Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated August 1, 1923, reads:

"Order No. 49229-LF:

"1. Provide automatic fire doors on each side of division wall at the three openings in same on 1st story between rear of No. 2415. Section 20, Chapter 12, code of ordinances.";

and

WHEREAS, the building is non-fireproof, 32 ft. by 112 ft. in area, consisting of two sections separated by a brick partition wall, the westerly section being two stories and attic in height and the easterly section being one story in height; in the westerly wall there are three unprotected openings leading to an adjoining one-story building. OCCUPIED: 1st and 2nd stories, manufacturing of drugs, 18 persons; 3rd story, storage of drugs, 1 person; and

WHEREAS, appellant contends that to provide fire doors on both sides of these openings would interfere with conveyors which carry the completely manufactured products to the shipping rooms, and the openings are but 4 ft. by 2 ft. and start 3 ft. above the floor.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1293-23-A.

APPELLANT—Orla Rubsamen, owner.

SUBJECT—Appeal from decision of fire commissioner.

BUILDING ZONE CASES.

750-23-BZ.

APPLICANT—William F. Doyle, for Wolcott Holding Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district erection and maintenance of garage for storage of more than five (5) motor vehicles.

PREMISES AFFECTED—8114-8122 18th avenue, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: Nicholas Selvaggi, Ruben R. Krefetz and W. G. Bushell.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Beatty	1

THE RESOLUTION:

WHEREAS, William F. Doyle, for Wolcott Holding Corp., owner, filed, June 14, 1923, an application under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 8114-8122 18th avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 18th avenue and 84th street are business districts and 81st street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered April 13, 1923, in acting on Application No. 6603-23, reads:

“Denied—Proposition contrary to the Zone Resolution. Art. II, Sec. 4. A public garage in a business district.”;

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 177 ft., irregular, to be occupied as a garage for more than five motor vehicles, the remainder of property on which garage is located to be improved with stores and dwellings on the 18th avenue and on the 81st street front; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a garage for more than five motor vehicles, and a committee of the board visited the premises and made certain recommendations.

REPORT OF COMMITTEE OF INSPECTION:

On December 6, 1923, a Committee of this Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Holland and Boulton, visited these premises.

The application is based on Section 7-c. The property embraced is now used and occupied as a plant and tree nursery, with dwelling, greenhouses in bad repair and other shacks common thereto, containing extensive heaps of fertilizer. This property runs from 18th Avenue westerly for a depth of 270 feet, to a public roadway, used by abutting owners on same as a right-of-way to 84th Street.

The basis of appeal is established by the existence of a public garage located approximately 240 feet southerly on 18th Avenue. The original application was for a garage use for the entire property. Additional drawings were subsequently filed, indicating business use in the nature of stores and dwelling above same on 18th Avenue and 84th Street fronts, with one runway through the building on 18th Avenue, locating the garage on the rear of the property.

As a practical proposition, it seems improbable and contrary to the utility and practical use to believe that the rear of property is either available or attractive enough for development.

Practical consideration should be entertained by this Board for a reasonable use of the rear of this property, with such restrictions as would safeguard the adjoining owners and maintain the integrity of 18th Avenue and 84th Street.

The application is within reason, is practical with safeguarding restrictions as to the vehicular entrance on 18th Avenue, but as the Building Department has not passed on the plan filed for the store development on the street fronts, the Committee recommends that the applicant should apply to the Superintendent of Buildings for a new determination affecting the revised plans, and, therefore, reserve decision pending such action of the Superintendent of Buildings.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
ALFRED J. BOULTON,
JAMES P. HOLLAND.

December 13, 1923.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the garage proposed on this property shall be set back 80 feet from 18th avenue and also from the 81st street front; that

MINUTES

the garage building shall be limited to one story in height with roof of flat design and construction; that the northerly and southerly gable walls shall be unpierced throughout their entire height and length, with the exception of one vehicular exit, within the business district, at the extreme northeasterly corner of building, exiting to 81st street; that the passageway to 81st street shall be constructed of unpierced walls and ceilings of fireproof material; that opening at street front shall be provided with solid doors; that any openings in the easterly rear wall of the garage shall be restricted to windows equipped with fireproof sash and frames and glazed with translucent glass; that there shall be no exit or entrance by driveway, courtway or passageway to 18th avenue;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building erected within eighteen months from the date of this action.

497-23-BZ.

APPLICANT—Charles B. Meyers, for S. C. La Vine, Inc., owner.

THE RESOLUTION:

(1190-23-BZ)

WHEREAS, A. F. and O. J. Realities Co., owner, filed, October 18, 1923, an application, under the building zone resolution, to permit the extension from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises 4693 Third avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Third avenue is an unrestricted district and East 187th and 188th streets are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered July 17, 1923, in acting on N. B. Application No. 2127-23, reads:

"1. Extension of proposed garage for more than 5 motor vehicles into business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 80 ft. $\frac{3}{4}$ in. and a depth of 122 ft. 11 in., and 80 ft. $8\frac{1}{2}$ in. irregular, to be occupied as a garage for more than five motor vehicles; a small triangular portion 18 ft. by 35 ft. extending into the business district; and

WHEREAS, under the provisions of section 7, subdivision B, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the walls of that portion of the structure within the business area of the plot shall be unpierced throughout their entire height and length; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action; and that there shall be no wood trusses employed in the construction of the garage.

1192-23-BZ.

APPLICANT—Philip J. Sinnott, for Isidor Stark, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district erection and maintenance of garage for storage of more than five (5) motor vehicles.

Absent: Mr. Beatty	1

THE RESOLUTION:

(1375-23-BZ)

WHEREAS, William Tilden Koch, for Frank N. Dowling, owner, filed, November 26, 1923, an application, under the building zone resolution, to permit the extension from a business district into a residence district of a proposed addition to an existing business building, all to be used for business purposes; premises 52 East 57th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 57th street is a business district and East 56th street and Park avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 21, 1923, in acting on Alt. App. No. 2588-23, reads:

"No. 4. Business is unlawful in rear portion of building which lies within a residence district, Article 11, Building Zone Resolution."

and

WHEREAS, the existing building is of non-fireproof construction, four stories and basement in height, with a frontage of 27½ ft. and a depth of 110 ft., irregular; it is proposed to extend the building at rear in the 1st story and basement, the extension to project about 25 ft. into the residence district; and

WHEREAS, under the provisions of section 7, subdivisions B and C, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations

of the building zone resolution, and that the application be and it hereby is granted on condition that the extension be restricted to a two-story building, not exceeding 20 ft. in height, any openings in the rear wall to be restricted to windows, and that any openings in the easterly gable wall of said extension be glazed with translucent glass; that all permits necessary for the prosecution of the work be obtained within nine months and the building completed within eighteen months from the date of this action.

APPLICANT—Samuel A. Pinnell, owner.

SUBJECT—Application for extension of permit (re: order of fire commissioner) to maintain a garage for four cars.

PREMISES AFFECTED—1167 New York avenue, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Chairman read application, Renewal of permit granted for two years.

THE VOTE TO RENEW PERMIT FOR TWO YEARS:

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby	5
Negative	0
Absent: Mr. Beatty and Fire Chief Kenlon ..	2

THE RESOLUTION:

(100-20-BZ)

WHEREAS, Samuel A. Pinnell, owner, filed, February 9, 1920, with the board of appeals, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for four motor vehicles, space in which is rented to persons not residing on premises; premises 1617 New York avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, March 9, 1920, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that New York avenue and Cortelyou road are both located in residence districts; and

WHEREAS, the order of the fire commissioner, No. 56128-LC, dated December 29, 1919, reads:

"Maintenance of your garage is a violation of section 3 of article 2 of the building zone resolution of the Board of Estimate and Apportionment of the City of New York, adopted July 25, 1916, inasmuch as motor vehicles stored are for sale, for rent, or for hire or are subject to charges for storage. * * *

"You are, therefore ordered to remove all motor vehicles the fuel tanks of which are not empty, stored by others than the occupants of dwellings on lot where garage is situated.";

and

WHEREAS, the premises consist of a plot of ground, on the front of which is located a two-family residence, and on the rear a one-story, non-fireproof garage, with a frontage of 30 ft. and a depth of 10 ft., occupied for the storage of four motor vehicles, two the property of the occupants of the dwelling on the front of the lot, and two rented to persons not residing on premises; and

WHEREAS, it appears that the premises is located in an undeveloped neighborhood and under section 7, subdivision f of the building zone resolution the board is empowered to grant temporary permits in a case of this character; and

WHEREAS, this application was granted by the board at its meeting, March 9, 1920, for a temporary period of one year and applicant appeared before the board and requested a further extension of the permit at its meeting Sept. 13, 1921, and again at the meeting Jan. 5, 1923.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it hereby is *granted* for a temporary period of two years from the date of this action, limiting the storage to four automobiles, space for two of which may be rented to persons not residing on the premises.

1111-22-BZ.

APPLICANT—Julius Miller, President of the Borough of Manhattan, for the City of New York.

SUBJECT—Application for extension of permit (re: decision of superintendent of buildings) to permit the erection of a building with the omission of rear yard as required by the zone resolution.

PREMISES AFFECTED—35 West 134th street, Manhattan.

APPEARANCES—

For Applicant: Frank H. Hines.

For Opposition: None.

ACTION OF BOARD—Granted extension of time to obtain permit.

THE VOTE TO GRANT EXTENSION OF TIME—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby	5
Negative	0
Absent: Mr. Beatty and Fire Chief Kenlon ..	2

THE RESOLUTION:

(1111-22-BZ)

WHEREAS, Hon. Julius Miller, borough president, for City of New York, owner, filed, September 12, 1922, an application, under the building zone resolution, to permit in a "B" area district the erection and maintenance of a building with the omission of rear yard as required by the zone resolution, premises 35 West 134th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, October 3, 1922, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 134th street, Lenox and 5th avenues, are "B" area business use districts; and

WHEREAS, the decision of the superintendent of buildings, rendered September 7, 1922, in acting on N. B. App. No. 464-1922, reads:

"2. A rear yard should be provided, section 12 and 16, Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of fireproof construction, 3½ stories in height, with a frontage of 75 ft. and a depth of 100 ft., to be occupied as a public bath house, the area of side courts provided being in excess of that required by law; and

WHEREAS, there would be practical difficulties in the way of erecting a building of this character to a less depth than indicated; and

MINUTES

WHEREAS, the board deemed that the application should be granted in view of the excess side court area; and

WHEREAS, this application was granted by the board at its meeting, October 3, 1922, on certain conditions, and applicant requested a modification of the time limit conditions.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that all permits necessary for the prosecution of the work be obtained within one year, and the building erected within eighteen (18) months from the date of this action.

CASES DISMISSED.

Appeals from Administrative Orders.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(845-23-A)

Filed July 2, 1923—Premises 530 West 58th street, Manhattan. Order of the fire commissioner. Appellant, American Povar Corp. Dismissed for lack of prosecution.

(902-23-A)

Filed July 16, 1923—Premises 155-159 East 23rd street, Manhattan. Order of the fire commissioner. Appellant, 157 East 23rd Street, Inc. Dismissed for lack of prosecution.

(906-23-A)

Filed July 16, 1923—Premises 558-570 West 34th street and 388-394 11th avenue, Manhattan. Order of the fire commissioner. Appellant, George McCabe. Dismissed for lack of prosecution.

(968-23-A)

Filed August 1, 1923—Premises north side of West 157th street, 175 ft. east of 8th avenue, Manhattan. Order of the fire commissioner. Appellant, William J. Howe Co. Dismissed for lack of prosecution.

(979-23-A)

Filed August 3, 1923—Premises 97 Chambers street, Manhattan. Order of the fire commissioner. Appellant, Baker, Murray & Imbrie, Inc. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby	5
Negative	0
Absent: Mr. Beatty and Fire Chief Kenlon ..	2

THE RESOLUTION:

WHEREAS, the foregoing appellants have filed, with the board of appeals, appeals from orders affecting the premises in question; and

WHEREAS, the appellants have failed to complete their papers, though duly notified to do so.

Resolved, that the foregoing appeals be and they hereby are dismissed for lack of prosecution.

CASES DISMISSED.

Under the Building Zone Resolution.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(718-23-BZ)

Filed June 8, 1923—Premises 171-183 Prospect place, Brooklyn. Decision of the superintendent of buildings. Applicant, Murray Klein. Dismissed for lack of prosecution.

(849-23-BZ)

Filed July 3, 1923—Premises 178-180 New Jersey avenue, Brooklyn. Decision of the superintendent of buildings. Applicant, Harry Hurwitz. Dismissed for lack of prosecution.

(853-23-BZ)

Filed July 3, 1923—Premises 980-1004 Jamaica avenue, Brooklyn. Decision of the superintendent of buildings. Applicant, Charles D. Cords. Dismissed for lack of prosecution.

(897-23-BZ)

Filed July 12, 1923—Premises 1455-1503 Coney Island avenue, Brooklyn. Decision of the superintendent of buildings. Applicant, Louis A. Sheinart. Dismissed for lack of prosecution.

(916-23-BZ)

Filed July 18, 1923—Premises 1236-1246 East 17th street, Brooklyn. Decision of the superintendent of buildings. Applicant, Irving Seelig. Dismissed for lack of prosecution.

(953-23-BZ)

Filed July 27, 1923—Premises 2073 Prospect avenue, The Bronx. Order of the fire commissioner. Applicant, August Mugler. Dismissed for lack of prosecution.

(974-23-BZ)

Filed August 2, 1923—Premises 6111 Spencer avenue, The Bronx. Order of the fire commissioner. Applicant, May Kirch. Dismissed for lack of prosecution.

(975-23-BZ)

Filed August 2, 1923—Premises 4408 17th avenue, Brooklyn. Order of the fire commissioner. Applicant, Della Forman. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby	5
Negative	0
Absent: Mr. Beatty and Fire Chief Kenlon ..	2

THE RESOLUTION:

WHEREAS, the foregoing applicants have filed with the board of appeals applications under the building zone resolution, affecting the premises in question; and

WHEREAS, the applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the applications be and they hereby are dismissed for lack of prosecution.

MINUTES

AREAS FIXED. (349-23-BZ)

The chairman presented and read a communication from John Kaplan, requesting the board to fix an area deemed affected and within which to obtain consents for the maintenance of garage; premises 84 S. Washington street, Jamaica, Borough of Queens.

The following area was approved by the board:
Both sides of Washington street from a point 400 ft. north to a point 200 ft. south of the premises in question, also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned 2:20 p. m.
WILLIAM J. O'GORMAN, *Secretary*.

SUBJECT—Variation of labor law as cited in order of fire commissioner.
PREMISES AFFECTED—22 Spruce street, Manhattan.
APPEARANCES—None.
ACTION OF BOARD—Laid over to January 22, 1924, at 2 p. m.

1134-23-S.
PETITIONER—Rudolph P. Miller, for Earlington Realty Corp., owner.
SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.
PREMISES AFFECTED—49-55 West 27th street, Manhattan.
APPEARANCES—
For Petitioner: Rudolph P. Miller.
ACTION OF BOARD—Petition granted on condition
CONDITIONS—As specified in resolution.
THE VOTE TO ADOPT REPORT OF COMMITTEE—
Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott 9
Negative 0
Absent: Messrs. Beatty, Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon 4

THE VOTE TO GRANT—
Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott 10
Negative 0
Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon 3

THE RESOLUTION:

(1134-23-S)

WHEREAS, Rudolph P. Miller, for Earlington Realty Corporation, owner, filed, Sept. 28, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 49-55 West 27th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered Sept. 21, 1923, reads:

"4. Stairs must be properly enclosed and extend to street.

"6. The two means of exit provided for each floor are not remote from each other.";

and

WHEREAS, the building is fireproof, ten stories in height, 100 ft. by 86 ft. in area. OCCUPIED: Basement, stores, 50 persons; 1st story to 10th story, offices, sample rooms and mfg., 55 persons per story; the means of egress consisting of an interior stairway, extending from the 1st story to the roof, enclosed in fireproof partitions with fire doors at the openings; an exterior stairway at the center of the building, extending from the 1st story to the 10th story in the court immediately adjoining the interior stairs, with egress from the foot of this stairway through ground floor corridor to street; two fire

MINUTES

escapes on the rear of the building, one on each side, with egress from the foot of the fire escape through the cellar to street, the doors to the exterior stairway in the 1st story opening into the corridor, the doors to various offices open in; there being automatic sliding doors in each story above the 1st story at the openings to the interior stair enclosure; there is also in the corridor 1st story large plain glass show windows of stores east and west sides; these show windows have wooden frames; and

WHEREAS, petitioner proposes to provide F. P. S. C. doors at openings to interior stairway and contends that the means of egress from the foot of the exterior stairway is adequate and that there are two means of escape, one through main corridor and one through side passageway, that to alter the present arrangement of show windows opening on the main corridor would be a hardship on the owner; and that the present exterior stairs was installed in 1920 to provide additional means of exit; and

WHEREAS, a committee of the board visited the premises and reported:

REPORT OF COMMITTEE OF INSPECTION—

On December 28, 1923, a committee of the Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Holland, Kerby, Connell, Boulton, Superintendent Reville and Chief Inspector Heatley of the Bronx Building Bureau and Assistant Engineer Huber of the Board visited these premises, which are under petition for variation of the Labor Law requirements.

The petition was brought on six objections from the Superintendent of Buildings, from 1 to 6 inclusive. The petitioner now proposes and seeks a variation only on Objections 4 and 6.

Objection 4 requires stairs to be properly enclosed and extended to the street. The stairs embracing the passenger elevator well is enclosed in brick walls with two openings to adjoining corridors. The petitioner proposes to install self-closing, fireproof doors at these openings, thereby practically segregating main stairs. These main stairs terminate at street level and in this main entrance corridor the partition walls on either side now have several large window openings, constructed of wood frames, glazed with plain plate glass, to stores in the basement and 1st story level. There is also in this corridor a fair size cigar stand.

On this, the Board believes that if the main entrance corridor is maintained unencumbered and a steel sash substituted for the wooden sash and glazed with wire glass, a proper and reasonably safe condition will prevail and the main stair condition can be accepted.

As to Item 6, to the rear of the main stairs there is an exterior iron stairway, extending from the top story to the basement, exit to which there is provided at each story a passageway enclosed with fireproof partition on either side of the interior stairway, permitting separate egress by means of this fire-escape distinct from the main stairway exit.

The Board believes that if egress is provided by means of passageway at basement level, leading through a runway, a reasonable and safe secondary means of egress is provided.

On compliance with the foregoing recommendations, the Committee recommends the granting of this petition.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
HENRY L. CONNELL,
ALFRED J. BOULTON,
JAMES P. HOLLAND,
JOHN C. KERBY,
P. J. REVILLE.

December 31, 1923.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the recommendations set forth in the report of the committee of inspection shall be complied with, and *granted* as to Item No. 4 *on condition* that the cigar stand or any other encumbrance in the main entrance hall shall be removed and that a steel sash of similar dimensions to existing wooden sash and glazed with wire glass shall be substituted for the present wooden sash in the partition walls of the entrance corridor, and *granted* as to Item No. 6 *on condition* that the rear exterior iron stairway shall be maintained from the top story to the basement, egress from which shall be through freight entrance independent of the main entrance and said basement passageway to be cut off from the main corridor by self-closing fireproof doors and that the window at the basement story level in the rear stair enclosure shall be built up with masonry, and that the openings to interior stairway on each story shall be equipped with self-closing fireproof doors separating said corridors from the main stair well; and *granted on further condition* that the factory occupancy shall not exceed 25 per cent of the floor area in accordance with the requirements of the building zone resolution.

719-23-S.

PETITIONER—Sigmund Schuler, for United Cigar Stores Co. of America, lessee.

SUBJECT—Variation of labor law as cited in orders of fire commissioner.

PREMISES AFFECTED—169-171 Broadway, 1-11 Cortlandt street, Manhattan.

APPEARANCES—

For Petitioner: Sigmund Schuler.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE—

Affirmative 0

Negative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott 10

Absent: Mr. Beatty, Fire Chief Kenlon and Deputy Fire Commissioner Hannon 3

THE RESOLUTION:

(719-23-S)

WHEREAS, Sigmund Schuler, for United Cigar Stores Co. of America, lessee, filed, June 7, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 169-171 Broadway, 1-11 Cortlandt street, Manhattan; and

WHEREAS, the orders of the fire commissioner read:

Order No. 45197-LD, dated April 10, 1923:

"1. Arrange the doors leading to the stairway on all stories upon which five or more persons are employed so as to open outwardly without obstructing the stairway, as per section 271 of the Labor Law."

Order No. 47530-F, dated May 26, 1923:

"1. Install an adequate interior electric fire alarm system in accordance with the Rules of the Board of Standards and Appeals and the enclosed approved layout."

and

WHEREAS, the building is non-fireproof, six stories in height, 56 ft. 6¼ in. by 106 ft. 1½ in., OCCUPIED as follows: Basement, restaurant, 50 persons; 1st and 2nd stories, stores, offices and photo printing, 24 persons; 3rd story, offices, restaurant and optician supplies, 50 persons; 4th, 5th and 6th stories, light manufacturing and offices, 93 persons;

MINUTES

the means of egress consisting of an interior stairway, extending from the 1st story to the 6th story, enclosed in metal covered partitions, with fire doors at the openings; three sets of fire escapes, one on the front and two on the rear of the building, with two counterbalanced drop ladders to street and one counterbalanced stair to street, with fireproof windows and doors along the course of the fire escape;

WHEREAS, petitioner contends that the work of enclosing the stairway and reconstructing the fire escape was done under a modification granted by the board of standards and appeals under Cal. No. 11-23-S and that this modification practically included the requirements of the present orders and that to make proposed changes in the stair enclosure would be a hardship at this time; and

WHEREAS, it appears that there are but 8 doors involved in the order.

Resolved, that the orders of the fire commissioner be and they hereby are *affirmed*, and the petition be and it hereby is *denied*.

1401-23-S.

PETITIONER—F. P. Keniston, for Penn Trading Company, Inc., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—213 West 33rd street, Manhattan.

APPEARANCES—

For Petitioner: F. P. Keniston.

PETITIONER—F. P. Keniston, for William W. Schneider, lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—36 Bond street, Manhattan.

APPEARANCES—

For Petitioner: F. P. Keniston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott	10
Negative	0
Absent: Mr. Beatty, Fire Chief Kenlon and Deputy Fire Commissioner Hannon	3

THE RESOLUTION:

(1428-23-S)

WHEREAS, F. P. Keniston, for William W. Schneider, lessee, filed, December 5, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 36 Bond street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 25273-LD, dated July 19, 1921, reads:

"1. Arrange the fire escape at the east side of 2nd story portion of building and the openings leading thereto and the windows opening on the course thereof * * *.

"NOTE: Among the defects noted on this fire escape are the following:

"Windows on course not self-closing.

"No 60 degree connecting stairways between balconies.

"No stairway from top balcony to roof.

"No passageway from termination of fire escape to street.

"Skylight under fire escape not wire glass.

"Fire escape needs painting.

"2. Provide additional means of exit from cellar and basement. Said exits to be located at the rear of building, as per Section 271 of the Labor Law."

and

WHEREAS, the building is non-fireproof, four stories, basement and cellar in height, 27 ft. by 95 ft. in area at 1st and 2nd story and 27 ft. by 60 ft. in area above. OCCUPIED: Cellar, feather drying, 1 person; basement, main building, store, 1 person; basement, extension, feather dyeing, 3 persons; 1st floor, main building, store, 1 person; 1st floor, extension, manufacture buckram hats, 3 persons; 2nd floor, main building, manufacture hats, 3-8 persons; 2nd floor, extension, manufacture hats, 2-4 persons; 3rd floor, main building, manufacture caps, 4 persons; 4th floor, main building, manufacture caps, 2 persons. EXITS: An interior wooden stairway extending from 1st to top story with ladder to scuttle in roof, enclosed in lath and plaster partitions at 2nd and 3rd story, fire retarded at 4th story, with wooden doors at openings; three fire escapes, one standard, on front of building, extending from 2nd to top story, with counterbalanced stairway to street, a sub-standard fire escape on rear of building at four-story portion of structure extending from roof to 1st story, with EGRESS across an iron bridge to roof of one-story extension of adjoining premises; windows along course of fire escape are non-fireproof; also a sub-standard fire escape (referred to in orders) is on the side of the two-story rear extension, with balconies taking in one window of the 1st and 2nd stories and ladder to yard; EXIT from basement is by way of steps to street at front and to hall corridor; exit from cellar is by means of steps up yard and interior stairway to hall corridor; adjoining roofs are at same level; and

WHEREAS, petitioner proposes to connect 1st story balcony of existing fire escape on the two-story extension with the iron bridge to east leading to adjoining premises, to reduce the angle of the double rung ladder to 60 degrees, to provide wire glass in skylight of the one-story extension under the fire escape; and asks acceptance of present exits from basement and cellar in view of the light occupancy.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the fire escape shall be carried across the rear of the building, embracing both windows on the 2nd story and that 60 degree connecting stairs shall be provided to a bridge extending from rear wall of main building to rear of extension with a platform connected to roof of one-story extension; and that the hall partition on the 1st story shall be fire-retarded, any openings therein to be made self-closing and fireproof; and *granted* as to Item No. 2 *on condition* that the cellar shall be maintained vacant and that an exit therefrom shall be maintained at the front of the building direct to the street; and *granted* only so long as the conditions as to occupancy and use otherwise remain unchanged.

267-18-S.

PETITIONER—Samuel Merl.

SUBJECT—Application for reopening—petition for variation of labor law as cited in order of fire commissioner.

THE RESOLUTION:

(267-18-S))

WHEREAS, Walter Haefeli, architect, R. E. Pinchot, owner, filed, April 2, 1917, a petition, with the board of standards and appeals, for variation of section 79-b, labor law, as cited in Order No. 57675-LD of the fire commissioner, affecting premises 215 West 76th street and 2160 Broadway, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Provide an outside iron balcony fire escape on the Broadway side of building with balconies 4 ft. in width, connected by stairways not less than 22 in. wide, placed at an incline of not more than 45 degrees, extending from ground to roof, constructed as per section 79B-4 of the Labor Law, or carry out a proper alternative method of complying with Section 79-B-1 of the Labor Law.";

and

WHEREAS, the building is fireproof, four stories high, 25 ft. 6 in. by 86 ft. 3 in. in area; occupied as a tenant factory, with not more than 16 persons employed above the first story at any time; the means of egress consist of an interior stairway extending from first story to roof, enclosed in 4-in. terra cotta block partitions with fire doors at openings; and

WHEREAS, it is the contention of the petitioner that, owing to the size of windows in the front wall, which windows extend from floor to ceiling and are 19 ft. wide, divided into three parts, each part glazed with one sheet plate glass; it is impossible to erect a fire escape; and

WHEREAS, this petition was granted by the board at its meeting Nov. 12, 1918, on certain conditions, and petitioner requested a modification of these conditions.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that a fire escape shall be installed and maintained on the 76th street front at the center of the building, with counterbalanced drop ladder in guides from lowest balcony to street, the fire escape to comply with the labor law in all other respects except as to fireproofing of the windows along the course thereof; and on further condition that the occupancy shall not exceed 25 persons above the 2nd story; and granted only so long as conditions otherwise remain unchanged.

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent McDermott 4

THE RESOLUTION:

(1088-23-S)

WHEREAS, Isidore Babushkin, for Portbush Realty Company, owner, filed, July 10, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 41 West 36th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated October 18, 1923, reads:

"5. Exit facilities conforming to Section 271 must be provided in case the building is converted to a factory.";

and

WHEREAS, the building is non-fireproof, five stories in height, 20 ft. by 99 ft. in area at the 1st story, 20 ft. by 88 ft. at 2nd and 3rd stories and 20 ft. by 48 ft. on 4th and 5th stories. EXITS: One interior wooden stairway, extending from 1st story to roof, enclosed in fireproof partitions with fire doors at openings; ROOFS to east and west 80 ft. in height. OCCUPIED: 1st story, millinery stock, 2 persons; 2nd story, millinery stock, 2 persons; 3rd story, hat and feather mfg., 15 persons; 4th story, mfg. dresses, 15 persons; 5th story, mfg. furrier, 15 persons; and

WHEREAS, the petitioner proposes to erect a 45 degree fire escape on the rear of the premises with balcony at 5th story level, with landing on extension roof on the 4th story, balconies at 2nd and 3rd stories and balcony at extension roof level with gooseneck ladder to main roof; and EGRESS from termination of fire escape on 2nd story by bridge connecting balcony with fire escape of building adjoining, and wishes to be relieved of extending the fire escape stairway to the roof, also providing fire windows at top balcony of fire escape, on the grounds that there is no egress from the roof, and requests also the acceptance of the proposed fire escape and egress from the foot of proposed fire escape; and

WHEREAS, this petition was withdrawn at the meeting Dec. 4, 1923, and restored to calendar by vote of the board Jan. 15, 1924.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to a second means of exit, on condition that a rear fire escape shall be erected from the 5th story to extension roof

MINUTES

on the 3rd story, with egress therefrom to fire escape on rear of the building, terminating on the 2nd story, with egress through fireproof passageway to street of adjoining premises to the east; and *granted on further condition* that the ceiling of the 3rd story extension shall be fire-retarded in accordance with the rules and regulations of the board of standards and appeals, and that the labor law shall be complied with in all other respects and that the occupancy shall not exceed 45 persons above the 2nd story.

1363-22-S.

PETITIONER—Louis A. Sheinart, for Fise Realty Co., owner.

SUBJECT—Application for reopening—variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—13 West 31st street, Manhattan.

APPEARANCES—

THE VOTE TO MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert and Moore	9
Negative	0
Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent McDermott	4

THE RESOLUTION:

(1363-22-S)

WHEREAS, Louis A. Sheinart, for Fise Realty Co., owner, filed, November 14, 1922, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 13 West 31st street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Arrange the fire escape at the rear of building * * * Section 273 and 274 of the Labor Law.

"Among the defects noted on this fire escape are the following:

"No passageway to street from lowest termination.

"Windows on course not properly automatic self-closing.

"Doors on course not self-closing."

and

WHEREAS, the building is non-fireproof, 5 stories in height, 25 ft. by 93 ft. in area in the 1st story and 25 ft. by 84 ft. above; occupied, 1st story, store; 2nd, 3rd, 4th and 5th stories, factory, 15 persons each story; the means of egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in wood stud, wire lath and cement plaster partitions with fire doors at the openings; a fire escape on the rear of the building, with landing in yard and fireproof windows along the course of the fire escape; and

WHEREAS, petitioner contends that the premises were altered in 1919 and at that time consent was filed with the superintendent of buildings for the use of adjoining premises as a means of egress from yard and that the fire escape was accepted by the bureau of buildings; and

WHEREAS, this petition was granted by the board at its meeting Feb. 13, 1923, on certain conditions and petitioner requested a modification of these conditions.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the fire escape shall be continued to the yard from the 2nd story extension, egress from termination to be maintained through this and the yard of adjoining premises.

CASE DISMISSED.

Variation of the Labor Law.

The chairman called attention to the following case, where notice of intention to petition was offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1120-23-S)

Filed Sept. 26, 1923—Premises 434-440 East 165th street, The Bronx. Order of the fire commissioner, labor law. Petitioner, Eva Holtz. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Kleinert, Reville and Moore	9

BOARD OF STANDARDS AND APPEALS

*CORRECTION.

The minutes of the meeting of the board of standards and appeals, held January 2, 1924, as they appeared in Bulletin No. 2, Vol. 9, are hereby corrected to read as follows:

THE RESOLUTION:

(1320-23-S)

WHEREAS, George Provot, for N. Y. Galleries, Inc., lessee, filed, November 16, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 417-419-421 Madison avenue, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered November 14, 1923, reads:

"2. Safe egress should be provided from bottom of fire escape to street by means of fireproof passageway through building.";

and
WHEREAS, the building is non-fireproof, five stories in height, 58 ft. 6 in. by 96 ft. in area at the 1st and 2nd stories and 58 ft. 6 in. by 85 ft. in area above. OCCU-

*"5" in line 18 changed to "15."

PIED: 1st to 4th stories, furniture show rooms, 40 persons; 5th story, furniture show rooms and cabinet making, polishing, varnishing, etc., 15 persons. PROPOSED EXITS: One interior fireproof stairway extending from 1st story to roof, with fire doors at openings; a standard fire escape, excepting for egress from termination, on the rear of the building, extending from roof to yard, with fireproof windows along course; EGRESS from termination of fire escape is proposed through 3 ft. 8 in. opening in fence to yard of premises to rear with egress from this yard through cellar of No. 31 E. 48th street and through fire escape on premises No. 42 E. 49th street; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner requests that the egress from termination of fire escape be accepted.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the skylight at the rear of the 1st story shall be glazed with wire glass, and that the fire escape shall comply with the labor law in all respects, except as to egress from the termination, which shall be provided by maintaining a clear and unobstructed opening in the fence to the premises at rear 31 East 48th street, with egress therefrom and 44 East 49th street.

RULES ADOPTED

AMENDMENT TO THE PLUMBING RULES—ADOPTED JANUARY 8, 1924.

Rule No. 137.

Where "Flushometers" are used, they must be supplied from tank pressure, unless otherwise permitted by the Superintendent of Buildings; the rising lines shall be at least one and one-half inches in diameter, and the main

branches shall be at least one and one-quarter inches in diameter, with individual branches not less than one inch in diameter for water-closets and not less than one-half inch in diameter for urinals. Individual branches shall not exceed twelve inches in length.

NOTICE

As this issue of the BULLETIN goes to press before the date of special meeting of the Board of Standards and Appeals scheduled for Friday, January 18, 1924, for the con-

sideration of the Fuel Oil rules, the action of the Board, with the rules as adopted, will be published in the BULLETIN of January 29, 1924.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanent secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES ADOPTED

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Meeting, Board of Appeals, January 22, 1924.
- Minutes of meeting, Board of Standards and Appeals, January 22, 1924.
- Minutes of Special Meeting, Board of Standards and Appeals, January 18, 1924.
- Corrections.
- Rules Adopted.
- Reserve Calendar.
- Annual Report.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition, shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, January 29, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, February 5, 1924, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman*

1318-23-A.

APPELLANT—William G. Willis, for La Contento Cigar Co., Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—921 3rd avenue, Manhattan.
APPEARANCES—

For Appellant: William G. Willis.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1318-23-A)

WHEREAS, William G. Willis, for La Contento Cigar Co., lessee, filed, November 16, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 921 3rd avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 27, 1923, No. 50062-F, reads:

"1. Provide iron or kalamined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at rear of building, or other approved protection, as per Sec. 375, Article 18, Chapter 5 of the Code of Ordinances."

and

WHEREAS, the building is frame and brick, four stories in height, 20 ft. by 104 ft. in area at 1st story and 20 ft. by 50 ft. in area above. OCCUPIED: 1st story, cigar manufacturer, 10 persons; 2nd story, frame gilder and leather novelties, 2 persons; 3rd story, dwelling, 4 persons; 4th story, dwelling, 2 persons; and

WHEREAS, the windows in the rear wall of the building are within 50 ft. of a one-story extension to the north; and

WHEREAS, appellant contends the exposure consists of a small extension, 12 ft. by 20 ft., at the rear of a drug store to north, used for the storage of non-combustible articles.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that occupancy and use remain substantially unchanged.

1340-23-A.

APPELLANT—G. Erda and H. G. Albers, for Manhattan Show Case Co., owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—131-147 Jewell street and 203-211 Meserole avenue, Brooklyn.
APPEARANCES—

For Appellant: Gustave Erda.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1340-23-A)

WHEREAS, G. Erda and H. G. Albers, for Manhattan Show Case Co., lessee, filed, Nov. 20, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 131-47 Jewell street and 203-11 Meserole avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated August 31, 1923, No. 49549-F, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *";

and

WHEREAS, the building is non-fireproof, two stories (26 ft. 6 in.) in height, 110 ft. 8 in. by 97 ft. 4 in. (11,647 sq. ft.) in area; OCCUPIED for the manufacture of show cases, 20 persons on each story; and

WHEREAS, appellant contends that the building is located on two streets, and only 26 ft. 6 in. in height.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that building be equipped with approved sprinkler system.

147-21-A.

APPELLANT—James J. Walker, for Midwood Theatre, Inc., owner.

SUBJECT—Application for reopening—appeal from order of fire commissioner.

PREMISES AFFECTED—1301-1311 Avenue J, Brooklyn.
APPEARANCES—

For Appellant: J. V. Downey.

ACTION OF BOARD—Laid over to February 5, 1924, at 2 p. m.

1356-23-A.

APPELLANT—Walter Lang, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—100 ft. off the foot of Irving street, Sheepshead Bay, Manhattan Beach, Brooklyn.

APPEARANCES—

For Appellant: Percy J. King and Walter Lang.

For Opposition: C. J. Haggerty.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby and Fire Chief Kenlon 5
Negative 0
Absent: Messrs. Beatty and Connell 2

THE RESOLUTION:

Absent: Messrs. Beatty and Connell 2
(1356-23-A)

WHEREAS, Walter Lang, lessee, filed, Nov. 22, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 100 ft. off the foot of Irving street, Sheepshead Bay, Manhattan Beach, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated Nov. 5, 1923, reads:

"Order No. 83454-LC:

"With reference to your application, for a permit to store petroleum and shale oil at the above location, I regret to inform you that I am without power to grant such a permit for the reason that subdiv. 2 of section

MINUTES

111, chapter 10, code of ordinances provides that a special permit may be issued authorizing the storage of petroleum and shale oil and the liquid products thereof and of coal tar in barges of steel or other approved construction.

"The use of wooden barge for the storage of petroleum products is a violation of the above mentioned section.

"You are therefore ordered to forthwith remove all petroleum and shale oil and the liquid products thereof from the wooden barge located in Sheepshead Bay inlet opposite Irving St., Manhattan Beach, and discontinue the further storage of petroleum and the liquid products thereof on the said barge.";

and
WHEREAS, the premises consist of a barge, 90 ft. long by 27 ft. 6 in. wide, located 110 ft. off the bulkhead at the foot of Irving street, Sheepshead Bay; the barge being constructed of wood and used for supplying petroleum products to boats and launches; and

WHEREAS, appellant contends that he has been in business in Sheepshead Bay for the last twelve years under permit from the fire department and anchorage permit from the captain of the port and that the barge is equipped with chemical fire extinguishers and sand pails, sand boxes and a 1,000 gallon water tank.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the deck and sides of barge to water line be covered with 1-16 in. sheet steel; that the tanks shall be grounded, and that the gasoline storage shall be limited to 6,000 gallons, maintained in two tanks with not more than 3,000 gallons in each tank.

1360-23-A.

APPELLANT—Sarah Teitlebaum, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—329 East Houston street, Manhattan.

APPEARANCES—

For Appellant: Sarah Teitlebaum and Irving W. Teitlebaum.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby and Fire Chief Kenlon 5

Negative 0

Absent: Messrs. Beatty and Connell 2

THE RESOLUTION:

(1360-23-A)

WHEREAS, Sarah Teitlebaum, lessee, filed, Nov. 23, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 329 East Houston street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 1, 1923, No. 20827-LC, reads:

"2. Discontinue use of the drying compartment that is located within the benzine wash room and remove all steam-pipes or other sources of heat therefrom. Section 177-8, Chapter 10, Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, two stories at front and one story at rear, 25 ft. by 43 ft. 8 in. irregular in area; OCCUPIED as a cleaning establishment, with a wet wash drying room adjacent to and separated from a benzine wash room by a metal covered wooden partition with a self-closing door at opening; 9 persons in building; and

WHEREAS, appellant contends that to comply with order would cause the establishment to cease business.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the wet wash drying room be vented directly to the open air by metal duct carried above roof of building; that there shall be not more than one opening from the wet wash drying room, protected with self-closing, fireproof door; and that the benzine system maintained on premises shall be installed in accordance with the approval of the fire prevention bureau.

1380-23-A.

APPELLANT—Frank Bloom, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—Foot of Grant street, 1,000 ft. out from Pier No. 8, Tompkinsville, S. I., Richmond.

APPEARANCES—

For Appellant: Frank Bloom and Percy J. King.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby and Fire Chief Kenlon 5

Negative 0

Absent: Messrs. Beatty and Connell 2

THE RESOLUTION:

(1380-23-A)

WHEREAS, Frank Bloom, lessee, filed, Nov. 26, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1,000 ft. off Pier 8, Tompkinsville, S. I., Richmond; and

WHEREAS, the order of the fire commissioner, dated Nov. 10, 1923, reads:

"Order No. 20998:

"With reference to your application, dated July 12, 1923, for a permit to store gasoline on Barge No. 30, I regret to inform you that I am without power to grant such a permit.

"Section III, subdivision 2, chapter 10, code of ordinances, prohibits the issuance of a permit for barges other than steel or other approved construction.

"You are, therefore, ordered to

"1. Discontinue the storage of gasoline on barge.";

and

WHEREAS, the premises consist of a barge, 81 ft. long and 27 ft. 7 in. wide, located 1,000 ft. out from Pier 8, Tompkinsville, S. I., the barge being constructed of wood; and

WHEREAS, the appellant contends that the nearest building is 3,000 ft. away from the barge and that the barge is used for supplying petroleum products to barges and launches; and further contends that the nearest barge to him is eight miles away and that it would be a hardship on his customers; that his barge is equipped with fire extinguishers, sand pails, sand boxes, etc., and that this station has been in operation for 18 years.

Resolved, that the order of the fire commissioner be and it hereby is *granted on condition* that the deck and sides of barge to water line be covered with not less than 1-16 in. sheet steel; and that the barge shall be anchored with two anchors with not less than 60 fathoms of chain to each anchor.

220-23-A.

APPELLANT—Samuel Rosenblum, for Arnesto Paint Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—42 West 99th street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum and M. Arnstein.

For Administration: Inspector Lenihan of fire department.

MINUTES

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.
THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,
Holland, Kerby and Fire Chief Kenlon 5
Negative 0
Absent: Messrs. Beatty and Connell 2

THE RESOLUTION:

(220-23-A)

WHEREAS, Samuel Rosenblum, for Arnesto Paint Co., owner, filed, Feb. 16, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 42 West 99th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 16170-LC, dated January 20, 1923, reads:

"1. Provide a separate and distinct system of *Automatic Sprinklers* throughout building * * *.

"2. Discontinue the use of building as workshop or factory for window sash or anything else (except paint factory) * * *.

"3. Remove all of the wooden flooring that is saturated with oil or encrusted with dried paint or oil spillage, and replace such flooring with new flooring covered with metal. This is to be done on all stories.

"13. Provide an approved storage system for storage of alcohol or other volatile inflammable liquids * * *.

"17. Cover ceiling of cellar with fire retarding protection * * *."

and

WHEREAS, the building is non-fireproof, five stories and cellar at front and six stories and cellar at rear in height; 25 ft. by 96 ft. in area. OCCUPIED: 1st story, office and glazing sashes, 4 persons; 2nd story, offices and stockroom and shipping, 5 persons; 3rd story, filling room, 1 person; 4th story, grinding paints, 3 persons; 5th story, mixing, 1 person; 6th story (rear part), mixing, 1 person; and

WHEREAS, applicant contends in re: Order No. 2, the factory use is a part of the business of the owner of the building, manufacturing window sashes, which are glazed on the 1st story of this building; and in lieu of the sprinkler system proposes to install an automatic fire alarm system with connection to central headquarters.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item 2 on condition that Items 1, 3, 13 and 17 are complied with.

1351-23-A.

APPELLANT—Simplex Oil Heating Corp., for Rulian Building Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—295-307 St. John's place, Brooklyn.

APPEARANCES—

For Appellant: Herbert Wilson.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Fire Chief Kenlon .. 5
Negative 0
Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(1351-23-A)

WHEREAS, Simplex Oil Heating Corp., for Rulian Building Co., owner, filed, Nov. 22, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 295-307 St. John's place, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered June 26, 1923, in acting on Alt. App. No. 268-23, reads:

"1. Fuel oil storage and equipment is not permitted in a tenement house. No further examination made at this time.";

and

WHEREAS, the building is non-fireproof, six stories in height, 150 ft. by 118 ft. 3 in. irregular in area; OCCUPIED as a tenement house; it is proposed to provide a fuel oil burning installation, "Simplex Oil Burning System"; installation to be made in accordance with the requirements of the fuel oil rules of the board of standards and appeals, using 14 to 16 gravity oil, except that the burner is not an approved type; and

WHEREAS, petitioner contends that an installation using this gravity oil is not prohibited in tenement houses.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the fuel oil equipment proposed in these premises be installed in accordance with the fuel oil rules of the board of standards and appeals adopted January 18, 1924.

1387-23-A.

APPELLANT—William F. Doyle, for P. & M. Building Corporation, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—622-640 West 57th street, Manhattan.

APPEARANCES—

For Appellant: William F. Doyle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Boulton,
Connell, Holland, Kerby and Fire Chief
Kenlon 6
Absent: Mr. Beatty 1

THE RESOLUTION:

(1387-23-A)

WHEREAS, William F. Doyle, for P. & M. Building Corporation, owner, filed, November 27, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 622-640 West 57th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 50488-F, dated October 21, 1923, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *."

and

WHEREAS, the building is fireproof, four stores and basement (55 ft. 6 in.) in height, 223 ft. by 115 ft. (25,600 sq. ft.) in area; OCCUPIED as a public garage and service station, a maximum of 141 persons; and

WHEREAS, appellant contends the gasoline storage is located in the east yard and not in the main building; that the building is fireproof throughout and that the means of exit are ample.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1390-23-A.

APPELLANT—Ed. P. Doyle, for Kneer Amusement Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—Northwest corner of Broadway and 3rd avenue, L. I. City, Borough of Queens.

MINUTES

APPEARANCES—

For Appellant: Edward P. Doyle.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,

Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1390-23-A)

WHEREAS, Edward P. Doyle, for Kneer Amusement Co., owner, filed, November 27, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises northwest corner Broadway and 3rd avenue, Long Island City, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, dated July 20, 1923, No. 719-23, reads:

"1. Bottom of tank must be 20 ft. above the roof level.

"6. Install a fire pump of at least 65 gallons per minute, etc., suctioning from a 5000 gallon tank * * *";

and

WHEREAS, the building is fireproof, two stories in height (orchestra and balcony), 145 ft. by 75 ft. $\frac{1}{4}$ in. in area; OCCUPIED as stores and moving picture theatre, with a seating capacity of 718 in orchestra and 560 in balcony; and

WHEREAS, applicant contends there is no dressing room or stage, and requests permission to omit the fire pump and pressure tank, and in lieu thereof to install a standpipe with direct 4 in. connection to city main in 3rd avenue, with two hose outlets and a gravity tank to be located above the roof of the theatre.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, on condition that a 3500 gallon gravity tank be installed not less than 40 feet above the hose outlet, and *granted*, as to Item 6, on condition that the standpipe equipment be maintained with a two-source supply, one 4 inch connection to street main with not less than a 40-lb. pressure and a gravity tank of not less than 3500 gallons.

WHEREAS, the order of the fire commissioner, dated December 11, 1923, No. 21646-LC, reads:

"The Sprinkler system of the building has no gravity tank.

"You are, therefore, hereby ordered to:

"1—Remove all nitro-cellulose products from the premises.";

and

WHEREAS, the building is fireproof, eight stories in height, 126 ft. by 103 ft. (irregular) in area; equipped with sprinkler system, standpipe and interior fire alarm system. OCCUPIED for stores, show rooms, tenant factories and a proposed celluloid occupancy on the entire 8th (top) story, 295 persons in the entire building; and

WHEREAS, applicant contends the main stock of sheet celluloid will be stored in a standard fireproof vault, the spraying and shipping rooms will be separated from the remainder of the floor by fireproof partition with fire doors at openings; that the existing sprinkler system is supplied with four 7500 gal. pressure tanks maintained two-thirds full under a 75 lb. per square inch pressure; and that there is no torch or open flame used in the process of the manufacture of the celluloid products.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the existing sprinkler system complies with the sprinkler rules of the board of standards and appeals in all other respects and be so maintained.

 THE RESOLUTION:

(1194-23-BZ)
 WHEREAS, Joseph A. Fagnant, for Zaret Bros., Inc., owner, filed, October 18, 1923, an application, under the building zone resolution, to permit in an "F" area district, residence use district, the erection and maintenance of a building to

be used for business purposes, without a setback of 15 ft. from the front lot line as required by the zone resolution; premises south side of Edgemere avenue, 119 ft. west of corner formed by intersection of Beach 35th street and Edgemere avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 22, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that the premises are located in a residence and business district and in a D and F area district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 28, 1923, in acting on N. B. App. No. 14383-23, reads:

"1. The erection of that portion of the proposed building into the Residence F district would be contrary to Art. 2, Sec. 3, and Art. 4, Sec. 15A of the Zoning Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 238 2-3 feet irregular and a depth of 100 feet, to be occupied as stores; and

WHEREAS, the property was purchased with the intention of erecting stores, and after purchase and while plans were being prepared the district was changed to a more restricted use and area by resolution of the board of estimate and apportionment; and

WHEREAS, the board deemed that there would be undue hardship in preventing applicant from erecting the building as contemplated.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure be limited to one story in height; that the wing on 35th street shall not exceed a depth of 65 ft. from street front; that the southerly gable wall on 35th street shall be unpierced throughout its entire height and length, and shall be finished with face brick; that a fence, not less than 6 feet in height, shall be erected and maintained at a line 100 feet deep from Edgemere avenue, across the rear of the property from 35th to 36th streets, on a line with rear walls of return wings of building, thereby maintaining an interior yard 30 feet in depth; and that there shall be no business conducted from the vacant or unimproved portion of the property on 35th street front. There shall not be any projecting wall signs erected on the 35th street front of building, and the necessary permits be obtained within nine months and the building completed within eighteen months.

1066-23-BZ.

Absent: Mr. Beatty 1

THE RESOLUTION:

(1289-23-BZ)

WHEREAS, Samuel Gardstein, for Abclur Realty Corp., owner, filed, November 12, 1923, an application, under the building zone resolution, to permit the extension from a business district into a residence district of a proposed theatre and business building; premises 4515 New Utrecht avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 22, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that New Utrecht avenue is a business district and 45th and 46th streets are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 24, 1923, in acting on App. No. 19545-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 3. Extending a business use into a residential district."; and

and

WHEREAS, the proposed building is to be of fireproof construction, two stories in height, with a frontage of 119 ft. 2 in. and a depth of 136 ft. 10 in. at south and 202 ft. 6 in. at north, to be occupied as theatre and stores; and

WHEREAS, under the provisions of section 7, subdivision C, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the northerly gable wall be unpierced throughout its entire height and length; that any openings to the court, northerly side rear of the building, be limited to two (2) emergency exits; that the open court to the rear be enclosed in a brick wall not less than 8 ft. in height; that the use of building be restricted to a motion picture theatre with stores on New Utrecht avenue front; that there shall be no advertising signs or billboards displayed or exposed on the 46th street side beyond 25 ft. from the New Utrecht avenue front;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building erected within eighteen months from the date of this action.

AREAS FIXED.

(1518-23-BZ)

The chairman presented and read a communication from Philip J. Sinnott, requesting the board to fix an area of notification deemed affected by erection and maintenance of garage; premises southwest corner of Davidson avenue and 181st street, The Bronx.

The following area was approved by the board:

Both sides of 181st street from Harrison avenue to Jerome avenue. Both sides of Davidson avenue from a point 200 ft. north of 181st street to a point 400 ft. south of proposed garage; also the east side of Grand avenue from 181st street to a point 150 ft. south of 181st street.

(1533-23-BZ)

The chairman presented and read a communication from Jenks & Rogers, requesting the board to fix an area deemed affected and within which to obtain consents for erection and maintenance of garage; premises 87-101 Crown street, Brooklyn.

The following area was approved by the board:

Both sides of Crown street from a point 100 ft. west of the westerly side of Bedford avenue to the easterly side of Franklin avenue; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

(1536-23-BZ)

The chairman presented and read a communication from I. H. Lazarone, requesting the board to fix an area deemed affected and within which to obtain consents for erection and maintenance of garage; premises 1180-88 Myrtle avenue, Brooklyn.

The following area was approved by the board:

Both sides of Myrtle avenue from a point 200 ft. west of Ditmars street to a point 400 ft. east of proposed garage. Both sides of Bushwick avenue from a point 100 ft. west of Myrtle avenue to a point 400 ft. east of proposed garage. Both sides of Ditmars street from Myrtle avenue to Broadway; also the west side of Willoughby avenue from Bushwick avenue to a point 165 ft. south of Bushwick avenue.

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING.

TUESDAY AFTERNOON, JANUARY 22, 1924.

Present: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott.

The minutes of the special meeting of the board of standards and appeals, held on Friday afternoon, January 11, 1924, and the minutes of the regular meeting of the board of standards and appeals, held on Tuesday afternoon, January 15, 1924, were approved as printed in the Bulletin, No. 4, Vol. VI.

PETITIONS FOR VARIATIONS.

1357-23-S.

PETITIONER—Oscar Goldschlag, for Israel Cummings, lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—35 West 25th street, Manhattan.

APPEARANCES—

For Petitioner: Oscar Goldschlag.

ACTION OF BOARD—Laid over to February 13, 1924, at 2 p. m.

1325-23-S.

PETITIONER—John M. Lewis, for Thomas Garner Co., Inc., owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—181 William street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Laid over to February 13, 1924, at 2 p. m.

1326-23-S.

PETITIONER—John M. Lewis, for Thomas Garner Co., Inc., owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—22 Spruce street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Laid over to February 13, 1924, at 2 p. m.

918-23-S.

PETITIONER—Samuel Rosenblum, for Estate of Richard K. Fox, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—338-340 Pearl street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

ACTION OF BOARD—Petition withdrawn.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott

Negative

Absent: Mr. Beatty, Fire Chief Kenlon and

Deputy Fire Commissioner Hannon

1258-23-S.

PETITIONER—Sigmund Schuler, for United Cigar Stores Co. of America, lessee.

SUBJECT—Variation of the labor law as cited in orders of fire commissioner.

PREMISES AFFECTED—336 Lafayette street, Manhattan.

APPEARANCES—

For Petitioner: Sigmund Schuler.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott

Negative

Absent: Mr. Beatty, Fire Chief Kenlon and

Deputy Fire Commissioner Hannon

THE RESOLUTION:

(1258-23-S)

WHEREAS, Sigmund Schuler, for United Cigar Stores Co. of America, lessee, filed, November 5, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 336 Lafayette street, Manhattan; and

WHEREAS, the orders of the fire commissioner, dated October 17, 1923, read:

"Order No. 50717-LD:

"1. Arrange the fire escape on the south side of building and the openings leading thereto and the windows opening on the course thereof * * *.

"NOTE: Among the defects noted on this fire escape are the following: No counterbalanced stairway to street. Doors to balconies not fireproof."

"Order No. 50718-LD:

"1. Provide a sign with letters at least 8 in. in height over openings leading to fire escape at north side of building reading: THIS IS NOT AN EXIT, or preferably a sign reading THIS IS NOT CONSIDERED AN EXIT, on all stories, as per Rule 380 of the Industrial Code.

"2. Provide exit signs, letters to be at least 8 in. in height, at all means of egress with a red light over all such exits for use in time of darkness."

"Order No. 50719-LF:

"An inspection of premises 336 Lafayette Street, Borough of Manhattan, shows that a fire drill should be established and maintained therein * * *";

and

WHEREAS, the building is non-fireproof, three stories in height, 25 ft. 3 $\frac{3}{8}$ in. by 95 ft. in area. OCCUPIED: 1st story, store, 7 persons; 2nd story, millinery factory, 15 persons; 3rd story, clothing factory, 30 persons. EXITS: One interior fireproof stairway, enclosed in fireproof partitions, extending from the 1st story to the roof, with wooden doors at the openings; two 60 degree fire escapes, one on the front and one on the rear of the building, with drop ladders to street; windows along course of the fire escape are unprotected. ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner proposes to replace the wooden stair doors with self-closing fireproof doors and install counterbalanced drop ladders in guides on fire escapes; install a self-closing fireproof door leading to the fire escapes on each story and fireproof the windows on the course thereof.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Order No. 50717, Item 1, on condition that the existing fire escape on the front of building shall be extended to embrace all windows on each story, with gooseneck ladder from the top story balcony to roof, with 60 degree connecting stairway between balconies and with two counterbalanced drop ladders in guides from the lowest balcony

MINUTES

to the street; openings on course of fire escape to be made fireproof with casement door to each balcony and iron steps thereto, and *granted* only so long as the conditions as to occupancy and use remain unchanged; and that the orders of the fire commissioner, Nos. 50718 and 50719, be and they hereby are *affirmed*, and the petition as to these orders be and it hereby is *denied*.

1347-23-S.

PETITIONER—Samuel Rosenblum, for B. Weinstein, owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—20 West 56th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott .. 11
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1347-23-S)

WHEREAS, Samuel Rosenblum, for B. Weinstein, owner, filed, Nov. 21, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 20 West 56th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered November 12, 1923, in acting on Alt. App. No. 2424-1923, reads:

"2. Provide proper exit from foot of fire escape to street.

"3. Stairs should be extended to roof with bulkhead over.

"4. Fireproof self-closing windows on course and complete details of fire escape. Extend fire escape to roof.";

and

WHEREAS, the building is non-fireproof, four stories and basement in height; 25 ft. by 94 ft. in area at the 1st and 2nd stories and 25 ft. by 60 ft. 5 in. in area above. OCCUPIED: Basement, factory, light mfg., 25 persons; 1st story, studios, 10 persons; 2nd story, light mfg., 30 persons; 3rd story, dwelling; 4th story, dwelling. EXITS: One wooden stairway extending from the 1st story to the top story, enclosed in wood, lath and plaster partitions, with wooden doors at the openings, and wooden stairs to trap door in roof; ROOF of the building to east is at same level, and to west, one story higher; and

WHEREAS, petitioner proposes in reference to alteration application filed with the bureau of buildings for permission to use the 2nd story of premises for factory purposes; to provide a 45 degree fire escape on the rear of the building, extending from the top story to yard, with gooseneck ladder to roof, with EGRESS from yard through door in fence to adjoining premises to east; windows along the course of the fire escape to be fireproofed at the factory portion of the building and to arrange trap door in roof so as to be easily opened.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is *granted* as to Item No. 2 on condition that the fence to the property on the east shall be removed and egress from the termination

of this fire escape shall be maintained through the adjoining premises on the east; that the skylight in the 2nd story extension shall be glazed with wire glass, and that the ceiling under the roof of the extension shall be fire retarded in accordance with the rules of the board of standards and appeals; *granted* as to Item No. 3 on condition that a fixed iron ladder shall be installed in the top story hall leading to counterbalanced scuttle in roof and that the factory occupancy of the building shall not exceed 25 per cent of the floor area; and *granted* as to Item No. 4 on condition that a gooseneck ladder shall be provided from top story balcony of fire escape to roof, windows on the course of fire escape, other than the two top stories, now occupied as dwellings, shall be made fireproof.

1383-23-S.

PETITIONER—Ferdinand Savignano, for Gioachino Acierno, owner.

SUBJECT—Variation of labor law as cited in decision of health commissioner.

PREMISES AFFECTED—2238 Gravesend avenue, Brooklyn.

APPEARANCES—

For Petitioner: A. W. Lederer.

ACTION OF BOARD—Laid over to January 29, 1924, at 2 p. m., for full vote of board.

THE VOTE—

Affirmative: Messrs. Boulton, Holland, Kerby, Deputy Fire Commissioner Hannon, Superintendents Moore and McDermott 6
Negative: Chairman Walsh, Mr. Connell, Superintendents Brady, Reville and Kleinert 5
Absent: Mr. Beatty and Fire Chief Kenlon 2

165-23-S.

PETITIONER—Edwin C. Dusenbury, for Estate of James A. Ruthven, owner.

SUBJECT—Application for reopening—re: variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—144 West 23rd street, Manhattan.

APPEARANCES—

For Petitioner: Louis Schrag, Edwin C. Dusenbury.

ACTION OF BOARD—Petition reopened and set for hearing February 13, 1924, at 2 p. m.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert and McDermott 10
Negative 0
Absent: Mr. Beatty, Fire Chief Kenlon and Superintendent Moore 3

APPLIANCE SUBMITTED FOR APPROVAL.

1361-23-SA.

PETITIONER—Todd Oil Burner & Engineering Corp.

SUBJECT—Approval of the Todd residence fuel oil burner.

APPEARANCES—

For Petitioner: A. J. Feltault.

ACTION OF BOARD—Petition placed on reserve calendar pending inspection and test.

RULES.

1517-23-SR.

TITLE—Rules.

SUBJECT—Recommendation to board of aldermen proposed amendment to building code affecting use of wood shingles for roofing.

APPEARANCES—None.

MINUTES

ACTION OF BOARD—Resolution was adopted by the board of standards and appeals, requesting the board of aldermen to consider an amendment to the building code, prohibiting the use and installation of wood shingles for roofing.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott .. 11
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1517-23-S)

The resolution was as follows:

Resolved, that the board of standards and appeals does hereby adopt the following matter, as its recommendation for amendment to chapter 5 of the code of ordinances, to be forwarded to the board of aldermen for said board's consideration and action:

Section 420—

"GENERAL. [Except when otherwise specifically provided for in this chapter]. All construction, other than water tanks, hereafter placed above the roof of any part of any building [within the fire limits or of any building more than 40 ft. in height outside the fire limits] shall be of incombustible materials."

Section 474. Roofing.

1. [Within the fire limits.] Any roofing hereafter placed on any [frame] building [within the fire limits] shall be of approved incombustible materials, provided that any existing shingle roof may be repaired at any time to an extent of not more than 25 per cent. of its surface.

[2. Outside the fire limits. Nothing in this chapter shall prevent the use of wood shingles outside the fire limits on any building which, under the provisions of this chapter, is permissible of frame construction.]

(Matter in brackets to be omitted.)

280-22-S.

TITLE—Rules.

SUBJECT—Proposed amendments to article 25 of the code of ordinances affecting motion picture theatres to be submitted to the board of aldermen.

APPEARANCES—None.

ACTION OF BOARD—The chairman submitted for consideration and discussion the matter of proposed change to the resolution to be re-submitted to the board of aldermen. The resolution to read as follows:

2. Sprinkler system. A separate and distinct system of automatic sprinklers, with fusible plugs, approved by the (Superintendent of Buildings) Fire Commissioner as conforming to the provisions of the rules of the Board of Standards and Appeals governing sprinkler installations, supplied with water from a tank located on the roof over the stage and not connected in any manner with standpipes, shall be placed on (each side of the proscenium opening and on) the ceiling or roof over the stage at such intervals as will protect every square foot of stage surface and proscenium opening when sprinklers are in operation. Automatic sprinklers shall be placed, wherever practicable, in the dressing rooms, under the stage and in the carpenter shop, paint rooms, store rooms and property rooms.

the change being the addition of the words and proscenium opening in line 13.

The chairman also called attention to a typographical error in the City Record in bracketting Section 4 as if omitted from the ordinance, the matter submitted by the board having been proposed exemptions to this section only.

Laid over for vote of board on question of reopening and re-submission to board of aldermen.

Adjourned 4.35 p. m.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the meeting of the board of appeals, held Tuesday morning, December 4, 1923, as they appeared in Bulletin No. 50, Vol. VIII, are hereby corrected to read as follows:

THE RESOLUTION:

(989-23-BZ)

WHEREAS, John J. Dunnigan, for Filomena Spadaccini, owner, filed, August 7, 1923, an application, under the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 457-463 East 189th street, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 4, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 189th street and Fordham road are business districts and Washington avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 23, 1923, in acting on N. B. App. No. 1899-23, reads:

"Erection of proposed garage for storage of more than five motor vehicles in business and residence district is contrary to provisions of Building Zone Resolution.";

and

*Correction—"100" changed to "140" in line 26.

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 140 ft., to be occupied as a garage for more than five motor vehicles, a triangular-shaped portion at rear approximately 5 ft. by 40 ft. extending into residence district; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses, and under the provisions of section 7, subdivision B and E, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be limited to a one-story structure, with roof of flat design and construction; that the rear and gable walls be unpierced throughout their entire height and length; that the front elevation be finished with face brick and architectural terra cotta or stone trimmings; that front elevations as to architectural design be substantially in accordance with the drawings on file in this appeal; that any skylights installed shall not be within thirty feet of the rear wall nor within thirty feet of the easterly gable wall, and shall be glazed with plain glass, protected above and below with wire guards;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the meeting of the board of appeals, held Wednesday morning, Nov. 7, 1923, as they appeared in Bulletin No. 46, Vol. 8, are hereby corrected to read as follows:

1065-23-BZ.

APPLICANT—Jobst Hoffman, for Stillmark Realty Corp., owner.

SUBJECT—Application (re: decision of the fire Commissioner) to permit in a business district the alteration and extension of an existing building occupied as a dyeing and cleaning establishment.

PREMISES AFFECTED—102-104 East 104th street, Manhattan.

APPEARANCES—

For Applicant: Nathaniel L. Brodie, Jobst Hoffman and Mr. Marks.

For Opposition: Martin Gollubier, Mr. Goldstein and Mrs. M. Shea.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beaty, Boulton, Connell, Holland and Kerby ... 6

Negative 0

Absent: Fire Chief Kenlon 1

*Correction—Words "superintendent of buildings" changed to "fire commissioner" in lines 3 and 37.

THE RESOLUTION:

(1065-23-BZ)

WHEREAS, Jobst Hoffman, for Stillmark Realty Corp., owner, filed, Sept. 7, 1923, an application, under the building zone resolution, to permit in a business district the alteration and extension of an existing building occupied as a dyeing and cleaning establishment; premises 102-4 East 104th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, November 7, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 104th street, East 103rd street and Park avenue are business districts; and

WHEREAS, the decision of the fire commissioner, rendered August 15, 1923, in acting on Alt. App. No. 975-23, reads:

"1. The extension of a dyeing and cleaning establishment at this location is contrary to Article II, Section 6, Building Zone Resolution.";

and

WHEREAS, the existing building is of non-fireproof construction, two stories and basement in height, 40 ft. by 100 ft. 11 in. at 1st story and 20 ft. by 50 ft. at 2nd story; occupied as a cleaning and dyeing establishment, it is proposed to add an additional story on a part of premises, this story to be 48 ft. 9 in. by 20 ft. in area; to be occupied as a water wash room; and

MINUTES

WHEREAS, under the provisions of section 7, subdivision c, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the inflammable

material used in the conduct of this business shall be limited to the quantity now permitted under the fire department permit now in force; and on further condition that the extension to existing structure be made fireproof; and that all permits necessary for the prosecution of the work shall be obtained within nine months from the date of this action.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present or absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

RULES ADOPTED

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously.

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit, in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth ($1\frac{1}{4}$) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter ($1\frac{1}{4}$) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter ($1\frac{1}{4}$) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

MINUTES

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter—5/16 in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For 3/16 inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For 5/16 inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand (10,000) gallons outside of buildings shall be equipped with a system of steam pipes, blanket gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to permit proper inflow of liquid during the filling operation and two (2) inches in diameter on all tanks above 1100 gallons capacity, and in no case to be less than $1\frac{1}{4}$ inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided on both sides of each strainer in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner. An outside readily accessible valve shall be provided in all supply lines entering buildings from tanks.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than 18 degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge, tanks of a capacity of over 60 gallons and not more than 550 gallons shall be constructed of steel not less than 3/16 inches in thickness.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

(d) Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

See Rule 10 for Gauging device.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the suction line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths (¾) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

 1361-23-SA—Todd Residence Fuel Oil Burner, approval of.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or departmental actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

ANNUAL REPORT

HON. MURRAY HULBERT,
Acting Mayor, New York City.

January 29, 1924.

Sir:—I have the honor to submit the annual report of the Board of Appeals and the Board of Standards and Appeals for the year ending December 31, 1923, summarized as follows:

CASES FILED AND PENDING, 1923.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Grand Total
Appeals from Administrative Orders	154	183	126	183	646
Applications under Building Zone Resolution	105	166	97	122	490
Petitions for Variations of Labor Laws	108	93	66	90	357
Petitions for Approval of Appliances and Materials	14	12	10	29	65
Petitions for Adoption of Rules	2	1	0	1	4
Reopened and restored to Calendar	23	29	16	17	85

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Special Meeting Board of Appeals, January 25, 1924.
- Minutes of Meeting, Board of Appeals, January 29, 1924.
- Minutes of meeting, Board of Standards and Appeals, January 29, 1924.
- Rules Adopted.
- Reserve Calendar.
- Annual Report.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION. 10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition, shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, February 5, 1924, at 2 o'clock*. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Wednesday, February 13, 1924, at 2 o'clock*.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman*.

BOARD OF APPEALS

SPECIAL MEETING.

FRIDAY MORNING, JANUARY 25, 1924.

Present: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Connell and Fire Chief Kenlon.

APPEALS FROM ADMINISTRATIVE ORDERS.

933-23-A.

APPELLANT—Harrison G. Wiseman, for Arcola Realty Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—54 Main street, Flushing, Borough of Queens.

APPEARANCES—

For Appellant: John V. Downey.

ACTION OF BOARD—Laid over to February 26, 1924, at 10 a. m., on request of appellant's representative.

926-23-A.

APPELLANT—Braddon Amusement Company, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1495 St. Nicholas avenue, Manhattan.

APPEARANCES—

For Appellant: John V. Downey.

ACTION OF BOARD—Laid over to February 26, 1924, at 10 a. m., on request of appellant's representative.

1271-23-A.

APPELLANT—A. E. Nast, for U. S. Trust Co. of New York, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—126 East 32nd street, Manhattan.

APPEARANCES—

For Appellant: Thomas A. Williams.

For Administration: Inspector Carrooll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1271-23-A)

WHEREAS, A. E. Nast, for U. S. Trust Co. of N. Y., trustee, filed, Nov. 7, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 126 East 32nd street, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated October 18, 1923, reads:

"Protect floor, ceiling and wall construction with approved fire retarding material, as per Section 154, Chapter 10, Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, two stories and cellar in height, 25 ft. by 98 ft. 9 in. in area. OCCUPIED: 1st story, private garage for 4 cars, 1 person; 2nd story, dwelling for chauffeur and family, 4 persons; and

WHEREAS, the ceiling of the 1st story is wood sheeted and the floors are partly of concrete; and

WHEREAS, applicant contends that the building will be used for other purposes after a year, and requests that the present construction be accepted for that period of time.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a fire-retarding cross partition with not more than one opening, not to exceed 3 ft. 8 in. in width, be erected at the line of existing concrete flooring, separating the car storage space from the remainder of first floor and confining it within concrete floor area; that not more than two (2) automobiles of the pleasure-car type be maintained on the premises, with no gasoline storage other than in tanks of cars; and that the stairhall enclosure shall be fire retarded, any openings therein to be provided with self-closing, fireproof doors; *granted* for a period not to extend beyond May 1, 1925.

1295-23-A.

APPELLANT—John H. Knubel, for Mary C. De Terrouenne, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—359-363 9th avenue, Manhattan.

APPEARANCES—

For Appellant: Charles May and P. J. Corry.

For Administration: Inspector Maher of fire department.

MINUTES

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Fire Chief Kenlon .. 5
Negative 0
Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(1295-23-A)

WHEREAS, John H. Knubel, for Mary C. De Torrouenne, owner, filed, Nov. 13, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 359-61-63 Ninth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 25, 1923, reads:

"1. Provide a separate and distinct system of automatic sprinklers throughout building having at least one source of water supply * * *";

and

WHEREAS, the building is situated on the rear of the lot, is non-fireproof, three stories and cellar in height, 59 ft. 11 in. by 47 ft. in area. OCCUPIED AS FOLLOWS: Cellar, storage and carpenter shop, 3 persons; 1st story, manufacturing mattresses, 7 persons; 2nd story, manufacture of doors, 7 persons; 3rd story, cabinet maker, 7 persons; and

WHEREAS, appellant contends that the building is of small area.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted, holding this order in abeyance to May 1, 1925, on condition that the order be complied with at that time or the present occupancy vacated; on further condition that the hoist shaft be sealed over solidly at each floor; that loft side of stairhall partition throughout be fire retarding material; that the loft side of the doors to the stairhall enclosure be metal covered and doors made self-closing; that not less than twelve (12) water buckets shall be maintained on each floor; and that the use and occupancy otherwise remain unchanged.

1008-23-A.

APPELLANT—Vitreous Enameling & Stamping Co., Ltd., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1363-77 Sedgwick avenue, The Bronx.

APPEARANCES—

For Appellant: C. M. Miller.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Fire Chief Kenlon .. 5
Negative 0
Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(1008-23-A)

WHEREAS, Vitreous Enameling & Stamping Co., Inc., owner, filed, August 14, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1363-77 Sedgwick avenue, The Bronx; and

WHEREAS, the order of the fire commissioner, dated July 31, 1923, No. 19386-LC, reads:

"Referring to your application, dated March 13, 1923, for a permit to store and use fuel oil at 1363-77 Sedgwick Ave., Bronx, I regret to inform you that said application has been disapproved for the reason that your present method of storing and using fuel oil does not conform with the Fuel Oil Rules adopted by the Board of Standards and Appeals on November 6, 1919.

"You are therefore ordered to:

"1. Discontinue the storage and use of fuel oil on these premises.";

and

WHEREAS, the building is non-fireproof, two stories in height, 95 ft. by 169 ft. in area; OCCUPIED as a porcelain enameling plant, 28 persons. Equipped with a fuel oil burning system, with a 5,000 gallon tank, partially buried outside the building and enclosed in a concrete vault, delivering oil to the enameling furnaces; and

WHEREAS, the board deemed that as the oil is used in an industrial process, permission to use the pump and burner should be granted.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted permitting the use and operation of the Rockwell burner and Deming pump on these premises, used and restricted to the industrial process and operation of a vitreous enameling furnace, on condition that the fuel oil installation comply with the fuel oil rules of the board of standards and appeals in all other respects.

709-23-A.

APPELLANT—Hess & Wiener, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—43 West 16th street, Manhattan.

APPEARANCES—

For Appellant: None.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Laid over to January 29, 1924, at 10 a. m.

1137-23-A.

APPELLANT—J. D. Wilson & Sons, lessee.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—1295-1307 Broadway, Brooklyn.

APPEARANCES—

For Appellant: Harold C. Delaney.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT ON CONDITION—

Affirmative: Chairman Walsh and Mr. Boulton 2
Negative: Messrs. Connell, Holland and Fire
Chief Kenlon 3
Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(1137-23-A)

WHEREAS, J. D. Wilson & Sons, lessee, filed, September 29, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1295-1307 Broadway, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated July 27, 1923, No. 48702-F, reads:

"1. Provide a separate and distinct system of AUTOMATIC SPRINKLERS throughout building, having two sources of water supply * * *";

and

WHEREAS, the building is non-fireproof, three stories and basement in height (43 ft. 7 in.); 175 ft. by 175 ft. (28,000 sq. ft.) in area; OCCUPIED as a department store, 180 employees; and

WHEREAS, appellant contends that in view of the large expenditures already made in order to comply with a modification of a prior order in 1914 of the fire department regarding similar orders (the installation of a sprinkler system in the basement providing smoke-proof partitions at foot of each open stair and elevator shaft in the basement; providing additional means of exit; two 40-gallon chemical fire extinguishers on 1st floor and the maintenance of a fire drill) the existing conditions be accepted.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

 THE RESOLUTION:

(1125-23-BZ)
 WHEREAS, Edward P. Doyle, for Harry H. Cohen, owner, filed, Sept. 28, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises northeast corner of Jerome avenue and 205th street, Borough of Bronx; and
 WHEREAS, a public hearing was held on this application

MINUTES

by the board of appeals, at its special meeting, January 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue is a business district and East 205th street and Villa avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered September 21, 1923, in acting on N. B. Application No. 2274-23, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of the Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 90 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, it appears that the district was originally designated as unrestricted on the use district maps and a committee of the board visited the premises and reported:

REPORT OF COMMITTEE OF INSPECTION:

On December 28, 1923, a committee of this Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Holland, Kerby, Connell and Boulton, visited the premises under appeal for a variation of the Building Zone Resolution, to permit the erection of a public garage on the northeast corner of Jerome Ave. and 205th St., The Bronx. The basis of this appeal is stipulated as Section 20, namely, hardship or unnecessary difficulty. It is to be noted that there is an objection petition signed by 25 persons on file, protesting against the granting of this appeal.

The property involved in this appeal is at present vacant and unimproved. To the north on Jerome Ave. there are rows of three-story dwellings with stores at street level. On the southeast corner, directly opposite, there is a vacant plot. The surrounding properties are mostly developed with frame structures, unquestionably in existence for many years. On Jerome Avenue, this location has an elevated structure and a spur branching at this street. Directly opposite on the Westerly side of Jerome Avenue, is the Jerome Reservoir. On the Grand Concourse Boulevard, two blocks east, there are extensive apartment house developments.

From a general observation of the neighborhood, it would appear that there are no public garages for the accommodation of these apartment house developments. It cannot be denied that there is a community requirement for garage use. The point the Board may well bear in mind is where public garages could best be placed with least offense to the neighborhood and properties. However, we cannot dismiss from our consideration the requirements of the Building Zone Resolution as to the exception provisions of same, and the only one affecting this property would be, other than Section 20, 7-g, which requires consents, and unless the applicant can prove to the satisfaction of the Board his efforts to have at least endeavored to comply with the remedy provided by the Act, the Board is restrained from arbitrarily disregarding these extensive protests on file in the case.

If it can be shown that the petition on file was engendered by other than substantial, presumed offense, the Board would be justified in considering this appeal under such restrictions as would safeguard the adjoining property interests offered for consideration by the Board.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
JAMES P. HOLLAND,
HENRY L. CONNELL,
ALFRED J. BOULTON,
JOHN C. KERBY.

December 31, 1923.

WHEREAS, the board deemed that the change of the district has caused undue hardship to the owner of the property in that it prevented him from erecting thereon a structure in keeping with the character of the neighborhood.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building shall be restricted to a one-story structure above grade, that the rear and gable walls shall be unpierced throughout their entire height and length, that the roof shall be of flat design and construction, that any skylights installed shall be glazed with plain glass, protected with wire guards above and below; that there shall be no vehicular openings on 205th street and that the sills of any windows installed shall be not less than 6 ft. above grade; that the elevation on Jerome avenue and 205th street shall be finished with face brick and architectural terra cotta or stone trimmings; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1309-23-BZ.

APPLICANT—William F. Doyle, for Herman Kronenberg, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district erection and maintenance of garage for storage of more than five motor vehicles.

PREMISES AFFECTED—98-120 Livonia avenue, Brooklyn.

THE RESOLUTION:

(1309-23-BZ)

WHEREAS, William F. Doyle, for Herman Kronenberg, owner, filed, November 14, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 98-120 Livonia avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, January 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Livonia avenue is a business district and Herzl street and Douglas street are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 24, 1923, in acting on N. B. Application No. 19546-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A public garage in a business district for more than 5 motor vehicles. Garage also opposite a public playground."

and

MINUTES

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 200 ft. and a depth of 100 ft. 23¼ in., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners, and a committee of the board visited the premises and reports:

TO THE BOARD OF APPEALS:

A Committee of the Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Holland, Connell and Boulton, visited the premises under appeal in this case, 98 to 120 Livonia Avenue, on January 10th, 1924.

The application is brought under sections 7-g and 20, and the applicant has failed to establish the basis of appeal under 7-g, having filed no consents. Under section 20, the Committee is of the opinion that the applicant has not made out a meritorious case.

The mere existence of a non-conforming use in the nature of a wet wash laundry on Herzl Street before the creation of the Zoning Law, is not sufficient, in the judgment of the Committee, to warrant the further invasion of the district with prohibited uses.

Immediately to the south on Douglas Street, abutting this property, there are two-family houses in course of construction; Herzl Street, to the south of this property, is substantially developed with two-story dwellings. Directly opposite, on the north side of Livonia Avenue, there is an extensive playground, with gates opening on Livonia Avenue, opposite the proposed garage. There is a public school at Riverdale Avenue and Herzl Street, the first block south of Livonia Avenue. The Committee observed that the pupils of this school use both Herzl Street and Douglas Street in pedestrian travel not only to the playground but to their homes north of Livonia Avenue on Douglas Street.

The extensive development of the side streets with conforming uses in the nature of dwellings, would seem to indicate the necessity for shops on Livonia Avenue for the accommodation of the neighborhood, and the reasonable and practical use of this property for stores and business uses and community requirement.

The Committee therefore believes the element of hardship does not prevail, in that the property may be used for conforming structures, and recommends denial of the application.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
JAMES P. HOLLAND,
ALFRED J. BOULTON,
HENRY L. CONNELL.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1319-23-BZ.

APPLICANT—Louis A. Sheinart, for E. G. Hothan, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit extension from unrestricted district into business district of proposed garage for storage of more than five motor vehicles.

PREMISES AFFECTED—23-45 Caton place, Brooklyn.

APPEARANCES—

For Applicant: Louis A. Sheinart.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO ADOPT REPORT OF COMMITTEE—

Affirmative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon 2

THE VOTE TO GRANT—

Affirmative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1319-23-BZ)

WHEREAS, Louis A. Sheinart, for E. G. Hothan, owner, filed, Nov. 16, 1923, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises 23-45 Caton place, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, January 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Caton place is an unrestricted and business district and East 8th street is an unrestricted district and Ocean parkway is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 9, 1923, in acting on N. B. Application No. 20922-23, reads:

"Denied—Proposition contrary to a public garage for more than 5 motor vehicles extending into a business district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 200 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

TO THE BOARD OF APPEALS:

A Committee of the Board, consisting of Chairman Walsh, Fire Chief Kenlon, Messrs. Holland, Boulton and Connell, visited these premises on January 10th, 1924.

This application is brought under section 7-b and section 20. Section 7-b permits the extension back for 25 feet from one district to another. This application comes within the provisions of section 7-c.

The plot has a frontage of 200 feet on Caton Place, 75 feet of which is actually within an unrestricted district. The business area of Caton Place is approximately 235 feet long, lying between the 100 ft. setback on Ocean Parkway and the 100 ft. unrestricted setback of Caton Place, and was evidently established by the Board of Estimate as a buffer district between the residential use of Ocean Parkway and the unrestricted use of Caton Place.

The Committee feels that the granting of this application, with proper restrictions as to height, entrances, etc., would be an equitable adjustment permitting the reasonable use of this owner's property, and therefore recommends the granting of the application.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
JAMES P. HOLLAND,
ALFRED J. BOULTON,
HENRY L. CONNELL.

MINUTES

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be limited to a one-story structure above grade, that the roof shall be of flat design and construction, that the rear and gable walls shall be unpierced throughout their entire height and length, that any skylights installed shall not be within 30 ft. of the rear wall and shall be glazed with plain glass protected with wire guards above and below, that the front elevation shall be finished in face brick with architectural terra cotta or stone trim;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months, and the building completed within eighteen months from the date of this action.

APPEARANCES—

For Appellant: William Shary.

ACTION OF BOARD—Laid over to February 5, 1924, at 2 p. m., for final disposition.

1435-23-A.

APPELLANT—Max Miller, for Ex-Lax Mfg. Co., owner.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—431-443 Atlantic avenue, Brooklyn.

APPEARANCES—

For Appellant: Max Miller and Rudolph P. Miller.

For Administration: J. B. Smithers of bureau of buildings.

ACTION OF BOARD—Laid over to February 5, 1924, at 2 p. m.

1442-23-A.

APPELLANT—Agfa Products, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—114-116 East 13th street, Manhattan.

APPEARANCES—

For Appellant: George L. Barrows.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon

Negative

Absent: Mr. Beatty

THE RESOLUTION:

(1442-23-A)

WHEREAS, Agfa Products Co., for American Felt. Co., owner, filed, December 7, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 114-116 East 13th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 17, 1923, in acting on Order No. 21165-LC, reads:

"1. Reduce stock of flashlight powder to 10 pounds, as per resolution of the Board of Hazardous Trades.";

and

WHEREAS, the building is fireproof, twelve stories and basement in height, 60 ft. by 110 ft. in area; OCCUPIED as offices, tenant factories, the appellant occupying the 10th story and dwelling on top story, 180 persons in the building; and

WHEREAS, appellant contends that the flashlight powder of their manufacture is not combustible until the ingredients are combined and that this combining is done by the ultimate consumer.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the total amount of flashlight powder stored on premises shall not exceed 35 pounds, stored in metal cabinet, the general storage being subdivided and maintained in individual glass bottles, enclosed in metal containers, not exceeding 100 grams to any one container.

1443-23-A.

APPELLANT—Spensers Silverlite, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—121 Lexington avenue, Manhattan.

APPEARANCES—

For Appellant: Edgar R. Mead.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal dismissed and referred back to fire department as not properly before the board.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Boulton,

Connell, Holland and Fire Chief Kenlon..

Negative

Absent: Messrs. Beatty and Kerby

THE RESOLUTION:

(1443-23-A)

WHEREAS, Spensers Silverite, Inc., lessee, filed, December 7, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 121 Lexington avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 17, 1923, No. 21173-LC, reads:

"1. Forthwith remove all gasoline, naphtha or other volatile inflammable oil from these tenement house premises * * *";

and

WHEREAS, the building is non-fireproof, five stories in height, 22 ft. by 50 ft. in area. OCCUPIED: 1st and 2nd stories, business, 8 persons; 3rd to 5th stories, tenement, 9 persons; and

WHEREAS, the appellant has constructed in the rear yard of the premises a small fireproof building 8 ft. 7 in. by 12 ft. 8 in. by 9 ft. in height, and proposes to store therein nine gallons of gasoline (kept in approved cans) to be used as power for a demonstration engine also therein; and

WHEREAS, the board deemed that this matter should be referred back to the fire commissioner for notice to the tenement house commissioner.

Resolved, that the appeal be and it hereby is dismissed as not properly before the board.

MINUTES

1450-23-A.

APPELLANT—Emil Guterman, for Attavio Trillo & Company, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—3 East 17th street, Manhattan.

APPEARANCES—

For Appellant: Emil Guterman and O. Trillo.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Fire Chief Kenlon.. 5

Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(1450-23-A)

WHEREAS, Emil Guterman, for Attavio Trillo & Co., lessee, filed, December 7, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 3 East 17th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 10, 1923, reads:

"1. Forthwith remove all nitro-cellulose products."; and

WHEREAS, the building is fireproof, nine stories and pent house in height, 25 ft. by 92 ft. in area; OCCUPIED as a tenant factory; the 20 ft. by 23 ft. in area pent house being occupied by appellant for the finishing of ccelluloid products, five persons; and

WHEREAS, appellant contends that the amount of celluloid on the premises never exceeds twenty-five (25) pounds, stored in metal cabinets, and that no heat is used in the process of manufacture.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

728-23-A.

APPELLANT—Sigmund Schuler, for United Cigar Stores Co. of America, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1029 East 163rd street and 943 Southern boulevard, The Bronx.

APPEARANCES—

For Appellant: Sigmund Schuler.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Fire Chief Kenlon . 5

Negative 0

Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(728-23-A)

WHEREAS, Sigmund Schuler, for United Cigar Stores Co. of America, lessee, filed, July 11, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1029 East 163rd street, 943 Southern boulevard, The Bronx; and

WHEREAS, the order of the fire commissioner, dated May 22, 1923, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, * * *"; and

WHEREAS, the building is non-fireproof, three stories in height, 86.58 ft. by 142.46 ft. irregular (12,153 ft.) in area; OCCUPIED: 1st story, stores, 20 persons; 2nd story, bowling alley and club, 100 persons; 3rd story, business school, ladies' tailor, dentist's laboratory, 100 persons; and

WHEREAS, appellant proposes to subdivide the area of the building by providing self-closing fireproof doors at the openings in the existing "approved" fireproof partitions, and in view of the fact that the building is only 48 ft. 6 in. in height, faces on two streets, has a wide court in rear, giving to the fire department ample means of access, asks for a modification of the order.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the floor area be subdivided into approximately equal areas by partitions of approved fireproof material on each floor, any openings therein to be equipped with self-closing, fireproof doors, as indicated on plans filed in this appeal; and that a self-closing, fireproof door, not less than 44 in. in width, be hung at head of stairway in stairhall on 3rd story, opening outwardly, and granted so long as the occupancy and use remain substantially unchanged.

831-23-A.

APPELLANT—Samuel Rosenblum, for Standard Wood Heel Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—697-707 Kent avenue, rear, Brooklyn.

APPEARANCES—

For Appellant: Samuel Rosenblum (appeared at close of morning session).

ACTION OF BOARD—Laid over to February 5, 1924, at 2 p. m.

APPELLANT—Sigmund Schuler, for United Cigar Stores Co. of America, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—573 Lexington avenue and 140-6 East 51st street, Manhattan.

APPEARANCES—

For Appellant: Sigmund Schuler.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Fire Chief Kenlon 5

Negative 0

Absent: Messrs. Beatty and Kerby 2

THE RESOLUTION:

(895-23-A)

WHEREAS, Sigmund Schuler, for United Cigar Stores Co. of America, owner, filed, July 12, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 573 Lexington avenue and 140-6 East 51st street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 47929-F, dated June 26, 1923, reads:

"1—Provide a partition of fireproof material at the cellar side of show window opening to subway at north side of cellar; the door or other openings on said partition for use of window dresser to be provided with fireproof self-closing door * * *."

Order No. 47930-F, dated June 26, 1923, reads:

"1—Provide a wet sprinkler system covering space used for show window purposes in cellar * * *"; and

WHEREAS, the building is non-fireproof, one story and basement in height, 50 ft. 5 in. by 100 ft. in area. OCCUPIED: 1st story, stores; basement, store (vacant at present) and storage; and

WHEREAS, appellant proposes to fireproof the doors leading to the basement, and to provide wire glass and fireproof frame for the show window in the basement.

MINUTES

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1 of Order No. 47930, *on condition* that Item 1 of Order No. 47929 is complied with.

1142-23-A.

APPELLANT—Philip J. Sinnott, for Samuel Robinson, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—461 West 150th street, Manhattan.

APPEARANCES—

For Appellant: Philip J. Sinnott and Samuel Robinson.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Beatty	1

THE RESOLUTION:

(1142-23-A)

WHEREAS, Philip J. Sinnott, for Samuel Robinson, owner, filed, October 2, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 461 West 150th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 19829-C, dated September 21, 1923, reads:

"2. Discontinue the use and occupancy of frame building for garage purposes. Sections 5 and 90, Chapter 5, Code of Ordinances."

and

WHEREAS, the building is frame, one story in height, 9 ft. 10 in. by 30 ft. in area; located in a residence district; OCCUPIED as a garage for two motor vehicles; and

WHEREAS, appellant contends the garage is an accessory use to a business conducted on the same lot; that on July 25, 1916, the garage portion of the premises was a blacksmith shop; that the garage is separated from the rest of the premises by a plaster board partition, metal covered on the garage side.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the interior walls and ceiling of garage portion be fire retarded; that the occupancy be limited to two (2) automobiles, the property of the occupant or operator of premises; and that there be no gasoline storage other than in tanks of cars maintained on premises.

1173-23-A.

APPELLANT—G. Arthur Schieren, for Chas. A. Schieren Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—82-82½ Beekman street, Manhattan.

APPEARANCES—

For Appellant: Luke Flanagan.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Beatty	1

THE RESOLUTION:

(1173-23-A)

WHEREAS, G. Arthur Schieren, for Charles A. Schieren Co., owner, filed, October 15, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 82-82½ Beekman street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 49732-F, dated August 21, 1923, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said opening and which are not more than 50 ft. above a neighboring roof at east side of building * * *."

"2. Replace the missing and defective shutters with proper iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at north and west sides of buildings * * *";

and

WHEREAS, the building is fireproof, five stories and attic in height, 51 ft. x 158 ft. in area at 1st story and 51 ft. by 100 ft. in area above. OCCUPIED: 1st story for the manufacture of essential oils, and printing in upper stories; and

WHEREAS, there are two windows on each story within 30 ft. of openings in a building to the west, one window on each story within 30 ft. of openings in a building to the north and nine windows on each story with openings in a building to the east; and

WHEREAS, appellant contends that the building to the east is under same management, equipped with sprinkler system, and window openings (excepting at fire escape) are equipped with iron shutters, and contends also that the openings in the building to the west are protected with iron shutters.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, so long as this building and the premises to the east remain under one operation or ownership; so far as it affects the openings in easterly wall of these premises, *on condition* that the openings in the stairhall and elevator shaft are provided with iron shutters or self-closing, fireproof windows, and so long as the protection of the windows of the westerly wall of adjoining building to the east remains unchanged; and that the appeal as it relates to Item 2 of this order be and it hereby is *denied*.

1277-23-A.

APPELLANT—Powerlight, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—7 East 14th street, Manhattan.

APPEARANCES—

For Appellant: A. G. Kaufman.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO DENY—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Beatty	1

MINUTES

THE RESOLUTION:

(1277-23-A)

WHEREAS, Powerlight, Inc., lessee, filed, November 8, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 7 East 14th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 19, 1923, reads:

"Order No. 20473-LC:

"You are therefore, hereby, ordered to:

"1. Discontinue the storage and use of fuel oil on these premises.";

and

WHEREAS, the building is non-fireproof, five stories in height, 20 ft. by 100 ft. in area. OCCUPIED, 1st story, store; upper stories, factory, with a total of 33 persons in the entire building; and

WHEREAS, appellant contends that the fuel oil installation is for demonstration purposes only on the 2nd story, the appellant being an agent for Powerlight, Inc., and requests permission to maintain 200 gallons grade "B" fuel oil in tank under sidewalk; the installation having been made in accordance with the rules of the board of standards and appeals, except that the burner is not an approved burner; and

WHEREAS, the appellant states that he proposes to file plans and application in the fire department, and the board deemed that the appeal should be denied without prejudice.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1307-23-A.

APPELLANT—Raymond M. Hood, for Titusville Building Corp., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—38-44 West 40th street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Laid over to February 5, 1924, at 2 p. m., on written request.

1337-23-A.

APPELLANT—Geo. W. Busteed, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—232 Cooper street, Brooklyn.

APPEARANCES—

For Appellant: Geo. W. Busteed and Edw. J. Bogart.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Beatty 1

THE RESOLUTION:

(1337-23-A)

WHEREAS, George W. Busteed, lessee, filed, Nov. 20, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 232 Cooper street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated October 26, 1923, reads:

"Order No. 83271-LC:

"Discontinue the maintenance of a garage in the above premises, as same is of frame construction, Sec. 5, ch. 5, par. 4. Sec. 90, ch. 5.";

and

WHEREAS, the building is frame, one story in height, 18 ft. by 25 ft. in area; OCCUPIED as a garage for the storage of one pleasure car; situated on the rear of a lot on the front of which there is a two-story basement dwelling; and

WHEREAS, appellant contends that the building has been used for the storage of motor vehicles prior to July 25, 1916, and has filed affidavits to that effect; and

WHEREAS, it appeared that the building had been occupied prior to change of fire limits.

Resolved, that the decision of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the interior walls and ceiling of garage portion of this structure be fire retarded with not less than one-half inch plaster boards and sheet metal; that the occupancy be limited to two (2) automobiles, the property of the owner or occupant of the premises; and that no gasoline shall be stored on the premises.

1353-23-A.

APPELLANT—Simplex Oil Heating Corp., for Kraslow Bldg. Co., Inc., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—156-172 East 21st street, Brooklyn.

APPEARANCES—

For Appellant: Herbert Wilson.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Beatty 1

THE RESOLUTION:

(1353-23-A)

WHEREAS, Simplex Oil Heating Corp., for Kraslow Bldg. Company, Inc., owner, filed, Nov. 22, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 156-172 East 21st street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered August 6, 1923, in acting on Alt. App. 856-23, reads:

"1. The storage and use of fuel oil is not permitted in a tenement house.";

and

WHEREAS, the building is non-fireproof, four stories in height, 75 ft. by 121 ft. 8 in. in area; OCCUPIED as a tenement; it is proposed to install in the cellar of this tenement a fuel oil burning equipment of the Simplex Oil Heating Corp., equipment to be installed in accordance with the rules of the board of standards and appeals, except that the pumps and burners are not approved; and

WHEREAS, appellant requests a temporary permit for this device for ninety (90) days; and

WHEREAS, the board deemed that this matter should be referred back to the fire department for reconsideration under the amended fuel oil rules, and that a temporary permit should be granted for the operation of the Simplex oil heating burner on these premises at owner's risk for a period of ninety (90) days on condition that the fuel oil rules of the board of standards and appeals are complied with in all other respects.

Resolved, that the board of appeals does hereby grant a temporary permit for a period of ninety days from the date of this action for the operation of the Simplex oil heating burner on these premises at owner's own risk on condition that the fuel oil rules of the board of standards and appeals be complied with in all other respects.

Absent: Mr. Beatty and Fire Chief Kenlon 2

839-23-A.

APPELLANT—Department of Plant and Structures, for Department of Street Cleaning, City of New York, owner.

SUBJECT—Application for reopening—appeal from decision of fire commissioner.

PREMISES AFFECTED—640-690 West 56th street, Manhattan.

APPEARANCES—

For Appellant: J. W. Ziegler.

ACTION OF BOARD—Appeal reopened and permission to use Anthony burner granted.

THE VOTE TO REOPEN AND GRANT USE OF ANTHONY BURNER—

Affirmative: Chairman Walsh, Messrs. Boulton,

Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(839-23-A)

WHEREAS, Department of Plant and Structures, for City of New York, owner, filed, July 2, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 640-690 West 56th street and 788-794 12th avenue, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated March 15, 1923, reads:

"No. 7. Show construction of steam boiler room heating plant.

"No. 11. Nature of occupancy prohibits use of fuel oil."

and

WHEREAS, the building is non-fireproof, two stories in height, 100 ft. 5 in. by 212 ft. in area; occupied as refuse destructor plant; it is proposed to install a fuel oil burning equipment; and

WHEREAS, appellant contends that the fuel oil will be used only in case of emergency due to dampness of garbage; that the storage will not exceed 2,000 gallons; that steam heating boiler will be placed at the extreme southeast corner of the building away from the garbage disposal boilers and that the housing station and destructor building are separated by unpierced brick wall 20 in. thick; and

WHEREAS, this appeal was granted by the board at its meeting October 2, 1923, on certain conditions, and appellant requested a modification of these conditions so as to permit the use of the Anthony burner.

Resolved, that the decision of the fire commissioner, as to Item 7, be and it hereby is *affirmed*, and the appeal as to this item be and it hereby is *denied*; that the decision of the fire commissioner, as to Item 11, be and it hereby is *reversed*, and the appeal as to this item be and it hereby is *granted* permitting the use of the Anthony burner on these premises, in the conduct and operation of an incinerator plant for the street cleaning department.

Kenlon 6

Negative 0

Absent: Mr. Beatty 1

THE RESOLUTION:

(1410-23-BZ)

WHEREAS, George M. McCabe, for Wendell & Evans Co., owner, filed, December 3, 1923, an application under the building zone resolution, to permit a building, located partly in an unrestricted and partly in a business district, to be altered and converted from a stable for more than five horses to a garage for the storage of more than five motor vehicles; premises 160 to 168 West 10th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 7th avenue is an unrestricted district, West 10th street and Christopher street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 26, 1923, in acting on Alt. App. No. 2600-23, reads:

"4. The conversion of this building to a garage in a business district is unlawful. Building Zone Resolution Sect. 6."

and

WHEREAS, the existing building is of non-fireproof construction, two stories in height with a frontage of 114 ft. 6 in. and a depth of 93 ft. 8 in.; a triangular portion at rear, extending into the business district; and

WHEREAS, under the provisions of section 7, subdiv. B the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the structure be limited in area to the dimensions indicated on the plans filed in this case, 93 ft. 2 in. deep by 114 ft. 6 in. frontage, approximately; and that the existing structure shall not be increased in height; that there shall be not more than one vehicular entrance within the business district on 10th street that the gable walls shall be unpierced throughout their entire height and length; that the existing windows in the rear wall be equipped with fixed metal sash, glazed with translucent wire glass, with not more than one ventilator to each window; that no additional skylights shall be installed within 30 ft. of the rear or gable walls, all skylights to be glazed with plain glass, protected with wire guards above and below; that any gasoline storage system maintained on the premises shall be located at the extreme westerly front of the building.

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1350-23-BZ.

APPLICANT—William Higginson, for E. J. Trum, Inc., owner.

SUBJECT—Application (re: decision of the superintendent of buildings), to permit in a business district the erection and maintenance of a building to be used for manufacturing purposes.

PREMISES AFFECTED—764-776 4th avenue, Brooklyn.
APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: F. M. Tomlin.

ACTION OF BOARD—Application granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Beatty 1

THE RESOLUTION:

(1350-23-BZ)

WHEREAS, William Higginson, for E. J. Trum, Inc., owner, filed, November 21, 1923, an application under the building zone resolution, to permit the erection and maintenance in a business district a building to be used for manufacturing purposes; premises 764-776 Fourth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 4th avenue is a business district, 25th and 26th streets are unrestricted districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 19, 1923, in acting on N. B. App. 19288-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II. Sec. 4. A factory building in a business district."

and

WHEREAS, the proposed building is to be of fireproof construction, 3 stories in height with a frontage of 150 ft. and a depth of 100 ft., located on a plot of ground 200 ft. by 100 ft. in area; and

WHEREAS, the applicant is entitled to use 20,000 sq. ft. of floor area for manufacturing purposes under the provisions of Section 4, Subdivision C.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that applicant restrict the use of premises to the provisions of subdivision C of article 4, and does not maintain any use or conduct any manufacturing business prohibited under subdivision 4.

Resolved, further, that all permits necessary for the prosecution of the work be obtained within nine months and the work completed within eighteen months from the date of this action.

1308-23-BZ.

APPLICANT—Nathan D. Shapiro, for Aimee Klein, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

For Applicant: Nathan D. Shapiro.

For Opposition: None.

ACTION OF BOARD—Laid over to February 5, 1924, at 2 p. m., to procure some consents.

632-20-BZ.

APPLICANT—William F. Doyle, applicant, on behalf of Elmer E. Stevens, owner.

MINUTES

SUBJECT—Application (re: decision of superintendent of buildings) for re-hearing of an application previously denied, to permit in a residence district the conversion and extension in area of an existing stable for more than five (5) horses into a garage for more than five (5) cars.

PREMISES AFFECTED—1910 Walton avenue, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle and Elmer E. Stevens.

For Opposition: Robert H. Law, F. M. Fosier, Nathan Suchman, Fanny Morris, Milton E. Opton.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Messrs. Kerby and Holland 2

Negative: Chairman Walsh, Messrs. Boulton and Connell 3

Absent: Mr. Beatty and Fire Chief Kenlon.. 2

THE RESOLUTION:

(632-20-BZ)

WHEREAS, William F. Doyle, for Elmer E. Stevens, owner, filed, November 20, 1923, a request for reopening of an application under the building zone resolution, to permit in a residence district the extension in area and the conversion of an existing stable for more than five horses into a garage for the storage of more than five motor vehicles; this application having been denied by the board December 7, 1920; premises 1910 Walton avenue, The Bronx; and

WHEREAS, this request to reopen was granted by the board December 4, 1923; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Walton avenue, East 177th street, Morris avenue and Tremont avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 13, 1920, in acting on N. B. 664-1920, reads:

"1. Erection of proposed garage for more than five cars in residence district is contrary to the provisions of the building zone resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 42 ft. 10 in. and a depth of 170 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there appears to have been no change in the district and a committee of the board had formerly recommended the denial of this application.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1400-23-BZ.

THE RESOLUTION:

(1223-23-S)

WHEREAS, Samuel Rosenblum, for Samuel L. and Fred Rosenberg, lessee, filed, October 25, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 35 West 20th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 4, 1924, in acting on Order No. 46187-LD, reads:

"1. Arrange the fire escape at the rear of bldg. and the opening leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of section 273 and 274 of the Labor Law * * *";

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 25 ft. by 74 ft. 6 in. in area at the 1st story and 25 ft. by 63 ft. in area above. OCCUPIED: Basement, restaurant; 1st story, machine shop and pleater, 4 persons; 2nd story, embroidery, 11 persons; 3rd story, pleating, 10 persons; 4th story, mfr. of coats, 12 persons. EXITS: An interior wooden stairway, extending from the 1st story to the top story, with iron ladder to scuttle in roof, enclosed in wood lath and plaster partitions, with wooden doors at the openings; a fire escape on the rear of the building, with fireproof windows along the course, extending from the 4th story to the 1st story, with iron

stairway from 1st story balcony to yard and EGRESS from yard by means of iron stairs to yard of premises to rear; ROOFS to east and west 7 stories higher.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Order No. 46187, Item No. 1, as to egress, on condition that a fire escape be erected on the rear of building with stationary stairs to the yard, with unobstructed egress from yard to premises in rear (46 West 21st street).

1381-23-S.

PETITIONER—Croker Fire Prevention Engineering Co., for David Kramer, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—129-135 Degraw street, 50-60 Tiffany place, Brooklyn.

APPEARANCES—

For Petitioner: Herman E. Horwitz.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert and Moore 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent McDermott 4

THE RESOLUTION:

(1381-23-S)

WHEREAS, Croker National Fire Prev. Eng. Co., for David Kramer, owner, filed, Nov. 26, 1923, a petition, with the board of standards and appeals, from an order of the fire commissioner, affecting premises 129-135 Degraw street and 50-60 Tiffany place, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated June 8, 1923, reads:

"Order No. 47686-LD:

"2. Provide approved self-closing fire doors at openings leading to both interior stairways on all stories opening outwardly so as not to obstruct the stairway * * *";

and

WHEREAS, the building is non-fireproof, three stories and cellar in height, 60 ft. 4 in. by 150 ft. 2 in. in area, equipped with sprinkler system and fire alarm signal system. OCCUPIED: 1st story, mfg. office furniture, 10 persons; 2nd story, mfg. office furniture, 20 persons; 3rd story, storage and finishing furniture, 6 persons. EXITS: Two interior wooden stairways, extending from the 1st to the top story, with iron ladders to scuttle in roof; both stairways enclosed in brick, with openings protected with wooden swinging doors opening in, and automatic sliding fire doors; two fire escapes on westerly side and one fire escape on the easterly side of building; windows along course of fire escapes non-fireproof; no adjoining roofs; and

WHEREAS, petitioner contends that to provide doors swinging outwardly would block the stairway and that the sliding doors are equipped with fusible links, which will fuse only at a high temperature.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the openings be equipped with automatic sliding fire doors and that the present wood doors shall be made self-closing, and granted only so long as the occupancy shall not exceed twenty-five (25) persons above the 2nd story.

MINUTES

1218-23-S.

PETITIONER—Samuel Rosenblum, for Philip W. Oetting, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—213 East 19th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby, Connell, Superintendents Brady, Reville, Kleinert and Moore..... 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent McDermott 4

THE RESOLUTION:

(1218-23-S)

WHEREAS, Samuel Rosenblum, for Philip W. Oetting, owner, filed, October 25, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 213 East 19th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 9, 1923, reads:

“Order No. 46463-LD:

“2. Provide an unobstructed passageway around hoistway leading from the foot of stairway at east side of building to the street, said passageway to have a width of not less than the width of the stairway.” * * *; and

and

WHEREAS, the building is non-fireproof, 4 stories in height, 25 ft. by 92 ft. in area at the 1st story and 25 ft. by 84 ft. in area above; OCCUPIED 1st story, store, sale of piano felt; 2nd story, offices and storage, 3 persons; 3rd story, trimming and finishing piano hammers, 8 persons; 4th story, manufacture of piano hammers, 7 persons. EXITS: An interior wooden stairway extending from the 1st to the top story, with iron ladders to scuttle in the roof, with egress to street through hallway on 1st story under elevator hatchway, the stairway being enclosed in wooden board partitions with wooden doors at the openings; a fire escape on the front of the building, extending from the 4th to the 2nd story, with counterbalanced stair to street; openings on course of the fire escape are non-fireproof; ROOFS to east 15 ft. lower, to west 25 ft. lower; and

WHEREAS, petitioner proposes to fireproof the windows along the course of the fire escape on the front of the building, and in view of the small occupancy asks acceptance of “tell-tale” chains attached to trap door on 2nd story, in lieu of passageway to street around hoistway.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the hoistway shall be equipped with tell tale chains in accordance with the recommendations of the board of standards and appeals.

1392-23-S.

PETITIONER—Robert Teichman, for Annin & Co., lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—146-150 William street, Manhattan.

APPEARANCES—

For Petitioner: Robert Teichman.

For Administration: Inspector Mahers of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert and Moore..... 9

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent McDermott 4

THE RESOLUTION:

(1392-23-S)

WHEREAS, Robert Teichman, for Annin & Co., lessee, filed, November 27, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 146-150 William street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 29, 1923, reads:

“1. Provide a safe passageway under hoistway at No. 150 entrance, as per Section 271 of the Labor Law.”;

and

WHEREAS, the building is non-fireproof, 5 stories in height, 59 ft. 3 in. by 46 ft. 6 in. in area. OCCUPIED: 1st story, stores, 16 persons; 2nd story, office and shipping, 41 persons; 3rd story, mfg. of flags and pennants, 12 persons; 4th story, mfg. of flags and pennants, 13 persons; 5th story, stock, 1 person. EXITS: Two interior wooden stairways extending from 1st story to roof, enclosed in fire resisting partitions with fire doors at openings; stairway in No. 150 exits to street underneath a hoistway; a fire escape on the front of building with goose-neck ladder to roof and counterbalanced stair to street; openings along course of the fire escape are non-fireproof; and

WHEREAS, petitioner contends that tell-tale chains have been provided and asks acceptance of same.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the hoistway shall be equipped with tell-tale chains in accordance with the recommendations of the board of standards and appeals.

1422-23-S.

PETITIONER—Jacob Fisher, for Pauline Miller, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—126 West 21st street, Manhattan.

APPEARANCES—

For Petitioner: Jacob Fisher.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendents Brady and McDermott 5

THE RESOLUTION:

(1422-23-S)

WHEREAS, Jacob Fisher, for Pauline Miller, owner, filed, December 4, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the

MINUTES

labor law, as cited in an order of the fire commissioner, affecting premises 126 West 21st street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 21, 1922, reads:

"1. Extend the interior stairway at the east side of building to the roof, as per Section 271 of the Labor Law.

"2. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof. * * *

"Note: Among the defects noted on this fire escape are the following:

"Windows on course not fireproof, not self-closing;

"No passageway from termination of fire escape to street.";

and

WHEREAS, the building is non-fireproof, three stories and basement in height, 23 ft. by 54 ft. in area. OCCUPIED: Basement, carpenters and electrical shop, 4 persons; 1st story, factory—dresses, 10 persons; 2nd story, factory—cloaks, 10 persons; 3rd story, factory—pleating, 6 persons. EXITS: One interior wooden stairway extending from 1st to top story, with iron ladder to scuttle in roof, enclosed in wood lath and plaster partitions with wooden doors at openings; a party wall fire escape on the rear of building, extending from roof to balcony at 1st story with 45 degree stairs from balcony to the yard of adjoining premises; windows along the course of the fire escape are self-closing fireproof; ROOFS of adjoining premises are at same level; and

WHEREAS, petitioner proposes to remove iron ladder to scuttle in roof from loft and place it in hall and contends egress may be had from adjoining yard by means of a party wall fire escape also terminating in this yard.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 1 on condition that a fixed double rung iron ladder shall be provided from the top story hall to a scuttle in roof, and granted as to Item No. 2 on condition that a fire escape shall be provided on the rear of building with balconies and 60 degree connecting stairs and platform and balcony to roof level, and stationary stairs to yards and on further condition that the yards of the adjoining premises on both sides for a distance of three (3) houses shall be maintained open and unobstructed.

1427-23-S.

PETITIONER—Schwartz & Gross, for Bricken Construction & Improvement Co., owner.

SUBJECT—Variation of the labor law as cited in decision of the superintendent of buildings.

PREMISES AFFECTED—225-235 West 37th street, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert and Moore..... 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent McDermott 4

THE RESOLUTION:

(1427-23-S)

WHEREAS, Schwartz & Gross, for Bricken Const. & Imp. Corp., owner, filed, December 4, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 225-235 West 37th street, Manhattan; and

WHEREAS, the decision of superintendent of buildings, Dated November 30, 1923, reads:

"2. Store within hallway should be separated from hallway by fireproof partitions in accordance with Sec. 263 Labor Law.

"3. Show windows on 1-2 and 3rd floor should comply with Sec. 264, Labor Law and Rule 503, Industrial Code.";

and

WHEREAS, the proposed building is to be fireproof, 16 stories in height, 114 ft. 3 in. by 98 ft. 9 in. in area at 1st story, and 114 ft. 6 in. by 88 ft. 9 in. and 114 ft. 6 in. by 58 ft. in area above; equipped with sprinkler system. OCCUPIED: 1st story and mezzanine, stores and offices, 145 persons; 2nd to 16th stories, tenant factory, 168 persons per story; and

WHEREAS, there are windows on the 1st story 8 ft. 6 in. by 10 ft. in area, with 3 ft. 6 in. by 5 ft. in area transoms; on the 2nd and 3rd stories the windows are 6 ft. by 9 ft. in area with 1 ft. 3 in. by 4 ft 3 in. transoms; and

WHEREAS, in the hallway in the 1st story there is a proposed store, constructed of plate glass with fireproof self-closing doors at openings; and

WHEREAS, petitioner contends, in re to objection No. 3 that the window frames are all fireproof, glazed with $\frac{3}{4}$ in. plate glass and if compelled to subdivide into 720 sq. in. in area, the architectural features of the building would be destroyed and in re objection No. 2 contends the hallway is intended to be used as an arcade, connecting with building to the rear and the proposed store is located in such a position that it does not interfere with persons making exit from the building.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 2 on condition that the frames of store show windows in corridor shall be provided with steel muntins, that the glass shall be subdivided, not exceeding 720 sq. in. to the light, and glazed with clear wire glass, and that not more than one exit opening equipped with self-closing fireproof door shall be provided; granted as to Item No. 3, so far as it affects the 1st, 2nd and 3rd story windows on the front of the building only, on condition that all other windows shall be installed in accordance with the labor law.

1451-23-S.

PETITIONER—Edw. P. Doyle, for County Holding Co., owner.

SUBJECT—Variation of the labor law as cited in decision of the superintendent of buildings.

PREMISES AFFECTED—27 West 35th street, Manhattan.

APPEARANCES—

For Petitioner: Edward P. Doyle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendents Moore and McDermott 5

THE RESOLUTION:

(1451-23-S)

WHEREAS, Edward P. Doyle, for County Holding Co., owner, filed, December 7, 1923, a petition with the board of standards and appeals for a variation from the requirements of the labor law as cited in a decision of the

MINUTES

superintendent of buildings, affecting premises 27 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated December 3, 1923, reads:

"With reference to premises 27 West 35th street and your application for Certificate of Occupancy for same, we beg to state that certificate cannot be issued at this time for the reason that a fireproof passage has not been provided from the foot of the rear fire escape to the street."

and

WHEREAS, the building is non-fireproof, 4 stories in height, 20 ft. by 96 ft. in area at 1st story, 20 ft. by 86 ft. in area at 2nd story, and 20 ft. by 58 ft. in area above. OCCUPIED: Cellar, storage, 3 persons; 1st story, restaurant, 15 persons; 2nd story, show room, 3 persons; 3rd story, mfr., 11 persons; 4th story, mfr., 11 persons. EXITS: An interior wooden stairway extending from 1st story to roof, enclosed in wire lath and cement plaster partitions with fireproof doors at openings; a fire escape on rear of the building extending from main roof to roof of 2nd story extension, stairway from 2nd story extension roof to roof of 1st story extension and iron ladder from roof of 1st story extension to yard of premises to west. Windows along course of fire escape are fireproof, self-closing. ROOFS to east same level; to west 8 stories higher; and

WHEREAS, petitioner asks in view of small area and light occupancy of building the existing means of egress be accepted.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects egress from the termination of the rear fire escape on condition that egress shall be maintained from this yard to the adjoining yard to the west, in the rear.

Fire Commissioner Hannon and Superintendent McDermott 4

THE RESOLUTION:

(1585-23-S)

WHEREAS, Helmle & Corbett, for Trustees of Sailors Snug Harbor, owner, filed, December 17, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 13 East 8th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 17, 1923, in acting on Order No. 39895-LD, reads:

"1. Arrange the fire escape on the rear of building and openings leading thereto and the window opening on the course thereof so that same are in compliance with the provisions of sec. 273 and 274 of the Labor Law. * * *

"Note: Among the defects noted on this fire escape are the following:

"Windows on course not self-closing. Windows on course, second story, not fireproof.

"Windows on course, second story, not fireproof.

"No passageway from termination of fire escape to street."

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 25 ft. by 75 ft. in area at the 1st story and 25 ft. by 50 ft. in area above. OCCUPIED: Basement, store, 3 persons; 1st story, tailor and printing, 3 persons; 2nd, 3rd and 4th stories, clothing mfg., 5 persons per story. EXITS: An interior wooden stairway extending from the 1st story to the roof, enclosed in wood stud and plaster partitions, with wooden doors at openings; a fire escape on the rear of the building extending from the roof to yard with EGRESS through door in fence to yard of premises to rear; windows along course of the fire escape are fireproof, self-closing; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that there are no fences between premises to rear and that there is an unobstructed passageway in the basement of No. 12 East 9th street.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to the egress from the termination of the fire escape, on condition that the order of the fire commissioner shall be complied with in all other respects, and on condition that a clear and unobstructed opening in the rear fence shall be maintained to free and open yards to the rear, unencumbered by any fence or other obstruction.

THE RESOLUTION:

(1492-23-S)

WHEREAS, F. P. Keniston, for Sundel Hyman, owner, filed, December 18, 1923, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 570-572 Grand street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 52185-LD, dated November 28, 1923, reads:

"Arrange the exterior screened stairway on the rear of building and the openings leading thereto * * *.

"NOTE: Among the defects noted on this exterior screened stairway are the following: No fireproof passageway at least 3 ft. in width leading to the street, adequately lighted, from lower termination. Iron treads missing on the three lowest risers from ground level.";

and

WHEREAS, the building is non-fireproof, seven stories in height, 50 ft. by 65 ft. in area; equipped with a fire alarm signal system, and fire drills are regularly conducted. OCCUPIED: 1st floor, stores, 6 persons; 2nd floor, mfr. candy, 6 persons; 3rd floor, mfr. clothing, 20 persons; 4th floor, mfr. clothing, 20 persons; 5th floor, mfr. clothing, 25 persons; 6th floor, mfr. clothing, 22 persons; 7th floor, mfr. clothing, 25 persons. EXITS: An interior wooden stairway extending from the 1st story to roof, enclosed

in fire resisting partition with kalameined doors at openings; a fire escape on the rear of the building extending from 7th story balcony to yard, with gooseneck ladder from top balcony to roof; metal covered wire glass windows along course of the fire escape; EGRESS from yard through gate in fence to adjoining yard; ROOFS to east 3 stories lower, to west 1 story lower; and

WHEREAS, petitioner contends egress from adjoining yard to west may be had through passageway through tenement house adjoining.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to egress from termination of fire escape only, on condition that an open and unobstructed passageway be maintained to the yard of the adjoining premises to the west, with egress to street through unobstructed fireproof passageway.

THE RESOLUTION:

(1397-23-S)

WHEREAS, Samuel Rosenblum, for T. W. & C. B. Sheridan Co., lessees, filed, November 28, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 60 Walker street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 8, 1923, reads:

"Order No. 51129-LD:

"1. Extend interior stair east side of building to roof as per section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 98 ft. 4 in. in area. OCCUPIED: 1st story, machine, 3 persons; 2nd story, machinery, 5 persons; 3rd story, machinery, 8 persons; 4th story, machinery, 11 persons; 5th story, storage, 3 persons. EXITS: One interior wooden stairway, extending from the 1st story to the top story, with ladder to scuttle in the roof, enclosed in wooden partitions, with wooden and glass doors at the openings, and horizontal exit to premises to east on 2nd, 3rd, 4th and 5th stories; a fire escape on the front of the building from 5th to 2nd story, with connecting ladders and drop ladder to street and a balcony fire escape on the rear of the building, connecting to the adjoining premises to the west; ROOFS to west at same level and to east 5 ft. lower; and

WHEREAS, petitioner contends that the top story is used for storage and there would be only a small number of employees there from time to time, and requests that the existing means of exit be accepted.

MINUTES

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a fixed double rung iron ladder shall be provided in the top story loft to a scuttle in the roof, and *on further condition* that the top story is maintained for storage only, and *granted* only so long as conditions as to occupancy and use remain unchanged.

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert and Moore 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent McDermott 4

THE RESOLUTION:

(1409-23-S)

WHEREAS, Harold C. Noe, for Wm. R. Noe & Sons, owners, filed, December 1, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 125-135 Raymond street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated November 16, 1923, reads:

"1. Arrange all doors leading to street from the interior stairways so as to be opened from the inside and outside, during working hours, as per Section 272 of the Labor Law.";

and

WHEREAS, the building is fireproof, three stories in height, 100 ft. by 100 ft. in area. OCCUPIED: 1st story, office and storage, 2 persons; 2nd story, mfg. electric portable lamps and parts, 25 persons; 3rd story, finishing and wrapping of same, 25 persons. EXITS: A main exit stairway from 1st story to street, two interior fireproof stairways extending from 1st story to roof; with fire doors at openings to street; these openings are closed by means of panic bolts; and

WHEREAS, petitioner contends that the main exit and entrance to building can be opened either from outside or inside at all times during working hours and is not over 35 ft. from either exit door at foot of stairways; that the doors at the foot of stairways are fitted with large clear wire glass windows which can readily be smashed any time of need, affording access to the panic bolts just below them; and to have the emergency exit doors opening both ways would necessitate two watchmen.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the interior vestibule doors shall be equipped on the inside with approved panic bolts and that the doors shall be equipped with a single wire glass panel.

ACTION OF BOARD—Petition reopened and set for hearing February 13, 1924, at 2 p. m.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert and Moore 11

Negative 0

Absent: Mr. Beatty and Superintendent McDermott 2

179-20-S.

TITLE—Rules.

SUBJECT—Rescindment of resolution.

APPEARANCES—None.

ACTION OF BOARD—Motion, to rescind the resolution of the board of standards and appeals, known as Cal. No. 179-20-S, and that the requirements of section 72 of the building code shall prevail, adopted.

THE VOTE TO RESCIND—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert and Moore 11

Negative 0

Absent: Mr. Beatty and Superintendent McDermott 2

Adjourned 5.45 p. m.

WILLIAM J. O'GORMAN, Secretary.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanently secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENT TO THE PLUMBING RULES—ADOPTED JANUARY 8, 1924.

Rule No. 137.

Where "Flushometers" are used, they must be supplied from tank pressure, unless otherwise permitted by the Superintendent of Buildings; the rising lines shall be at least one and one-half inches in diameter, and the main

branches shall be at least one and one-quarter inches in diameter, with individual branches not less than one inch in diameter for water-closets and not less than one-half inch in diameter for urinals. Individual branches shall not exceed twelve inches in length.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed,

and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

NOTICE

BUILDING CODE ON SALE.

Copies of the Building Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, \$1; by mail, \$1.08.

ELECTRICAL CODE ON SALE

Copies of the Electrical Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, 25c; by mail, 27c.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit, in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth ($1\frac{1}{4}$) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter ($1\frac{1}{4}$) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter ($1\frac{1}{4}$) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand (10,000) gallons outside of buildings shall be equipped with a system of steam pipes, blanketing gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to permit proper inflow of liquid during the filling operation and two (2) inches in diameter on all tanks above 1100 gallons capacity, and in no case to be less than $1\frac{1}{4}$ inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided on both sides of each strainer in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner. An outside readily accessible valve shall be provided in all supply lines entering buildings from tanks.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than 18 degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge, tanks of a capacity of over 60 gallons and not more than 550 gallons shall be constructed of steel not less than 3/16 inches in thickness.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

(d) Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

See Rule 10 for Gauging device.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the suction line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths (¾) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

 1361-23-SA—Todd Residence Fuel Oil Burner, approval of.
 1493-23-SA—Newport Rotary Oil Burner, approval of.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or departmental actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

ANNUAL REPORT

HON. JOHN F. HYLAN,
Mayor, New York City.

January 29, 1924.

Sir:—I have the honor to submit the annual report of the Board of Appeals and the Board of Standards and Appeals for the year ending December 31, 1923, summarized as follows:

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

OFFICE—Municipal Building, Room 914.

TELEPHONE—Worth 0184.

OFFICE HOURS—9 a. m. to 5 p. m.; Saturdays, 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Meeting, Board of Appeals, February 5, 1924.
- Minutes of Special Meeting, Board of Appeals, February 5, 1924.
- Corrections.
- Rules Adopted.
- Reserve Calendar.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Wednesday, February 13, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, February 19, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

Under Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Wednesday morning*, February 13, 1924, at 10 o'clock in Room 919, Municipal Building, on the following matters:

CAL. NO. 1128-23-BZ—Application, September 28, 1923, under the building zone resolution, of William F. Doyle, applicant, on behalf of Pearl Campbell and Maria Cassino, owners, to permit in an unrestricted district extending into a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 363-371 Prospect place, Brooklyn.

CAL. NO. 1210-23-BZ—Application, October 23, 1923, under the building zone resolution, of Henry C. Brucker, architect, on behalf of George Hummel, owner, to permit in a residence district the erection and maintenance of an extension to an existing building used for business purposes; premises 2365 Myrtle avenue, Brooklyn.

CAL. NO. 1212-23-BZ—Application, October 24, 1923, under the building zone resolution, of William F. Doyle, applicant, on behalf of Mary Katz, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1115-1119 Intervale avenue, The Bronx.

CAL. NO. 1297-23-BZ—Application, November 13, 1923, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Joseph Lagana, owner, to permit in an unrestricted district extending into a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 44 Convent avenue, Manhattan.

CAL. NO. 1349-23-BZ—Application, November 22, 1923, under the building zone resolution, of William F. Doyle, applicant, on behalf of Greater New York Garage Co., Inc., owner, to permit in a business district extending into a residence district the connection and maintenance of two existing garages for the storage of more than five (5) motor vehicles, the temporary permit for each garage expiring on Dec. 9, 1923; premises 4342 Broadway, 643-647 West 185th street, Manhattan.

CAL. NO. 1404-23-BZ—Application, November 30, 1923, under the building zone resolution, of Charles D. Strang and Tinea Strang, applicants and owners, to permit in a business district the change of occupancy from manufacturing and dead storage to the use of fur dressing; premises 178-180 S. Portland avenue, Brooklyn.

CAL. NO. 1494-23-BZ—Application, December 18, 1923, under the building zone resolution, of McKown & Condon, applicants, on behalf of Broadway-94th Street Realty Co., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 214-218 West 95th street, Manhattan.

CAL. NO. 640-23-BZ—Application, May 23, 1923, under the building zone resolution, of Samuel Rosenblum, architect, on behalf of Joseph G. Marsicano, owner, to permit in a residence district the alteration and extension of an existing garage for the storage of three (3) pleasure and two (2) commercial motor vehicles; premises 1029 41st street, Brooklyn.

CAL. NO. 1133-23-BZ—Application, September 28, 1923, under the building zone resolution, of Philip Bardes, architect, on behalf of Hyman Hermele and Samuel Heft, owners, to permit in a business district the alteration and extension in height of a one-story existing garage for the storage of more than five (5) motor vehicles; premises 1005-1007 Intervale avenue, The Bronx.

BOARD OF APPEALS

REGULAR MEETING.

TUESDAY MORNING, FEBRUARY 5, 1924.

Present: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon.

The minutes of the special meeting of the board of appeals, held on Friday morning, January 25, 1924, and the minutes of the regular meeting of the board of appeals, held on Tuesday morning, January 29, 1924, were approved as printed in the Bulletin, No. 6, Vol. IX.

APPEALS FROM ADMINISTRATIVE ORDERS.

1384-23-A.

APPELLANT—New York Button Works, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—139-141 West 19th street Manhattan.

APPEARANCES—

For Appellant: James B. Kilsheiner and Louis Rosenberg.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1384-23-A)

WHEREAS, New York Button Works, Inc., lessee, filed, November 26, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 139-141 West 19th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 5, 1923, reads:

"Referring to your application for a permit to store and use 250 pounds of celluloid in building 139-141 West 19th Street, you are hereby informed that your application has been disapproved for the following reasons:

"Your premises in this building and your premises in adjoining and communicating non-fireproof building is deemed to be all one occupancy. These two buildings connect and have one sprinkler system.

"Because part of the occupancy is located in a non-fireproof building you are hereby ordered to:

"1. Remove all nitro-cellulose products from both buildings.";

and

WHEREAS, the building is fireproof, eight stories in height, 40 ft. by 48 ft. in area; equipped with a sprinkler and standpipe system; OCCUPIED as a tenant factory

75 persons in entire building, appellant occupying the 6th story for the manufacture of metal and celluloid buttons; and

WHEREAS, there is a horizontal opening in the west wall of these premises, protected with fire doors, to the 6th story of an adjoining non-fireproof building, also occupied by appellant for the storage of finished products in paper cartons; and

WHEREAS, appellant contends that a standpipe order issued by the fire department was complied with when it was decided the non-fireproof building was a separate structure; that the finished stock in the non-fireproof portion will be removed in a short period; that the main stock of celluloid (250 pounds) is stored in a sprinklered fireproof container, vented to the outer air through opening in a fixed window.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that all manufacturing or assemblage of the work conducted on these premises be confined to the fireproof structure, provided the celluloid regulations are complied with in all other respects; and so far as the order affects the non-fireproof building adjoining, the appeal is granted on condition that not more than 50 pounds of the finished product on sale and for display be maintained in this building, and on further condition that the floor in this non-fireproof section, in which the sales and display are maintained, shall be sprinklered.

1393-23-A.

APPELLANT—William Higginson, for Brett Lithographing Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—South side Meadow street, extending from Pearson street to Anable avenue, L. I. City, Queens.

APPEARANCES—

For Appellant: C. Higginson.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7

THE RESOLUTION:

(1393-23-A)

WHEREAS, William Higginson, for Brett Lithographing Co., owner, filed, November 27, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises south side of Meadow street, extending

MINUTES

from Pearson street to Anable avenue, Long Island City, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated November 5, 1923, reads:

"Order No. 51043-F:

"1. Install a standpipe system with risers 4 in. in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *";

and
WHEREAS, the building is fireproof, four stories (58 ft.) in height, 200 ft. by 80 ft. (16,000 sq. ft.) in area. OCCUPIED: 1st story, storage of glass, 6 persons; 2nd story, lithographing, 25 persons; 3rd story, lithographing, 40 persons; 4th story, lithographing, 54 persons; and

WHEREAS, appellant contends that the building is equipped with an automatic sprinkler system with a 30,000 gallon source of supply, an interior fire alarm signal system, portable fire extinguishers and two siamese connections; that a similar order was issued by the fire department in 1919, which was modified by the board of review by requesting the installation of a 1½ in. outlet with hose on each floor, connected to the sprinkler system, and further contends that this work has been done.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the existing sprinkler system shall be brought up to standard, supplied from the existing 30,000 gallon gravity tank; all hose outlets on the sprinkler system to be disconnected and permanently capped, and *granted* so long as the present occupancy and use remain substantially unchanged.

1449-23-A.

APPELLANT—Gill & Striker, lessees.

SUBJECT—Appeal from order of fire commissioner.

THE RESOLUTION:

(1305-23-A)

WHEREAS, Samuel Rosenblum, for Case Holding Co., lessee, filed, November 14, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 233-9 West 42nd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 31, 1923, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at North side of building, * * *";

and

WHEREAS, the building is non-fireproof, six stories in height, 80 ft. by 87 ft. in area. OCCUPIED: 1st story, stores and offices, 33 persons; 2nd to 6th stories, incl., offices, 45 persons per story; and

WHEREAS, appellant contends that the exposures to the north are windows in dressing rooms of a theatre and that these windows are fireproof.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that all openings in rear wall, with the exception of the four (4) westerly openings on each story, be provided with iron shutters or fireproof windows; *granted* so long as conditions as to use and occupancy remain substantially unchanged.

Absent: Mr. Kerby 1

THE RESOLUTION:

(1313-23-A)

WHEREAS, Croker Fire Prev. Eng. Co., for Medalion Nov. Co., lessee, filed, November 15, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 208 Bowery, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 25, 1923, reads:

"1. All vertical openings between floors, including stairways, elevators, dumbwaiters, etc., throughout the building must be enclosed or otherwise protected as specified in Articles 8 and 18 of Building Code.

"4. Discontinue the use of gas radiator, gas heated roller and all other fire or flame or source of heat

(except steam or hot water) in room or compartment where nitro-cellulose products are stored or used for the manufacture of articles therefrom. Section 234-1, Chapter 10, Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, three stories in height, 16 ft. 8 in. by 80 ft. in area. OCCUPIED: 1st story, restaurant, 3 persons; 2nd story, employment agency and cap mfg., 4 persons; 3rd story, medalions (celluloid covered), 4 persons; and

WHEREAS, appellant contends that this business has occupied these premises for ten years, an in re: Item No. 1 contends the stairway is now enclosed on 1st story with tile and metal and on the 2nd story it is metal covered on both sides; in re: Item No. 2, contends the gas steam radiator is 40 ft. from place where celluloid is handled, and asks permission to store five (5) pounds of celluloid.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the floor area in which the celluloid work is conducted shall be enclosed by partitions of approved fire retarding material in accordance with the rules of the board of standards and appeals, any opening therein to be protected with self-closing, fireproof door; that all celluloid used in the conduct of the business shall be maintained in a metal cabinet; and that the quantity of celluloid stored on premises shall not exceed five (5) pounds.

THE RESOLUTION:

(1459-23-A)

WHEREAS, Ferdinand Savignano, for Messrs. Fried and Gelfand, lessees, filed, December 10, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 4805 New Utrecht avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated November 14, 1923, reads:

"2. Provide an automatic sprinkler system supplied from both approved gravity tank supply and an approved pressure tank supply * * *";

and

WHEREAS, the building is non-fireproof, one story in height, 20 ft. by 58 ft. in area; OCCUPIED manufacture of celluloid veneered umbrella handles, 8 persons; and

WHEREAS, appellant contends that not more than 50 pounds of celluloid will be kept on the premises and that will be stored in an approved metal cabinet; that the 4 in. motor-driven saw used on the premises is used for trimming surplus wood from the handles, and it is protected with sprinkler head.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the total amount of celluloid stored on the premises shall not exceed 40 pounds, main-

THE RESOLUTION:

(1480-23-A)

WHEREAS, Strauch Bros., Inc., lessee, filed, December 14, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 327-347 Walnut avenue, The Bronx; and

WHEREAS, the order of the fire commissioner, dated November 23, 1923, reads:

"1. Remove all paint, varnish, lacquer, rosin, turpentine, oil, hemp and cotton from the premises. * * *

"6. Provide jets of water where saws or cutting tools are used which are likely to heat the nitro-cellulose product to the firing point of friction or otherwise, so that same shall continuously play upon the point of contact.

"8. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering. * * *

"9. Provide suitable guards around radiators and steam pipes to prevent combustible material from coming in contact therewith.

"10. Bottom of guard shall be arranged so as to lift up for cleaning. Section 235-9, Chapter 10, Article 19, Code of Ordinances.

"12. Provide a sufficient number of tote boxes of approved construction in which must be kept materials and articles in process of manufacture, except such as are kept in vaults or cabinets. * * *";

and

WHEREAS, the building is fireproof, six stories in height, 200 ft. by 60 ft. in area; the building is equipped with sprinkler system and standpipe system and fire buckets in tanks; OCCUPIED for the manufacture of piano actions, keys and hammers, 460 persons in entire building; and

WHEREAS, appellant contends that the work done is to glue thin sheets of celluloid to boards and with a band saw cut into strips forming piano keys; that in this process there is no accumulation of scraps, the resultant dust being collected and burned; that all radiators are from 4 in. to 6 in. above the floor and all risers come through

the floor protected with sleeves to 4 in. above the floor; that, excepting for steam cross connections on ceiling, all risers are asbestos covered; that there is no open flame on the premises, and all machines are direct motor-driven.
Resolved, that the order of the fire commissioner, as regards Item 1, be and it hereby is modified, and the appeal be and it hereby is granted on condition that all paint, varnish, lacquer, etc., shall be stored and maintained in fireproof vault, and that a quick-opening valve be provided in substitute of water jets (Item 5); as regards Items 9, 10 and 12, the appeal be and it hereby is granted on condition that not more than 100 pounds of celluloid shall be maintained on the premises, stored in a fireproof brick vault, located in rear yard of premises, and that not more than 25 pounds shall be maintained in the process of manufacture within the structure; and, regarding Item 8, the appeal be and it hereby is denied.

THE RESOLUTION:

(1447-23-BZ)

WHEREAS, William F. Doyle, for Cedar Land Realty Co., owner, filed, December 7, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises southeast corner of Jerome avenue and East Tremont avenue, The Bronx; and

MINUTES

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting February 5, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue and East Tremont avenue are business districts and Walton avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 3, 1923, in acting on N. B. App. 2855-23, reads:

"Item 1—Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 107 ft. and a depth of 100 ft., to be occupied as a garage with stores in the 1st story, East Tremont avenue front; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a garage for more than five motor vehicles.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the Tremont avenue front and the Jerome avenue corner for a depth of 30 ft. southerly from Jerome avenue front be maintained and conducted for stores or shops use only, separated from the garage by an unpierced brick wall; that there be no vehicular exit or entrance to the garage on East Tremont avenue; that vehicular entrances shall be restricted to the Jerome avenue front of the building; that the easterly and southerly gable walls be unpierced throughout their entire height and length; that any skylights installed shall be glazed with plain glass, equipped with wire guards above and below; that the front elevations on East Tremont avenue and Jerome avenue, other than the show windows, shall be faced with front brick and architectural terra cotta or stone trimmings;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1298-23-BZ.

APPLICANT—Nathan Langer, for Vincenzo Gargiulo, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—3200 Villa avenue, The Bronx

APPEARANCES—

For Applicant: Nathan Langer and Louis N. Adler.

For Opposition: Leopold Bissner and Michael Bufano.

ACTION OF BOARD—Laid over to February 19, 1924, at 2 p. m., to support appeal by consents.

1385-23-BZ.

APPLICANT—William F. Doyle, for Max Ludecke, lessee.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a "B" area residence district the alteration and extension of an existing business building, also to construct building over entire lot area, omitting a rear yard as required by the building zone resolution.

PREMISES AFFECTED—150-152 West 127th street, Manhattan.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE RESOLUTION:

(1385-23-BZ)

WHEREAS, William F. Doyle, for Catherine Silberhorn, owner, filed, November 27, 1923, an application, under the building zone resolution, to permit in a "B" area district the alteration and extension of an existing business building to cover entire lot area, omitting a rear yard as required by the building zone resolution; premises 150-152 West 127th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting February 5, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 127th street is a residence and "B" area district, West 126th street and Seventh avenue are business and "B" area districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 23, 1923, in acting on Alt. App. No. 2618-23, reads:

"1. As the building is located in a residence district the proposed extension is unlawful; sec. 6a, Building Zone Resolution.

"2. Provide lawful rear yard to conform with the requirements of sec. 16a and 16b, Building Zone Resolution.";

and

WHEREAS, the existing building is of non-fireproof construction, five stories in height, with a frontage of 27½ ft. and a depth of 100 ft. in the 1st story and a depth of 80 ft. above; it is proposed to extend the existing one-story extension to the height of main roof, the building thus covering entire lot area in each story; and

WHEREAS, under the provisions of section 7, subdivision A, the board is empowered to act as to the extension of the use and the board deemed that as adjoining premises extended the full depth of lot there would be hardship in compelling applicant to set back.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the gable walls of this proposed extension be unpierced throughout their entire height and length; that any openings in the rear shall be equipped with fixed metal sash, glazed with translucent wire glass; with not more than one ventilator to each sash; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

420-23-BZ.

APPLICANT—Henry H. Ehrlich, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of two (2) motor vehicles, two spaces rented to persons not residing on the premises.

PREMISES AFFECTED—740 Sylvester avenue (formerly Mandsley street), Borough of Queens.

THE RESOLUTION:

(420-23-BZ)

WHEREAS, Henry H. Ehrlich, owner, filed, April 10, 1923, an application, under the building zone resolution, to permit, for a temporary period of two (2) years, in a residence district, the maintenance of a garage for the storage of two (2) motor vehicles, two spaces rented to persons not residing on the premises; premises 740 Sylvester avenue (formerly Mandsley street), Jamaica, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting February 5, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Sylvester avenue and Remington avenue are residence districts; and

WHEREAS, the order of the fire commissioner, dated March 28, 1923, Order No. 78488-LC, reads:

"Maintenance of your garage is a violation of section 3, article 2 of the Building Zone Resolution of the Board of Estimate and Apportionment of the City of New York adopted July 25, 1916, inasmuch as motor vehicles stored are for sale, for rent, or for hire or are subject to charges for storage."

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 20 ft. and a depth of 20 ft., occupied as a garage for two motor vehicles, space rented to persons not residing on premises.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the capacity of the garage be limited to two automobiles of the pleasure car type, space for which may be rented to persons not residing on the premises, and that this permission is granted for a temporary period not extending beyond two years from the date of this action.

1168-23-BZ.

THE RESOLUTION:

(1055-23-BZ)

WHEREAS, F. W. Rinn, for Michael Lyndsey, owner, filed, September 4, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of three (3) pleasure motor vehicles; three spaces rented to persons not residing on the premises; premises 2218 Aqueduct avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting February 5, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Aqueduct avenue and Buchanan place are residence districts; and

WHEREAS, the order of the fire commissioner, dated August 16, 1923, Order No. 19377-C, reads:

"1. Discontinue the maintenance of a garage which is not maintained strictly as an accessory to dwelling on same lot on these premises."

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 31 ft. and a depth of 20½ ft., occupied as a garage for three motor vehicles, three spaces rented to persons not residing on premises; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 84 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the capacity of the garage be restricted to three automobiles of the pleasure car type, space for two of which may be rented to persons not residing on the premises, and that this permission be *granted* for a temporary period of two years from the date of this action.

1541-22-BZ.

APPLICANT—Morris Perlstein, for Charles Arnio, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of garage for storage of more than five motor vehicles.

PREMISES AFFECTED—1906-1922 Neptune avenue, Brooklyn.

APPEARANCES—

For Applicant: Herman E. Horowitz.

For Opposition: None.

893-21-BZ.

APPLICANT—John F. O'Meara.

SUBJECT—Application for extension of permit (re: order of fire commissioner) to permit the maintenance of nine (9) individual garages.

PREMISES AFFECTED—4624-4626 Broadway, Manhattan.

APPEARANCES—

For Applicant: John F. O'Meara.

For Opposition: None.

ACTION OF BOARD—Application granted.

CONDITIONS—As specified in resolution.

THE VOTE TO EXTEND TEMPORARY PERMIT—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby

Negative

Absent: Fire Chief Kenlon

THE RESOLUTION:

(893-21-BZ)

WHEREAS, John F. O'Meara, owner, filed, July 14, 1921, an application, under the building zone resolution, to permit in a business district the temporary maintenance of nine individual garages; premises 4624-4626 Broadway, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, October 20, 1921, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Broadway is a business district; and

WHEREAS, the order of the fire commissioner, No. 7386-LC, dated July 6, 1921, reads:

"Discontinue the maintenance of a garage for more than 5 motor vehicles on these premises."

and

WHEREAS, the proposed buildings are to be of metal construction, seven of the buildings each one story in height, with a frontage of 10 ft. and a depth of 18 ft., occupied as garages for one car, and one building one story in height, 16 ft. by 18 ft. in area, occupied by two cars; and

WHEREAS, the premises are located in an undeveloped section; and

MINUTES

WHEREAS, this application was granted by the board at its meeting, October 20, 1921, on certain conditions, and applicant requested a modification of the time limit imposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* to permit the maintenance of seven individual metal garages and one two-car metal garage for a period not to exceed two years from the date of this action.

Filed Sept. 28, 1923—Premises 104-34 89th avenue, Richmond Hill, Queens. Decision of the superintendent of buildings. Applicant, William F. Doyle. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

WHEREAS, the foregoing applicants have filed with the board of appeals applications under the building zone resolution, affecting the premises in question; and

WHEREAS, the applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the applications be and they hereby are dismissed for lack of prosecution.

AREAS FIXED.

(30-24-BZ)

The chairman presented and read a communication from Philip Steigman, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 2153-2173 Union street, Brooklyn.

The following area was approved by the board:

Both sides of East 98th street from Blake avenue to a point 400 ft. south of proposed garage. Both sides of Winthrop street from East 98th street to a point 200 ft. west of East 98th street. Both sides of Union street from East 98th street to a point 200 ft. north of Blake avenue; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

(31-24-BZ)

The chairman presented and read a communication from F. W. Rinn, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of a garage; premises 2251 Grand avenue, The Bronx.

The following area was approved by the board:

Both sides of Buchanan place from Aqueduct avenue to a point 400 ft. east of premises in question; also both sides of Grand avenue from 182nd street to a point 100 ft. north of Buchanan place.

THE RESOLUTION:

(531-23-A)

WHEREAS, Ballard Oil Company, for Vanderbilt Hotel Company, lessee, filed, May 2, 1923, an appeal, with the

board of appeals, from an order of the fire commissioner, affecting premises west side of Park avenue, 33rd to 34th streets, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"No. 35 Burners must be of a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is fireproof, 21 stories in height, 197 ft. 6 in. by 80 ft. in area, occupied as hotel; it is proposed to provide a fuel oil burning installation conforming to the requirements of the fuel oil rules of the board of standards and appeals, except that the pipes will be carried overhead and not buried in a trench, and the type of burner used has not as yet been approved, the burner being the Ballard Oil Burner; and

WHEREAS, appellant requests permission to operate the plant pending the approval of the burner, request for which has been made under Cal. No. 1493-22-S, and requests acceptance of piping and fill box installation.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* permitting the operation of this fuel oil burner for a temporary period of ninety (90) days, pending inspection by a committee of the board of standards and appeals, *on condition* that the fuel oil burning equipment shall comply with the fuel oil rules of the board of standards and appeals in all other respects.

Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1377-23-A)

WHEREAS, August F. Schwarzler, owner, filed, November 26, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 1660-1662 Webster avenue, The Bronx; and

WHEREAS, the decision of the fire commissioner reads:
"Re: N. B. 1244-1920. April 19, 1923.

"You may file two corrected prints provided you show 2½ in. standpipe (fire line) carried around interior walls of the building forming a complete loop.";

and

WHEREAS, the building is non-fireproof, one story in height, 58 ft. 7½ in. by 164 ft. 4¾ in. in area; OCCUPIED as a public garage; and

WHEREAS, appellant contends that, having carried the 2½ in. standpipe half way around the building and provided sufficient hose at each outlet to reach every portion of the premises, additional piping is unessential and would in no way increase the value of the existing standpipe.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a 2½ in. standpipe equipment shall be installed in accordance with the rules of the board of standards and appeals and carried from the main entrance on the front around one side of the building and across the rear, in accordance with the plans filed in this appeal and that corrected plans shall be filed with the fire prevention bureau showing the layout as approved by the board, and *on the further condition* that the hose outlets and reels shall be maintained accessible and unobstructed at all times.

APPELLANT—William Shary, for I. Langner Construction Co., owner.

SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—627-635 West 133rd street, Manhattan.

APPEARANCES—

For Appellant: William Shary.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell, Holland and Kerby 6

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1424-23-A)

WHEREAS, William Shary, for L. Langner Const. Co., owner, filed, December 4, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 627-635 West 133rd street, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered November 22, 1923, in acting on N. B. Application No. 1058-23, reads:

"1. The minimum pressure in street is insufficient to give 25 lbs. pressure at the top outlets at all times. Also the main is fed only one way. It will be necessary to supply the system by a gravity tank.";

and

WHEREAS, the building is non-fireproof, two stories in height, 125 ft. by 99 ft. 11 in. in area; OCCUPIED as a public garage, 8 employees; and

WHEREAS, appellant contends that the floor of the 2nd story is of fireproof construction and the roof is fire retarded with ½ in. plaster board and 26 gauge metal, and proposes to install an approved sprinkler system and a 4 in. street supply standpipe system having a 4 in. direct connection to the street main and a siamese connection thereto.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1254-23-BZ.

APPLICANT—Louis Morgenstein, lessee.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district alteration of an existing building and change of occupancy from stable to garage for storage of more than five motor vehicles.

PREMISES AFFECTED—14 Second avenue, Manhattan.

APPEARANCES—

For Applicant: Luke Flanagan and Louis Morgenstein.

For Opposition: Morris Dubin and Nathaniel W. Kean.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Messrs. Beatty, Boulton, Holland, Kerby and Fire Chief Kenlon	5
Negative: Chairman Walsh and Mr. Connell	2
Absent	0

THE RESOLUTION:

(1254-23-BZ)

WHEREAS, Louis Morgenstein, for Albert Hartmann, owner, filed, November 8, 1923, an application, under the building zone resolution, to permit in a business district the alteration of an existing building and a change of occupancy from a stable to a garage for the storage of more than five motor vehicles; premises 14 Second avenue, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 5, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Second avenue, East 1st street and East Houston street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 26, 1923, in acting on Alt. App. 2292-23, reads:

"1. Proposed use as garage is unlawful in a business district, Art. II, Building Zone Resolution.";

and

WHEREAS, the existing building is of non-fireproof construction, four stories, cellar and sub-cellar in height, with a frontage of 25 ft. and a depth of 105 ft. 6 in., occupied as a stable for more than five horses; it is proposed to convert building into a garage for more than five motor vehicles; and

WHEREAS, this building was occupied as a stable for more than five horses.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that a building of fireproof construction be erected; that the gable walls be unpierced throughout their entire height and length; that a ventilating system be installed, of metal ducts, with sufficient exhaust outlets for each story, faced with metal registers at least 18 inches above floor level, venting above the roof and that there shall be no gasoline storage equipment installed or maintained on these premises, and that all permits necessary for the prosecution of the work be obtained within nine months and the building completed within eighteen months from the date of this action.

1308-23-BZ.

APPLICANT—Nathan D. Shapiro, for Aimee Klein, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—1819-1837 Cropsey avenue, Brooklyn.

APPEARANCES—

For Applicant: Nathan D. Shapiro.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland and Kerby	5
Negative	0
Absent: Mr. Connell and Fire Chief Kenlon	2

THE RESOLUTION:

(1308-23-BZ)

WHEREAS, Nathan Shapiro, for Aimee Klein, owner, filed, November 14, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1819-37 Cropsey avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 4, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Cropsey avenue, Bay 19th street and Bay 20th street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 25, 1923, in acting on N. B. App. 19577-23, reads:

"Denied—Proposition contrary to the Zone Resolution. Art. II, Sec. 3. A garage for more than five motor vehicles in a business district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 161 ft. 3¾ in. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure be limited to a one-story building; that the rear and gable walls be unpierced throughout their entire height and length; that there be no vehicular entrance on the Bay 19th street front of these premises; that the front elevations on Bay 19th

MINUTES

street and Cropsey avenue be finished with face brick and architectural terra cotta or stone trimmings; and that all permits necessary for the prosecution of the work be obtained within nine months and the building completed within eighteen months from the date of this action.

896-19-BZ.

APPLICANT—Michael J. Martin & Son, Inc., owner.

SUBJECT—Application for extension of permit (re: decision of superintendent of buildings) to permit partly in a business district and partly in an unrestricted district the erection of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—Southeast corner 230th street and Exterior street, The Bronx.

APPEARANCES—

For Applicant: George B. Martin.

For Opposition: None.

ACTION OF BOARD—Application reopened and extension of time granted.

THE VOTE FOR EXTENSION OF TIME TO OBTAIN PERMIT—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Holland and Kerby 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon 2

THE RESOLUTION:

(896-19-BZ)

WHEREAS, Moore & Landsiedel, architects, on behalf of Michael J. Martin & Son, Inc., owner, filed, November 28, 1919, with the board of appeals, an application, under the building zone resolution, to permit partly in a business district and partly in an unrestricted district the erection of a garage for storage of more than five motor vehicles; premises southeast corner West 230th street and Exterior street, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, December 18, 1919, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Exterior street is located in an unrestricted district and that 230th street and Broadway are both located in business districts; and

WHEREAS, the decision of the superintendent of buildings, dated November 13, 1919, reads:

"Erection of proposed garage for storage of more than five motor vehicles in unrestricted district extending into a business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of fireproof construction, five stories in height, with a frontage of 133.62 ft. and a depth of 106.98 ft., the building extending approximately 6 ft. 6 in. into the business district to the east, to be occupied as a garage for more than five motor vehicles, the maps accompanying the building zone resolution specifically placing the corner on which the proposed garage is to be located in an unrestricted district; and

WHEREAS, this application was granted by the board at its meeting, December 18, 1919, on certain condition, and applicant requested a modification of the time limit imposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, on condition that the walls of the proposed building within the business district shall be unpierced; and

Resolved, further, that any permits necessary for the prosecution of the work shall be obtained and the building completed within 90 days of the date of this action.

1221-22-BZ.

APPLICANT—Philip J. Sinnott, for Estate of Amalie Meyer and George J. Naegle, owner.

SUBJECT—Application for extension of permit (re: decision of superintendent of buildings) to permit partly in business district and partly in residence district extension and conversion of stable to garage for more than five motor vehicles.

PREMISES AFFECTED—2945-2497 Amsterdam avenue, Manhattan.

APPEARANCES—

For Applicant: Philip J. Sinnott.

For Opposition: None.

ACTION OF BOARD—Application reopened and extension of time granted.

THE VOTE FOR EXTENSION OF TIME TO OBTAIN PERMIT—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Holland and Kerby 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon 2

THE RESOLUTION:

(1221-22-BZ)

WHEREAS, John Brandt, for Estate of Amalie Meyer and George J. Naegle, owners, filed, October 13, 1922, an application, under the building zone resolution, to permit partly in a business and partly in a residence district the extension and conversion of a stable for more than five horses into a garage for the storage of more than five motor vehicles; premises 2495-2497 Amsterdam avenue, Manhattan; and

WHEREAS, this application was denied by the board at its meeting, December 29, 1922, and the owner, through his attorney, Philip J. Sinnott, requested a reopening of the case and permission to amend the basis of appeal to section 7, subdiv. C, and section 20, which request was granted by vote of the board May 1, 1923; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, June 12, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Amsterdam avenue is a business district and West 184th street and Laurel Hill terrace are residence districts; and

WHEREAS, the decision of the superintendent of buildings reads:

"1. The proposed change of occupancy of the present building from a stable to garage with structural alterations is prohibited by the Building Zone Resolution, sec. 6.

"2. The proposed extension of the building for garage occupancy in a residence district is prohibited, sec. 3, Building Zone Resolution.";

and

WHEREAS, the proposed extension is to be of non-fireproof construction, one story and cellar in height, with a frontage of 84 ft. 6 in. and a depth of 101 ft. 8 in., the extension and existing building which is 45 ft. 5 in. by 95 ft., to be occupied as a garage for more than 5 motor vehicles; and

WHEREAS, under the provisions of section 7, subdiv. c, the board is empowered to act; and

WHEREAS, this application was granted by the board at its meeting, June 12, 1923, on certain conditions, and applicant requested a modification of the time limit imposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that all permits necessary for the prosecution of the work shall be obtained within three months and the building completed within three months from the date of this action; that the front

MINUTES

of the building on 184th street be faced with finished front brick, with architectural terra cotta or stone trimmings; that the rear of the building, facing Laurel Hill terrace, shall be faced with finished front brick, and that there be not more than one vehicular exit on the 184th street front beyond 25 ft. from the westerly gable wall; that there shall be no exit or entrance from the rear of the building to Laurel Hill terrace; and that a flat form of roof construction shall be installed.

MINUTES

BOARD OF STANDARDS AND APPEALS

*CORRECTION.

The minutes of the meeting of the board of standards and appeals, held Wednesday afternoon, November 7, 1923, as they appeared in Bulletin No. 46, Vol. VIII, are hereby corrected to read as follows:

THE RESOLUTION:

(966-23-S)

WHEREAS, Baker, Murray & Imbrie, Inc., lessee, filed, Aug. 1, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 97 Chambers street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 14, 1923, reads:

"Order No. 48754-LD:

"1. Provide approved self-closing attachments on doors leading to stairway enclosure on 5th story at the southerly end of west side of building. * * *

"2. Eliminate glas windows and doors in partitions enclosing the interior stairway * * *";

and

"Order No. 48755-LD:

"1. Enclose the interior stairway at the northerly end of east side of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the 1st story to 3 ft. above the roof * * *.

"2. Extend the interior stairway at the northerly end of east side of building to the roof * * *.

"3. Provide a fireproof base for stairway enclosure

at the southerly end of west side of building on 1st story * * *";

and

WHEREAS, the building is non-fireproof, five stories in height, 45 ft. by 150 ft. 9½ in. in area; EQUIPPED with a fire alarm signal system. EXITS: Two interior wooden stairways, one at north and one at the south side of building; the southerly stairway extending from the 1st story to the roof, enclosed in fire resisting material with fire doors at the openings; the northerly stairway extending from the 1st story to the top story with iron ladder to scuttle in the roof; enclosed in wood partitions with wooden doors at the openings; a 60 degree fire escape with fireproof windows along course on front of building, extending from the roof to the 2nd story with counter-balanced stairway to street and a sub-standard fire escape on the south side of building; ROOFS to west 2 ft. higher; to east 2 ft. lower. Building OCCUPIED AS FOLLOWS: Basement, storage, 4 persons; 1st story, stores and salesrooms, 25 persons; 2nd story, salesrooms and storage, 25 persons; 3rd story, salesrooms and storage, 25 persons; 4th story, leather and canvas goods, 20 persons; 5th story, leather and canvas goods, 12 persons; and

WHEREAS, petitioner contends that the existing exits are adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted as to Order No. 48755, Items 1 and 2, on condition that the well hole in each story shall be permanently closed in and floored over; and granted as to Item 3, on condition that the underside of the cellar ceiling and soffet of stairs of the 1st story shall be fire retarded with wire lath and cement mortar and granted so long as the present conditions as to occupancy and use remain substantially unchanged and that the order of the fire commissioner, No. 48754-LD, be affirmed and the petition as to this order be and it hereby is denied.

*Correction—Word "northerly" changed to "southerly" in line 32 and "southerly" changed to "northerly" in line 34.

MINUTES

BOARD OF STANDARDS AND APPEALS

*CORRECTION.

The minutes of the meeting of the board of standards and appeals, held Wednesday afternoon, Jan. 2, 1924, as they appeared in Bulletin No. 9, Vol. 2, are hereby corrected to read as follows:

THE RESOLUTION:

(571-23-S)

WHEREAS, Robert T. Lyons, for 132 West 36th Street Corporation, owner, filed, May 10, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 132-4-6-8 West 36th street and 139-41-3-5 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings reads:

"Your request for a certificate of occupancy for this building providing for its use in part as a factory building will be denied for the following reasons:

"1. Not more than 25 per cent of the floor area may be used for factory occupancy.

"3. All windows must be of an approved type of fire windows (Section 264 Labor Law).

"4. Elevator shafts and stairways must be enclosed with fire partitions to conform with the requirements of section 263 of the Labor Law.

"5. Structural steel must be protected with a two-inch thickness of fireproofing material."

and

WHEREAS, the building is fireproof, 12 stories in height, 75 ft. by 197 ft. 6 in. in area, irregular; with interior fire alarm signal and sprinkler system; the building is located in a business district under the building zone resolution. EXITS: Two interior wrought iron stairways extending from 1st story to roof, enclosed in fireproof par-

titions, with kalameined doors at openings. ROOFS: To east and west, 6 stories lower. OCCUPIED AS FOLLOWS: 1st story, furniture, 18 persons; 2nd story, dresses, 21 persons; 3rd story, coats, 23 persons; 4th story, coats and suits, 5 persons; 5th story, woollens, 62 persons; 6th story, dresses, 23 persons; 7th story, feathers, 62 persons; 8th story, coats and suits, 21 persons; 9th story, show rooms, 5 persons; 10th story, millinery, 67 persons; 11th story, coats and suits, 30 persons; 12th story, coats and suits, 35 persons; and

WHEREAS, petitioner contends that only 12 per cent of the floor area is occupied for factory purposes, that fire windows will be installed on 5th, 7th, 10th, 11th and 12th stories, those used for factory, and further contends that stairways and elevator shafts are properly enclosed and structural steel is properly covered; and

WHEREAS, this petition was granted by the board at its meeting July 17, 1923, and petitioner requested a modification of the resolution.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted as to Item No. 1 on condition that not more than 25 per cent of the floor area be occupied for factory purposes, and granted as to Item No. 3 on condition that the factory occupancy shall be restricted to the 5th, 7th, 10th, 11th and 12th stories and that all windows on the front of the building on these stories shall be equipped with frames and sash in accordance with the requirements of the labor law, except as to the glazing, which may be polished plate glass not less than $\frac{1}{4}$ inch in thickness and that all other openings on these floors shall comply with the requirements of the labor law; granted as to Item Nos. 4 and 5 on condition that the requirements of the New York Building Code affecting elevator and stairway enclosures and the covering of structural steel shall be complied with, and granted so long as conditions otherwise remain substantially unchanged.

*Correction—"5" changed to "62" in line 34.

MINUTES

BOARD OF STANDARDS AND APPEALS

*CORRECTION.

The minutes of the meeting of the board of standards and appeals, held Tuesday afternoon, January 29, 1924, as they appeared in Bulletin No. 6, Vol. IX, are hereby corrected to read as follows:

THE RESOLUTION:

(1485-23-S)

WHEREAS, Helmle & Corbett, for Trustees of Sailors Snug Harbor, owner, filed, December 17, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 13 East 8th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 17, 1923, Order No. 39895-LD, reads:

"1. Arrange the fire escape on the rear of building and openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of sec. 273 and 274 of the Labor Law. * * *

"Note: Among the defects noted on this fire escape are the following:

"Windows on course not self-closing. Windows on course, second story, not fireproof.

*Correction—Calendar number changed from "1585-23-S" to "1485-23-S."

"No passageway from termination of fire escape to street.";

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 25 ft. by 75 ft. in area at the 1st story and 25 ft. by 50 ft. in area above. OCCUPIED: Basement, store, 3 persons; 1st story, tailor and printing, 3 persons; 2nd, 3rd and 4th stories, clothing mfg., 5 persons per story. EXITS: An interior wooden stairway extending from the 1st story to the roof, enclosed in wood stud and plaster partitions, with wooden doors at openings; a fire escape on the rear of the building extending from the roof to yard with EGRESS through door in fence to yard of premises to rear; windows along course of the fire escape are fireproof, self-closing; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that there are no fences between premises to rear and that there is an unobstructed passageway in the basement of No. 12 East 9th street.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to the egress from the termination of the fire escape, on condition that the order of the fire commissioner shall be complied with in all other respects, and on condition that a clear and unobstructed opening in the rear fence shall be maintained to free and open yards to the rear, unencumbered by any fence or other obstruction.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present or absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises: They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and report in the fire alarm.

RULES ADOPTED

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard and approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanent secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENT TO THE PLUMBING RULES—ADOPTED JANUARY 8, 1924.

Rule No. 137.

Where "Flushometers" are used, they must be supplied from tank pressure, unless otherwise permitted by the Superintendent of Buildings; the rising lines shall be at least one and one-half inches in diameter, and the main

branches shall be at least one and one-quarter inches in diameter, with individual branches not less than one inch in diameter for water-closets and not less than one-half inch in diameter for urinals. Individual branches shall not exceed twelve inches in length.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed,

and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

NOTICE

BUILDING CODE ON SALE.

Copies of the Building Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, \$1; by mail, \$1.08.

ELECTRICAL CODE ON SALE

Copies of the Electrical Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, 25c; by mail, 27c.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth (1¼) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter (1¼) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter (1¼) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanket-gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(c) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Meeting, Board of Appeals, February 13, 1924.

Minutes of Meeting, Board of Standards and Appeals, February 13, 1924.

Rules Adopted.

Reserve Calendar.

Progress Report.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, February 19, 1924*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, February 26, 1924*, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

THE RESOLUTION:

(965-23-A)

WHEREAS, John Blumers & Bros., lessee, filed, July 23, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 545 East 75th street, Borough of Manhattan and

WHEREAS, the order of the fire commissioner, [No. 19003-LC, dated June 30, 1923, reads:

"Inspections of your premises shows that you are storing seven motor vehicles, containing gasoline in their fuel tanks, and that the following must be done or your permit will be revoked:

"1. Install an approved oil separator, trap or similar apparatus.";

and

WHEREAS, the building is non-fireproof, one story in height, 27 ft. by 85 ft. in area; OCCUPIED as a garage for the storage of seven (7) motor vehicles used in the conducting of appellant's business; and

WHEREAS, appellant contends the garage is located on the northwest corner of 75th street and Exterior street; or, within 100 ft. of the outlet of the sewer.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland and Kerby 5
Negative 0
Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1328-23-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Paramount Color Card Co., lessee, filed, November 17, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 277 Greene avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 50201-F, dated October 9, 1923, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at East side of building * * *";

and

WHEREAS, the building is non-fireproof, four stories in height, 25 ft. by 87 ft. 6 in. in area. OCCUPIED: 1st floor, canvas covers, 4 persons; 2nd floor, office, 1 person; 3rd floor, manufacturer sample cards, 6 persons; 4th floor, manufacturer sample cards, 2 persons; and

WHEREAS, there are four openings in each story above the 1st story within 30 ft. of openings in an adjoining fireproof warehouse to the east; and

WHEREAS, appellant contends all openings in the building adjoining to the east are protected with fireproof windows; and

WHEREAS, the board deemed that in so far as the exposure is at right angle and only opening is to adjoining fireproof building with approved protected openings.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the extension of this building shall be separated from main building by a wall of approved masonry; that any opening in the partition wall shall be protected with self-closing, fireproof door; and that all windows along course of any fire escapes on extension shall be equipped with approved fireproof windows; and granted so long as use and occupancy remain substantially unchanged.

1418-23-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Eager & Berger, lessees.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—81-95 Wallabout street, Brooklyn.

THE RESOLUTION:

(1418-23-A)

WHEREAS, Croker National Fire Prev. Eng. Co., for Eager & Berger, lessee, filed, December 3, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 81-95 Wallabout street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated November 14, 1923, reads:

"1. Forthwith remove all nitro-cellulose products in the form of blocks, slabs, sheets, rods, tubes or other shapes to be used as raw material from the premises and discontinue the further storage of celluloid on the premises pending compliance with the following:

"2. Provide an approved cabinet for the storage of nitro-cellulose products. Said cabinet not to exceed 30 cubic feet capacity and not to be used for the storage of more than 250 lbs. in each compartment; not more than two compartments being permitted. Said cabinet to be constructed, vented and equipped with sprinklers in accordance with the provisions of Sec. 232-3-d.

"3. Provide an automatic sprinkler system supplied from both approved gravity tank supply and an approved pressure tank supply (except that no change shall be required in supplies to automatic sprinkler equipments previously approved by the Fire Commissioner as two source systems * * *");

and

WHEREAS, the premises located at the rear of the lot consist of two buildings, both non-fireproof, two stories in height; the easterly building is 16 ft. 3 in. by 22 ft. 10 in. in area; and the westerly building is 20 ft. 9 in. by 18 ft. 10 in. in area; connected by an opening in the 2nd story. OCCUPIED: 1st story, storage, 3 persons; 2nd story, mfg. of sticks for umbrellas and walking canes; and

WHEREAS, appellant requests that the appeal be granted in view of the fact that the amount of celluloid to be stored on the premises shall not exceed 40 pounds.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

THE RESOLUTION:

(1430-23-A)

WHEREAS, Edward P. Doyle, for Broadway John Street Corp., owner, filed, December 5, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 4-10 John street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 48518-F, dated July 12, 1923, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above the 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane

with said openings and which are not more than 50 ft. above a neighboring roof at rear of building and court * * *";

and

WHEREAS, the building is non-fireproof, six stories in height, 68 ft. by 43 ft. (irregular) in area; OCCUPIED as stores, offices and tenant factories; and

WHEREAS, there are nine (9) windows on each story above the 1st story, within 30 ft. of openings in adjoining building, and within 50 ft. of the roof of a one-story extension, all to the rear.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1464-23-A.

APPELLANT—Ashmead E. Scott, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—52-54 East 78th street, Manhattan.

APPEARANCES—

For Appellant: Russell H. Kittel.

ACTION OF BOARD—Laid over to February 29, 1924, at 10 a. m., on request of appellant's representative.

1468-23-A.

APPELLANT—C. Ludwig Baumann & Company, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1449 Broadway, Brooklyn.

APPEARANCES—

For Appellant: Edward T. Ryan.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Laid over to March 4, 1924, at 10 a. m., on request of appellant's representative, for final disposition.

THE RESOLUTION:

(1471-23-A)

WHEREAS, Joseph Mitchell, for James E. Mitchell, owner, filed, December 12, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 342 West 24th street, Manhattan; and

WHEREAS the order of the fire commissioner, dated November 23, 1923, reads:

"1. Discontinue the maintenance of a garage on these premises.";

and

WHEREAS, the building is non-fireproof, three stories and basement in height, 25 ft. by 98 ft. 9 in. in area at 1st story and 25 ft. by 60 ft. in area above. OCCUPIED: 1st story, dwelling and private garage; 2nd and 3rd stories, dwellings; and

MINUTES

WHEREAS, the fire department contends the garage is not separated from dwelling portion of premises, in that the ceiling is not properly fire retarded and the dwelling portion is occupied by other than the owner or his chauffeur; and

WHEREAS, appellant contends that the rear portion of premises has been used by owner as a private garage for three years—his employee occupies dwelling portion of premises—that the tenant rents furnished rooms and that the exits are ample.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the garage be limited and restricted to use and operation of automobiles, the property of the owner of the premises; that the walls and ceilings of garage portion of structure and runway be fire retarded; that fire escape be maintained at rear of premises with egress to adjoining yard at east, egress therefrom to street; and that there shall be no opening between the living quarters of these premises and garage or garage runway.

1479-23-A.

APPELLANT—Naomi Hopkins and Arthur D. Wellbrock, lessees.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES—46 8th avenue, Brooklyn.

APPEARANCES—

For Appellant: R. P. McNulty and Mrs. Hopkins.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Messrs. Beatty and Boulton 2

Negative: Chairman Walsh, Messrs. Connell,

Holland and Fire Chief Kenlon 4

Absent: Mr. Kerby 1

THE RESOLUTION:

(1479-23-A)

WHEREAS, Naomi Hopkins and Arthur D. Wellbrock, lessees, filed, December 14, 1923, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 46 Eighth avenue, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, rendered November 23, 1923, reads:

"Proposition as to Fire-escape was originally referred to our superintendent and same was required, and plans were O.K. as per corrections made.

"Therefore, above application to omit same is denied."; and

WHEREAS, the building is non-fireproof, four stories and basement in height, 25 ft. by 60 ft. in area. OCCUPIED: Basement, dining room and kitchen; 1st, 2nd, 3rd and 4th stories, dwellings, 15 persons; and

WHEREAS, plans were filed with the bureau of buildings to permit the alteration of the premises to a rooming house and proposed alteration included a fire escape; an application for amendment was made wherein it was proposed to omit fire escapes and provide glass panel in doors between front and rear apartments; and

WHEREAS, appellant contends that there are not 15 sleeping rooms in house and therefore fire escape is not needed.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1091-23-A.

APPELLANT—Samuel Rosenblum, for Adelaide H. Pybae, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—68 East 11th street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

Boulton, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(1091-23-A)

WHEREAS, Samuel Rosenblum, for Adelaide Pybae, owner, filed, September 17, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 68 East 11th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 49698-F, dated August 29, 1923, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above the 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at south side of building * * *";

and

WHEREAS, the building is non-fireproof, five stories (52 ft.) in height, 21 ft. 2 in. by 94 ft. 9 in. in area at 1st story and 21 ft. 2 in. by 60 ft. 2 in. in area above. OCCUPIED: 1st story, restaurant; 2nd story, offices (clothing concern), 10 persons; 3rd story, pattern maker, 10 persons; 4th and 5th stories, dwellings; and

WHEREAS, there are four windows in the 3rd, 4th and 5th stories within 30 ft. of openings in a building to the west rear and four windows on the 2nd, 3rd, 4th and 5th stories within 50 ft. of the roofs of one-story extension to the south; and

WHEREAS, appellant contends that the windows of the building to the west rear are protected with iron shutters.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the ceiling of one-story extension be fire retarded; that the stairhall be enclosed in fire retarding partitions, any openings therein to be protected with self-closing, fireproof doors; and *granted* so long as occupancy and use remain substantially unchanged and the openings in abutting wall of adjoining premises at west remain properly protected.

THE RESOLUTION:

(1118-23-A)

WHEREAS, Samuel Rosenblum, for John Fischer, owner, filed, September 26, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 853 Jackson avenue, Borough of the Bronx; and

WHEREAS, the order of the fire commissioner, No. 19833-LC, dated September 11, 1923, reads:

"With reference to your application, dated April 5th, 1923, for a permit to maintain a non-storage garage at

MINUTES

the above location, I regret to inform you that I am without power to grant such permit because the building is of frame construction.

"You are, therefore, ordered to

"1. Remove all motor vehicles, the fuel tanks of which are not empty and to discontinue the use of premises as a garage.";

and

WHEREAS, the building situated at the rear of the lot is frame, one story in height, 24 ft. 1 in. by 13 ft. 6 in. in area; divided into two portions; one section used for storage purposes and the other used as a garage for the storage of one commercial motor vehicle; and

WHEREAS, appellant contends the premises were used formerly as a stable; that the garage portion is metal lined and that there is no gasoline stored on the premises other than in the tank of the car.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the garage use be restricted to the extension building, limited in dimension to 7 ft. 3 in. by 16 ft., permitting the storage of one automobile, the property of the occupant or owner of the premises, and that there shall be no gasoline storage maintained on premises other than in tank of car.

THE RESOLUTION:

(1139-23-A))

WHEREAS, Green & Barrett, for S. Schlesinger, owner, filed, October 1, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 133 Crosby street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 19799-LC, dated September 8, 1923, reads:

"1. Forthwith remove all nitro-cellulose products.";

and

WHEREAS, the building is non-fireproof, five stories in height, 20 ft. by 75 ft. in area. OCCUPIED as follows: 1st story, manufacturing, 4 persons; 2nd to 4th stories, vacant at present; 5th story, occupied by appellant for the manufacture of umbrella handles, 4 persons; and

WHEREAS, appellant contends he occupies the top story of the building; uses the celluloid to trim wooden handles, and requests permission to store 25 pounds of nitro-cellulose.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than 25 pounds of celluloid shall be maintained on premises, stored in metal cabinet; that all open flame be discontinued on the premises; and that the matter be held in abeyance until the appellant vacates the premises, which will be on or before May 1, 1924.

ACTION OF BOARD—Appeal granted.

THE VOTE TO EXTEND TEMPORARY PERMIT FOR NINETY DAYS—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1544-22-A)

WHEREAS, Robert D. Kohn, for R. H. Macy & Co., Inc., owner, filed, December 22, 1922, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 1323-27 Broadway, Manhattan; and

WHEREAS, the decision of the fire commissioner reads:

"11. Fuel oil equipments are not permitted in building of hazardous occupancies.";

and

WHEREAS, the building is fireproof, ten and nineteen stories in height, 197 ft. 6 in. by 505 ft. in area; occupied as a department store, basement and sub-basement, shipping; 1st to 7th stories, department store upper stories, stock; and

WHEREAS, appellant has installed a fuel oil burning equipment and claims this equipment conforms to the requirements of the fuel oil rules; and

WHEREAS, a committee's report which was adopted "recommends that fireproof walls of approved masonry, as indicated on plans filed March 20, 1923, in this appeal, be completed in accordance with said plans, isolating the boiler room, by at least two fireproof intervening walls, from any other part of the building in which merchandise is handled or material stored as part of the department store business, any openings in the said walls to be equipped with self-closing, fireproof doors, as indicated on said plans and providing egress from the boiler room which in no case passes through any room used for mercantile storage or purposes; and, on further condition, in granting this appeal, that the appellant install a ventilating system, separate and independent, for the boiler room, discharging, through metal duct, directly to the outer air above the roof, and exhausting by means of a power driven fan of not less than 25 h. p., so that any smoke, developing from any cause in the boiler room, would discharge above the roof of the main building; and on further condition that a mechanical automatic control be installed on the discharge line from the pumps, arranged to close down the pump on the cessation of flame in the fire box or any fracture of oil supply line; that the installation comply in all other respects with the Fuel Oil Rules of the Board of Standards and Appeals, and that appellant obtain the necessary permits for the installation of fuel oil burning equipment, in accordance with said Fuel Oil Rules, together with a certificate from the Superintendent of Buildings"; and

WHEREAS, this appeal was granted by the board at its meeting May 22, 1923, but appellant, unable to finish the work within the 60 day period granted, requests under date of February 6, 1924, an extension of time for 90 days.

Resolved, that the decision of the fire commissioner, Item 11, be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the stipulations set forth in the foregoing report, adopted this date, be complied with;

Resolved, further, that the temporary permit for the installation pending approval of plans be extended for 90 days from the date of this action at owner's own risk.

Negative: Mr. Beatty 1
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1210-23-BZ)

WHEREAS, William F. Doyle, for George Hummel, owner, filed, October 23, 1923, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of an extension to an existing building used for business purposes; premises 2365 Myrtle avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 13, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Myrtle and Anthon avenues are business districts and Van Cortlandt avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 22, 1923, in acting on Alt. App. No. 2638-23, reads:

"The erection of or an extension of an existing business building within a residence zone is contrary to the provisions of the zoning law.";

and
WHEREAS, the existing building is of non-fireproof construction, three stories in height, with a frontage of 40.98 ft. and a depth averaging 88 ft.; it is proposed to extend the building at the rear to Van Cortlandt avenue, the depth as proposed to be 134 ft. 10 $\frac{7}{8}$ in., the building to be occupied as a furniture store; and

WHEREAS, under the provisions of section 1, subdivision C, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building be restricted to three stories in height above grade; that there shall be no receiving nor delivery of merchandise permitted on the Van Cortlandt avenue front of the property; that there shall not be more than one door opening on the Van Cortlandt avenue front of the building, not exceeding 3 ft. 8 in. in width; that all window openings be equipped with double hung frames and sash, subdivided in small lights, not less than six lights to a sash; that the windows on the first story shall be at least 3 ft. 6 in. above curb level and glazed with translucent glass; that the street front of the building shall be finished in face brick and stone of the same color and texture as front of the adjoining premises; that there shall be no sign, bill-board, advertising or business display permitted on the Van Cortlandt avenue front of this building;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1244-23-A)

Filed Oct. 31, 1923—Premises 6 North Washington street, Jamaica, Queens. Decision of the fire commissioner. Appellant, Subrasco Sales Co. Dismissed for lack of prosecution.

(1249-23-A)

Filed Nov. 1, 1923—Premises 890 Post avenue, West New Brighton, S. I., Richmond. Order of the fire commissioner. Appellants, Shafer & Holscher. Dismissed for lack of prosecution.

(1283-23-A)

Filed Nov. 8, 1923—Premises 146 West 56th street, Manhattan. Order of the fire commissioner. Appellants, Kramer, Griffel & Rappaport. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby	6
Negative	0
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

WHEREAS, the foregoing appellants have filed, with the board of appeals, appeals from orders affecting the premises in question; and

WHEREAS, the appellants have failed to complete their papers though duly notified to do so.

Resolved, that the foregoing appeals be and they hereby are dismissed for lack of prosecution.

CASES DISMISSED.

Under the Building Zone Resolution.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1150-23-BZ)

Filed Oct. 5, 1923—Premises 1172 East 12th street, Brooklyn. Order of the fire commissioner. Applicant, Ray Seedman. Dismissed for lack of prosecution.

(1157-23-BZ)

Filed Oct. 9, 1923—Premises 210 Parkville avenue, Brooklyn. Order of the fire commissioner. Applicant, Alfred J. Howarth. Dismissed for lack of prosecution.

(1237-23-BZ)

Filed Oct. 30, 1923—Premises 208 West 71st street, Manhattan. Order of the fire commissioner. Applicant, Kathryn D. Allan. Dismissed for lack of prosecution.

(1261-23-BZ)

Filed Nov. 5, 1923—Premises 712 East 212th street, The Bronx. Decision of the superintendent of buildings. Applicant, John A. Cossa. Dismissed for lack of prosecution.

(1403-23-BZ)

Filed Nov. 30, 1923—Premises northeast corner Metropolitan avenue and Continental avenue, Forest Hills, L. I., Queens. Applicant, A. P. Sorice, Jr. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby	6
Negative	0
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

WHEREAS, the foregoing applicants have filed with the board of appeals applications under the building zone resolution, affecting the premises in question; and

WHEREAS, the applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the applications be and they hereby are dismissed for lack of prosecution.

AREAS FIXED.

(23-24-BZ)

The chairman presented and read a communication from William F. Doyle, requesting the board to fix the area deemed affected and within which to obtain consents for erection and maintenance of garage; premises south side of West 207th street, 100 ft. west of Ninth avenue, Manhattan.

The following area was approved by the board:

Both sides of West 207th street from 9th avenue to a point 400 ft. west of proposed garage; south side of West 207th street from 9th avenue to a point 100 ft. east of 9th avenue; the west side of 9th avenue from West 206th street to West 207th street; the north side of West 206th street from 9th avenue to a point 300 ft. west of 9th avenue.

(58-24-BZ))

The chairman presented and read a communication from Mrs. Brose, requesting the board to fix the area deemed affected and within which to obtain consents for erection and maintenance of garage; premises northwest corner of 20th street and Jackson avenue, Borough of Queens.

The following area was approved by the board:

Both sides of 20th street from a point 200 ft. south of Jackson avenue to Burnside avenue. Both sides of Jackson avenue from 21st street to a point 400 ft. west of premises in question, also the east side of 19th street from Jackson avenue to a point 200 ft. north of Jackson avenue.

MINUTES

(88-24-BZ)

The chairman presented and read a communication from William F. Doyle, requesting the board to fix the area deemed affected and within which to obtain consents for erection and maintenance of garage; premises 40-48 Hull street, Brooklyn.

The following area was approved by the board:

Both sides of Hull street from Hopkinson avenue to a point 400 ft. west of proposed garage; also the north side of Fulton street from Hopkinson avenue to Saratoga avenue.

(89-24-BZ)

The chairman presented and read a communication from William F. Doyle, requesting the board to fix the area deemed affected and within which to obtain consents for

the maintenance of a garage; premises west side of Webster avenue, 120.18 ft. south of 182nd street, The Bronx.

The following area was approved by the board:

Both sides of Webster avenue from a point 100 ft. north of East 182nd street to a point 400 ft. south of proposed garage; both sides of 181st street (Folin street) and East 182nd street from Webster avenue to a point 400 ft. south of proposed garage; also both sides of East 182nd street from 181st street (Folin street) to a point 200 ft. west of 181st street (Folin street).

Adjourned 1.45 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

42-24-S.

PETITIONER—Schwartz & Gross, for Fur Center Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—104-112 West 29th street, Manhattan.

APPEARANCES—

For Petitioner: Miss Clara Kleinfeld.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Holland, Kerby, Connell, Superintendents Reville, Kleinert, Moore and McDermott .. 9

Negative 0

Absent: Mr. Boulton, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

THE RESOLUTION:

(42-24-S)

WHEREAS, Schwartz & Gross, for Fur Center Corp., owner, filed, January 11, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 104-112 West 29th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 70-1923, dated December 26, 1923, reads:

"This amendment is disapproved with the following objection:

"13. Proposed dimensions of panes in show windows are excessive.

"Note—Single panes may not be greater than 720 square inches nor more than 48 inches in any dimension. Frames may not be more than 5 feet by 9 feet between supports—Rule 503 Industrial Code."

and

MINUTES

WHEREAS, the building is fireproof, twelve stories in height, 103 ft. 7¾ in. by 98 ft. 9 in. in area; equipped with a sprinkler system. OCCUPIED as follows: Cellar, boiler room and storage; 1st floor, stores; mezzanine, offices, 90 men, 90 women; 2nd and 3rd floors, show rooms; 4th to 12th floors, manufacturing, 57 men, 55 women (per floor); and

WHEREAS, the area of glass light on the 1st story is maximum 9 ft. by 10 ft. and minimum is 3 ft. by 4 ft.; on the 2nd and 3rd stories 6 ft. by 7 ft. maximum and 1 ft. 3 in. by 3 ft. minimum, all glazed with ¼ in. polished plate glass; and

WHEREAS, petitioner contends that to comply with provisions of Sec. 264 of the labor law would destroy the architectural effect of the building and materially affect the use intended for the three floors mentioned.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* in so far as it affects the windows on the front elevation of the first three stories, *on condition* that the windows otherwise throughout the building shall comply with the labor law.

1327-23-S.

PETITIONER—Croker National Fire Prevention Engineering Co., for Paramount Color Card Co., lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—277 Greene avenue, Brooklyn.

APPEARANCES—

For Petitioner: Herman E. Horwitz.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott	11
Not Voting: Fire Chief Kenlon	1
Negative	0
Absent: Deputy Fire Commissioner Hannon ..	1

THE RESOLUTION:

(1327-23-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Paramount Color Card Co., lessee, filed, November 17, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 277 Greene avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 49430-LD, dated August 2, 1923, reads:

"1. Arrange the fire escape on the north side of building and the openings leading thereto and the windows opening on the course thereof * * *.

"Note: Among the defects noted on this fire escape are the following:

"No 60 degree stairways connecting balconies. No stairway from top balcony to roof. Windows on course not self-closing. Railings enclosing balconies not three feet in height. Non-fireproof door on 1st story opening underneath balcony. No well openings in some balcony floors. No safe passageway to street from termination of fire escape. No stairway from lowest balcony to ground. No steps provided from floor to sills of windows leading to fire escape.

"2. Extend the interior stairway at the east side of building to the roof, as per Sec. 271 Labor Law."

and

WHEREAS, the building is non-fireproof, four stories in height, 23 ft. by 87 ft. 6 in. in area. OCCUPIED as follows: 1st floor, canvas covers, 4 persons; 2nd floor, office, 1 person; 3rd floor, sample card manufacturer, 6 persons; 4th floor, sample card manufacturer, 2 persons. EXITS: An interior wooden stairway extending from 1st to top story (with ladder to scuttle in roof), enclosed in wooden partitions at the 1st, 3rd and 4th stories (open at 2nd story), with wooden doors at openings; a fire escape on the rear of the building extending from roof to 2nd story balcony with drop ladder to yard, with EGRESS through adjoining yard to adjoining building; windows along course of fire escape not protected; ROOFS to west 1½ stories lower, to east at same level; and

WHEREAS, petitioner proposes to furnish a new 60 degree fire escape, fireproof the windows along the course thereof, with EGRESS from termination of fire escape through the open court to the building adjoining to the east, and in re: Order No. 2, contends there is an existing iron ladder to scuttle in roof.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to Item No. 1 *on condition* that a fire escape shall be erected on the easterly wall of the rear extension as indicated on plans filed in the case, with 60 degree connecting stairs with gooseneck ladder to roof and stationary 60 degree stairs to yard, and that the yard between this and the adjoining premises shall be maintained open and unobstructed, with egress through adjoining fireproof premises to the street, and that openings on the course of the fire escape shall be made fireproof and self-closing; *granted* as to Item No. 2 *on condition* that a fixed double rung iron ladder shall be provided from the top story loft to scuttle in the roof located adjacent to stairs in top story landing; *granted* only so long as conditions as to occupancy and use remain substantially unchanged.

1462-23-S.

PETITIONER—John H. Scheier, for Henry Lehman, lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—158-160 West 26th street, Manhattan.

APPEARANCES—

For Petitioner: John H. Scheier.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott	12
Negative	0
Absent: Deputy Fire Commissioner Hannon ...	1

THE RESOLUTION:

(1462-23-S)

WHEREAS, John H. Scheier, for Henry Lehman, lessee, filed, December 10, 1923, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 158-160 West 26th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 49311-LD, dated August 2, 1923, reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout leading to the street * * *.

MINUTES

"2. Enclose the interior stairway at the East side of Westerly portion of building * * *"; and

WHEREAS, the building is four stories in height, 41 ft. 4 in. by 78 ft. 9 in. in area; equipped with fire alarm signal system. OCCUPIED as follows: 1st story, furs; 2nd story, manufacturing furs; 3rd story, dresses; 4th story, dresses, 64 persons above the 1st story. EXITS: An interior wooden stairway extending from 1st to top story, enclosed in wood lath, plaster (and metal on loft side) partitions, with wooden doors (metal covered on loft side) at openings; a fire escape on the rear of the building extending from 4th story to 2nd story with gooseneck ladder to roof and drop ladder to yard; windows along course of fire escape are fireproof. EGRESS from termination of fire escape through door in fence to premises to west; ROOFS to east 1 story lower, to west 1 story higher; and

WHEREAS, petitioner contends a similar order was issued in 1917 and modified in 1918 by the fire commissioner by accepting in lieu of some certain work performed on the premises and subsequently issued a certificate to the effect that there were no orders or violations pending on February 3, 1919.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to Item No. 1 *on condition* that a fire escape in the rear shall be provided with connecting stairs not less than 60 degrees from the roof to the yard, with egress therefrom through free and unobstructed opening in the east to adjoining property to the west, egress from which shall be through said adjoining premises to the street; *granted* as to Item No. 2 *on condition* that the loft side of the stair hall partition shall be covered with metal and the hall side of the partition shall be fire retarded in accordance with the rules of the board of standards and appeals, all openings to be provided with self-closing, fireproof doors, and that all windows on the course of same and in the cellar shall be made fireproof; and *granted on further condition* that the occupancy shall not exceed thirty (30) persons on any one floor.

1532-23-S.

PETITIONER—William F. Doyle, for Charles Brown, owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—17 East 53rd street, Manhattan.

APPEARANCES—

For Petitioner William F. Doyle, G. S. Wing.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Fire Chief Kenlon, Superintendents Brady and McDermott 8

Negative: Mr. Beatty, Superintendents Reville, Kleinert and Moore 4

Absent: Deputy Fire Commissioner Hannon. 1

THE RESOLUTION:

(1532-23-S)

WHEREAS, Wm. F. Doyle, for Chas. Brown, owner, filed, December 26, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 17 East 53rd street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated October 25, 1923, reads:

"In connection with application for certificate of occupancy for above premises, this building was raised

from a 5- to a 6-story under Alteration 1571-1922 occupancy certificate 6357, issued on same for storage in basement, stores on first floor and offices above with a live load of 60 lbs. on floors above basement. This building would be required to be a fireproof building under the Labor Law if there was to be factory occupancy in same. Application is therefore denied.";

and

WHEREAS, the building is non-fireproof, 6 stories in height, 25 ft. by 100.5 ft. in area. OCCUPIED: Cellar, boiler room; 1st story, linen and embroideries; 2nd story, custom tailor, 6 persons; 3rd story, dressmaker, 8 persons; 4th story, hairdressing parlor, 8 persons; 5th story, ladies' tailor, 8 persons; 6th story, embroidery manufacturing, 15 to 20 persons; the means of egress consisting of an interior stairway enclosed in fireproof partitions with fire doors at the openings with a fire escape in the westerly court at the rear with egress to street from the termination of the fire escape through fireproof passageway; and

WHEREAS, it appears that the building was altered from a four story and basement building by the raising of the basement floor to the street level and adjusting of floors above so as to make this building a five story building and to this was added an additional story, making the building six stories; and will sustain a live load of 60 pounds per square foot of floor; and

WHEREAS, the ceilings throughout being covered with wire lath and cement plaster and appellant contends that the building is of satisfactory construction for the proposed use.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that not more than 25 per cent of the total floor area of the entire building shall be occupied for factory use and that there shall be no machinery other than light sewing and embroidery machines permitted, and that the floor loads shall be posted at 60 lbs. per sq. ft. live load.

1129-23-S.

PETITIONER—Samuel Rosenblum, for Henry Felsenstein, lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—43 West 28th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kleinert, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1129-23-S)

WHEREAS, Samuel Rosenblum, for Henry Felsenstein, lessee, filed, September 28, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 43 West 28th street, Manhattan; and

MINUTES

WHEREAS, the order of the fire commissioner, dated September 22, 1922, in acting on Order No. 39271-LD, reads:

"1. Extend the interior stairway at the east side of building from 1st story to the roof. * * *

"2. Arrange the fire escape on the rear of building and the openings leading thereto. * * *

"Note: Among the defects noted on this fire escape are the following:

"Windows on course not fireproof not self-closing.

"No 60 degree connecting stairways between balconies.

"No stairway from top balcony to roof.

"No stairway from lowest balcony to ground.

"No passageway from termination of fire escape to street.";

and

WHEREAS, the building is non-fireproof, 4 stories and basement in height, 21 ft. 4 1/4 in. by 95 ft. in area at the 1st story and 21 ft. 4 1/4 in. by 55 ft. in area above. OCCUPIED: 1st story, store, 7 persons; 2nd story, furrier, 3 persons; 3rd story, coat manufacture, 12 persons; 4th story, dress manufacture, 12 persons. EXITS: One interior wooden stairway extending from the 1st story to the top story, with ladder to scuttle in roof, enclosed in wood lath and plaster partitions at the 1st story and wire lath and cement plaster partitions above, with wood and glass doors at openings on 1st story and fireproof doors at openings above; a party wall balcony fire escape, embracing one opening on rear of building connecting with premises to west, with EGRESS from the fire escape to roof of basement extension of No. 45 West 28th street; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner proposes to provide an opening in the westerly wall of the 1st story extension of No. 43 West 28th street, affording exit from roof of basement extension of No. 45 West 28th street and in view of the light occupancy asks acceptance of the proposed and existing means of exit.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 1 on condition that a fixed double rung iron ladder shall be installed in the top story hall to a counter-balanced scuttle in the roof; granted as to Item No. 2 on condition that a party wall fire escape shall be provided on the rear of the building with egress from the termination at the first story by doorway to adjoining premises to the west and by a gooseneck ladder from roof of 1st story extension to the yard of premises in rear on West 29th street; and granted so long as conditions remain unchanged and the adjoining premises remain in one single control and operation.

1423-23-S.

PETITIONER—Fred'k. W. Fisher, for Eva Holtz, executrix.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—434-440 East 165th street, The Bronx.

APPEARANCES—

For Petitioner: Fred'k. W. Fisher.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1423-23-S)

WHEREAS, Frederick W. Fisher, for Feiring & Horowitz, lessee, filed, December 11, 1923, a petition with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 434-440 East 165th street, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, No. 49285-LD, dated August 2, 1923, reads:

"1. Enclose the interior stairway at the east side of building serving as a required means of exit. * * *"; and

WHEREAS, the building is non-fireproof, 3 stories in height, 79 ft. by 124 ft. in area at 1st story and 79 ft. by 40 ft. in area above. OCCUPIED: 1st floor, rear part, 13 embroidery machines, 50 occupants; 2nd floor, front part, offices, sewing and stock room, 30 occupants; 3rd floor, sewing shop, 40 occupants; basement, fireproof heater room, coal bin and toilet. EXITS: One interior wood stairway extending from 1st to top story, enclosed in wood partition with wood doors at openings. A fire escape on the front of the building, extending from roof to front court, with wire glass windows along course. No adjacent roofs; and

WHEREAS, petitioner contends the building is a two story building and therefore this factory does not come within the provisions of section 271 of the labor law, and further, that the existing means of egress are ample.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the stairway shall be enclosed in fire retarded partitions in accordance with the rules of the board of standards and appeals, extending from the basement to the under-side of the roof.

1419-23-S.

PETITIONER—Joseph Borrelli, owner.

SUBJECT—Variation of labor law as cited in decision of health commissioner.

PREMISES AFFECTED—2133 1st avenue, Manhattan.

APPEARANCES—

For Petitioner: Jack J. Feinberg.

For Administration: Inspector William H. Morrison, of health department.

ACTION OF BOARD—Laid over to February 26, 1924, at 2 p. m. for full vote of the board.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Superintendents Reville and McDermott 7

Negative: Mr. Connell, Superintendents Brady, Kleinert and Moore 4

Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

1472-23-S.

PETITIONER—Harold F. Smith, for Carstein & Linnekin, agents for Gould Realty Co., owner.

SUBJECT—Variation of the labor law as cited in decision of the fire commissioner.

PREMISES AFFECTED—830 Broadway, Manhattan.

APPEARANCES—

For Petitioner: Harold F. Smith.

For Administration: Inspector Maher, of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1472-23-S)

WHEREAS, Harold F. Smith, for Carstein & Linnekin, agents for Gould Realty Co., owner, filed, December 13, 1923, a petition with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in an order of the first commissioner, affecting premises 830 Broadway, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 47429-LD, dated November 23, 1923, reads as follows:

"Provide an exterior screened iron stairway on the east side of building, as per Section 271 of the Labor Law, not less than 44 in. in width, extending from ground to roof, with a balcony on each floor and an independent means of egress from its lowest termination by means of an open court or courts or a fireproof passageway leading to the street. * * *";

and

WHEREAS, the building is fireproof, 11 stories in height, 27 ft. 2 in. by 86 ft. in area; equipped with a fire alarm signal system. OCCUPIED as a tenant factory, 44 persons in entire building. EXITS: An interior fireproof stairway extending from 1st story to roof, enclosed in fireproof partitions with fire doors at openings. A fire escape on the rear of the building extending from roof to balcony on 1st story with egress to rear courts and adjacent buildings. Windows along course thereof are fireproof self-closing. ROOFS to north 15 ft. lower, to south at same level; and

WHEREAS, this fire escape was approved by the labor department as a 2nd means of egress January 21, 1916, and further contends there has been no change in occupancy since that time.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the existing fire escape is maintained in good repair, and only so long as the conditions of the building as to occupancy and use remain unchanged.

1526-23-S.

PETITIONER—Samuel Rosenblum, for Townsend Pinkney, owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—33 East 20th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

MINUTES

THE RESOLUTION:

(1526-23-S)

WHEREAS, Samuel Rosenblum, for Townsend Pinkney, owner, filed, December 26, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner and a decision of the superintendent of buildings, affecting premises 33 East 20th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 11, 1924, reads:

"1. Extend the interior stairway at the east side of building to the roof. * * *

"2. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof. * * *

"Note: Among the defects noted on this fire escape are the following:

"No passageway from termination of fire escape to street."

and the decision of the superintendent of buildings, dated December 11, 1923, reads:

"3. A fireproof passage should be provided leading from the lower landing of the fire escape to the street.";

and

WHEREAS, the building is non-fireproof, 4 stories in height, 25 ft. by 92 ft. in area at the 1st and 2nd stories and 25 ft. by 45 ft. in area above. OCCUPIED: 1st story, store, 10 persons; 2nd story, light mfg., 25 persons; 3rd story, light mfg., 10 persons; 4th story, light mfg., 5 persons. EXITS: An interior wooden stairway extending from 1st to top story, enclosed in wood lath and plaster partitions with wood and glass doors at openings; a sub-standard fire escape at rear of the building; windows along course of fire escape are not protected; ROOFS to east 4 stories higher, to west at same level; and

WHEREAS, petitioner proposes to bring existing fire escape on rear of building up to standard and extend same from roof to landing on roof of extension and from extension roof a 45 degree stairway to the 2nd story balcony with egress from this balcony to roof of extension of building to rear and in view of the small occupancy and area of the top story asks that the requirement of extending interior stairway to roof be waived;

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a fixed double rung iron ladder shall be provided to scuttle in roof and *granted* as to Item 2 of the order of the fire commissioner and Item 3 of the decision of the superintendent of buildings, as to egress from termination, *on condition* that a fire escape shall be erected on the rear of the building with egress from roof of the 1st story extension to the two adjoining roofs to the west and that the order shall be complied with in all other respects and *granted* only so long as conditions as to occupancy and use remain unchanged.

1542-23-S.

PETITIONER—Charles B. Meyers, for Francis Kay, Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—224-232 West 35th street, Manhattan.

APPEARANCES—

For Petitioner: Charles B. Meyers.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11
Negative 0
Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1542-23-S)

WHEREAS, Charles B. Meyers, for Francis Kay Corp., owner, filed, December 27, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 224-232 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered December 31, 1923, reads:

"This amendment is disapproved with the following objection:

"Panels of glass in front windows may not exceed 720 square inches. Labor Law—Section 264.";

and

WHEREAS, the building is fireproof, 17 stories in height, 100 ft. by 98 ft. 9 in. in area, EQUIPPED with a sprinkler and a fire alarm signal system; OCCUPIED as stores, offices, show rooms and factory, cellar, 15 persons; 1st story, 25 persons and 2nd to 17th stories, 75 persons each; the average area of the windows in question is 6 ft. by 10 ft.; and

WHEREAS, petitioner contends that to construct these windows as required by the labor law would detract from the architectural appearance of the building and would make it impracticable to use these stories for stores and showrooms.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* so far as it affects the three lower stories on the front of the building, *on condition* that the rest of the building shall comply with the labor law in all other respects.

1559-23-S.

PETITIONER—Edward P. Doyle, for P. M. Clear & Co., owner.

SUBJECT—Variation of the labor law as cited in order of the fire commissioner.

PREMISES AFFECTED—2 1st street, Manhattan.

APPEARANCES—

For Petitioner: None.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11
Negative 0
Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1559-23-S)

WHEREAS, Edward P. Doyle for P. M. Clear & Co., owner, filed, December 31, 1923, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 2 First street, Borough of Manhattan; and

MINUTES

WHEREAS, the order of the fire commissioner, No. 49142-LD, dated December 28, 1923, reads as follows:

"1. Extend the interior stairway at the East side of building to the roof, as per Section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, 5 stories in height, 25 ft. by 40 ft. in area. OCCUPIED as follows: 1st story, storage of woolen clippings, 1 employee; 2nd story, dealer in plush for caps, 2 employees; 3rd story, mfg. caps, 3 employees; 4th story, mfg. millinery novelties, 2 employees; 5th story, hat manufacturing, 1 employee. EXITS: An interior wood stairway extending from 1st to top story with ladder to scuttle in roof; enclosed in wooden partitions with wooden doors at openings; a fire escape on the front of the building extending from the top to 2nd story with counter-balanced ladder to street. Openings along the course of the fire escape are fireproof. Roofs to east and north are at same level; and

WHEREAS, petitioner contends, in view of the light occupancy, that the present means of exit are adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that a fixed double rung iron ladder be provided in top story hall to counter weighted scuttle in roof, and granted only so long as the premises are occupied by not more than ten (10) persons.

165-23-S.

PETITIONER—Edwin C. Dusenbury, for Estate of James A. Ruthven, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—144 West 23rd street, Manhattan.

APPEARANCES—

For Petitioner: Louis Schrag, Edwin C. Dusenbury.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Resolution modified.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Kleinert, Moore and McDermott	11
Negative	0
Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon	2

THE RESOLUTION:

(165-23-S)

WHEREAS, Edwin C. Dusenbury, for Estate of James A. Ruthven, owner, filed, February 6, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 144 West 23rd street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Extend the interior stairway at the west side of building to the roof, * * *.

"2. Arrange the fire escape on the south side of building * * *.

"Among the defects noted on this fire escape are the following:

"No passageway from termination of fire escape to street.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 66 ft. in area in the 1st story and 25 ft. by 44 ft. in area above; occupied, 1st story, restaurant;

2nd story, umbrella manufacturing, 8 persons; 3rd story, dress manufacturing, 10 persons; 4th story, dress pleating, 8 persons; 5th story, studio and dwelling, 1 person; the means of egress consisting of an interior stairway extending from the 1st story to the 5th story with scuttle and iron ladder to roof enclosed in wood stud, lath and plaster partitions with wood and glass doors at the openings, a fire escape on the rear of the building, with connection in 3rd story to fire escape of building adjoining and landing on extension roof in 1st story with stationary stair from extension to yard and egress from the yard through gate in fence of adjoining premises; and

WHEREAS, this petition was granted by the board at its meeting, March 20, 1923, "on condition as to Item No. 2 that a 60 degree iron stair shall be provided from the roof of the 1st story extension to the yard, egress from which yard shall be by means of a door in fence to adjoining property to the east in the same ownership; that the order of the fire commissioner as to Item No. 1 be affirmed and the petition as to this item be denied"; petitioner contends that the work has been done but that the fire department has issued a new order reading: "An unobstructed opening of at least 3 ft. wide by 3 ft. high must be provided. Doors installed by means of vestibuling would prevent the obstruction of balcony. All doors leading to this balcony must be provided with an unobstructed window opening 3 ft. wide by 3 ft. high; the fire commissioner is without power to vary from the requirements of the labor law, therefore, it is our conclusion that gooseneck ladder cannot be accepted and there must be provided a stairway to roof from top balcony;" and

WHEREAS, petitioner requests that the existing fire escape windows and gooseneck ladder to roof be accepted and that he be permitted to change the westerly double hung window to a door.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that a gooseneck ladder shall be provided from the west side of top story balcony to the roof and that a casement door 2 ft. by 5 ft. 6 in. shall be provided leading to top story balcony of fire escape and that the conditions as stipulated by the board of standards and appeals at its meeting March 20, 1923, shall be complied with in all other respects.

103-24-S.

PETITIONER—Starrett & Van Vleck, for 150 Broadway Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—150 Broadway, Manhattan.

APPEARANCES—

For Petitioner: Frank Gaertner.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott	11
Negative	0
Absent: Fire Commissioner Kenlon and Deputy Fire Commissioner Hannon	2

THE RESOLUTION:

(103-24-S))

WHEREAS, Starrett & Van Vleck, for 150 Broadway Corp., owner, filed, January 23, 1924, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 150 Broadway, Borough of Manhattan; and

MINUTES

WHEREAS, the decision of the superintendent of buildings, N. B. No. 242-1923, dated October 18, 1923, reads:

"9. A direct means of exit should be provided leading from the Busheling room in the basement to the street. Building should meet requirements of Labor Law in all respects. * * *";

and
WHEREAS, the building is fireproof, 23 stories in height, 96 ft. 1¼ in. by 135 ft. 6¾ in. in area; equipped with stand-pipe and fire alarm signal systems. OCCUPIED as follows: Basement, busheling room, clothing sales space, pump meter and service room, 70 persons; 1st floor, clothing sales space and stores, 65 persons; 2nd floor (rear), clothing sales space and stores, 45 persons; 2nd floor (front), offices, 30 persons; 3rd to 23rd floors, inclusive, offices, 75 persons. EXITS: Two fireproof stairways extending from 1st story to roof, with fire doors at openings; and

WHEREAS, petitioner contends the busheling room has three doorways from same, two leading into the basement sales space and one leading through a shipping room; the shipping room exits to the sales room, which sales room exits to 1st story, with EGRESS through 1st story to street.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the exit requirements of the building code shall be complied with in all respects and that the work shall be confined to a space not exceeding 30 ft. 5⅞ in. in width.

CASES DISMISSED.

Variations of the Labor Law.

The chairman called attention to the following cases, where notices of intention to petition were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1025-23-S)

Filed Aug. 21, 1923—Premises 34-36 West 32nd street, Manhattan. Order of the superintendent of buildings, labor law. Petitioner, D. Saltzman Co., Inc. Dismissed for lack of prosecution.

(1087-23-S)

Filed Sept. 14, 1923—Premises 210 Conover street, Brooklyn. Decision of the health commissioner, labor law. Petitioner, Philip Freshman. Dismissed for lack of prosecution.

(1204-23-S)

Filed Oct. 22, 1923—Premises 10-12 Vandewater street, Manhattan. Order of the fire commissioner, labor law. Petitioner, L. B. Mendlowitch. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION—

WHEREAS, the foregoing petitioners have filed, with the board of standards and appeals, petitions from orders affecting the premises in question; and

WHEREAS, the petitioners have failed to complete their papers, though duly notified to do so.

Resolved, that the foregoing petitions be and they hereby are *dismissed* for lack of prosecution.

RULES

SPRINKLER AND STANDPIPE EQUIPMENT IN ONE STORY GARAGE BUILDINGS.

Adopted by the Board of Standards and Appeals, April 19, 1920, Under Cal. No. 179-20-S.

Under the powers conferred upon it by Section 718a of the Charter, the Board of Standards and Appeals does hereby make rules and regulations for the carrying into effect of the provisions of Section 72, subdivision L, and Section 581 of Chapter 5 of the Code of Ordinances as follows:

Resolved, that the provisions of Section 72, subdivision L of Chapter 5, of the Code of Ordinances, shall not apply to buildings not exceeding one story in height, the purpose of which is occupancy as a garage, motor vehicle repair shop, or oil selling station, which buildings do not exceed an area of 15,000 sq. ft. when located on an interior lot or when facing on only one street or 24,000 sq. ft. when facing

on two streets or 30,000 sq. ft. when facing on three streets; provided that the building is equipped with an approved system of automatic sprinklers or with a line of 2½ in. pipe carried around the interior walls of the building or attached to the columns which carry the roof girders and connected with the street main by 2 in. tap and sufficient length of hose, and from which line branches are taken for the house service.

Resolved, further, that under the provisions of Section 581, subdivision 4 of Chapter 5 of the Code of Ordinances, in similar structures, a line of 2½ in. pipe connected with the street main by 2 in. tap and sufficient length of hose at intervals of 100 ft. or less shall be deemed a standpipe within the meaning of this section, but no siamese connection need be provided on condition that the pressure in the street main shall be not less than 45 lbs.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present. If any are absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES ADOPTED

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanent secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth (1¼) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter (1¼) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter (1¼) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.
Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.
Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.
In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanketing gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A. Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Meeting, Board of Appeals, February 19, 1924.

Minutes of Special Meeting, Board of Appeals, February 19, 1924.

Rules Adopted.

Reserve Calendar.

Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, February 26, 1924*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, March 4, 1924*, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

Neagative 0

Absent: Mr. Kerby and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1324-23-A)

WHEREAS, Benjamin G. Hitchings, for Benjamin G. Hitchings, Inc., owner, filed, November 16, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises Avenue H, 32nd to 38th streets, Brooklyn and

WHEREAS, the orders of the fire commissioner, dated October 27, 1923, read:

"Order No. 50635-F:

"YOU ARE HEREBY ORDERED AND REQUIRED, within five days from date of service of this order, to:

"1. Provide a cover of heavy wire netting for top of iron cupola chimney, section 780, Greater New York Charter."

"Order No. 50637-F:

"YOU ARE HEREBY ORDERED AND REQUIRED, within twenty days from date of the service of this order, to:

"1. Install a fire hydrant in the center of each block of premises from East 32nd Street to East 38th Street, (6 blocks, 6 hydrants). Each hydrant to be provided with 100 ft. of approved hose and nozzle. Said hose to be located in a suitable hose house or other enclosure at hydrants, and each hydrant to be connected to the street main on Avenue "H". Sec. 776 Greater New York Charter."

"Order No. 50639-F:

"YOU ARE HEREBY ORDERED AND REQUIRED, within twenty days from date of the service of this order, to:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, in lumber shed, with necessary check valves and 2½ inch regulation Fire Department outlets. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.";

and

WHEREAS, the premises consist of a plot of ground along Avenue H, extending from East 32nd street to East 38th street, on which are located the lumber yard, sheds and planing mill of B. G. Hitchings; and

WHEREAS, appellant contends as to Order No. 50635-F, that the arrangement of baffle walls in the furnace is such as to render it impossible for sparks to discharge from the chimney and that the placing of a netting over the top would impair the draught; that the chimney is 125 ft. high, 8 ft. in diameter at base and 4 ft. in diameter at top; as to Order No. 50637-F, that there are 50 fifty-gallon tanks, with 3 buckets to each tank in the yard and 2 reels of 250 ft. 2½ in. hose and that there are 16 fire hydrants abutting premises on Avenue H; that as to Order No. 50639-F, the shed referred to is a one-story open shed, no heating facilities, a standpipe system would be impractical and that the shed is provided with six fifty gallon tanks, three buckets to each tank.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal, in view of the existing sixteen (16) fire hydrants on the public highway abutting this property, be and it hereby is *granted* as to Order No. 50635-F *on condition* that an open runway be maintained not less than 15 ft. in width extending the entire length of the premises, with open and unobstructed gangways not less than 20 ft. in width at the continuation of intersecting streets from the south side of Avenue H to the railroad cut; *granted on further condition* that the lumber piles do not exceed an average of 15 ft. in height throughout the premises.

1330-23-A.

APPELLANT—L. A. Ward, for Hooker Electro Chemical Co., owner.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—25 Pine street, Manhattan.

APPEARANCES—

For Appellant: Luke Flannigan.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

MINUTES

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Holland, Connell and Fire Chief
Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(1330-23-A)

WHEREAS, L. A. Ward, Sec. for Hooker Electro Chemical Co., owner, filed, November 17, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 25 Pine street, Borough of Manhattan; and

WHEREAS, the orders of the fire commissioner, dated October 10, 1923, read:

"No. 50249-F: 1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at south and west sides of building * * *."

"No. 50250-F: 1. Provide a tank on roof of at least 3,500 gallons capacity for the standpipe system, said tank to be so elevated that the bottom will be not less than 20 feet above the roof level."

and

WHEREAS, the building is fireproof, ten stories in height, 24 ft. by 75 ft. in area at 1st story and 24 ft. by 69 ft. in area above, equipped with standpipe connected with tank on roof containing 2,000 gallon house and standpipe supply; OCCUPIED as offices, averaging 12 persons per story; and

WHEREAS, there are ten windows in each story above the 1st story within 30 ft. of openings in, and within 50 ft. above the roofs of, neighboring buildings; and

WHEREAS, appellant contends, in re: shutter order, the exposure to the west is the U. S. Sub-Treasury, which is a fireproof building provided with fireproof shutters and having a fireproof roof; the neighboring building to the rear is the U. S. Assay Office, a fireproof building with openings protected by wire glass and kalameined shutters. In re: tank order, appellant proposes to tap the house supply above the 1,500 gallon level.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted* so far as it affects Order No. 50249, in view of the use and occupancy of the adjoining premises and the protection thereof; and only so long as these conditions remain unchanged; and *denied* as to Order No. 50250.

1394-23-A.

APPELLANT—Arthur W. Tams Music Library, owner.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—318-320 West 46th street, Manhattan.

APPEARANCES—

For Appellant: James H. Whiskerman, Sargent Aborn.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Holland, Connell and Fire Chief
Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(1394-23-A)

WHEREAS, Arthur W. Tams Music Library, owner, filed, November 27, 1923, an appeal, with the board of appeals,

from an order of the fire commissioner, affecting premise 318-320 West 46th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 20569 LC, dated October 20, 1923, reads:

"5—Separate boiler from remainder of building unpierced wall of solid masonry at least 8 in. in thickness. Entrance to boiler room to be from exterior of building only."

and

WHEREAS, the building is fireproof, six stories and basement in height, 44 ft. by 100 ft. in area; equipped with a sprinkler system. OCCUPIED: Basement, storage and boiler room; 1st to 4th stories, sale and manufacture of sheet music, 51 persons; 5th story, aluminum ware; 6th story lithographing and printing; and

WHEREAS, appellant contends, that to be required to build the additional exit to street from boiler room would interfere with the storage of coal.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the opening from the boiler room shall be provided with self-closing, fireproof door opening outward, and that an engineer's fixed iron ladder shall be provided from the cellar to the sidewalk.

1395-23-A.

APPELLANT—Simplex Oil Heating Corp., for C. & F Construction Co., owner.

SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—545-551 Ocean avenue, Brooklyn.

APPEARANCES—

For Appellant: George Getzoff.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Kenlon
Negative
Absent: Mr. Kerby

THE RESOLUTION:

(1395-23-A)

WHEREAS, Simplex Oil Heating Corp., for C. & K. Construction Co., owner, filed, November 27, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 545-551 Ocean avenue, Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated November 27, 1923, reads:

"2. Pumps must be of approved type.

"3. Burners must be of approved type."

and

WHEREAS, the building is non-fireproof, six stories height, 130 ft. 13/4 in. by 166 ft. in area; OCCUPIED a tenement house; it is proposed to equip the building with a fuel oil burning installation, in accordance with the rules of the board of standards and appeals, except that the burner is not an approved type; and

WHEREAS, appellant requests permission to operate the plant, pending inspection and test of the burner by a committee of the board of standards and appeals.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* permitting the installation at the owner's risk for a temporary period of ninety (90) days on condition that the plant is operated by a licensed engineer in attendance at all times pending the demonstration and inspection of the burner by committee of this board, and that the fuel oil installation complies with the fuel oil rules of the board of standards and appeals in all other respects.

THE RESOLUTION:

(1482-23-A)

WHEREAS, Farnum Plumbing Co., Inc., for The 331 Madison Ave. Corp., lessee, filed, December 15, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 327-329-331 Madison avenue, Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, No. 1183-C, dated December 6, 1923, reads:

"2. Bottom of gravity tank must be located 20 ft. above roof * * *";

and WHEREAS, the building is fireproof, 14 stories and pent house in height, 66 ft. 8 in. by 100 ft. in area; OCCUPIED by stores and offices; and

WHEREAS, appellant contends the gravity tank now in place has not been changed or altered since its erection in 1910, and that the tank is located approximately 10 ft. above the highest outlet.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* and only so long as the use and occupancy of the pent house is restricted to the storage and housing of mechanical equipment and that there shall be no office or other occupancy above the level of the main roof.

1495-23-A.

APPELLANT—Rudolf C. P. Boehler, for Life Holding Corp., owner.

SUBJECT—Appeal from order of superintendent of buildings.

PREMISES AFFECTED—17 West 31st street, Manhattan.

APPEARANCES—

For Appellant: Rudolf C. P. Boehler.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(1495-23-A)

WHEREAS, Rudolf C. P. Boehler, for Life Holding Corp., owner, filed, December 18, 1923, an appeal, with the board of appeals, from an order of the superintendent of buildings, affecting premises 17 West 31st street, Borough of Manhattan; and

WHEREAS, the order of the superintendent of buildings, No. 360 of 1923, dated May 22, 1923, reads:

"You are hereby directed to provide an outside iron balcony fire escape on rear of building with balconies covering two windows on each floor. Balconies to be 3 ft. 6 in. wide; guard rails 36 in. high; balconies connected by 60 degree stairs 20 in. wide; gooseneck ladder to roof and fixed stairs or drop ladder in guides to yard. Safe egress from yard must be provided.";

and

WHEREAS, the building is non-fireproof, four stories in height, 25 ft. by 94 ft. 3 in. in area at 1st story and 25 ft. by 70 ft. 6 in. in area above. MEANS OF EXIT: An interior stairway enclosed in lath and plaster partitions. OCCUPIED: Cellar, storage room; 1st story, store, 6-8 persons; 2nd story, salesroom, 3 persons; 3rd story, salesroom, 6 persons; 4th story, show room, 7-9 persons; and

WHEREAS, appellant contends the use of the building is non-hazardous and there are only 18 persons above 1st story.

Resolved, that the order of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a balcony fire escape with a 60 degree connecting stairs shall be provided on the rear of the building with termination on the 1st story extension roof, with a portable iron ladder to be maintained on the roof of the extension and that the loft side of the hall partition throughout shall be fire retarded with cement mortar on wire lath and that any openings to the stair hall shall be equipped with self-closing, fireproof doors and that any windows in the stair hall partitions shall be built up solidly, and *granted* only so long as conditions of the building as to occupancy and use (namely, sales and show rooms) shall remain unchanged.

APPELLANT—William F. Doyle, for Garland Automobile Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—41-43 West 63rd street, Manhattan.

APPEARANCES—

For Appellant: William F. Doyle.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(1545-23-A)

WHEREAS, Wm. F. Doyle, for Garland Automobile Co., lessee, filed, December 28, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 41-43 West 63rd street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 21233-C, dated November 30, 1923, reads:

"1—Discontinue the maintenance of a motor vehicle repair shop on third story of above premises.";

and

WHEREAS, the building is fireproof, three stories in height, 50 ft. by 100 ft. in area. OCCUPIED: 1st story, auto sales and show room, 11 persons; 2nd story, storage of old and new automobiles, 1 person; 3rd story, auto repairs (minor adjustments), 11 persons; the building is located in a business district; and

WHEREAS, the fire department contends the occupancy of the premises is contrary to the certificate of occupancy issued by the superintendent of buildings; and

MINUTES

WHEREAS, appellant contends there is no power driven machinery used on the premises, with the exception of a small electric hand drill and that auto parts that are broken or worn out are replaced and the repairing done are only minor manual repairs incidental to the operation of a garage business, and appellant further contends that there is no gasoline storage system on the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there shall be no power driven machinery other than a portable electric drill maintained on premises; and *granted* so long as the operation of the business is conducted in conjunction with and incidental to the automobile business of the lessee or occupant of the premises.

1551-23-A.

APPELLANT—J. Frederick Jacobson, for Arthur C. Jacobson & Sons, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—435-453 Park avenue, Brooklyn.

APPEARANCES—

For Appellant: J. Frederick Jacobson, Herbert Smith.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Kerby	1

THE RESOLUTION:

(1551-23-A)

WHEREAS, J. Frederick Jacobson, for Arthur C. Jacobson & Sons, Inc., owner, filed, December 28, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 435-453 Park avenue, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated December 8, 1923, read:

"Order No. 51807-F:

"1. Provide a fire wall 18 ft. high around lumber yard on all sides where same is within 30 ft. of adjoining frame building or of unprotected opening in the exterior wall of adjoining brick building * * *."

"Order No. 51808-F:

(in Building 451-453 Park Avenue)

"1. Provide a separate and distinct system of AUTOMATIC SPRINKLERS throughout building. * * *";

"Order No. 51809-F:

"1. Provide a hydrant equipped with approved 2½ hose and nozzle, as per rule 37 adopted by Board of Standards & Appeals July 20, 1923. Sec. 776, Greater New York Charter. * * *";

and

WHEREAS, the premises consist of a plot of ground 180 ft. 3 in. by 115 ft. irregular in area, on which are located a two-story brick and frame planing mill, a one-story office and three lumber sheds, the open yard being used for storage of lumber and being provided with four 16 ft. passageways extending to the rear and cross passageways; adjoining the property to the west is a four-story brick tenement (immediately adjoining a lumber shed); to the rear is a two-story frame dwelling and a two-story brick factory approximately 5 ft. back from the property line and to the east vacant yards; and

WHEREAS, appellant contends that the provision of the 18 ft. wall would practically confiscate his property and

would afford no practical protection to the adjoining property and that the yard is provided with watchman residing on the premises and that there is a city fire hydrant on Park avenue and another one on Kent avenue and that there are water tanks and pails distributed throughout the yard and that he proposes to maintain all lumber piles at a reasonable distance from any other structure on adjacent property; and further contends that the mill is operated by electric power and lighted with electricity; it is equipped with a blower system and has isolated sawdust and shaving bins and that the provision of the sprinkler system would be a hardship as this building is practically isolated.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted* as to Orders No. 51807-F and 51809-F so long as there is no open flame or power plant maintained on the premises and that the lumber stacks shall not exceed a height of 15 ft. and that there shall be an open gangway maintained not less than 15 ft. in width along the rear of the premises running the length of the yard with intersecting cross runways not less than 15 ft. in width from Park avenue; *granted* so far as it affects Item No. 1 of Order No. 51808 *on condition* that six (6) forty (40) gallon casks in the open yard and one on each floor of the planing mill be provided and maintained.

1382-23-A.

APPELLANT—Norbert Vogelmann, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—127-131 West 25th street, Manhattan.

APPEARANCES—

For Appellant: A. Mutterperl, Mark Franckman.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell and Fire Chief Kenlon	
Negative	
Absent: Mr. Kerby	

THE RESOLUTION:

(1382-23-A)

WHEREAS, Norbert Vogelmann, lessee, filed, November 20, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 127-131 West 25th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 20964 LC, dated November 5, 1923, reads:

"3. Provide vent duct for nitro-cellulose vault as prescribed by Section 232-3-c, Chap. 10, Art. 19, Code of Ordinances.

"15. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering.

"17. Bottom of guard shall be arranged so as to lift up for cleaning.

"23. Provide a special finished stock storeroom for the storage of finished stock packed in cartons or pastboard boxes. Separated from the remainder of the floor by wall or partitions erected according to the provisions of Section 355 of Article 17 of Chapter 19 of the Code of Ordinances, which partitions shall be continuous from floor to ceiling and securely anchored to walls, floor and ceiling.

"24. Discontinue the storage of finished stock anywhere on your premises, except in approved vaults or cabinets or in a special finished stock storeroom.

"26. Keep all finished stock except that in final shipping boxes on slatted shelves in finished stock storeroom.

MINUTES

"27. Provide that slatted shelves in finished stock storeroom shall not exceed 3 feet in depth.

"28. Provide that none of the slats shall be over 4 in. wide nor spaced less than 1 in. apart.

"30. Provide ventilation for finished stock storeroom equal to a clear opening of at least 1/2 sq. inch per cu. ft. of room capacity.

"Note: Thin glass windows, if unexposed, are acceptable.";

WHEREAS, the building is fireproof, 12 stories in height, 5 ft. by 100 ft. in area; OCCUPIED as a tenant factory, the appellant occupying the 4th story for the manufacture of celluloid and metal buttons; and

WHEREAS, appellant contends he has occupied the premises for eight years, has complied with twenty (20) items of the order and contends great hardship would ensue if compelled to carry out the rest of the orders, as they would necessitate a complete change and modification of the appellant's factory.

Resolved, that the orders of the fire commissioner be and they hereby are modified, and the appeal be and it hereby is granted to permit the occupancy of these premises, and holding the order in abeyance, on condition that the appellant vacates the premises by March 15, 1924, and that any celluloid material stored on the premises shall be stored and maintained in a fireproof vault.

1473-23-A.
APPELLANT—William F. Doyle, for Dr. George Draper, owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—186 East 64th street, Manhattan.

Absent: Mr. Kerby and Fire Chief Kenlon .. 2

THE RESOLUTION:
(1473-23-A)

WHEREAS, Surprise Button & Novelty Co., lessee, filed, December 13, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 29 West 17th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 24, 1923, reads:

"1. Forthwith remove all nitro-cellulose products.";

and

WHEREAS, the building is fireproof, ten stories in height, 25 ft. by 90 ft. in area, equipped with a fire alarm and sprinkler system. OCCUPIED: 1st story, store; 2nd to 8th story, mfg. of clothing, 20 persons per story; 9th story, mfg. of celluloid eye glass frames, 15 persons; 10th story, occupied by appellant for the mfg. of celluloid buttons, 20 persons; and

WHEREAS, the sprinkler system is supplied with a 3,400 gallon pressure tank and also by a 5,000 gallon gravity tank; and

WHEREAS, appellant contends that the sprinkler system conforms with the requirements.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that an additional doorway shall be provided to the stair hall at the extreme front of the building, equipped with self-closing, fireproof door, and that the quantity of celluloid shall not exceed 500 lbs., to be stored and maintained in an approved fireproof cabinet, and that the use and occupancy shall comply with the regulations in all other respects.

APPEARANCES—

For Appellant: C. L. Butler.
For Administration: Inspector Carroll of fire department.
ACTION OF BOARD—Extension of permit granted for 90 days, subject to inspection.
CONDITIONS—As specified in resolution.
THE VOTE TO GRANT TEMPORARY PERMIT—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:
(1335-23-A)

WHEREAS, the Simplex Oil Heating Corp. filed, November 19, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 513-23 West 40th street, Manhattan; and

WHEREAS, pending the action of the board on this appeal, the appellant requests permission to operate the fuel oil installation; and

WHEREAS, this appeal was granted by the board at its meeting November 27, 1923, for a temporary permit and appellant requested an extension of this permit.

MINUTES

Resolved, that a temporary permit is authorized for a period of ninety (90) days to permit the operation of the fuel oil burning equipment, at appellant's own risk, *on condition* that the installation complies in all respects, except as to burner and pumps, with the fuel oil rules and regulations now in force.

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(802-23-A)

WHEREAS, William F. Doyle, for M. F. Schlesinger, owner, filed, June 22, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 37-39 Perry street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 17, 1923, reads:

"1. Discontinue the use of 4th story for dwelling purposes—as per section 154, Chapter 10, Code of Ordinances."

and

WHEREAS, the building is non-fireproof, four stories in height, 34 ft. by 44 ft. in area. OCCUPIED: 1st story, private garage; 2nd and 3rd stories, dwelling; proposed 4th story occupancy, studio apartments; the means of egress consisting of an interior stairway extending from the 1st story to the 4th story; and

WHEREAS, appellant proposes to provide a 60 degree fire escape on the front of the building with drop ladder from the 2nd story balcony to the ground, and claims that the occupancy has existed under permit from the fire department since 1914; that the interior stairway is enclosed in fireproof partitions and that the walls and ceiling of the garage are fire retarded and there are no openings from the garage to the interior stairway, and further contends that there will be no sleeping quarters on the top story; and

WHEREAS, this appeal was granted by the board at its meeting October 9, 1923, on certain conditions and appellant requested a modification of these conditions.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the ceiling of the garage be fire

retarded with cement mortar on wire lath, and the floor covered with concrete; and that fire escapes be erected on the rear of the building, with 45 degree connecting stairs with egress from the termination of the roof of the 1st story extension by balcony and fixed iron stairs to the yard, egress therefrom in the yard to be provided through an unpierced fire retarded passageway, on the first floor leading directly to the street; the partition separating passageway from garage to be constructed of 4 in. terra cotta block, and *on further condition* that not more than four (4) automobiles be stored on the premises, and that there shall be no gasoline stored on the premises other than in the tanks of the cars.

BUILDING ZONE CASES.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell and Holland 5
Negative 0
Absent: Mr. Kerby and Fire Chief Kenlon 2

THE RESOLUTION:

(1502-23-BZ)

WHEREAS, Isaac H. Lubin, owner, filed, December 19, 1923, an application, under the building zone resolution, to permit in a residence district the alteration and extension of a basement and the conversion of occupancy of the basement from dwelling to manufacturing purposes; premises 334 East 50th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 10, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 50th street is a residence district and 1st and 2nd avenues are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 4, 1924, in acting on Alt. App. No. 2579-23, reads:

"2. Proposed extension is unlawful in a residence district."

WHEREAS, the existing building is of non-fireproof construction, four stories and basement in height, with a frontage of 20 ft. and a depth of 57 ft. Occupied: Basement and 1st story, dwelling; 2nd story, factory; 3rd and 4th stories, dwelling; it is proposed to extend the basement at rear, replacing existing frame extension by a brick extension 30 ft. in depth and removing factory occupancy from 2nd story and placing it in the basement; and

WHEREAS, under the provisions of section 7, subdivision 1, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the existing frame extension be removed and a brick structure substituted in lieu thereof, extending not more than 30 ft. beyond the rear wall of the present main building, maintaining a 25 ft. clear and unobstructed yard for the full width of property at the rear of the premises; that the extension shall be limited to one story in height; that the gable walls shall be unpierced throughout their entire height and length; that the industrial or business use shall be restricted to and confined to the basement story and the rest of the building above the basement story level shall be maintained for residence and dwelling use only; that there shall be no sign of any kind, nature or description displayed or exposed on the front of the building; that permission to use this extension for industrial use shall be granted only so long as the premises remain in the present ownership and occupancy and while the business is operated by the present owner hereon;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1510-23-BZ.

APPLICANT—William F. Doyle, for Morris Schriman, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence "B" area district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—West side Merriam avenue, 360.78 ft. south of 170th street, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: W. H. Lindsay, Mr. C. Fermon, Mrs. Ella O. Stanton, Mr. K. Mazulski, Mr. Abraham Vogel, Mrs. Louis B. Seitor and Mrs. Hydleberg.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell and Holland 5
Absent: Mr. Kerby and Fire Chief Kenlon 2

THE RESOLUTION:

(1510-23-BZ)

WHEREAS, William F. Doyle, for Morris Schriman, owner, filed, December 21, 1923, an application, under the building zone resolution, to permit in a residence "B" area district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises west side of Merriam avenue, 360.78 ft. south of 170th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 19, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Merriam avenue, Lind avenue and West 170th street are residence and "B" area districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 17, 1923, in acting on N. B. Application No. 2848-23, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in residence district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 175 ft and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1478-23-BZ.

APPLICANT—William F. Doyle, for Michael J. Adrian Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

MINUTES

(1478-23-BZ)

WHEREAS, William F. Doyle, for Michael J. Adrian Corp., owner, filed, December 14, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 200-208 East 111th street and 2013-2027A Third avenue; Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 19, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 111th street, East 110th street and Third avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 6, 1923, in acting on N. B. App. 583-23, reads:

"1—Inasmuch as these premises are located in a business district the erection of a garage building for more than 5 cars is contrary to the Building Zone Resolution. Art. 2—Sec. 4.";

and

WHEREAS, the proposed building is to be of fireproof construction, two stories in height, with a frontage of 110 ft. and a depth of 100 ft. 11 in.; to be occupied as a garage for more than five motor vehicles, with stores on the Third avenue frontage in the 1st story and show rooms on the 3rd avenue frontage in the 2nd story; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be limited to a two-story structure above grade, of fireproof construction; that the easterly gable wall be unpierced throughout its entire height and length; that any openings in the southerly gable wall shall be in a court within the property lines of these premises; that the Third avenue front of the building, for a depth not less than 25 ft., shall be maintained and operated as stores or shops, separated from the garage by an unpierced brick wall; that the vehicular entrances shall be restricted to the 110th street side of the structure; that the front elevations on 110th street and Third avenue shall be finished in face brick with architectural terra cotta or stone trimmings, other than the show windows;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1156-23-BZ.

APPLICANT—Joseph L. Burke Corp., for Falkenau & Hamerschlag, owners.

THE RESOLUTION:

(1178-23-BZ)

WHEREAS, Henry J. Nurick, for Murray Schindel, owner, filed, October 16, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 279-285 Vernon avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 19, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Vernon avenue, Myrtle avenue and Sumner avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 4, 1924, in acting on App. No. 17676-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. 2, Section 4.

"A public garage for more than five motor vehicles in a business district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 60 ft. and a depth of 96 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there exists a hospital within 200 ft. of these premises.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1292-23-BZ.

APPLICANT—Frank Shary and Emma Shary, owners.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of one pleasure and one commercial motor vehicle.

PREMISES AFFECTED—761 East 230th street, The Bronx.

APPEARANCES—

For Applicant: Frank Shary.
For Opposition: None.

ACTION OF BOARD—Application granted on condition for four years.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Connell, Holland and Fire Chief Kenlon ..	6
Negative	0
Absent: Mr. Kerby	1

THE RESOLUTION:

(1292-23-BZ)

WHEREAS, Frank Shary, for Frank and Emma Shary, owners, filed, November 12, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of one pleasure and one commercial motor vehicle; premises 761 East 230th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 19, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 230th street and Barnes avenue are residence districts and White Plains road is a business district; and

WHEREAS, the order of the fire commissioner, dated June 26, 1923, in acting on Order No. 18709-C, reads:

"1. Discontinue the maintenance of a garage which is not maintained as an accessory use on these premises."

and

WHEREAS, the existing building is of frame construction, one story in height, with a frontage of 18 ft. and a depth of 18 ft.; occupied as a garage for one pleasure motor vehicle and one commercial motor vehicle; and

WHEREAS, the board deemed that there would be undue hardship in preventing applicant from using his garage for his own cars, one of which is a small runabout used for commercial purposes.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted, permitting the storage and maintenance of two (2) automobiles, the property of the owner of the premises, one a commercial car with an open-box body used in the conduct of his business, for a temporary period of two years from the date of this action, on condition that same remain in possession of this applicant and resident of the premises, used in the conduct of his business; and on further condition that no gasoline be stored on the premises except in the tanks of the cars.

THE RESOLUTION:

(1475-23-BZ)

WHEREAS, James Kearney, for William Danenbaum, owner, filed, December 14, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 3158 Webster avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 19, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Webster avenue, East 204th and East 205th streets are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 10, 1923, in acting on N. B. Application No. 2802-23, reads:

"Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 50 ft. and a depth of 123 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a garage for more than five motor vehicles.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be limited to a one-story structure, with roof of flat design and construction; that the gable walls be unpierced throughout their entire height and length; that an emergency exit, not exceeding 3 ft. 8 in. in width, and not more than two windows, equipped with metal frames and sash, may be installed in rear wall; that the front elevation of the building shall be finished in face brick with architectural terra cotta or stone trimmings;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

AREAS FIXED.

(932-23-BZ)

The chairman presented and read a communication from Murray Klein, requesting the Board to fix the area deemed affected and within which to obtain consents for the alteration and extension of a garage; premises 5002-12 Seventh avenue, Brooklyn.

The following area was approved by the Board:

The same area as considered in the original case, i. e., both sides of Seventh avenue from 50th street to 51st street, and including in addition the property to the rear of the garage in question.

(113-24-BZ)

The Chairmna presented and read a communication from Bernhard A. Schaeffel, requesting the Board to fix the area deemed affected and within which to obtain consents for the maintenance of a garage; premises 17 Richmond street, Brooklyn.

The following area was approved by the Board:

Both sides of Richmond street from a point 100 ft. south of Jamaica avenue to Etna street, the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question. also lots 20 and 22 of Block 4103.

(1417-23-BZ)

The Chairman presented and read a communication from John P. Carroll, requesting the Board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 1498-1506 Fulton street, Brooklyn.

The following area was approved by the Board.

Both sides of Fulton street from a point 400 ft. west of proposed garage to a point 200 ft. east of said garage. Both sides of Throop avenue from Fulton street to a point 100 ft. north of Fulton street; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, and Holland 0
Negative 0
Absent: Mr. Kerby and Fire Chief Kenlon.. 2

THE RESOLUTION:

(1449-23-A)

WHEREAS, Gill & Striker, lessee, filed, December 7, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 13 Broadway, Flushing, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, dated November 26, 1923, reads:

"1. You are therefore ordered to remove all fuel oil from the storage tank and discontinue the further storage of fuel oil at the above location pending compliance with the following:

"2. Rule 4—Storage tank on 1st story not buried or enclosed.

"3. Rule 5—Storage tank not enclosed.

"4. Rule 10—Storage tank must comply with Sub. Div. 3, 5 and 8.

"5. Rule 11—Sub. Div. 1, 2 and 3 must be complied with.

"6. Rule 14—Shut off valve to be provided in the supply line of fuel oils.

"7. Rule 16—Fuel Oil Burner not of an approved type. Sub. Div. 3-4-5 and 7 not complied with.

"8. Rule 18—Thermometer must be provided.

"9. Rule 19—Instruction cards not provided.

"10. Rule 21—Plans for installation must be filed with and approved by the Fire Department before work of installing Fuel Oil System is commenced.

"11. Provide automatic safe guards protected by metal guard to prevent abnormal discharge of oil to burner.

"12. Discontinue any other tank for storage of fuel oil excepting the 50-gallon auxiliary gravity feed tank—all storage tanks must comply with Rule 3, 4 and 5."

and

WHEREAS, the building is frame, two stories in height, 17½ ft. by 37 ft. in area; OCCUPIED as a store; there having been provided a fuel oil burning installation for demonstration purposes; and

WHEREAS, appellant contends that the installation conforms to the requirements of the fuel oil rules.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a temporary period of ninety (90) days, at owner's risk, for demonstration purposes, *on condition* that the apparatus shall be under the supervision and operation of a licensed engineer and operative, and operated only between the hours of 8:00 a. m. and 5:00 p. m., pending inspection by a committee of the board.

1463-23-A.

APPELLANT—James Whitford, for Tompkinsville Amusement Co., owner.

SUBJECT—Appeal from decision of the fire commissioner.
PREMISES AFFECTED—S. S. Richmond Turnpike, 275 ft. East of Fielder avenue, Richmond.

APPEARANCES—

For Appellant: James Whitford, William Roehig.
For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, and Holland 5
Negative 0
Absent: Mr. Kerby and Fire Chief Kenlon.. 2

THE RESOLUTION:

(1463-23-A)

WHEREAS, James Whitford, for Tompkinsville Amusement Co., owner, filed, December 10, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises south side of Richmond Turnpike, 275 ft. east of Fiedler avenue, Borough of Richmond; and

WHEREAS, the decision of the fire commissioner, dated November 17, 1923, reads:

"1. A standpipe system must be installed in accordance with Chapter 3, Section 581, Code of Ordinances, and the Board of Standards and Appeals, Rule No. 38."

and

WHEREAS, the building is fireproof, one and two stories in height, 134 ft. by 50 ft. in area; OCCUPIED as a moving picture theatre seating 850 persons in first story, and offices in 2nd story; and

WHEREAS, appellant contends that the building is only 26 ft. high, has no balcony or stage and amply provided with exits.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a standpipe system be installed, supplied by four-inch street connection to main, fed two ways independently; that there shall be no occupancy above auditorium floor other than the office restricted in area to dimensions of plan filed in this appeal, the walls separating the office and the theatre shall be unpierced and built of fireproof material.

1252-23-A.

APPELLANT—A. H. Wilkinson, owner.

SUBJECT—Appeal from order of the fire commissioner.
PREMISES AFFECTED—107 East 126th street, Manhattan.

APPEARANCES—

For Appellant: A. H. Wilkinson, A. R. Wilkinson.
For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, and Holland 5
Negative 0
Absent: Mr. Kerby and Fire Chief Kenlon.. 2

THE RESOLUTION:

(1252-23-A)

WHEREAS, A. H. Wilkinson, owner, filed, November 2, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 107 East 126th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 6, 1923, reads:

"1. Discontinue the use of living apartment on 3rd story for dwelling purposes. Section 154, Chapter 10, Code of Ordinances."

and

WHEREAS, the building is non-fireproof, divided into two sections, 3 stories and basement in front and one story and basement in height at rear, 25 ft. by 88 ft. in area; OCCUPIED (front section): Basement, garage and auto repair shop; 1st, 2nd and 3rd stories, dwellings; (rear section), basement, auto repair shop; 1st story, machine shop; and

WHEREAS, appellant contends that these conditions have existed for the last 18 years and a permit was granted for same until this year and that there is no opening between the auto repair and dwelling portions of the building.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there shall be no vertical exit from the repair shop to the upper portion of dwelling in

MINUTES

main building; that the ceiling of auto repair shop shall be protected with two courses of $\frac{3}{8}$ in. plaster board with joints broken; that the basement shall be sub-divided on the line of rear wall of main structure with a partition of fire retarding material, with a pair of fireproof doors in the opening; that two approved fire extinguishers of $2\frac{1}{2}$ -gallon capacity shall be maintained in the work shop; that no gasoline storage equipment shall be maintained on the premises; and that there shall be no automobile storage permitted in the basement of the main building of this plant.

BUILDING ZONE CASES.

1298-23-BZ.
APPLICANT—Nathan Langer, for Vincenzo Gargiulo, owner.
SUBJECT—Application (re: decision of superintendent of buildings), to permit partly in business district and partly in residence district the erection and maintenance of a garage for the storage of more than five motor vehicles.
PREMISES AFFECTED—3200 Villa avenue, The Bronx.
APPEARANCES—
For Applicant: Nathan Langer.
For Opposition: None.
ACTION OF BOARD—Laid over to February 29, 1924, at 10 a. m., to support application by consents.

497-23-BZ.
APPLICANT—Charles B. Meyers, for S. C. La Vine, Inc., owner.
SUBJECT—Application (re: decision of superintendent of buildings), to permit in a business district the erection and maintenance of a garage for storage of more than five motor vehicles.
PREMISES AFFECTED—1578-1586 Bedford avenue, Brooklyn.
APPEARANCES—
For Applicant: Charles B. Meyers.
For Opposition: E. T. Beamish.
ACTION OF BOARD—Application withdrawn.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

984-22-BZ.
APPLICANT—Barnet Goldstein, owner.
SUBJECT—Application (re: order of fire commissioner), to permit in a residence district the maintenance of a garage for the storage of three (3) motor vehicles, three spaces rented to persons not residing on the premises.
PREMISES AFFECTED—2379 Tiebout avenue, The Bronx.
APPEARANCES—
For Applicant: John De Hart and Samuel Goldstein.

For Opposition: Harold A. Olsen and Mrs. E. M. Crowell.

ACTION OF BOARD—Application granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, and Holland 5
Negative 0
Absent: Mr. Kerby and Fire Chief Kenlon.. 2

THE RESOLUTION:

(984-22-BZ)

WHEREAS, Barnet Goldfein, for Barnet Goldfein, owner, filed, July 26, 1922, an application under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of three (3) motor vehicles, three spaces rented to persons not residing on the premises; premises 2379 Tiebout avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 19, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Tiebout avenue and Valentine avenue are residence districts and East 148th street is a business district; and

WHEREAS, the order of the fire commissioner, dated July 7, 1922, Order No. 12948-C, reads:

"1. Discontinue the maintenance of a garage which is not maintained strictly as an accessory to residence on same lot.";

and

WHEREAS, the existing building is of non-fireproof construction, one story in height with a frontage of 25 ft. and a depth of 18 ft., to be occupied as a garage for 3 motor vehicles, 3 spaces rented to persons not residing on premises; and

WHEREAS, applicant contends that there would be hardship in preventing him from renting space in that he purchased the building believing he could do so.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* for a temporary period of two years, permitting the storage of five (5) automobiles on the premises restricted to the plot of ground 25.0 ft. by 125.0 ft. in depth, located 141.05 ft. north from the intersection of 184th street and Tiebout avenue, including the maintenance of one two-car and one three-car garage for the storage of automobiles of the pleasure-care type, space for three of which may be rented to persons not residing on the premises, *on condition* that there be no gasoline storage maintained on the premises other than in the tanks of the cars.

932-23-BZ.
APPLICANT—Murray Klein, for Asher Dann, owner.
SUBJECT—Application (re: decision of superintendent of buildings), to permit in a business district the extension of a garage for the storage of more than five motor vehicles.
PREMISES AFFECTED—5002-5012 7th avenue, Brooklyn.
APPEARANCES—

For Applicant: Asher Dann.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

MINUTES

THE RESOLUTION:

(932-23-BZ)

WHEREAS, Murray Klein, for Asher Dann, owner, filed, July 20, 1923, an application, under the building zone resolution, to permit in a business district the extension of a garage for the storage of more than five (5) motor vehicles; premises 5002-5012 Seventh avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 19, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 7th avenue is a business district and 50th and 51st streets are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered July 19, 1923, in acting on Application No. 13179, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. No. 2, Sec. 4, the extension of a public garage for more than five motor vehicles in a business district."

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 50 feet and a depth of 100 ft., occupied as a garage for more than 5 motor vehicles, it is proposed to extend the building at the side of the building as extended, to be of nonfireproof construction, one story in height, with a frontage of 100 ft. and a depth of 100 ft.; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 84 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, permitting the extension of existing garage, *on condition* that the structure be limited to one-story building above grade, with roof of flat design and construction; that the rear and gable walls be unpierced throughout their entire height and length; that there be no vehicular exit or entrance on the 50th street side of the building; that the sills of any windows on the 50th street side of the building shall not be less than six feet above grade, other than the office window on the corner, and that any other opening on 50th street shall be limited to a doorway not exceeding 3 ft. 8 in. in width; that the front elevations on 7th avenue and 50th street shall be finished in face brick with architectural terra cotta or stone trimmings, in harmony with the existing adjoining garage, as to material, texture and color.

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within six months and the building completed within twelve months from the date of this action.

1086-23-BZ.

APPLICANT—Antonio Russo and James Russo, owners
SUBJECT—Application (re: decision of superintendent of buildings), to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—2772-2774 West 15th street Brooklyn.

APPEARANCES—

For Applicant: Frank Russo, James A. Nolan and Justus W. Smith.

For Opposition: David Malbin and others.

ACTION OF BOARD—Application granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6

Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(1086-23-BZ)

WHEREAS, Antonio & James Russo, owners, filed, September 14, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 2772-2774 West 15th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 19, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 15th street, West 16th street and Neptune avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered August 25, 1923, in acting on App. No. 15419-23, reads:

"Proposed one story public garage in business section is contrary to Art. II, P. 4, of Zone Resolution.";

and
WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 49 ft. 4 in. and a depth of 118 ft. 9¾ in.; to be occupied as a garage for more than 5 motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 21, 1916, a stable for more than 5 horses.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be limited to a one-story structure, with roof of flat design and construction; that the floor over the boiler room be of fireproof construction; that the southerly and rear gable walls be unpierced throughout their entire height and length; that any windows in the northerly gable wall shall open on the property of the owner, and shall be permitted only so long as both properties remain in the one ownership; that there shall be not more than one line of skylights installed approximately in the centre of the roof running fore and aft, glazed with plain glass and protected with wire guards above and below; that there shall not be more than one vehicular entrance on the street front; that the front elevation shall be finished in face brick with architectural terra cotta or stone trimmings.

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of his action.

1203-23-BZ.

APPLICANT—Edward M. Adelson, for Estate of Philip Swiller, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit the alteration of a stable into a garage for more than five motor vehicles.

PREMISES AFFECTED—318 Henry street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Application withdrawn on written request.

RULES ADOPTED

AMENDMENT TO THE PLUMBING RULES—ADOPTED JANUARY 8, 1924.

Rule No. 137.

Where "Flushometers" are used, they must be supplied from tank pressure, unless otherwise permitted by the Superintendent of Buildings; the rising lines shall be at least one and one-half inches in diameter, and the main

branches shall be at least one and one-quarter inches in diameter, with individual branches not less than one inch in diameter for water-closets and not less than one-half inch in diameter for urinals. Individual branches shall not exceed twelve inches in length.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in

exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS.

*Amended Resolution Adopted by the Board of Appeals,
March 16, 1920, Under Cal. No. 549-17-BZ.*

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

RULES

FIRE ESCAPE RULES.

Rule 1. In any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, more than five stories in height and not exceeding nine stories in height, nor in any case more than 90 ft. from curb level to top floor level, one of the required means of exit or escape under Section 271-1 of the Labor Law may consist of an outside fire escape, provided that:

(a) Any such fire escape hereafter erected shall comply with all the provisions of Section 273, labor law, and in addition thereto:

(1) The balconies and stairs shall be protected on the outside by substantial railings to a height of at least 4 ft 6 in., measured from floor of balcony or center of stair tread, constructed of bars at least one-half ($\frac{1}{2}$) inch in diameter, spaced not more than six (6) inches on centers, or of substantial grill work, or of screening not less than No. 10 U. S. gauge wire with not more than one and one-half ($1\frac{1}{2}$) inch mesh, all rigidly braced;

(2) When there is safe egress from the roof of the building to any adjoining structure, the fire escape stairway shall continue to the roof, and if there be no safe means of egress, a gooseneck ladder shall be provided from the top story balcony to the roof;

(b) Any such fire escape erected prior to October 1, 1913, shall conform in every respect with the requirements of paragraph (a) of this rule, except that balconies may be not less than 3 feet in width; the connecting stairs not less than 20 inches in width, and placed at an angle not exceeding 60 degrees if the building is not over six stories in height, otherwise at an angle of 45 degrees; fire windows leading to balconies may be at window sill level if fixed steps not less than sixteen (16) inches wide are provided on the inside from floor level, leading thereto.

(c) Any such fire escape erected subsequent to October 1, 1913, and prior to these rules taking effect, unless previously accepted as one of the required means of exit or escape by the administrative official having jurisdiction, shall conform in every respect to paragraph (a) of this rule.

Rule 2. A fire escape shall not hereafter be accepted as constituting one of the required means of exit or escape under Section 271-1 of the labor law, in any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, exceeding nine stories in height, or more than 90 feet from curb level to top floor level.

NOTICE

RULES GOVERNING SPRINKLER AND STANDPIPE EQUIPMENT IN ONE STORY GARAGE BUILDINGS RESCINDED JANUARY 29, 1924.

Notice is hereby given that the following resolution, adopted by the Board of Standards and Appeals, April 19, 1920, Under Cal. No. 179-20-S, was rescinded by the board on January 29, 1924, as shown in the minutes published in Bulletin No. 6, Vol. IX:

Under the powers conferred upon it by Section 718a of the Charter, the Board of Standards and Appeals does hereby make rules and regulations for the carrying into effect of the provisions of Section 72, subdivision L, and Section 581 of Chapter 5 of the Code of Ordinances as follows:

Resolved, that the provisions of Section 72, subdivision L of Chapter 5, of the Code of Ordinances, shall not apply to buildings not exceeding one story in height, the purpose of which is occupancy as a garage, motor vehicle repair shop, or oil selling station, which buildings do not exceed an area of 15,000 sq. ft. when located on an interior lot or

when facing on only one street or 24,000 sq. ft. when facing on two streets or 30,000 sq. ft. when facing on three streets; provided that the building is equipped with an approved system of automatic sprinklers or with a line of $2\frac{1}{2}$ in. pipe carried around the interior walls of the building or attached to the columns which carry the roof girders and connected with the street main by 2 in. tap and sufficient length of hose, and from which line branches are taken for the house service.

Resolved, further, that under the provisions of Section 581, subdivision 4 of Chapter 5 of the Code of Ordinances, in similar structures, a line of $2\frac{1}{2}$ in. pipe connected with the street main by 2 in. tap and sufficient length of hose at intervals of 100 ft. or less shall be deemed a standpipe within the meaning of this section, but no siamese connection need be provided on condition that the pressure in the street main shall be not less than 45 lbs.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present or absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES ADOPTED

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanent secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes, any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth (1¼) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter (1¼) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter (1¼) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand and two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanketing gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

BOARD OF APPEALS.

WILLIAM E. WALSH, Chairman.

FRED J. BOULTON

JAMES P. HOLLAND

HN J. BEATTY

HENRY L. CONNELL

HN E. KERBY

FIRE CHIEF JOHN KENLON

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, March 4, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, March 11, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

THE RESOLUTION:

(9-24-A)

WHEREAS, William F. Doyle, for Dr. MacMillan, lessee, filed, January 3, 1924, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 138-40 East 61st street, Borough of Manhattan; and
WHEREAS, the orders of the fire commissioner read:
"No. 51224-F:
"A—Provide a watchman * * *.
"B—Provide an automatic thermostatic fire alarm system * * *."
"No. 51225-F:
"1—Install an adequate interior electric fire alarm system * * *";
and
WHEREAS, the premises consist of two five-story non-fire-proof buildings, separated by a fire wall, with openings protected by fire doors on the 2nd, 3rd, 4th and 5th stories,

MINUTES

The easterly section is 20 ft. by 80 ft. in area at the 1st story and 20 ft. by 50 ft. in area above; the westerly section is 20 ft. by 50 ft. in area. OCCUPIED: The 1st story of the easterly building is used for stores; the rest of the premises is occupied as a private hospital, 12 employees in hospital; the easterly section accommodates 13 patients and the westerly portion accommodates 11 patients above the 1st story; and

WHEREAS, appellant contends regulations for interior fire alarm applies to hospitals having more than 15 rooms or patients above the 1st story and that these premises are two distinct units; and further contends the means of exit are adequate and sufficient fire fighting appliances have been provided throughout premises.

Resolved, that the orders of the fire commissioner be and they hereby are *affirmed*, and the appeal be and it hereby is *denied*.

17-24-A.

APPELLANT—Leo J. McDermott, for Wallstein Industrial Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—2-10 Evergreen avenue, Brooklyn.

APPEARANCES—

For Appellant: Leo J. McDermott.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Fire Chief Kenlon ... 5

Negative 0

Absent: Messrs. Holland and Kerby 2

THE RESOLUTION:

(17-24-A)

WHEREAS, Leo J. McDermott, for Wallstein Industrial Corp., owner, filed, January 5, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 2-10 Evergreen avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 82239-C, dated December 18, 1923, reads:

"11. Arrange work benches in class "B" workroom so that operators will not be closer than 3 feet to each other.";

and

WHEREAS, the building is fireproof, three stories in height, 100 ft. by 160 ft. in area. OCCUPIED as follows: 1st story, office, storage and plating, 90 persons; 2nd story, manufacture (cutting) corset steels, 100 persons; 3rd story, celluloid novelties and the dipping of corset steels, 105 persons; and

WHEREAS, the benches in question are those located at 50 stamping and punching machines, which machines are in five batteries of ten machines, 33½ in. center to center of machine, with aisle space between each row of machines; and

WHEREAS, appellant contends that at no time are all the machines in simultaneous operation, that one operator will use three or four machines alternately and that to provide the required 3 ft. spacing on benches would require respacing of the machines, with resetting of delicate dies and punches, causing great hardship.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that all of the machines are not in operation at one time and that not more than one row of operators shall be employed on any aisle.

27-24-A.

APPELLANT—Reinhardt Bros., Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—218 East 9th street, Manhattan.

APPEARANCES—

For Appellant: Frederick J. Berger.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Kerby and Fire Chief Kenlon. 6

Negative 0

Absent: Mr. Holland 1

THE RESOLUTION:

(27-24-A)

WHEREAS, Reinhardt Bros., Inc., owner, filed, January 8, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 218 East 9th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 21133-LC, dated December 20, 1923, reads:

"A. No occupancy permitted between garage and dwelling * * *.

"B. Occupant of one of the living apartments must be the applicant or his employee * * *.

"C. Not more than two floors immediately above garage may be used for dwelling purposes.

"You are, therefore, hereby, ordered to:

"1. Discontinue the maintenance of a garage on these premises.";

and

WHEREAS, the building is non-fireproof, four stories in height, 21 ft. by 75 ft. in area at 1st story and 21 ft. by 50 ft. in area above. OCCUPIED: 1st story, garage for one auto truck; storage of building materials and office; 2nd story, dressmaker, 9 persons; 3rd and 4th stories, dwellings; and

WHEREAS, appellant contends ceiling of garage is protected with metal on plaster; that there is no opening between garage and remainder of the building; that one of the families dwelling above garage is janitor and employee of owner of garage; that the auto truck is used in the conduct of appellant's business and that there is no gasoline stored on the premises excepting that in the tank of the auto truck.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than one car, the property of the owner of the premises, used in the conduct of his business, shall be maintained on the premises; that the ceiling of garage portion shall be fire retarded in accordance with the rules of the board of standards and appeals; and that there shall be no gasoline storage system maintained on premises.

1084-23-A.

APPELLANT—Harry Lederer, lessee.

SUBJECT—Appeal from decision of superintendent of buildings.

THE VOTE TO GRANT ON CONDITION—

Affirmative: Chairman Walsh, Messrs. Beatty and Kerby 3

Negative: Messrs. Boulton and Connell 2

Absent: Mr. Holland and Fire Chief Kenlon ... 2

1508-23-BZ.

APPLICANT—William F. Doyle, for Abraham Singer, owner.

SUBJECT—Application (re: decision of superintendent of buildings), to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—631-637 Gates avenue, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Kerby and Fire Chief Kenlon 5

Negative: Mr. Beatty 1

Absent: Mr. Holland 1

THE RESOLUTION:

(1508-23-BZ)

WHEREAS, William F. Doyle, for Abraham Singer, owner, filed, December 31, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 631-37 Gates avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 26, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Gates avenue within 100 ft. of Throop avenue is a business and an unrestricted district 100 ft. east of Throop avenue; and

WHEREAS, the decision of the superintendent of buildings, rendered December 8, 1923, in acting on App. No. 22833-23, reads:

"The following objections have been filed by the examiners:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 4.

"A public garage for more than five motor vehicles in a business district.

"(A business district as per rule 'C'. 'Rule shall control regardless of any designation within any of the intersecting streets.').";

and

WHEREAS, the proposed building is to be of non-fire-proof construction, one story in height, with a frontage of 80 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

MINUTES

WHEREAS, the premises is located immediately adjoining a garage in the unrestricted district and there would be hardship in preventing applicant from using his property for this purpose.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the rear and gable walls be unpierced throughout their entire height and length; that the building be restricted to a one-story structure with roof of flat design and construction; that there be no skylight within 30 ft. of the westerly gable wall; that any skylights installed be glazed with plain glass protected above and below with wire guards; that the front elevation shall be finished with face brick and architectural terra cotta or stone trimmings; that any gasoline storage equipment installed on these premises shall be located at the extreme easterly wall at the front of the structure;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

854-23-BZ.

APPLICANT—Edward L. Larkin, for Rexburg Realty Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit the extension into a residence district the erection and maintenance of a theatre building.

PREMISES AFFECTED—Northwest corner of 170th street and College avenue, The Bronx.

APPEARANCES—

For Applicant: Edward L. Larkin and John A. Larkin.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Kerby 5
Negative 0
Absent: Mr. Holland and Fire Chief Kenlon . 2

THE RESOLUTION:

(854-23-BZ)

WHEREAS, Edward L. Larkin, for Rexburg Realty Corp., owner, filed, July 3, 1923, an application, under the building zone resolution, to permit the extension of a proposed theatre building from a business district into a residence district; premises northwest corner of College avenue and East 170th street, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 26, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 170th street is a business district, Morris avenue and College avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 18, 1923, in acting on N. B. App. No. 1792-23, reads:

"Erection of proposed theatre building in a business district extending into a residence district is contrary to provisions of Building Zone Resolution."
and

WHEREAS, the proposed building is to be of fireproof construction, one and two stories in height, with a frontage of 185 ft. and a depth of 125 ft.; to be occupied as a theatre, with stores and office on the East 170th street front; and

WHEREAS, under the provisions of section 7, subdivision B, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that there be no business exit or entrance within the residence district on Morris or College avenues; that there shall be no business display in the nature of advertising signs or billboards of any kind on the building within 25 ft. of the rear wall on Morris or College avenues; that the store use shall not return more than 38 ft. on the Morris avenue or the College avenue fronts; that the elevations of the building on Morris avenue, College avenue and East 170th street (other than the show windows on East 170th street) shall be finished with face brick and architectural terra cotta or stone trimmings; that the rear wall shall be unpierced throughout its entire height and length;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

907-23-BZ.

APPLICANT—Samuel A. Kelsey, for Amelia E. Kelsey, owner.

SUBJECT—Application (re: decision of fire commissioner) to permit in a residence district the change of occupancy in part from residence to a business use.

PREMISES AFFECTED—229 West 137th street, Manhattan.

APPEARANCES—

For Applicant: Isaac Levison.

For Opposition: J. C. Hawkins, Augusta Corbin, Alice Matthews, Joseph Moron, William Willis and Annie K. Lewis.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Kerby 5
Absent: Mr. Holland and Fire Chief Kenlon . 2

THE RESOLUTION:

(907-23-BZ)

WHEREAS, Samuel A. Kelsey, for Amelia E. Kelsey, owner, filed, July 10, 1923, an application, under the building zone resolution, to permit in a residence district the change of occupancy of a portion of a building from residence to a business use; premises 229 West 137th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 26, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 137th street is a residence district and 7th avenue and 8th avenue are business districts; and

WHEREAS, the order of the fire commissioner, dated June 28, 1923, Order No. 48267-F, reads:

"You are hereby notified that the use of the above premises for business purposes is a violation of the Building Zone Resolution, and unless within twenty days such use shall cease, legal steps will be taken by this Department for the recovery of the penalties prescribed by law, and to prevent a continuance of such use."
and

WHEREAS, the existing building is of non-fireproof construction, three stories and basement in height, with a frontage of 18 ft. and a depth of 60 ft. Occupied: Basement, real estate office; remainder of building, dwelling; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners and applicant failed to substantiate the basis of the appeal under section 20.

MINUTES

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

34-20-BZ.

APPLICANT—Beckman, Menken & Griscom, for New Pine Street Real Estate Corporation, owner.

SUBJECT—Application for extension of time (re: decision of superintendent of buildings) to permit in a "B" area district the omission of a rear yard.

PREMISES AFFECTED—31-33 Pine street, Manhattan.

APPEARANCES—

For Applicant: Robert L. Luce and Mr. S. Menken.

For Opposition: None.

ACTION OF BOARD—Extension of time granted for one year to complete work.

THE VOTE TO GRANT EXTENSION OF TIME—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Kerby 5

Negative 0

Absent: Mr. Holland and Fire Chief Kenlon . 2

THE RESOLUTION:

(34-20-BZ)

WHEREAS, Cross & Cross, architects, on behalf of New Pine Street Real Estate Corporation, owner, filed, January 14, 1920, with the board of appeals, an application, under the building zone resolution, to permit in a "B" district the omission of a rear yard; premises 31-33 Pine street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 3, 1920, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use, height and area maps accompanying the building zone resolution show that the premises in question are located in a business use district, a 2½-times height district and a "B" area district; and

WHEREAS, the decision of the superintendent of buildings, rendered January 7, 1920, in acting on Alteration 2905-1919, reads:

"11. Provide lawful rear yard."

and

WHEREAS, the plans for the existing four-story structure were approved and permit granted by the superintendent of buildings, New Building Application 838 of 1905; and these plans so filed embrace sheets showing that the grillage under columns which support the structure, and the columns installed, were designed for a nine-story structure; but owing to the rules of the bureau of buildings the structure was designated as a four-story building, in order to comply with these requirements when turned in as "completed" in the files; and

WHEREAS, these plans so filed also show the framing of the floor beams provide for an extra elevator, for the service of the proposed additional stories; and the interior vent shafts were constructed of sufficient area to provide for a nine-story building; and

WHEREAS, the floor beams for the fifth story were laid level and the supporting columns for the additional stories were carried above these floor beams and capped at the level of the temporary roof which was placed on the structure; and

WHEREAS, on the premises directly in the rear and fronting on Wall street there has been constructed an eight-story building, for which there has been provided a yard which varies from approximately 6 ft. to 11 ft. 7 in. in width; and

WHEREAS, in the light of the conditions above recited, it would inflict unnecessary hardship upon the applicant to comply with the strict letter of the zoning resolution, as it would require the tearing down of the entire rear wall and a portion of the existing four-story structure; and

WHEREAS, conditions are hereby imposed that will fully carry out the spirit of the zoning resolution, without doing injustice to the owners of the abutting property in Wall street; and

WHEREAS, this application was granted by the board at its meeting February 3, 1920, on certain conditions and applicant requested a modification of the time limit imposed in these conditions, and applicant now requests a further extension of time.

Resolved, that the board of appeals does hereby *make a variation* in the application of the area district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the additional portion of the rear wall of the structure shall be faced with cream or white glazed brick; and that the upper sash of any windows placed in said wall shall be glazed with prism glass; and

Resolved, further, that any permits necessary for the prosecution of the work shall be obtained and that the building shall be completed within one year from the date of this action.

604-23-BZ.

APPLICANT—Franklin R. Bruns.

SUBJECT—Application to amend the area (re: order of fire commissioner) to permit the maintenance of a garage for the storage of five cars—for rent.

PREMISES AFFECTED—2320-2322 Morris avenue, The Bronx.

APPEARANCES—None.

ACTION OF BOARD—Request for amended area denied.

THE VOTE TO GRANT AMENDED AREA—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Kerby 5

Absent: Mr. Holland and Fire Chief Kenlon . 2

CASE DISMISSED.

Under the Building Zone Resolution.

The chairman called attention to the following case, where notice of intention to appeal was offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(349-23-BZ)

Filed March 22, 1923—Premises 84 S. Washington street, Jamaica, Queens. Order of the fire commissioner. Applicant, John Kaplan. Dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Kerby 5

Negative 0

Absent: Mr. Holland and Fire Chief Kenlon . 2

THE RESOLUTION:

WHEREAS, the foregoing applicant has filed with the board of appeals application under the building zone resolution, affecting the premises in question; and

WHEREAS, the applicant has failed to complete his papers, though duly notified to do so.

Resolved, that the application be and it hereby is *dismissed* for lack of prosecution.

MINUTES

AREAS FIXED.

(100-24-BZ)

The chairman presented and read a communication from Victor Tria, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 1694-1704 Rockaway Parkway, Brooklyn.

The following area was approved by the board:

Both sides of Rockaway Parkway from a point 400 ft. north of proposed garage to a point 400 ft. south of premises in question; also the property at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

(117-24-BZ)

The chairman presented and read a communication from Abraham Farber, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 261-267 Pennsylvania avenue, Brooklyn.

The following area was approved by the board:

Both sides of Pennsylvania avenue from a point 100 ft. south of Belmont avenue to a point 400 ft. north of proposed garage; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

(101-24-BZ)

The chairman presented and read a communication from James Crooke McLeer, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 586-94 Coney Island avenue and 225-31 East 9th street, Brooklyn.

The following area was approved by the board:

Both sides of Coney Island avenue and also East 9th street from Beverly road to a point 400 ft. south of the premises in question.

(53-24-BZ)

The chairman presented and read a communication from Edward P. Doyle, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises north-west corner Roosevelt avenue and 21st street, Queens.

The following area was approved by the board:

Both sides of Roosevelt avenue from 19th street to a point 400 ft. east of proposed garage; both sides of 21st street from a point 400 ft. north of proposed garage to a point 200 ft. south of Roosevelt avenue; also the east side of 20th street from Roosevelt avenue to a point 150 ft. north of Roosevelt avenue.

(1514-23-BZ)

The chairman presented and read a communication from Morris Saskowitz, requesting the board to fix the area deemed affected and within which to obtain consents for the extension and change of occupancy of the 2nd, 3rd and 4th stories from storage to a garage; premises 75 First avenue, Manhattan.

The following area was approved by the board:

Both sides of First avenue from a point 400 ft. south of the garage to a point 100 ft. north of East 5th street, also the properties at rear and for a distance of 50 ft. east of the premises in question.

(137-24-BZ)

The chairman presented and read a communication from James C. McLeer, requesting the board to fix an area of notification to permit the erection and maintenance of a garage; premises 1787-1795 Coney Island avenue, Brooklyn.

The following area was approved by the board:

Both sides of Coney Island avenue from Avenue N to Avenue O; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned 2.30 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

THE RESOLUTION:

(1217-23-S)

WHEREAS, Samuel Rosenblum, for Charles Kalb and Morris Bernstein, lessee, filed, October 25, 1923, a petition

MINUTES

with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 147-9 West 29th street, Manhattan and

WHEREAS, the order of the fire commissioner, dated February 23, 1923, reads:

"1. Arrange the fire escape at the rear of building 147-49 and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law * * *.

"Note:—Among the defects noted on this fire escape are the following:

"No stairway from lowest balcony to ground.

"No passageway from lower termination of fire escape to street.";

and

WHEREAS, the building is non-fireproof, five stories in height, 32 ft. by 98 ft. 9 in. in area; equipped with a fire alarm signal system. OCCUPIED: 1st story, furs, 4 persons; 2nd story, mfr. dresses, 10 persons; 3rd story, mfr. dresses, 14 persons; 4th story, mfr. dresses, 12 persons; 5th story, mfg. furriers, 22 persons. EXITS: One interior wooden stairway extending from street to bulkhead in roof, enclosed in fire resisting partitions with metal covered doors at openings; a fire escape on the rear of the building extending from the 5th story to 2nd story with gooseneck ladder to roof; openings on the course of the fire escape are fireproof only at balconies. ROOFS: To east 7 stories higher, to west same height; and

WHEREAS, petitioner proposes to provide fireproof, self-closing windows along the course of fire escape, to provide new 60 degree stairs and to extend the balcony at the 2nd story level to the roof of the one-story extension to west, from which extension egress to street may be had through this building and also by means of stairs to yard of premises of building to rear.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that a fire escape shall be erected on the rear of the building, terminating on the roof of the 1st story extension, with egress therefrom to adjoining extension, with balcony and stair to yard and exit to 30th street through property at the rear, and to 29th street through passageway of adjoining property on the west; that the windows on the course of the fire escape shall be made fireproof, self-closing, and that 60 degree connecting stairway be provided between balconies, and granted only so long as the conditions as to occupancy and use remain substantially unchanged.

1419-23-S.

PETITIONER—John Borrelli, owner.

SUBJECT—Petition for variation of the labor law as cited in decision of department of health.

PREMISES AFFECTED—2133 First avenue, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Petition granted.

THE VOTE—

Affirmative: Messrs. Beatty, Boulton, Kerby, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 9

Negative: Chairman Walsh, Mr. Connell and Fire Chief Kenlon 3

Absent: Mr. Holland 1

THE RESOLUTION:

(1419-23-S)

WHEREAS, Joseph Borrelli, owner, filed, December 3, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the department of health, affecting premises 2133 First avenue, Manhattan; and

WHEREAS, the decision of the department of health, dated November 12, 1923, reads:

"At a meeting of the Board of Health of the Department of Health of The City of New York, held November 12, 1923, your application for a Sanitary Certificate for a cellar bakery at 2133 First Ave. in the Borough of Manhattan was denied.";

and

WHEREAS, the building is non-fireproof, four stories and cellar in height, 25 ft. by 50 ft. in area; OCCUPIED as a cellar bakery and dwellings above, the cellar bakery is 7 ft. 6 in. in height, the ceiling is 2 in. above the curb and the floor is 7 ft. 6 in. below the rear yard; the means of ventilation consisting of two windows opening on areas in yard; one window is 32 in. by 28 in. and the other 34 in. by 29 in.; and

WHEREAS, petitioner, who purchased the property in 1922, filed a letter from tenement house department stating premises were used as a cellar bakery prior to 1913.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted.

1119-23-S.

PETITIONER—Henry J. Nurick, for Nellie V. Arky, owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—233-243 Greene street, Brooklyn.

APPEARANCES—

For Petitioner: Henry J. Nurick.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville and McDermott 9

Negative: Mr. Connell, Superintendents Kleinert and Moore 3

Absent: Mr. Holland 1

THE RESOLUTION:

(1119-23-S)

WHEREAS, Henry J. Nurick, for Nellie V. Arky, owner, filed, September 26, 1923, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 233-243 Greene street, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, dated September 12, 1923, reads:

"Building considered more than four stories and therefore required to be fireproof.";

and

WHEREAS, the building is non-fireproof, three stories and basement in height, 125 ft. by 60 ft. in area. OCCUPIED: Cellar, storage, 1 person; 1st floor, office and storage, 6 persons; 2nd floor, factory; 3rd floor, factory; 4th floor, factory. EXITS: Two interior fireproof stairways extending from basement to roof; and

WHEREAS, it is proposed to add an additional story and to extend one existing interior stairway to roof of additional story, and contends there would be hardship in fireproofing the entire building on account of this additional story, in that the additional story does not increase the height of the building to five stories, the lower story being only 39 in. below the curb level and 50¾ in. above the curb level.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the building shall comply with the labor law in all other respects.

THE RESOLUTION:

(1333-23-S)

WHEREAS, Samuel Rosenblum, for Silverman Bros., owners, filed, November 19, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 170 Greene street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 9322-LD, dated July 19, 1920, reads:

"2—Extend the interior stairway at the south side of building to the roof.";

and

WHEREAS, the building is non-fireproof, six stories in height, 24 ft. 4 in. by 100 ft. 1 in. in area; equipped with a fire alarm signal system. OCCUPIED: 1st story, vacant at present (to have either store or factory); 2nd story, mfg. sheepskin coats, 20 persons; 3rd story, mfg. hat forms, 10 persons; 4th story, mfg. hats, 15 persons; 5th story, mfg. hats, 16 persons; 6th story, mfg. hats, 14 persons. EXITS: An interior wooden stairway extending from 1st to top story, with iron ladder to scuttle in roof, enclosed in fire resisting partition with fireproof doors at openings; a fire escape on front of the building extending from 6th story balcony to 1st story balcony, with gooseneck ladder to roof and counterbalanced stair to street; windows along the course of the fire escape are fireproof, and connecting balconies at rear to adjacent building; ROOFS to south 12 ft. lower and to north 5 ft. 10 in. higher; and

WHEREAS, petitioner contends there are three means of exit from top story and contends the minimum difference in elevation of the adjoining roofs is 5 ft. 10 in.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the petition be and it hereby is denied.

1348-23-S.

PETITIONER—Samuel Rosenblum, for H. Fuchs, lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—350 4th avenue, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Chief Examiner Reidy of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative 0

Absent: Mr. Holland 1

THE RESOLUTION:

(1348-23-S)

WHEREAS, Samuel Rosenblum, for H. Fuchs, lessee, filed, November 21, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 350 4th avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 51142-LD, dated November 8, 1923, reads:

"1. Extend the interior stairway at the north side of building to the roof * * *.

"2. Arrange the fire escape at the rear of building and the openings leading thereto * * *.

"NOTE: Among the defects noted on this fire escape are the following:

"No stairway from top balcony to roof. Fire escape does not extend to ground. No fireproof passageway to street.";

and

WHEREAS, the building is non-fireproof, four stories in height, 19 ft. 9 in. by 75 ft. in area at 1st story and 19 ft. 9 in. by 55 ft. in area above. OCCUPIED as follows: 1st floor, silk and woolen salesroom, 4 persons; 2nd floor, salesroom, ties and scarfs, 4 persons; 3rd floor, mfr. cloaks, 15 persons; 4th floor, dyeing silks, 6 persons. EXITS: An interior wooden stairway extending from 1st to top story with iron ladder to scuttle in roof; enclosed in metal covered wooden board partitions with metal covered wooden doors at openings, a fire escape on the rear of the building extending from the roof of 1st story extending to top story balcony with gooseneck ladder to roof; windows along course of fire escape are unprotected. EGRESS from termination of fire escape is across extension roof to adjoining extension roof. ROOF to south is at same level and to north 13 stories higher; and

WHEREAS, petitioner contends the occupancy of the top story will not exceed 6 persons and proposes to fireproof windows along the course of the fire escape.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 1 on condition that a double rung fixed iron ladder be provided in the top story to a scuttle in the roof and that the occupancy on the top story shall not exceed six (6) persons; granted as to Item No. 2 so far as it affects egress from the termination of the fire escape on condition that the rear fire escape complies with the labor law in all other respects.

1412-23-S.

THE RESOLUTION:

(1412-23-S)

WHEREAS, Henry J. Nurick, for Brewster Publications, Inc., owner, filed, December 3, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of

MINUTES

the superintendent of buildings, affecting premises 174 Duffield street, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, rendered October 10, 1923, in acting on Application No. 17816-63, reads:

"The following objections have been filed by the examiners:

"Labor Law in regard to factory exits. Section 270, Par. 4 requires all stairways serving as required exits, to lead directly to street, or to a fireproof passage leading to same.";

and

WHEREAS, the building is non-fireproof, three stories in height, 75 ft. by 35 ft. in area. OCCUPIED as a factory, 1st story, 6 persons; 2nd story, 20 persons; 3rd story, 25 persons; the means of egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in terra cotta partitions with fireproof, self-closing glass doors at the openings; it is proposed to connect the building, which is at the rear of the lot, to a building at the front of the lot, by means of a non-fireproof brick extension 18 ft. by 24 ft. in area and to provide an outside iron stairway leading from the roof to the yard with egress from the yard into the adjoining yard to the south and horizontal exit from the factory to the extension; and

WHEREAS, petitioner contends that the means of egress are adequate.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that horizontal exits from the proposed extension be provided to the existing buildings and equipped in accordance with the requirements of the labor law and that an interior stairway shall be provided in the rear building extending from the 1st story to the roof, enclosed in 6 in. terra cotta partitions, with self-closing fireproof doors at the openings and egress in the 1st story through yard and passageway of front building to street; and that an outside 60 degree iron stairway leading from the roof to the yard shall be provided, with egress from the yard to adjoining yard to the south.

PETITIONER—F. P. Keniston, for Baldwin Staubach, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—648-652 East 12th street, Manhattan.

APPEARANCES—

For Petitioner: F. P. Keniston.

For Administration: Chief Examiner Reidy of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Moore and McDermott

Negative

Absent: Mr. Holland and Superintendent Kleibert

THE RESOLUTION:

1546-23-S.

WHEREAS, F. P. Keniston, for Baldwin Staubach, owner, filed, December 28, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in order of the fire commissioner, affecting premises 648-52 East 12th street, Manhattan; and

WHEREAS, the orders of the fire commissioner read:

Order No. 43209-LD, dated Feb. 5, 1923, reads (front building):

"1. Provide an interior stairway at the west side of

building to serve as a required means of exit, extending from the 1st story to the roof * * *."

Order No. 43212-LD, dated February 5, 1923, reads (rear building):

"1. Provide an interior stairway at the east side of rear building to serve as a required means of exit, extending from the 1st story to the roof, with a safe passageway to the street * * *";

and

WHEREAS, the premises consist of two non-fireproof buildings; the front building is four stories in height, 25 ft. by 52 ft. in area, the rear building is three stories in height, 70 ft. by 33 ft. in area. OCCUPIED as follows: Front building—1st story, store, 1 person; 2nd story, woodworking, 2 persons; 3rd story, woodworking, 2 persons; 4th story, woodworking, 3 persons. Rear building—1st story, woodworking, 7 persons; 2nd story, woodworking, 5 persons; 3rd story, vacant. EXITS: A fire escape on front of the front building, extending from the top story balcony to 1st story balcony with counterbalanced stair to street; a fire escape at the front of the rear building, extending from the top story to the yard and an open exterior iron stairway at the rear of front building (with connecting bridges to rear building), extending from the 4th story to the yard, and a bridge and stairway connecting 3rd story of front building with roof of rear building; EGRESS from yard through an 8 ft. passageway; the windows on course of fire escapes are fireproof; ROOFS of adjoining buildings are 10 ft. higher; and

WHEREAS, petitioner contends that the buildings are only respectively 40 ft. and 30 ft. high, the occupancy is light and proposes to weatherproof the exterior open iron stairway, fireproof all openings thereto and maintain unobstructed egress to street by means of driveway and public hallways of adjoining tenements.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to Order No. 43209, Item 1 and Order No. 43212, Item 1, *on condition* that the existing exterior iron stairs be maintained on both front and rear building in the court, with gooseneck ladder from top story balconies to roof, double rung fixed iron ladder from top story loft to roof of the front building; that egress from termination of exterior stair at rear be maintained to the street through unpierced, unobstructed passageway through building on front of lot, ceiling of which is to be fire retarded; *granted* only so long as conditions as to occupancy and use remain unchanged.

RULES ADOPTED

AMENDMENT TO THE PLUMBING RULES—ADOPTED JANUARY 8, 1924.

Rule No. 137.

Where "Flushometers" are used, they must be supplied from tank pressure, unless otherwise permitted by the Superintendent of Buildings; the rising lines shall be at least one and one-half inches in diameter, and the main

branches shall be at least one and one-quarter inches in diameter, with individual branches not less than one inch in diameter for water-closets and not less than one-half inch in diameter for urinals. Individual branches shall not exceed twelve inches in length.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in

exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS.

*Amended Resolution Adopted by the Board of Appeals,
March 16, 1920, Under Cal. No. 549-17-BZ.*

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

RULES

FIRE ESCAPE RULES.

Rule 1. In any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, more than five stories in height and not exceeding nine stories in height, nor in any case more than 90 ft. from curb level to top floor level, one of the required means of exit or escape under Section 271-1 of the Labor Law may consist of an outside fire escape, provided that:

(a) Any such fire escape hereafter erected shall comply with all the provisions of Section 273, labor law, and in addition thereto:

(1) The balconies and stairs shall be protected on the outside by substantial railings to a height of at least 4 ft 6 in., measured from floor of balcony or center of stair tread, constructed of bars at least one-half ($\frac{1}{2}$) inch in diameter, spaced not more than six (6) inches on centers, or of substantial grill work, or of screening not less than No. 10 U. S. gauge wire with not more than one and one-half ($1\frac{1}{2}$) inch mesh, all rigidly braced;

(2) When there is safe egress from the roof of the building to any adjoining structure, the fire escape stairway shall continue to the roof, and if there be no safe means of egress, a gooseneck ladder shall be provided from the top story balcony to the roof;

(b) Any such fire escape erected prior to October 1, 1913, shall conform in every respect with the requirements of paragraph (a) of this rule, except that balconies may be not less than 3 feet in width; the connecting stairs not less than 20 inches in width, and placed at an angle not exceeding 60 degrees if the building is not over six stories in height, otherwise at an angle of 45 degrees; fire windows leading to balconies may be at window sill level if fixed steps not less than sixteen (16) inches wide are provided on the inside from floor level, leading thereto.

(c) Any such fire escape erected subsequent to October 1, 1913, and prior to these rules taking effect, unless previously accepted as one of the required means of exit or escape by the administrative official having jurisdiction shall conform in every respect to paragraph (a) of this rule.

Rule 2. A fire escape shall not hereafter be accepted as constituting one of the required means of exit or escape under Section 271-1 of the labor law, in any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, exceeding nine stories in height, or more than 90 feet from curb level to top floor level.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1- $1\frac{1}{2}$ -3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2 $\frac{1}{2}$ -5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly evacuating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the safest means of exit—and the use of fire appliances which shall be provided for the extinguishing or containing of fire and the safeguarding of human life.

Rule 1.
In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES ADOPTED

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanent secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth ($1\frac{1}{4}$) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter ($1\frac{1}{4}$) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter ($1\frac{1}{4}$) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.
Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.
Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.
In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanket-gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Special Meeting, Board of Appeals, February 29, 1924.
- Minutes of Meeting, Board of Appeals, March 4, 1924.
- Minutes of Meeting, Board of Standards and Appeals, March 4, 1924.
- Corrections.
- Rules Adopted.
- Reserve Calendar.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION. 10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, March 11, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day 1924.

The next subsequent Call of the Calendar will be on Tuesday, March 18, 1924, at 2 o'clock.
The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

THE RESOLUTION:

(1535-23-A)

WHEREAS, Edward P. Doyle, for Pierre M. Clear, owner, filed, December 27, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 3-5 1st street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 17, 1923, reads:

"No. 47817-F:

"1. Provide iron or kalameined shutters at all openings * * *, etc.";

and

WHEREAS, the building is non-fireproof, five stories in height, 36 ft. by 53 ft. in area at 1st story and 36 ft. by 40 ft. in area above; OCCUPIED for the storage of rags and clippings, 8 persons; and

WHEREAS, there are seven windows in each story above the 1st story within 30 ft. of openings in, and 50 ft. above the roofs of adjacent buildings; and

WHEREAS, appellant contends the openings in the building to the south are protected with fireproof windows and there are iron shutters protecting the openings in the 2nd story extension of the building to the west and that there are shutters protecting the openings on the 4th and 5th stories, rear, of building in question.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

THE RESOLUTION:

(1111-23-BZ)

WHEREAS, Eidlitz & Hulse, attorneys for the New York Telephone Company, owner, filed, September 24, 1923, an application, under the building zone resolution, to permit in a two times height district the erection of the street wall of a proposed building to a height in excess of the height limit imposed by the building zone resolution; premises 139-147 West street, 90-110 Barclay street, 208-222 Washington street and 86-108 Vesey street; and

WHEREAS, a public hearing was held on this application by the board of appeals at its special meeting February 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the height district maps accompanying the building zone resolution show that the premises are located in a two times height district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 5, 1923, in acting on New Building application, reads:

"6. Set backs should be made in accordance with Building Zone Resolution, Section 9c, 9b."; and

WHEREAS, the proposed building is to be of fireproof construction, 29 stories in height, with a frontage of 212 ft. 10½ in. and a depth of 258 ft. 11¾ in., irregular; it is proposed to erect the street wall in conformity with plans filed so as to provide a more uniform architectural treatment, the building to be occupied as a telephone exchange and offices; and

MINUTES

WHEREAS, applicant contends that as the building covers an entire block, bounded by streets of varying width, there would be hardship in preventing him from carrying out the plans proposed, and that public health and safety are better secured by the proposed plan, including the proposed arcade; and

WHEREAS, the board deemed that the proposed adaptation of the building is in substantial compliance with the spirit of the building zone resolution.

Resolved, that the board of appeals does hereby *make a variation* in the application of the height district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the variations of set-back requirements shall be carried out as indicated in the photographic model submitted herewith and in accordance with the block diagram as to bulk and volume; that the plot shall not be occupied in ground area in excess of that stipulated in the affidavit filed by applicant in this case; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the work continuously prosecuted to completion.

Resolved, further, that the architect shall make a return to this board of the plans and elevation submitted to the bureau of buildings, for certification, before approval by the superintendent of buildings.

1156-23-BZ.

APPLICANT—Joseph L. Burke Corp., for Falkenau & Hamerschlag, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2334-2342 Jerome avenue, The Bronx.

APPEARANCES—

For Applicant: James Kearney.

For Opposition: Peter J. McCoy.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Messrs. Beatty, Kerby and Holland 3

Negative: Chairman Walsh, Messrs. Boulton and Connell 3

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1156-23-BZ)

WHEREAS, Joseph L. Burke Corp., for Falkenau & Hamerschlag, Inc., owner, filed, October 8, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 2334-2342 Jerome avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its special meeting February 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue, 183rd street and 184th street are in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 3, 1923, in acting on N. B. App. No. 2363-23, reads:

"1. Erection of public garage for storage of more than 5 motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 125 ft. and a depth of 100 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1100-23-BZ.

APPLICANT—J. Edmund Byrne, for General Baking Co., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in residence district erection and maintenance of an extension to an existing bakery building, and to be used in part as a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—3240-3256 Bronx boulevard, The Bronx.

APPEARANCES—

For Applicant: Ellwood M. Rabenold.

For Opposition: Cornelius Huth and Dennis Quinn.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Holland 5

Negative: Mr. Kerby 1

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1100-23-BZ)

WHEREAS, J. Edmund Byrne, for General Baking Co., owner, filed, September 19, 1923, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of an extension to an existing bakery, part of which extension is to be used as a garage for the storage of more than five (5) motor vehicles; premises 3240-3256 Bronx boulevard, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting February 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Bronx boulevard and Rosewood street are in a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 8, 1923, in acting on Alt. App. No. 431-23, reads:

"1. Garage unlawful, contrary to Zone Resolution.";

and

WHEREAS, the existing building is to be of non-fireproof construction, two stories and basement in height, with a frontage of 194.16 ft. and a depth of 97.9 ft.; it is proposed to erect a two-story non-fireproof extension 115 ft. by 145 ft. 2 inches in area; to be occupied: 1st story, garage for more than five motor vehicles and wagon storage; 2nd story, bakery and flour storage.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the proposed addition to existing building shall be erected fireproof, not to exceed one story in height above grade on Barker avenue; that the garage use and occupancy shall be restricted to basement or lower story; that there shall be no openings of any kind on Barker avenue other than windows, the sills of which shall not be less than five feet above grade; that there shall be no vehicular entrance on Rosewood street; all windows shall be equipped with fixed sash, glazed with translucent glass, with not more than one (1) ventilator to each opening; that the front walls on Barker avenue and Rosewood street shall be finished in front brick and architectural terra cotta or stone trimmings; that there shall be no flour storage allowed or maintained in this proposed extension, plans for which are on file in this case;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

Affirmative: Chairman Walsh, Messrs. Beatty, Holland and Kerby	4
Negative: Messrs. Boulton, Connell and Fire Chief Kenlon	3
Absent	0

THE RESOLUTION:

(84-23-BZ)

WHEREAS, William F. Doyle, for Samuel Block, owner, filed, January 22, 1923, an application, under the building zone resolution, to permit in a business district an alteration of an existing building and the change of occupancy from manufacturing of motion picture films to a garage for the storage of more than five (5) motor vehicles; premises 69-71 West 90th street, Manhattan; and

WHEREAS, this application was denied by the board at its meeting, June 5, 1923, and the owner through his attorney, Hartman, Sheridan and Tekulsky, requested a reopening and a rehearing of the case, which request was granted by vote of the board; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting February 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 90th street and 91st street are residence districts and Columbus avenue is a business district; and that the premises in question are located wholly in the business district; and

WHEREAS, the decision of the superintendent of buildings, rendered January 31, 1923, reads:

"1. Public garage for more than five cars is unlawful in a business district."

and

WHEREAS, the building is non-fireproof, four stories in height, 33 ft. 4 in. by 100 ft. 8 in. in area; formerly occupied as a laboratory for the manufacture of motion picture films, at present vacant; it is proposed to occupy the premises as a garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners in the residence district.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

Connell and Holland 4

Absent: Mr. Kerby and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1024-23-A)

WHEREAS, Murray Klein, for Empty Package Supply Co., lessee, filed, August 21, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises northeast corner Boerum and White streets, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 81856-LC, dated August 1, 1923, reads:

"You are ordered to reduce the quantity of Packing cases, etc., stored so as to occupy no more than 2000 cu. ft.";

and

WHEREAS, the building is frame construction, one story in height, 77 ft. 2 in. by 98 ft. in area; OCCUPIED for the storage of empty wooden crates, boxes, baskets, etc.; and

WHEREAS, appellant requests permission to use premises until expiration of lease for same, May 1, 1924.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1158-23-A.

APPELLANT—Samuel Rosenblum, for H. W. Howard, Jr., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—537-547 West 53rd street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Holland 5

Negative 0

Absent: Mr. Kerby and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1158-23-A)

WHEREAS, Samuel Rosenblum, for H. W. Howard, Jr., lessee, filed, October 9, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 537-47 West 53rd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 31, 1923, reads:

"1. Provide iron or kalamein shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at north and west sides of building * * *";

and

WHEREAS, the building is non-fireproof, five stories in height, 150 ft. by 51 ft. 2 in. in area. OCCUPIED: 1st story, laundry and woodworking; 2nd story, laundry, 7 persons; 3rd story, wood turning, 8 persons; 4th story, wood stair mfr., 12 persons; 5th story, furniture mfr., 12 persons; and

WHEREAS, there are three windows on the west side and about seven windows on the north side of the building on each story above the 1st story within 50 ft. of sheds to the north and a one-story blacksmith shop to the west; and

WHEREAS, appellant contends that similar orders were issued and rescinded by the fire department on May 7, 1920, and also in 1916 and in 1910; and

WHEREAS, the board deemed that the action of the fire department of April 16, 1920, should be approved.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that all exterior windows on course of all stairhalls shall be made fireproof and self-closing.

1281-23-A.

APPELLANT—Murray Klein, for Art Umbrella Handle Co., Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—149-151 Baxter street, Manhattan.

APPEARANCES—

MINUTES

THE RESOLUTION:

(1281-23-A)

WHEREAS, Murray Klein, for Art Umbrella Handle Co., Inc., lessee, filed, November 8, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 149-51 Baxter street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 23, 1923, reads:

"Order No. 20616-LC:

"1. Remove all nitro-cellulose products from premises.";

and
WHEREAS, the building is non-fireproof, five stories in height, 49 ft. 10 in. by 100 ft. 6 in. in area; equipped with sprinkler and fire alarm signals. OCCUPIED as follows: 1st story, manufacture of mantels, 6 persons; 2nd story, manufacture of jewelry boxes, 10 persons; 3rd story, woodworking, 6 persons; 4th story, metal spinners, 5 persons; 5th story, occupied by appellant for the manufacture of umbrella handles, 6 persons; and

WHEREAS, appellant proposes to store 49 pounds of celluloid in a metal cabinet, conforming with all fire department regulations; and

WHEREAS, the board deemed, in view of occupancy under permit for four years and fact that he is located on top floor, with adequate means of egress, that the appeal should be granted.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the quantity of celluloid used incidental to the operation and conduct of business be confined to the top floor and shall not exceed 40 pounds, maintained in an approved metal cabinet, and that there shall be no open flame on this floor.

1413-23-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Columbia Storage Warehouses, lessee.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—149-155 Columbus avenue, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwitz.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(1413-23-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Columbia Storage Warehouses, lessee, filed, December 3, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 149-155 Columbus avenue, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered November 12, 1923, in acting on Alteration Application No. 1296-23, reads:

"1. A 3500 gallon gravity tank located 20 ft. above the roof must be provided as per Rule No. 12.

"3. Two inch overflow and 2 inch feed line must be provided, Rule No. 12.

"4. High and low alarm must be provided, Rule No. 40-42.

"5. Gravity tank must be heated as per Rule No. 15.

"6. Risers not within a stair enclosure must be protected against fire damage by 2 in. terra cotta or 1 in. asbestos covering or expanded metal lath and ¾ in. P. C. plaster.

"7. Standpipe tank must be fed by a pump capable of delivering 65 gallons per minute at tank.

"8. Equipment and devices must conform to Standpipe Rules and Regulations of the Fire Department.";

and
WHEREAS, the premises consist of two fireproof buildings, separated by a fore and aft wall with openings therein protected by fireproof doors; the northerly portion being nine stories in height, 50 ft. by 100 ft. in area, and the southerly portion being eight stories in height, 50 ft. by 97 ft. in area; the total area being 9,850 sq. ft.; and

WHEREAS, the proposed standpipe installation has an existing water supply consisting of a 3,000 gallon tank located about 4 ft. above the roof, fed by a 1½ in. feed line, equipped with ¼ in. overflow; this tank is cross connected to a 1,130 gallon tank on the roof of the southerly section; this tank is about 4 ft. above the roof and equipped with a ¾ in. overflow; and

WHEREAS, appellant contends that the floors are subdivided into small rooms with terra cotta block walls with metal covered doors at openings and the building is equipped with fire bucket tanks and fire extinguishers.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a four-inch standpipe line be installed in each section of building, provided with 100 feet of hose at each outlet, so located as to protect all areas of floor.

1445-23-A.

APPELLANT—Solidhed Tack Co., lessee.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—37-39 Murray street, Manhattan.

APPEARANCES—

For Appellant: Minnie Lord.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(1445-23-A)

WHEREAS, Solidhed Tack Co., lessee, filed, December 7, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 37 and 39 Murray street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 17, 1923, reads:

"1. Remove all nitro-cellulose products from premises.";

and
WHEREAS, the building is non-fireproof, five stories in height, 50 ft. by 65 ft. in area. OCCUPIED: 1st, 2nd and 3rd stories, salesrooms, 16 persons; 4th story, occupied by appellant for the mfg. of thumb tacks, 9 persons; 5th story, stock room for glassware, 1 person; and

WHEREAS, appellant contends that he has occupied the premises for six years; no heat is used in the handling of the celluloid; that only 25 pounds are on hand at any time and it is kept in a double metal cabinet, the scraps collected and placed in water, and that water and sand buckets are available.

MINUTES

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than 25 pounds of celluloid shall be maintained on premises at any one time, stored in a double metal cabinet; that there shall be no open flame on this floor, used in the conduct of the work; and *granted* only so long as conditions as to occupancy and use throughout premises otherwise remain unchanged.

APPELLANT—Cornell Utilities Co., for Daughters of Wisdom, owner.

SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—1219 103rd street, Ozone Park, Queens.

APPEARANCES—
For Appellant: William Porter.
For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(1527-23-A)

WHEREAS, Cornell Utilities Co., for Daughters of Wisdom, owner, filed, December 26, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 1219 103rd street, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 131-23, dated August 24, 1923, reads:

"1. The use of Grade B Fuel Oil is not permitted in this type of occupancy, under the rules of the Board of Standards & Appeals.

"2. Pumps are not of a type approved by the Board of Standards & Appeals.

"3. Burners are not of a type approved by the Board of Standards & Appeals.

"4. Location of tank and construction of enclosure have not been approved by the Superintendent of Buildings, Brooklyn."

and
WHEREAS, the building is non-fireproof, three stories in height, 125 ft. by 150 ft. in area; OCCUPIED as a school; equipped with a Nokol Fuel Oil Burning Installation consisting of two (2) Nokol Oil Burners, two 500-gallon storage tanks and one 55-gallon auxiliary tank; the portion of the building containing the oil burning installation being separated from the remainder of the structure by a fireproof partition and ceiling; and

WHEREAS, appellant requests the approval of this installation and contends that the installation is made in accordance with the rules of the board of standards and appeals, except that the burner is not an approved burner.

Resolved, that the decision of the fire commissioner, as to Items 1, 2 and 3, be and it hereby is *modified*, and the appeal as to these items be and it hereby is *granted on condition* that the oil burning installation shall be maintained within fireproof enclosure; that the installation shall comply with fuel oil rules in all other respects, and that the operation of fuel oil equipment shall be under the supervision of a qualified operator; that the decision of the fire commissioner as to Item 4 be and it hereby is *affirmed*, and the appeal on this item be and it hereby is *dismissed*.

1555-23-A.

APPELLANT—Charles B. Meyers, for Fort Washington Automobile Club, Inc., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—4360-4376 Broadway, Manhattan.

APPEARANCES—

For Appellant: Charles B. Meyers and John Marsa.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(1555-23-A)

WHEREAS, Charles B. Meyers, for Fort Washington Automobile Club, Inc., owner, filed, December 28, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 4360-76 Broadway, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated December 14, 1923, reads:

"1. Building is over 20,000 square feet in area and a 4 in. street connection is not permissible as per Rules and Regulations of the Board of Standards and Appeals. A 3500 gallon tank on roof * * *"; and

WHEREAS, the building is fireproof, two stories (33 ft.) in height, 229 ft. 3 $\frac{3}{8}$ in. by 176 ft. 5 in. (37,700 sq. ft.) in area; OCCUPIED as a public garage and show rooms; and

WHEREAS, appellant proposes to install two 4 in. street connections, one connecting with water main in Broadway and the other to the water main in West 187th street and wishes to be relieved of providing tank above roof; and contends that the 4 in. water mains within the building are cross connected and that the city mains in Broadway and West 187th street are fed two ways and the pressure exceeds 45 pounds per square inch—data on pressure filed with plans and application in bureau of fire prevention.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal (for omission of tank) be and it hereby is *granted on condition* that standpipe system be installed, supplied independently from two street mains with four-inch taps.

1161-23-A.

APPELLANT—I. Paley & Sons, lessees.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—400 East 198th street, The Bronx.

APPEARANCES—

For Appellant: George Williamson and I. Paley.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(1161-23-A)

WHEREAS, I. Paley & Sons, lessee, filed, October 9, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 400 East 198th street, Borough of The Bronx; and

MINUTES

WHEREAS, the order of the fire commissioner, No. 19962-LC, dated September 21, 1923, reads:

"1. Discontinue the storage or sale of benzine or other volatile inflammable oil not authorized by the Code of Ordinances.

"2. Protect both doors at entrance to stairway with fire retarding material and equip same with springs or other mechanical device so as to make doors self-closing."

and

WHEREAS, the building is frame, three stories in height, 35 ft. by 35 ft.; OCCUPIED as paint store and dwellings above; and

WHEREAS, appellant contends only four gallons of benzine kept in an approved safety can is stored in a metal covered room on the premises, and that there is only one door at entrance to stairway.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal as to Item 1 be and it hereby is *granted on condition* that not more than four (4) gallons of benzine shall be maintained on the premises in an approved safety can, stored in a metal-lined room; and that the appeal as to Item 2 be and it hereby is *granted on condition* that the doors leading to stairhall shall be made fireproof and self-closing, or sealed up and covered with sheet metal.

1432-23-A.

APPELLANT—Samuel Rosenblum, for Standard Rubber Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—157-159 East 128th street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum and Alexander Levy.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Kerby	1

THE RESOLUTION:

(1432-23-A)

WHEREAS, Samuel Rosenblum, for Standard Rubber Co., lessee, filed, December 5, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 157-9 East 128th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 27, 1923, reads:

"1. Remove all nitro-cellulose products from premises."

and

WHEREAS, the building is non-fireproof, six stories in height, 49 ft. 4 in. by 88 ft. in area; equipped with an interior fire alarm system and an automatic 100 per cent sprinkler system, supplied from a 10,000 gallon gravity and a 7,500 gallon pressure tank. OCCUPIED: 1st story, cabinet and partition mfr., 8 persons; 2nd story, tool assembler and dental supply mfr., 10 persons; 3rd story, advertising tape mfr., 5 persons; 4th story, mfr. celluloid novelties, 15 persons; 5th and 6th stories, candy mfr., 25 persons; and

WHEREAS, appellant contends that he has occupied the premises for 15 years and that the main celluloid stock (250 pounds) is kept in a metal cabinet, asbestos lined, supplied with sprinkler heads and that the cabinet was installed pursuant with the requirements of and approved by the fire department.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that an approved two-source sprinkler system shall be installed on these premises; that any openings in outer walls shall be equipped with self-closing, fire-proof windows; that the stairhall shall be enclosed in fire retarded material, in accordance with rules of the board of standards and appeals; and that the storage of celluloid on premises shall not exceed 200 pounds, maintained in approved metal cabinet, equipped with sprinkler heads.

1080-23-A.

APPELLANT—William H. Kehoe, for George Ihnken, owner.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—196 19th street, Brooklyn.

APPEARANCES—

For Appellant: David Mandell.

ACTION OF BOARD—Appeal granted.

THE VOTE TO GRANT APPEAL AND REVOKE CERTIFICATE OF OCCUPANCY—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief

Kenlon

Negative

Absent: Mr. Kerby

THE RESOLUTION:

(1080-23-A)

WHEREAS, Wm. H. Kehoe, for George Ihnken, owner, filed, September 14, 1923, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 196 19th street, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, dated August 18, 1923, reads:

"Replying to your letter of the 15th instant, with reference to certificate of occupancy for premises 196 19th Street, Brooklyn, you are advised that certificate of occupancy for Community Laundry was issued under Alt. permit 1188-21, certificate No. 3531. The permit was issued on basis of affidavits showing occupancy as a public stable for more than five horses prior to adoption of Zoning Resolutions."

and

WHEREAS, the premises consists of a plot of ground 25 ft. by 100 ft. in area, on the front of which is a two-story frame dwelling and on the rear a one-story frame building; OCCUPIED as a wet wash laundry; and

WHEREAS, appellant, who represents adjoining property owners, contends that the change of use permitted was in violation of the provisions of section 6 of the building zone resolution; and

WHEREAS, it would appear that, under a misapprehension, the superintendent of buildings, on the basis of incompetent affidavits, has granted a permit and a certificate of occupancy for these premises, and this action of the superintendent of buildings, the board deems should be overruled in view of the overwhelming protests of the adjoining and neighboring property owners, and the uncontroverted documentary evidence and oral testimony submitted at public hearing, denying and contradicting the existence of a public stable prior to the issuance of permit by superintendent of buildings, the basis of variation on which the building bureau assumed to have justified the issuance of permit.

Resolved, that the certificate of occupancy issued by the superintendent of buildings for premises No. 196 19th street, Brooklyn, and permitting the occupancy of these premises as a garage for more than five motor vehicles be and it hereby is *revoked*.

41-24-A.

APPELLANT—B. Roede, Jr., for B. Roede & Sons, lessees.

SUBJECT—Appeal from order of fire commissioner.

MINUTES

PREMISES AFFECTED—106-108 Fulton street, Manhattan.

APPEARANCES—

For Appellant: Robert S. Tipping.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Holland 5
Negative: Fire Chief Kenlon 1
Absent: Mr. Kerby 1

THE RESOLUTION:

(41-24-A)

WHEREAS, B. Roede, Jr., for B. Roede & Sons, lessee, filed, January 11, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 106-108 Fulton street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 21982-LC, dated January 5, 1924, reads:

"1. Have each operator supervising the operation of a blowpipe or other similar device or apparatus for heating, melting or welding, apply for and secure a Certificate of Fitness."

and

WHEREAS, the building is semi-fireproof construction, 14 stories in height, 50 ft. by 102 ft. 8 in. in area; OCCUPIED for light manufacturing, mostly jewelry, 30 persons per story; and

WHEREAS, appellant, who occupies part of the 8th story, contends that small torches are used for soldering and that the person operating the large torch and oxygen tanks has a certificate of fitness.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the operator of the main tank and large torch secure a certificate of fitness.

45-24-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Nathan Simmons, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—13 University place, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwitz.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(45-24-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Nathan Simmons, lessee, filed, January 12, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 13 University place, Manhattan; and

WHEREAS, the order of the fire commissioner, dated December 21, 1923, reads:

"Order No. 21850-LC:

"1. Discontinue the use of gas stove for glue pot and all other fire or flame in room or compartment where nitro-cellulose products are stored or used for the manufacture of articles therefrom * * *.

"4. Elevate all steam or hot water radiators at least four inches above floor. * * *.

"5. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering * * *.

"6. Provide suitable guards around radiators and steam pipes to prevent combustible material from coming in contact therewith.

"NOTE: Top shall be sloping so as to prevent same from being used as shelves.

"7. Bottom of guard shall be arranged so as to lift up for cleaning * * *."

and

WHEREAS, the building is fireproof, six stories in height, 120 ft. by 75 ft. in area. OCCUPIED as follows: 1st story, stores; 2nd story, straw hats, 80 persons; 3rd story, yarns, 20 persons; 4th story, leather goods and hats, 50 persons; 5th story, leather goods and clothing, 50 persons (occupied by appellant); 6th story, picture frames, 25 persons; and

WHEREAS, appellant contends that the building is equipped with a sprinkler and a standpipe system; that only 25 pounds of celluloid is stored in a metal cabinet, vented to the open air, and that on the same floor, 75 ft. away from the celluloid, there is an embossing machine requiring gas heat, and further contends that he has occupied the premises for five (5) years; that the building is heated by means of steam pipes which run around the walls and it would entail very great expense to elevate and protect same with wire guards or other pipe covering.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than 25 pounds of sheet celluloid shall be maintained on premises, stored in approved metal cabinet; and that any open flames on this floor shall be discontinued.

46-24-A.

APPELLANT—Emil Guterman, for International Provision Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—33-43 Degraw street, Brooklyn.

APPEARANCES—

For Appellant: Emil Guterman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(46-24-A)

WHEREAS, Emil Guterman, for International Provision Co., owner, filed, January 12, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 33-43 Degraw street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 51804-F, dated December 31, 1923, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *."

and

WHEREAS, the premises consist of three buildings (the northerly one is fireproof and the remainder are non-fireproof), four stories in height, 134 ft. 8 in. by 100 ft. (13,467 sq. ft.) in total area; the three buildings are separated into smaller sections by fore and aft brick walls with horizontal openings at each story, with self-closing fire doors at the horizontal openings in the northerly building; OCCUPIED for curing and packing meats, 52 persons; and

MINUTES

WHEREAS, appellant contends the northerly building could be classed as a separate unit, thereby making the remaining portion of the premises less than 10,000 sq. ft.; that the center building is used for soaking and brining by wet process and that the brick floors of this building are constantly covered with water; and agrees to provide water barrels on each story.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the business conducted on premises, also the floor area as now sub-divided, remains substantially unchanged.

THE VOTE TO GRANT—

Affirmative: Mr. Holland 1

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Fire Chief Kenlon ... 5

Absent: Mr. Kerby 1

THE RESOLUTION:

(1489-23-BZ)

WHEREAS, William F. Doyle, for J. Reinschmidt, for H. H. Snedeker, owner, filed, December 17, 1923, an application under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side Franklin avenue, 236 ft. south of East 166th street, Borough of the Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting March 4, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Franklin avenue is a business district and Third avenue is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 4, 1923, in acting on N. B. Application No. 2868-23, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 81 ft. and a depth of 201 ft. 11½ in., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

APPLICANT—Nathan Langer, for Vincenzo Gargiulo, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in business district and partly in residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—3200 Villa avenue, The Bronx.

APPEARANCES—

For Applicant: Nathan Langer.

For Opposition: None.

ACTION OF BOARD—Application denied.

MINUTES

THE VOTE TO GRANT ON CONDITION—

Affirmative: Messrs. Beatty and Boulton 2
Negative: Chairman Walsh, Messrs. Connell,
Holland and Fire Chief Kenlon 4
Absent: Mr. Kerby 1

THE RESOLUTION:

(1298-23-BZ)

WHEREAS, Nathan Langer, for Vincenzo Gargiulo, owner, filed, November 13, 1923, an application, under the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 3200 Villa avenue, Borough of the Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting March 4, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building resolution show that Villa avenue and Concourse are residence districts and Van Cortland avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 7, 1923, in acting on N. B. Application No. 2558-23, reads:

"1. Erection of proposed garage for storage of more than 5 motor vehicles in business and residence district is contrary to provisions of Building Zone Resolution.";

and
WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 71.57 ft. and a depth of 120.44 ft., to be occupied as stores and garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1386-23-BZ.

APPLICANT—William F. Doyle, for Broadway Marlboro Realty Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a two-times height district the erection of part of the front wall of a building without a setback to a height exceeding the limit set by the building zone resolution.

PREMISES AFFECTED—1351-1365 Broadway, Manhattan.

APPEARANCES—

For Appellant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, Holland and Fire Chief
Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(1386-23-BZ)

WHEREAS, William F. Doyle, for Broadway Marlboro Realty Co., owner, filed, November 27, 1923, an application, under the building zone resolution, to permit in a two times height district the erection of part of the front wall of a building to exceed the height limit set by the building zone resolution, without a setback; premises 1351-65 Broadway, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting March 4, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the height district maps accompanying the build zone resolution show that premises is located in a two times height district; and the use district maps show that the premises is located in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 21, 1923, in acting on N. B. Application No. 536-23, reads:

"11. The height of the westerly end of the 36th Street front is excessive, Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of fireproof construction, 20 stories in height, with a frontage of 167½ ft. and a depth of 159 ft. 4¼ in., to be occupied as offices and factory, 25 per cent factory use; and

WHEREAS, the board deemed that as the proposed variation affects only an insignificant triangular section above the 120 ft. height in proportion to the total area of building, with no effect or consequence as to normal light and ventilation of adjoining property, there would be hardship in compelling applicant to carry out the strict letter of the law.

Resolved, that the board of appeals does hereby *make a variation* in the application of the height district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the requirements of the building zone resolution be complied with in all other respects, and that all permits necessary for the prosecution of the work shall be obtained within nine months from the date of this action, and the construction work prosecuted without interruption until completion of the building.

1389-23-BZ.

APPLICANT—John Morrison, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residential use "E" area district the erection and maintenance of a residence building occupying more than 30 per cent of interior lots above a horizontal plane 18 ft. above the curb level.

PREMISES AFFECTED—4634-4646 Bay Parkway, Brooklyn.

APPEARANCES—

For Applicant: John M. Infanger.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, Holland and Fire Chief
Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(1389-23-BZ)

WHEREAS, John Morrison, owner, filed, November 27, 1923, an application, under the building zone resolution, to permit in a residential use "E" area district the erection and maintenance of dwellings occupying more than 30 per cent of the area of the lot above a level 18 ft. above the curb; premises 4634-4646 Bay Parkway, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting March 4, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use and area district maps accompanying the building zone resolution show that the premises is located in a residence use and "E" area district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 5, 1923, in acting on Application No. 17735-23, reads:

MINUTES

"Location Residential E District Building contains more than 30 per cent of the area of the Lot 18 ft. up from grade which is contrary to Sec. 15 (c) of the Zone Resolution."

No. 17735 reads:

"Location Residential E District Building contains more than 30 per cent of the area of the Lot 18 ft. up from Grade which is contrary to Sect. 15 (c).";

and

WHEREAS, the premists consist of a triangular plot of ground 76.6 ft. by 112.4 ft. (4,305 sq. ft. in area) on which it is proposed to erect two residences, the area of the southerly building on the 2nd story being 24 ft. by 33 ft. (792 sq. ft.) and the area of portion of 16 ft. on which this house is erected being 2,314 sq. ft., 30 per cent of which is 694 sq. ft. on corner plot; area of building is 868 sq. ft. and area of plot 2,189 sq. ft., 30 per cent of which is 656.7 sq. ft.; and

WHEREAS, the board deemed that owing to the shape of the plot, a triangular-shaped piece with the long side along the street and the small size of the room in 2nd story which compliance with the requirements would entail and that there would be hardship in preventing applicant from erecting building as proposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use and area district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be constructed in accordance with the plans on file in this application, and the plot restricted to two one-family dwellings, not to exceed the areas and dimensions described in the plans of record in this case; and *on further condition* that all permits necessary for the prosecution of the work shall be obtained within nine months and the buildings completed within eighteen months from the date of this action.

Negative

Absent: Mr. Kerby and Fire Chief Kenlon ..

THE RESOLUTION:

(927-22-BZ)

WHEREAS, Frederick Johnson, for M. E. F. Corporation, owner, filed, July 11, 1922, an application, under the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a business building; premises north side Westchester avenue, 97 ft. 11 in. east of Stebbins avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting October 20, 1922, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Westchester avenue is a business district and Rogers place and Stebbins avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered July 7, 1922, in acting on App. N. B. No. 1967-22, reads:

"1. Erection of a business building in a residence district in whole or in part is prohibited by the restrictions of the Building Zone Resolution. Art. II-2."; and

WHEREAS, the proposed building is to be of non-fire-proof construction, two stories in height, with a frontage of 97 ft. 11 in. and a depth of 340 ft., to be occupied as a bath house and stores, a portion of the building approximately 80 ft. by 80 ft., irregular in area, extending into the residence district; and

WHEREAS, under the provisions of section 7, subdivision c of the building zone resolution, the board is empowered to act; and

WHEREAS, this application was granted by the board at its meeting October 20, 1922, on certain conditions, and applicant requested a modification of the time limit conditions imposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the facade of the building on Rogers place shall be laid up in face brick, with stone or architectural terra cotta trimmings; that any windows on Rogers place shall be glazed with trans-

MINUTES

lucent glass; that there shall be no exit nor entrance nor coal chutes within the residence district on the Rogers place front;

Resolved, further, that all permits necessary for the prosecution of the work be obtained within six months and the building erected within eighteen months from the date of this action.

751-22-BZ.

APPLICANT—Ingraham, Page & Moran, for Brooklyn Edison Co., Inc., owner.

SUBJECT—Application for extension of time (re: decision of superintendent of buildings) to permit in a business district the erection of a garage and loft building.

PREMISES AFFECTED—323-341 4th avenue, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Extension of time granted.

THE VOTE TO GRANT EXTENSION OF TIME—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Holland 5

Negative 0

Absent: Mr. Kerby and Fire Chief Kenlon .. 2

THE RESOLUTION:

(751-22-BZ)

WHEREAS, George H. Wolin, for Brooklyn Edison Co., Inc., owner, filed, May 27, 1922, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for storage of more than five motor vehicles; premises 323-341 Fourth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, July 27, 1922, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Fourth avenue, 3rd street and 4th street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered May 25, 1922, in acting on App. 9299-1922, reads:

"Denied—Proposition contrary to zone resolution.

Art. 2, Sec. 4.";

and

WHEREAS, the proposed building is to be of fireproof construction, six stories in height, with a frontage of 190 ft. and a depth of 297 ft. 10½ in., to be occupied as a garage for more than five motor vehicles in the two lower stories and for the storage of electrical materials and supplies above; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 84½ per cent of the property frontage deemed by the board to be affected; and

WHEREAS, this application was granted by the board at its meeting, July 27, 1922, on certain conditions, and applicant requested a modification of the time limit imposed, and a modification of the time limit was granted May 29, 1923, and applicant requests a further modification.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that any vehicular entrance shall be restricted to the Fourth avenue front of the building; that the Fourth avenue and Third street elevations of this proposed building shall be finished in face brick and stone trimmings; that the garage use of the premises shall be restricted to the conduct of the business of the owner and for vehicles in its ownership;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

AREA AMENDED.

(88-24-BZ)

The chairman presented and read a communication from William F. Doyle, requesting the board to amend the area deemed affected and within which to obtain consents for erection and maintenance of garage; premises 40-48 Hull street, Brooklyn.

The following area was approved by the board:

Both sides of Hull street from Hopkinson avenue to a point 400 ft. west of proposed garage.

Adjourned 1 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING.

TUESDAY AFTERNOON, MARCH 4, 1924.

Present: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Brady, Kleinert, Moore and McDermott.

PETITIONER—Thomas B. Leahy, for 118 Madison Avenue Corp., Inc., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—118 Madison avenue, Manhattan.

APPEARANCES—

For Petitioner: Thomas B. Leahy.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Superintendents Brady, Kleinert, Moore and McDermott .. 9
Negative 0
Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Reville 4

THE RESOLUTION:

(1552-23-S)

WHEREAS, Thomas B. Leahy, for 118 Madison Avenue Corp., Inc., owner, filed, December 28, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 118 Madison avenue, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered September 26, 1923, in acting on Alteration Application No. 2142-23, reads:

"2. Factory use is unlawful as building (erected 1919) does not comply with Labor Law.

"3. Fire escapes are unlawful on any factory building erected after October 1, 1913. Two stairways are required, section 270 Labor Law.

"4. As building exceeds 100 ft. in height a fire tower must be provided, conforming to section 266 Labor Law.

"5. Fire escapes are unlawful in any factory building over 9 stories or over 90 ft. in height—Rule 1, Board of Standards and Appeals."

and

WHEREAS, the building is fireproof, 13 stories in height, 24 ft. 8½ in. by 95 ft. in area; OCCUPIED as show rooms, 25 per cent of floor area being occupied for factory purposes; the building being equipped with a sprinkler system and a fire alarm signal system; the means of egress consisting of an interior enclosed fireproof stairway, extending from the basement to the roof at north-east corner of building; and

WHEREAS, petitioner contends that owing to the small area of the building and the amount of space taken up by the existing stairs and the passenger and freight elevator, the provisions of another interior stairway would render the building useless, and proposes in lieu of this stair to provide a 45 degree screened standard fire escape on the southerly front of the building, with counterbalanced stair to street and fireproof, self-closing doors and windows along the course of this fire escape, and contends that as building covers entire lot, a fire tower is not feasible.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 2 on condition that the following conditions as affect Items 3, 4 and 5 be complied with; as to Items No. 3 and 4, granted on condition that a standard fire escape complying with the building code shall be provided on the street front with a counterbalanced

MINUTES

stairs from the lowest balcony to the street; and *granted* as to Item No. 5 *on condition* that not more than 25 per cent of the floor area of the entire premises shall be occupied for factory occupancy and that any factory occupancy in the building shall be restricted to light manufacturing (needle work or like industry) and that the floor loads approved by the bureau of buildings shall be conspicuously posted and that the live loads shall not exceed the allowable loads thus posted.

1421-23-S.

PETITIONER—Walter R. Prosser, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—151-157 33rd street, Brooklyn.

APPEARANCES—

For Petitioner: Frederick N. Van Zandt, Norman Hubbard, Jr.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Deputy Fire Commissioner Hannon, Superintendents Brady, Kleinert, Moore and McDermott .. 10
Negative 0
Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Reville 3

THE RESOLUTION:

(1421-23-S)

WHEREAS, Walter R. Prosser, owner, filed, December 4, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 151-7 33rd street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated November 15, 1923, in acting on Order No. 51512-LD, reads:

"1. Arrange the fire escape on the west side of building and the openings leading thereto * * *.

"NOTE: Among the defects noted on this fire escape are the following: No 60 degree stairways connecting balconies. No stairway from lowest balcony to ground. No handrails. No passageway from termination of fire escape to street. Does not extend to roof. Balconies, etc., need painting.

"2. Enclose the interior stairway at south side of building serving as a required means of exit * * *."

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 60 ft. by 100 ft. in area; equipped with a fire alarm signal system. OCCUPIED: 1st story, manufacturing, 10 persons; 2nd story, manufacturing, 15 persons; 3rd story, shoe manufacture, 44 persons; 4th story, window shade mfg., 10 persons. EXITS: One wooden stairway extending from the 1st story to the top story with ladder to scuttle in roof, enclosed in fire resisting partitions, with fire doors at the openings; two fire escapes, one on the easterly and one on the westerly side of the building; the westerly fire escape has a gooseneck ladder to roof, and extends from the top story balcony to a balcony 3 ft. above the west court; windows along the course of the fire escape are fireproof; EGRESS from termination of fire escape is afforded through two gates to street. ROOFS: There are none adjoining; and

WHEREAS, petitioner contends that the stairway is enclosed in a metal lath and $\frac{3}{4}$ in. cement plaster partition, but does not extend above roof, as there is no egress from roof, and when fire escape was erected it met the requirements of the department then having jurisdiction.

Resolved, that the board of standards and appeals does

hereby *make a variation* from the requirements of the labor law and that the petition as to Item No. 1 be and it hereby is *denied*, except that as to Item No. 1 the egress from the termination of the fire escapes to the street be permitted through open side yard in the same ownership; and that the petition as to Item No. 2 be *granted on condition* that the stairs are enclosed to the under side of the roof boards in accordance with the requirements of the law, and that the occupancy shall not exceed sixty-four (64) persons above the 1st story.

81-24-S.

PETITIONER—Henry I. Oser, for Magoba Construction Co., lessee.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—146-152 West 29th street, Manhattan.

APPEARANCES—

For Petitioner: Henry I. Oser.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Fire Chief Kenlon, Superintendents Brady, Moore and McDermott 9
Negative: Superintendent Kleinert 1
Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Reville 3

THE RESOLUTION:

(81-24-S)

WHEREAS, Henry I. Oser, consulting engineer, for Magoba Construction Company, lessee, filed, January 18, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in decision of the superintendent of buildings, affecting premises 146-152 West 29th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings reads:

"Windows should comply with section 264 of the Labor Law and Rule 503 of the Industrial Code.";

and

WHEREAS, the building is fireproof, 12 stories in height, 70 ft. 6 in. by 98 ft. 9 in. in area in the 1st story and 70 ft. 6 in. by 89 ft. 3 in. in area above. OCCUPIED: 1st story, stores; 2nd to 12th stories, show rooms, 25 per cent manufacturing, 90 persons per story, the building equipped with a sprinkler system; it is proposed to provide windows with clear plate glass of the following size: 1st story, 8 ft. by 8 ft. 8 in.; 2nd, 3rd and 4th stories, 6 ft. 8 in. by 7 ft. 10 in. and 7 ft. 10 in. by 5 ft. 10 in.; 5th to 12th stories, 3 ft. 8 in. by 3 ft. 4 in.; and

WHEREAS, petitioner contends that the windows in the 1st, 2nd, 3rd and 4th stories are to be used for display of merchandise and the front portion of each story from the 5th to 12th stories will be devoted to office purposes and show rooms and that all other windows in the building will comply with the labor law.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition*, and only so far as it affects the window openings on the street front for the lower four stories, that the building shall be equipped with an approved two source sprinkler system, with sprinkler heads not more than 42 inches from the windows of the 1st four (4) lower stories of the building on the front elevation, and *on condition* that the windows throughout the building otherwise comply with the labor law.

82-24-S.

PETITIONER—Henry I. Oser, for 26th Street Realty Corporation, owner.

MINUTES

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—209-211 West 26th street, Manhattan.

APPEARANCES—

For Petitioner: Henry I. Oser.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Deputy Fire Commissioner Hannon, Superintendents Brady, Kleinert, Moore and McDermott .. 10

Negative 0

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Reville 3

THE RESOLUTION:

(82-24-S)

WHEREAS, Henry I. Oser, consulting engineer, for 26th Street Realty Corporation, owner, filed, January 18, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in decision of superintendent of buildings; affecting premises 209-211 West 26th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings reads:

"Windows should comply with section 264 of the labor law and rule 503 of the Industrial Code."; and

WHEREAS, the building is fireproof, nine (9) stories in height, 49 ft. 3 in. by 98 ft. 9 in. in area in the 1st story, and 49 ft. 3 in. by 87 ft. 11 in. in area above. OCCUPIED: 1st story, stores, 40 persons; 2nd to 9th stories, show rooms and manufacturing, 45 persons per story; it is proposed to install in the front windows the following sizes of clear plate glass: 1st story, 5 ft. 4 in. by 8 ft. 4 in.; 2nd story, 4 ft. 10 in. by 7 ft. 4 in. and 3 ft. 2 in. by 7 ft. 4 in.; 3rd to 7th stories (inc.), 4 ft. 10 in. by 7 ft. and 2 ft. 10 in. by 3 ft. 5 in.; 8th and 9th stories, 3 ft. 4 in. by 3 ft. 5 in.; and

WHEREAS, petitioner contends that all other windows in the building will comply with the requirements of the labor law; that the building is supplied with a 100 per cent sprinkler system and that the windows in the 1st and 2nd stories are used for display of merchandise and that the front portions from the 3rd to the 9th stories will be occupied for office purposes.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the show windows on the street front of the two lower stories of the building.

57-24-S.

PETITIONER—Sommerfeld & Steckler, for Dorcoe Realty Co., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—222-224 West 37th street, Manhattan.

APPEARANCES—

For Petitioner: William C. Sommerfeld.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Fire Chief Kenlon, Superintendents Brady and McDermott. 8

Negative: Superintendents Kleinert and Moore. 2

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Reville 3

THE RESOLUTION:

(57-24-S)

WHEREAS, Sommerfeld and Steckler, for Dorcoe Realty Co., owner, filed, January 15, 1924, a petition, with the board

of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 222-224 West 37th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, No. N. B. App. 232-23, reads:

"13. Windows on front may be of plate glass if 1/4 in. thick but all windows must be divided into panes not exceeding 720 square inches in area—Section 264 Labor Law."; and

and

WHEREAS, the building is fireproof, 14 stories and pent house in height, 37 ft. 6 in. by 98 ft. 9 in. in area; equipped with a fire alarm signal and sprinkler system; OCCUPIED as a tenant factory, 50 persons on each story; and

WHEREAS, the windows on the 1st story are 8 ft. 6 in. by 10 ft. in area and the windows on the 2nd and 3rd stories are 9 ft. 8 in. by 7 ft., 4 ft. 2 in. by 7 ft. and 3 ft. 11 in. by 7 ft. in area, all glazed with 1/4 in. plate glass; and

WHEREAS, petitioner contends that to comply with the labor law in re: area of glass would destroy the architectural effect of the building.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the windows on the street front of the three (3) lower stories of the building.

96-23-S.

PETITIONER—Samuel Rosenblum, for Rebecca Levy, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—31 West 125th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Fire Chief Kenlon, Superintendents Brady, Kleinert, Moore and McDermott 9

Negative: Mr. Connell 1

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Reville 3

THE RESOLUTION:

(96-23-S)

WHEREAS, Samuel Rosenblum, for Rebecca Levy, owner, filed, January 25, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 31 West 125th street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Arrange the fire escape at the rear of the building and the openings leading thereto and the windows opening on the course thereof, so that same are in compliance with the provisions of section 79B-4 and 79B-5 of the Labor Law.

"AMONG the defects noted on this fire escape are the following: Windows on course not fireproof, not self closing; no stairway from top balcony to roof; no stairway from lowest balcony to ground; no passageway from termination of fire escape to street; no handrails on balcony openings."; and

and

WHEREAS, the building is non-fireproof, five stories in height, 20 ft. by 99 ft. in area in the 1st story and 20 ft. by 55 ft. above. OCCUPIED: 1st story, furniture store; 2nd story, furniture store and credit office, 2 persons; 3rd story, electro plating, 2 persons; 4th story, vacant; 5th story, manufacturing dresses, 16 persons; the means of

MINUTES

egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in plaster board and plaster partitions with wood and glass doors at the openings, a party wall fire escape on the rear of the building, with stair and landing to roof of No. 29 and landing on extension roof with stationary stair from fire escape on rear of No. 29 to yard, egress through door in fence to adjoining yards, fireproof windows along the course of the fire escape; and

WHEREAS, petitioner requests that the means of egress be accepted as adequate; and

WHEREAS, this petition was granted by the board at the meeting held on April 17, 1923, on condition that a standard party wall fire escape shall be maintained on the rear of the building with a 45 degree connecting stairs, and a stairway from the roof of extension to a balcony at the 2nd story level, with stationary stairs from this balcony terminating in the yard, with a 45 degree stairway to the yard of adjoining premises to the west, and granted so long as the conditions as to occupancy and use remain unchanged; and

WHEREAS, at the time this modification was granted one tenant occupied the 1st and 2nd floors and there was an interior stairway in the rear connecting these stories; this stairway has been removed and in lieu of which, petitioner proposes to erect an exterior iron stair at the east wall, cutting an opening in this east wall, with an iron stair leading to the yard of adjoining building.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the interior stairs shall be enclosed in fire retarding partitions on the loft side, in accordance with the rules of the board of standards and appeals, and that any openings in the stairhall shall be provided with self-closing, fireproof doors; that the interior rear stairs between the 1st and 2nd stories shall be removed and the opening sealed over; opening to be provided in easterly wall of the 2nd story of the extension leading to a balcony and 45 degree iron stair leading to the yard of adjoining premises, with egress to adjoining yard to east *on condition* that the conditions of the original resolution shall be complied with in all other respects and that the occupancy shall not exceed thirty-five (35) persons above the 2nd story, with not more than ten (10) persons on the 2nd story.

74-21-S.

PETITIONER—Patrick J. Murray, for S. J. Wyckoff Bent, owner.

SUBJECT—Application for modification of resolution—variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—203-205 Sixth avenue, Manhattan.

APPEARANCES—

For Petitioner: Patrick J. Murray.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO MODIFY THE RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Fire Chief Kenlon, Superintendents Brady, Kleinert, Moore and McDermott 10

Negative 0

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Reville 3

THE RESOLUTION:

(74-21-S)

WHEREAS, Patrick J. Murray, for Sarah J. Wyckoff Bent, owner, filed, January 7, 1921, a petition, with the board of standards and appeals, for variation of the requirements

of section 79-B and C, labor law, as cited in the order of the fire commissioner, affecting premises 203-205 Sixth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 16649-LD, reads:

"Inspection shows the following to be necessary to make the above premises comply with the requirements of the labor law:

"1. Extend the interior stairways at the north and south sides of the building to the roof as per Section 79-B-1 and 79-C-1 of the labor law.

"Unless the violation above mentioned is removed within 60 days, we shall be obliged to begin enforcement proceedings.";

and

WHEREAS, the building is non-fireproof, four stories in height, 40 ft. by 60 ft. in area in the first story and 40 feet by 58 feet above, divided into two sections by a 12 inch brick wall with unprotected opening at centre in each story, occupied in the first story as stores and restaurant; second story, manufacturing of surgical supplies, 13 persons; third story, manufacturing of phonographs, 6 persons; fourth story, manufacturing of lamp shades and laces, 10 persons; the means of egress consisting of two interior stairways, one in north section and one in the south section, extending from the first story to the fourth story, enclosed in wood stud, lath and plaster partitions, with wood doors at the openings; the roofs of the building adjoining being level with the roof of the building in question; and

WHEREAS, the petitioner proposes to extend the south stairway to the roof and to provide a scuttle and iron ladder leading from the top landing of the north stairway to the roof; and

WHEREAS, petitioner appeared before the board at its meeting May 3, 1921, and requested that the word southerly stairway in the resolutions be changed to northerly stairway, in view of the fact that it would be an equal compliance with the resolution and would afford a better and quicker means of exit, and again appeared before the board on March 4, 1924, and requested a modification as to the occupancy.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that the northerly stairway be extended to the roof and that a scuttle with iron ladder leading thereto be provided in the roof over the top landing of the southerly stairway;

Resolved, further, that the variation be granted only so long as the occupancy does not exceed 25 persons above the 2nd story.

243-23-S.

PETITIONER—Stewart & Shearer, for United States Trust Company of New York.

SUBJECT—Application for reopening—petition for variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—137-139 Wooster street, Manhattan.

APPEARANCES—

For Petitioner: H. H. Hoffnagle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition reopened and granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Fire Chief Kenlon, Superintendents Brady, Kleinert, Moore and McDermott 10

THE VOTE TO GRANT—	
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Fire Chief Ken- lon, Superintendents Brady, Kleinert, Moore and McDermott	10
Negative	0
Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Reville	3

THE RESOLUTION:

(243-23-S)

WHEREAS, The United States Trust Company of New York filed, February 26, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 137-139 Wooster street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Provide second means of egress from cellar and 1st story remote from existing exits. Sec. 267 of the Labor Law.

"2. Provide safe and unobstructed egress from the lower termination of the fire escape at the northeast side of building by constructing a fireproof passageway with an unobstructed width of at least 3 ft. through-out, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per section 273 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, six stories and basement in height, 50 ft. by 95 ft. in area in the 1st story and 50 ft. by 90 ft. in area above; to be occupied as a tenant factory, 64 persons per story; the building being equipped with a sprinkler system and a fire alarm signal system; the means of egress consisting of an interior stairway extending from the basement to the sixth story, with scuttle and ladder to roof, enclosed in wood stud, lath and cement plaster partitions, with fire doors at the openings, a stairway extending from the cellar to the 1st story, a party wall fire escape on the rear of the building with egress from termination of fire escape through door in fence to adjoining yard and thence through hall of tenement to street, an engineer's ladder at the front of the cellar from vault to street; and

WHEREAS, petitioner proposes to install a doorway in lieu of the present window on the rear of the cellar connecting with the adjoining yard of 141 Wooster street; and

WHEREAS, this petition was granted by the board at its meeting April 17, 1923, on certain conditions, and petitioner requested a modification of the conditions as to occupancy.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item Nos. 1 and 2 on condition that a door shall be provided in the northeast corner of the cellar leading direct to adjoining yard, and that a balcony fire escape shall be provided embracing two (2) windows on the rear northerly corner of the building in the 1st story with a 45 degree stairway to the yard, and that an unobstructed egress shall be maintained to the adjoining premises to the rear and to the yard of premises to west through door in fence; and that the occupancy shall not exceed sixty-four (64) persons per story;

Resolved, further, that this occupancy shall be permitted only on condition that the stairways and fire escape, the sprinkler system and the interior fire alarm shall be maintained in accordance with the requirements of the labor law, and fire drills conducted in accordance with rules of the board.

PROPOSED AMENDMENTS.

280-22-S.

SUBJECT—Proposed amendments to Arts. 25 and 28 of the Code of Ordinances affecting motion picture theatres to be resubmitted to the Board of Aldermen.

APPEARANCES—None.

ACTION OF BOARD—Amendments adopted for resubmission to the Board of Aldermen.

THE VOTE TO RESUBMIT PROPOSED AMENDMENT TO THE BOARD OF ALDERMEN—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Connell, Fire Chief Kenlon, Superintendents Brady and Kleinert ..

Negative

Absent: Mr. Kerby, Deputy Fire Commissioner
Hannon, Superintendents Reville, Moore and
McDermott

THE RESOLUTION:

(280-22-S)

WHEREAS, the fire department, February 28, 1922, submitted proposed draft of an ordinance for changes to the code of ordinances as affecting motion picture theatres; and public hearings were held thereon by the board; and

WHEREAS, the board submitted, April 18, 1922, recommendations to the board of aldermen for amendment to the code of ordinances; and

WHEREAS, these amendments were adopted by the board of aldermen December 11, 1923, and forwarded to the Acting Mayor for consideration. The Acting Mayor withholding his approval, stated that he believed that the provisions of the present code providing sprinkler protection of the stage, section 524, subdivision 2, and the miscellaneous requirements of section 524, subdivision 4, had been omitted from the proposed amendment; and

WHEREAS, the board of standards and appeals at public hearing has redrafted the proposed amendment emphasizing and clarifying the requirements of these two subdivisions.

Resolved, that the board of standards and appeals does hereby adopt the following matter, as its recommendation for amendment to the code of ordinances, to be resubmitted to the board of aldermen for said board's consideration and action:

(280-22-S)

Proposed Amendments to Article 25, Chapter 5, Code of Ordinances, New York.

New matter in *italics*. Matter to be omitted in brackets [].

524. Fire-extinguishing appliances. [In every building described in Section 520 of this article there shall be provided:] *Except as otherwise provided in this section, in every building described in Section 520 of this article and not now equipped with a standpipe fire extinguishing equipment approved by the fire commissioner, there shall be provided:*

[1. HOSE. A proper and sufficient quantity of two and one-half inch hose not less than 100 ft. in length, fitted with regular couplings of the Fire Department, and with nozzles attached thereto, and with hose spanner at each outlet, shall always be kept attached to each hose attachment as the Fire Commissioner may direct.]

1. HOSE. *There shall always be kept attached to each hose outlet valve, as the fire commissioner may direct, a proper and sufficient quantity of two and one-half inch hose, fitted with regulation couplings of the fire department, with nozzles attached thereto, and a hose spanner at each outlet.*

2. SPRINKLER SYSTEM. A separate and distinct system of automatic sprinklers, with fusible [plugs] struts, approved by the [Superintendent of Buildings] Fire Commissioner as conforming to the provisions of the rules of the Board of Standards and Appeals governing sprinkler installations, supplied with water from a tank located on

MINUTES

the roof over the stage and not connected in any manner with standpipes, shall be placed on [each side of the proscenium opening and on] the ceiling or roof over the stage at such intervals as will protect every square foot of stage surface when sprinklers are in operation, and an additional line of sprinkler heads on the stage side of the proscenium opening. Automatic sprinklers shall also be placed, wherever practicable, in the dressing rooms, under the stage and in the carpenter shop, paint rooms, store-rooms and property rooms.

3. STANDPIPES. Standpipes, 4 inches in diameter, with hose attachments, shall be provided on every floor and gallery as follows, namely: One on each side of the auditorium in each tier, one in each mezzanine, one on each side of the stage in each tier, one in each tier of dressing rooms, and at least one in the property room and one in the carpenter's shop. [if same be contiguous to the building.] All such standpipes shall be kept clear from obstructions. Said standpipes shall be separate and distinct receiving their supply of water direct from a separate gravity tank of 3,500 gallons capacity located above the roof and from [the power] a fire pump [or pumps.] and shall be fitted with regulation couplings of the Fire Department, and shall be kept constantly filled with water by means of an automatic [power] fire pump [or pumps,] of sufficient capacity [to supply all the lines of hose when operated simultaneously] as prescribed in the Rules of the Board of Standards and Appeals. [and] Said pump [or pumps] shall be supplied from the street main and be ready for immediate use at all times [during any performance in said building], except that any theatre having not more than one balcony, with no occupancy above the auditorium, used exclusively for the exhibition of motion pictures, and having no stage, dressing rooms, nor scenery, shall not be required to have a fire pump, unless required to fill the standpipe supply tank as prescribed in Rules of the Board of Standards and Appeals. In addition to the requirements contained in this Section the standpipe shall also conform to the requirements contained in Section 581 of this Chapter.

4. MISCELLANEOUS. There shall also be kept in readiness for immediate use on the stage, at least 4 casks full of water, and 2 buckets to each cask. Such casks and buckets shall be painted red. There shall also be provided hand pumps or other portable fire extinguishing apparatus and at least 4 axes and 2 25-foot hooks, 2 15-foot hooks, and 2 10-foot hooks on each tier or floor of the stage.

EXEMPTIONS. Buildings, used exclusively for the exhibition of Moving Pictures, not more than one story in height and not exceeding 15,000 square feet in area, having access to two streets, with no other business on premises, excepting stores occupying not more than 10 per cent of the area, and having no stage, dressing-rooms, nor scenery, shall not be required to provide a gravity tank supply for the standpipe fire lines, nor a sprinkler system, when there is a four inch direct connected standpipe equipment to a city water main fed two ways, or one connection on each of two street fronts, each main so fed that the shutting off of the supply of one main will not interfere with the supply of the other main, and having sufficient pressure to maintain a minimum of thirty (30) pounds per square inch static pressure at the highest outlet, provided evidence is submitted establishing the fact that the water main pressure is as required. The standpipe equipment shall be provided with regulation Fire Department 3 inch siamese connection.

Buildings as described in this exemption will be required to have standpipes so placed that not more than 100 feet of hose shall be required to reach all parts of the auditorium.

A stadium construction may be deemed a one story building, on condition the seats are so arranged that they shall not at the floor level of the highest row be more than 15 feet above the lowest floor level of the auditorium, provided, however, the gradient of the auditorium floor does not exceed one foot in 12 feet.

526. LIGHTS. 1. Adequacy. Every portion of the building devoted to the uses or accommodations of the public, also all [outlets] means of egress leading to the streets and including the open courts [or] and corridors, shall be well and properly lighted during every performance, and the same shall remain lighted until the entire audience has left the premises. When interior gas lights are not lighted by electricity, other suitable appliances, [to be] approved by the Superintendent of Buildings, shall be provided.

527. MEANS OF EGRESS. 1. Exits to streets. Every theatre accommodating 300 persons shall have at least two exits; when accommodating 500 persons, at least three [3 such] exits shall be provided; these exits not referring to nor including the exits to the open court at the side of the theatre. Every such building shall have one or more fronts on the streets, and in such fronts there shall be suitable means of entrance and exit for the audience, aggregating not less than 25 ft. in width. The entrance of the main front of the building shall be not [on a higher level from] more than one foot above the sidewalk level [than four steps] unless approved by the Superintendent of Buildings. Each exit shall be at least five feet in width in the clear and provided with doors of iron or wood; if of wood, the doors shall be constructed as hereinbefore prescribed in this Chapter. All of said doors shall open outwardly, and shall be fastened with [movable] panic bolts or other approved devices which will open when one or more persons press against inner side of said door.

530. (b) Satisfactory proof must be submitted and filed with application that curtain is capable of withstanding a temperature of not less than 1700 degrees F. for a period of 45 minutes.

Proposed Amendment to Article 28, Section 581, Code of Ordinances, New York.

581. STANDPIPES. 1. [When required] Standpipes, constructed and installed as hereinafter required and as prescribed in Rules of the Board of Standards and Appeals shall be provided:

a. UNCHANGED.

b. UNCHANGED.

c. In every building exceeding ten thousand square feet in area, except in buildings specifically exempted in Article 25 of this Chapter and buildings of not more than one clere-story in height not exceeding fifteen thousand square feet in area and occupied solely as places of religious worship; and except in fireproof buildings not over four stories or 45 feet in height when such buildings are equipped with an approved two source supply automatic sprinkler system, and are not of an occupancy deemed unusually hazardous by the Fire Commissioner.

d. In amusement or exhibition parks or enclosures when deemed necessary by the Fire Commissioner.

e. In oil storage plants, ship-yards, and other industrial plants of an area in excess of ten thousand square feet.

2. UNCHANGED.

3. Number and Location. The number of standpipes in any building shall be such that all parts of each story are within the reach of at least one stream supplied by hose not exceeding one hundred feet in length.

When a building requiring standpipes faces on more than one street, at least one standpipe shall be installed for each street front, provided that for intersecting street fronts, one standpipe shall be sufficient for each intersection, when all portions of each area may be reached by a stream from 100 feet of hose. So far as practicable, standpipes shall be placed within stair enclosures, otherwise they shall be as near the stair as possible. All standpipes shall extend from the lower story to and above the roof.

In buildings not exceeding 40 feet in height and not over 20,000 sq. ft. in area gravity tank may be omitted provided the standpipe riser is supplied by not less than 4 inch connection to street main having not less than 45 lb. pressure.

MINUTES

4. CONSTRUCTION. All standpipes hereinafter installed shall be constructed as prescribed by the Rules of the [Fire Commissioner] Board of Standards and Appeals and shall be provided with such outlets and equipped with such appliances as required by said rules. All standpipes shall extend to the street and shall be provided [at or near the sidewalk] with approved siamese connections. In buildings not exceeding 45 feet in height, siamese connections will

not be required. When there is more than one standpipe in any building, [all] they shall be cross-connected in an approved manner below the side-walk level, or, if there is no cellar, they shall be cross-connected below the ceiling of the basement or lowest story.

Adjourned 5.15 p. m.

WILLIAM J. O'GORMAN, Secretary.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the meeting of the board of appeals held on Tuesday morning, December 12, 1922, as they appeared in Bulletin No. 51, Vol. VII, are hereby corrected to read as follows:

THE RESOLUTION:

(1148-22-BZ)

WHEREAS, Lewis Spencer Morris, owner, filed, September 26, 1922, an application, under the building zone resolution, to permit the extension from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles, premises west side Walton avenue and east side Gerard avenue, 80 ft. south of 149th street, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 12, 1922, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Walton avenue and 149th street are business districts and Gerard avenue is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings,

**Correction—Words "within 100 ft. of East 149th street on either the Walton avenue or the Gerard avenue fronts of the building" inserted in line 37 of resolution.*

rendered September 19, 1922, in acting on N. B. No. 2812-21, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles extending into business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fire-proof construction, 1 story in height with a frontage of 180 ft. and a depth of 120 ft., to be occupied as a garage for more than 5 motor vehicles; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 87 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the Building Zone Resolution, and that the application be and it hereby is granted on condition that the northerly and southerly gable walls be unpierced throughout their entire length and height, and that there be no vehicular entrance or exit within the business district within 100 ft. of East 149th street on either the Walton avenue or the Gerard avenue fronts of this building, and that the front elevations be faced with front brick and stone or terra-cotta trimmings.

Resolved, further, that all permits necessary for the prosecution of the work be obtained within nine months and the building completed within eighteen months from the date of this action.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the meeting of the board of appeals held Tuesday morning, February 19, 1923, as they appeared in Bulletin No. 9, Vol. 9, are hereby corrected to read as follows:

(1324-23-A)

WHEREAS, Benjamin G. Hitchings, for Benjamin G. Hitchings, Inc., owner, filed, November 16, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises Avenue H, 32nd to 38th streets, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated October 27, 1923, read:

"Order No. 50635-F:

"YOU ARE HEREBY ORDERED AND REQUIRED, within five days from date of service of this order, to:

"1. Provide a cover of heavy wire netting for top

of iron cupola chimney, section 780, Greater New York Charter."

"Order No. 50637-F:

"YOU ARE HEREBY ORDERED AND REQUIRED, within twenty days from date of the service of this order, to:

"1. Install a fire hydrant in the center of each block of premises from East 32nd Street to East 38th Street, (6 blocks, 6 hydrants). Each hydrant to be provided with 100 ft. of approved hose and nozzle. Said hose to be located in a suitable hose house or other enclosure at hydrants, and each hydrant to be connected to the street main on Avenue "H". Sec. 776 Greater New York Charter."

"Order No. 50639-F:

"YOU ARE HEREBY ORDERED AND REQUIRED, within twenty days from date of the service of this order, to:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, in lumber shed, with necessary check valves and 2½ inch regulation Fire Department outlets.

**Correction—"Nos. 50635-F, 50637-F and 50639-F" added after word commissioner in line 56, and words "as to Order No. 50635-F" deleted in lines 59 and 60.*

MINUTES

Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.”;
and

WHEREAS, the premises consist of a plot of ground along Avenue H, extending from East 32nd street to East 38th street, on which are located the lumber yard, sheds and planing mill of B. G. Hitchings; and

WHEREAS, appellant contends as to Order No. 50635-F, that the arrangement of baffle walls in the furnace is such as to render it impossible for sparks to discharge from the chimney and that the placing of a netting over the top would impair the draught; that the chimney is 125 ft. high, 8 ft. in diameter at base and 4 ft. in diameter at top; as to Order No. 50637-F, that there are 50 fifty-gallon tanks, with 3 buckets to each tank in the yard and 2 reels of 250 ft. 2½ in. hose and that there are 16 fire hydrants abut-

ting premises on Avenue H; that as to Order No. 50639-F, the shed referred to is a one-story shed, no heating facilities, a standpipe system would be impractical and that the shed is provided with six fifty gallon tanks, three buckets to each tank.

Resolved, that the orders of the fire commissioner, Nos. 50635-F, 50637-F and 50639-F, be and they hereby are *modified*, and the appeal, in view of the existing sixteen (16) fire hydrants on the public highway abutting this property, be and it hereby is *granted on condition* that an open runway be maintained not less than 15 ft. in width extending the entire length of the premises, with open and unobstructed gangways not less than 20 ft. in width at the continuation of intersecting streets from the south side of Avenue H to the railroad cut; *granted on further condition* that the lumber piles do not exceed an average of 15 ft. in height throughout the premises.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. “Automatic Collapsible”** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. “Rigid Brace”** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in

exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS.

*Amended Resolution Adopted by the Board of Appeals,
March 16, 1920, Under Cal. No. 549-17-BZ.*

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

RULES

FIRE ESCAPE RULES.

Rule 1. In any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, more than five stories in height and not exceeding nine stories in height, nor in any case more than 90 ft. from curb level to top floor level, one of the required means of exit or escape under Section 271-1 of the Labor Law may consist of an outside fire escape, provided that:

(a) Any such fire escape hereafter erected shall comply with all the provisions of Section 273, labor law, and in addition thereto:

(1) The balconies and stairs shall be protected on the outside by substantial railings to a height of at least 4 ft 6 in., measured from floor of balcony or center of stair tread, constructed of bars at least one-half ($\frac{1}{2}$) inch in diameter, spaced not more than six (6) inches on centers, or of substantial grill work, or of screening not less than No. 10 U. S. gauge wire with not more than one and one-half ($1\frac{1}{2}$) inch mesh, all rigidly braced;

(2) When there is safe egress from the roof of the building to any adjoining structure, the fire escape stairway shall continue to the roof, and if there be no safe means of egress, a gooseneck ladder shall be provided from the top story balcony to the roof;

(b) Any such fire escape erected prior to October 1, 1913, shall conform in every respect with the requirements of paragraph (a) of this rule, except that balconies may be not less than 3 feet in width; the connecting stairs not less than 20 inches in width, and placed at an angle not exceeding 60 degrees if the building is not over six stories in height, otherwise at an angle of 45 degrees; fire windows leading to balconies may be at window sill level if fixed steps not less than sixteen (16) inches wide are provided on the inside from floor level, leading thereto.

(c) Any such fire escape erected subsequent to October 1, 1913, and prior to these rules taking effect, unless previously accepted as one of the required means of exit or escape by the administrative official having jurisdiction, shall conform in every respect to paragraph (a) of this rule.

Rule 2. A fire escape shall not hereafter be accepted as constituting one of the required means of exit or escape under Section 271-1 of the labor law, in any building erected prior to October 1, 1913, now occupied or to be occupied as a factory, exceeding nine stories in height, or more than 90 feet from curb level to top floor level.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1- $1\frac{1}{2}$ -3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2 $\frac{1}{2}$ -5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES ADOPTED

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.
